

The Yun Family's Ninth Child is an Imp! Chapter 220

Peak Master You quickly brought a few elders to the spirit herb garden.

“The footprints on the ground are very shallow. It can be seen that the person’s spiritual power is at least at the fifth level of the Spirit Emperor Realm. These medicinal materials and branches on the ground were the work of that red-clothed man? Yun Chujiu, tell me what you saw!” Peak Master You looked at Yun Chujiu.

Yun Chujiu nodded, she told him the story that she had already made up. “Elder Qi asked me to keep an eye on the fruit of the Golden thread grass. Once it turns from red to purple, I’ll put it into the jade box. I naturally have to do my duty. Thus, I didn’t dare to relax for even a moment. I didn’t expect that the fruit would actually mysteriously disappear in front of me.

“I was anxious at that time. I cursed loudly at the wicked person who stole our Spirit Radiance Sect’s spirit herbs! Then, a red-clothed pervert and a black-clothed man appeared.

“That red-clothed pervert was playing with a skull in his hands. He even wanted to kill me and play with my skull. I was almost scared to death. Fortunately, I was quick-witted, so I ran away without saying anything. That red-clothed pervert sent out a bunch of wind blades to slash me. I don’t know if he was afraid of hurting my skull, but he actually didn’t aim it at me. Instead, he slashed the medicinal herbs.”

Everyone was extremely shocked. A person who played with a skull really was a pervert!!

Peak Master You furrowed his brows tightly. “I’ve never heard of such a person. Could it be a newly rising power? Yun Chujiu, follow me to see Master Xuanyuan and report this matter to him!”

Yun Chujiu eagerly followed Peak Master You to Master Xuanyuan’s and told him everything. Then, she took the initiative and said, “Master Xuanyuan, I remember the faces of those two people. I’ll draw them. This way, I can inform the other sects to guard against this red-clothed pervert!”

Although Master Xuanyuan did not really believe that Yun Chujiu could draw anything decent, seeing her positive attitude, he did not want to discourage her, so he said, "Then you can go back and slowly draw them. When you're done, just hand them over to me."

"No need, no need. I'll just draw here. Just help me prepare a piece of charred charcoal and a few pieces of paper!" Yun Chujiu wanted to show off a little, wanting to do so in the presence of Master Xuanyuan.

Very soon, a few pieces of charred charcoal and paper were given to Yun Chujiu. An hour later, Yun Chujiu handed the two finished drawings to Master Xuanyuan.

Yun Chujiu naturally did not draw as meticulously as she did Di Beiming this time. She only roughly sketched out the appearance of the two men in red. Even so, it still shocked Master Xuanyuan and Peak Master You.

This kind of ability was comparable to a shadow stone. With these two paintings, at least the various sects would be on guard against them.

Master Xuanyuan also gave orders to strengthen the inspection of the various peaks. Although the other party's spirit energy was superb, if there were any problems, they would at least be able to provide timely assistance.

After arranging everything, Master Xuanyuan saw that Yun Chujiu had not left yet, so he said, "You should go back. That red-clothed man probably wouldn't come to Spirit Radiance Sect again for now. You can rest assured."

Yun Chujiu pursed her lips. "That's hard to say!" Master Xuanyuan, I suffered such a great fright in order to protect the sect's property. If I hadn't run away quickly, I would've lost my life! Aren't you going to give me a hundred and eighty spirit tools to protect myself? If I die, you won't be able to answer to my master in the future, right?!"

The corner of Master Xuanyuan's eyes twitched slightly. "Spirit tools require spiritual power to be activated. You don't have any spiritual power, so how are you going to use it?"

"Just because I don't have any spiritual power now doesn't mean I won't have it in the future! Besides, don't tell me there are no spirit tools that don't require spiritual power to be activated? For example, a spirit tool that automatically activates when it encounters a spiritual power attack?" Yun Chujiu cursed inwardly, 'What an old fox. However, I, Little Ancestor Yun, am not easily fooled.'
