

The Yun Family's Ninth Child is an Imp! Chapter 1952

Shopkeeper Guo didn't say anything for a long time, but the girl in light yellow clothes became a little anxious. "Shopkeeper, tell me if you can do this or Not!"

She didn't know that shopkeeper Guo's heart was turning upside down. Oh God, someone actually came to buy this defective product? Ten, ten sets?

Shopkeeper Guo thought of the letter Yun Chujiu wrote to him and suppressed the excitement in his heart, with a cold face, he said, "The owner has told us that there is a limited number of these heaven, earth, mountains, rivers, and moon dresses. In order to let more people buy them, everyone is limited to ten sets. If there are any more, we can't sell them. I'm sorry."

The onlookers were stunned!

Holy Sh * t!

Not only were people buying this SH * t heaven, earth, mountains, rivers, and moon dresses, but they were also F * cking limited?

Was this shopkeeper Guo crazy or were those two girls crazy? !

Just as everyone was thinking about it, the girl in the light yellow dress was unhappy!

“Shopkeeper, how can you be like this! Open the door and do business. I can buy as much as I want. Why is there a limited edition dress?”

Shopkeeper Guo thought to himself, f * cking he didn't want to do this! But, this was exactly what the little ancestor had told him. If he didn't do as he was told, he might have to move his head!

Mo Xiaoting, who was sitting in the teahouse, furrowed his brows. It wasn't easy for someone to come and buy, so why wasn't he selling? ! This shopkeeper Guo was usually quite smart, but what did he do today ? ! How could he push his business forward? !

However, where did those two ladies buy the Heaven, earth, mountains, and rivers, and Moon dresses from? Could it be that someone else also used this plain brocade dyed with flowers to make clothes?

Everyone's gaze focused on shopkeeper Guo, shopkeeper Guo spread his hands helplessly. “Miss, I'm really sorry. This is what the owner told me. Each person can only buy ten sets of this heaven, earth, mountains, and rivers, and moon dresses at most. If you are not satisfied, you can look at the other dresses in the shop. Those are not limited to purchase.”

The girl in the light yellow dress curled her lips. “I want to buy this heaven, earth, mountains, rivers, and moonlight dress. I don't like other clothes! We came all the way here. Can't you make an exception?”

“That’s right, shopkeeper. We also came all the way here because we heard that you have a heaven, earth, mountains, rivers, and moonlight dress here. You can make an exception!”The girl in the water blue dress echoed.

Shopkeeper Guo felt as if he was talking to a dog in his heart!

Oh God, after doing business for so many years, he had never encountered such a situation!

The customer wanted to buy it, but the shopkeeper refused to sell it. was he crazy? !

However, Yun Chujiu had told him in advance.., he could only grit his teeth and said, “Ladies, I’m really sorry. Our shop has rules. The Heaven, earth, mountains, rivers, and moonlight skirt is limited to ten sets per person. If the two of you have any objections, you can go to another shop to have a look.”

“You! You’re so unreasonable! Lan Xiang, let’s go. We’re not buying from him anymore!”The girl in the light yellow dress said angrily.

The girl in the water blue dress was a little hesitant. “Su Xing, we came all the way here for this heaven, earth, mountains, rivers, and moonlight dress. Wouldn’t it be a joke if we returned empty-handed? “Moreover, this 200,000 yuan is too cheap. Let’s buy it!”

“But, this shopkeeper is too much! I don’t want to buy it anymore!”

..

The two young girls began to argue in a low voice, but the spectators managed to catch some crucial information.

They came for the Heaven, earth, mountains, rivers, and moonlight skirt? What was so special about this lousy skirt? Wasn’t it made from plain brocade with dyed flowers? Could it be that there was another difference?

Also, 200,000 is too cheap? From the sound of it, it must be much more expensive elsewhere. How is that possible?
