

The Yun Family's Ninth Child is an Imp! Chapter 216

Yun Chujiu quickly realized that she had made a huge mistake!

After entering, she realized that there was an illusion array set up, and there was another world inside.

Other than Elder Qi's own courtyard, there was a large spiritual herb garden behind. The outer area was planted with some low-grade profound rank herbs, and the small courtyard in the middle was the spiritual herb garden! The herbs planted inside were all above middle-grade black category herbs, and there was no lack of earth grade herbs among them.

Manager Gao sent him off and turned to leave.

Elder Qi threw a jade slip to Yun Chujiu. "Memorize the contents first, then I'll come find you."

After saying that, Elder Qi went into the house. He thought to himself, this jade slip recorded a hundred volumes of medicinal herbs. The black girl would need at least a few days to memorize them, which would just dampen her spirit.

An hour later, Yun Chujiu stood outside the house and shouted, "Elder Qi! Elder Qi! I've memorized them!"

Elder Qi walked out with a frown. "Nonsense! It's only been an hour, what can you remember?"

Yun Chujiu blinked her eyes. "But, I've really memorized them all!"

"Good! Good! Then I'll test you. If you lied to me, you're not allowed to come again in the future!" Elder Qi felt that Yun Chujiu must be lying, and he was very displeased.

Yun Chujiu straightened her small body and looked very confident.

Elder Qi became even angrier when he saw her. He asked, "What is the companion beast of the *Daphne sericea*?"

"The gold-hooped short-tailed snake."

"How many petals does the red peony have?"

"16 petals below 100 years old, and two more petals every 100 years."

"What is the companion beast of the *Corydalis yanhusuo*?"

"To be precise, it should be called a companion insect. It's a scarlet bee flying ant."

...

Elder Qi asked more than 20 questions in one breath, and Yun Chujiu answered them all very accurately.

"Have you read this hundred volumes of medicinal herbs before?" Elder Qi asked suspiciously.

"Elder Qi, to be honest, although my aptitude is a little useless, I can remember everything I see and hear!" Yun Chujiu said with a smile. She had her own thoughts, 'If I didn't show any unusual abilities, Elder Qi might not be able to keep me. I'd better show a snippet!'

Sure enough, Elder Qi sized up Yun Chujiu in surprise and said with a sigh, "It seems that the saying is good. The heavens won't starve a blind sparrow to death. Your ability is really strange!"

The corner of Yun Chujiu's eyes twitched. Why did she feel that this metaphor made things awkward?!

"Alright, since you've remembered it, I'll take you to the spirit herb garden! I'll explain some things to you on the spot!" Elder Qi loved talent, and he felt that Yun Chujiu's ability was indeed rare. Although she did not have spiritual power, she could still be a little medicine girl if she had the ability.

Just as they entered the outer perimeter of the spirit herb garden, the strange grass in Yun Chujiu's Dantian was clamoring to pounce on those medicinal herbs. Yun Chujiu was so angry that she used her spiritual sense to curse, "You better f*cking stop! There'll be plenty of opportunities in the future!"

Only then did the strange grass in her Dantian stop a little, but it faintly revealed a displeased expression. "Strange grass!"

Yun Chujiu was puzzled. Although that strange grass could not speak, she could faintly sense some of its emotions.

"The level of the medicinal herbs in the outer area isn't too high. You only need to take care of them according to the hundred volumes of medicinal herbs. "I have carefully gathered all the medicinal herbs in the spirit herb garden. You must take care of them according to the method I taught you. You must not act on your own initiative. If anything goes wrong, I won't forgive you!" Elder Qi said very seriously.

At this moment, Yun Chujiu was about to go crazy from the strange grass' torture in her Dantian. The emotions that she had just suppressed began to churn again. She wanted nothing more than to pounce on those high-level herbs and take a few bites!
