

## The Yun Family's Ninth Child is an Imp! Chapter 2177

"Bingyu, you're too smart!" "What you said makes sense. Their spiritual power is so low, so they must be from a third-class family. In two months, whether they want to renew their pass or return to the western continent, they will definitely go to the border between the eastern and western continents. At that time, we'll just wait for them!" Liu Jinluan said with a fawning expression.

Liu Pinyan also echoed a few words from the side. Although the Liu family was also a first-class family, it was still inferior to the Ye family. Therefore, the Liu siblings still lacked some confidence in front of Ye Bingyu.

Hearing the flattery of the Liu siblings, Ye Bingyu's expression became a little better. To apply for the pass, she had to go there personally. At that time, she would definitely be able to tear that slut into pieces.

On the other side, Yun Chujiu, who was hated by them, was stroking her chin on the flying spirit tool, trying to think of a countermeasure.

Of course, Yun Chujiu could think of everything that ye Bingyu could think of. This fellow felt that the one million upper-grade spirit stones were really worth it. Otherwise, two months later, those people might have set up an ambush at the border between the eastern and western continents.

Yun chujiu called manager Liu and the other six people in front of her, she sized them up and said, "In order to prevent you from being recognized, from today onwards, those who don't have beards will start to grow beards. Those who have beards, shave them off! Manager Liu, you should lose weight!"

Manager Liu wanted to cry, but he had no tears. However, compared to his life, losing weight and shaving his beards was nothing. After all, he often had to go out to discuss business, so the risk of being exposed was greater.

“Miss Fangcao, then, what about you?” Manager Liu asked with courage.

“Me? I’m not afraid of being exposed. Moreover, I will take the initiative to find that little B \* Tch to communicate with her, but not now.” Yun chujiu curled her lips and said, the Ye family would go sooner or later. Moreover, even if they did not offend ye Bingyu, the Ye family had already sent people to kill her.

Manager Liu did not dare to ask any more questions. He felt that everyone had been deceived by Miss Fang Cao. She must have hidden many things from the Mo family. For example, the secret guard that suddenly appeared could not see through his cultivation, at the very least, he must have possessed spiritual energy of the spiritual void realm.

This secret guard could not have been left behind by Mo Xiaoting, because Mo Xiaoting could not possibly have such an expert by his side. So, here came the problem! How could a little girl from a low-level continent have a bodyguard with high spiritual power? She definitely had someone backing her up.

“When we get back, don’t say that we went to the psychedelic forest for a training session. Just say that I took you on a trip!” Manager Liu, you have traveled a lot. Go and make up a story. We will discuss it together,” Yun Chujiu instructed.

Manager Liu agreed without hesitation. Very quickly, he made up a story and everyone unified their stories.

Everyone was afraid that Ye Bingyu and the others would catch up, so they drove their flying spirit tools to the fastest speed. They had originally traveled for four days, but in three days, they had arrived at Hidden Tiger City.

The next day, Yun Chujiu briefly told the great elder about the situation on the road.

When the great elder heard that Yun Chujiu had actually obtained a temporary pass for four months, he was also quite shocked. He thought to himself, this little girl is practically turning into a spirit!

In the next few days, besides learning alchemy from the great elder, Yun Chujiu was also thinking about the matters of the Ye family.

Originally, she had planned to slowly take control of the Mo family and then use this as capital to enter the ye family and find out the truth behind her mother's expulsion.

However, her plan did not change quickly. Now, not only did the ye family send people to kill her, but they had also offended ye Bingyu. According to Ye Bingyu's personality, she would definitely not let this matter rest. What should she do?
