

The Yun Family's Ninth Child is an Imp! Chapter 1938

Mo Cheng's face was filled with astonishment. "Third brother, what did you say? What nonsense, what did I cheat you of?"

"You still don't admit it?" ! Your brother-in-law said that the plain brocade supplied by the merchant was of good quality and cheap price. My brother and I felt that this plain brocade was a popular fabric in the eastern continent, and we could definitely make a huge profit from selling it. Thus, we bought 500 million high-grade spirit stones plain brocade in one go ...

Who would have thought that when we returned to take a look, only the top few of those plain brocade were good. The plain brocade below were mottled all over. It was obvious that they were not dyed evenly and were defective goods! The biggest selling point of plain brocade was that the color was pure and there was no color difference even when it was dyed. Who Do you want me to sell these goods to?" Mo Chang was certain that this was a trap set up by Mo Cheng and could not contain his anger.

Mo Cheng was stunned at first, then he sneered and said, "Third brother, not to mention that I would never do such a thing. Even if I really set a trap, are you an idiot? Don't you know how to inspect the goods?"

Mo Peng and Mo Chang's faces flushed red. They naturally knew how to inspect the goods. However, on the day of the delivery of the goods, Mo Cheng's brother-in-law and the merchant arranged for the location to be at a brothel, mo Peng and Mo Chang were dazzled by the enchanting woman inside. They quickly glanced at the few pieces of cloth on top and stored them in their storage rings.

Mo Xiaoting saw his three sons blaming each other and blamed each other, his anger grew, "Shut up! I will naturally send someone to investigate the truth. If the Luo family is involved, I will not let them off so easily. Now, tell me, what should we do with this batch of goods?"

Mo Peng probed, "Father, why don't we lower the price of this batch of cloth?"

"Lower the price? How much? The original price is 100,000 spiritual stones per piece, but right now, no one wants 5,000 spiritual stones! Those who have money will feel that it's too low, but those who don't will buy cheaper cloth, okay?!"

"Then, then we will lower the price even more. Someone will definitely buy it for 3,000 spiritual stones."

"Bullshit! Is this what you call an idea? Idiot!" Mo Xiaoting wished he could slap him to death. What a pig's brain!

After being scolded, Mo Peng did not dare to speak. Mo Xiaoting then turned to Mo Chang, "Third brother, tell me, what idea do you have?"

Mo Chang rolled his eyes, "Father, let's give him a taste of his own medicine. I'll find a buyer somewhere else to sell this to him. When the time comes, we'll just deny it."

Mo Xiaoting was so angry that he almost fainted, "You! You! You're driving me crazy! Let's not talk about whether or not idiots like you would fall for it. Even if they did fall for it, wouldn't our Mo family's reputation be ruined? ! The most important thing in business is reputation. If we don't have a reputation, it's only a matter of time before it's over!"

Mo Cheng watched from the side as Mo Peng and Mo Chang were scolded. His eyes flashed with pride. These two idiots still want to compete with me for the position of family head? In your dreams!

"Second brother, what do you have in mind?"

"Father, I just found out about this matter and was really caught off guard. However, I had an idea just now and I'm not sure if it's feasible."

"Speak."

"Father, I've heard from Qiaoyun that the Luo clan has recently hooked up with people from the extreme desert city. Although the extreme desert city is lacking in resources, it produces fire gravel and is a good material for refining artifacts."

"As we need to pass through the extreme desert to reach the extreme desert city, very few people go there to do business. If we ask the Luo clan to sell these plain brocade at a lower price in the extreme desert city, and then exchange them for a considerable amount of fire gravel..." "Once we come back

and sell them, we'll definitely make a profit without losing anything." Mo Cheng said with a beaming expression.
