

The Yun Family's Ninth Child is an Imp! Chapter 2181

Naturally, Xue Wuji had no objections. The two of them agreed to meet at Tian Luo City.

Yun chujiu was so happy that she did not sleep the entire night. This fellow had always been heartless. From this, it could be seen how important Xue Wuji and Jin Zhi were to her.

Eight days later, the great elder called Yun Chujiu into the study and handed her a jade slip. Yun chujiu opened it and saw that some of her basic information was marked on it, at the top of the slip were a few big words, "Residence permit for the eastern continent of the immortal Yuan continent."

It was originally very complicated to apply for a residence permit. It would take at least a month, but since the Great Elder was willing to spend money, the speed was much faster.

Yun chujiu naturally thanked him profusely. She swore an oath and patted her chest to guarantee that she would definitely pass the examination.

The great elder also had high hopes for her. After all, his life depended on Yun Chujiu.

After Yun Chujiu left, the great elder called Mo Fangbing to the study room.

“Fangbing, you have always been a sensible child, and you have a clear mind. This time, you and Mo Fangbing will go to the exam together. If you can’t get in, then don’t say anything. If you get in, you have to pay extra attention to Mo Fangbing’s every move in the future. If there’s anything unusual, report to me immediately,” the great elder said in a deep voice.

Mo Fangbing was not surprised by this. She took the voice transmission talisman that the great elder passed to her and nodded obediently in agreement.

..

Three days later, Yun Chujiu and Mo Fangbing quietly left Fu Hu city with six guards.

When the people of the Mo family received the news, Yun Chujiu and Mo Fangbing had already left a long time ago.

Everyone felt that the great elder was most likely muddle-headed due to his old age. He had actually taken Mo Fangbing into his own family and even placed her under the name of the Great House. Didn’t that smelly girl only know a little bit of alchemy? What was so great about it!

Moreover, the WA Stone Academy and Xingtian Academy were the top academies in the eastern continent. It wasn’t like the Mo family hadn’t taken the test before. When had they ever succeeded?

Only youths with exceptionally good looks could be admitted into such a top academy. If that trash mo fangbing were to go, she would simply be bringing shame upon herself!

Although Mo Fangbing was much stronger than Mo fangbing, she could still be compared to an average person. However, compared to those heaven's favorites, the gap was still very big. She would definitely return in defeat. Why would she bring herself to suffer?

Mo Fangjiao was so angry that she stomped her feet. Damn Mo Fangbing! To think that she still treated her as a good sister. She actually didn't tell her about such a big matter. When she returned from her defeat, she would definitely settle the score with her.

Yun chujiu and Mo fangbing naturally did not know the reaction of the Mo family members. At this moment, the two of them were already flying high up in the sky, like a bird flying in the sky!

Yun Chujiu leaned on the recliner and leisurely said to Mo fangbing, "Sister Fangbing, did the great elder ask you to spy on me?"

Mo Fangbing was originally reading a book, but when she heard Yun Chujiu's words, the book fell to the ground with a bang. She thought to herself, this fellow is simply not human. There is nothing that can be hidden from her.

"Sister fangbing, judging from your reaction, I guess I guessed correctly. "You don't have to be nervous. I'm just asking. However, there's a good saying that you don't accept the orders of the Emperor when you're outside. Therefore, you should choose what you should say and what you shouldn't say.

“After all, I’m also a member of the Mo family. If the Mo family falls, I’ll also be implicated, therefore, I will not do anything bad to the Mo family.” Yun Chujiu said with a smile. She believed that Mo Fangbing was a smart person and naturally understood what she meant.

Mo Fangbing picked up the book with a slightly unnatural expression. “As long as you don’t do anything harmful to the Mo family, I naturally don’t have so much time to waste on useless things.”
