

## The Yun Family's Ninth Child is an Imp! Chapter 2201

The instructors craned their necks to watch. They saw the blue dot of light from group 10 moving slowly in front, while the red dot of light from behind followed closely behind. However, they maintained a short distance, and judging from the topographic map.., it looked like they were at most ten miles away.

“The Blue Dot should be group 10, and the Red Dot behind is group 250. Why would they choose the same route?” One of the instructors asked, puzzled.

Another teacher slapped his thigh. “Oh God, I know! Group 250’s wishful thinking was like a clap of thunder! They followed behind group 10, so they naturally didn’t need to waste their energy to deal with the demon beasts. They just needed to conserve their energy.

At the last moment, they would think of a way to go around to the front of group 10. Group 10 had been busy for a long time, but they were doing this for group 250! “Oh my God, team 250 is too despicable!”

When the teachers heard this, they felt like they had just woken up from a dream. Their thoughts were exactly the same as that teacher’s. This method was too despicable! If team 10 knew the truth, they would be so angry that they would vomit blood!

“Do you guys think that team 250 violated the rules this time?” One of the teachers asked the crowd with uncertainty.

“Violated the rules? Which Rule of ours stipulates that two groups must choose two different routes?”

“This group 250 has been able to find loopholes in our rules time and time again. They clearly know that they are opportunistic, but they have no way to punish them. They are simply too cunning!”

“Yeah, I have conducted so many entrance tests, but this is the first time I have encountered such an unconventional examinee!”

“I thought that group 250 was so weak that it was impossible for them to pass. Now, I’m not so sure. Maybe Group 250 will really create a miracle.”

..

These teachers were bored. Teacher Wen invited teacher Pang over and asked him to enlarge the topographic map of Yun Chujiu’s group, they all wanted to see if group 250 would be able to succeed at the last moment.

Teacher Pang had been busy with other things. When he came over and saw the situation on the topographic map, he was also dumbfounded. He reckoned that this method was thought up by that Mo Fangcao again. He didn’t know whether he should praise her for being smart.., or was it that she was taking advantage of the situation.

After teacher Pang formed a seal with both hands, the topographic map of Yun Chujiu’s group was enlarged, revealing the situation inside.

At this time, it was already the third day of the third round of the test.

The tenth group had just killed a level 35 demonic beast. Everyone was panting heavily as they sat on the ground.

One of them said, "The test this time is quite difficult. These two days have really exhausted me. Fortunately, we will reach the finish line in half a day."

Another person echoed, "Yeah, the level of the demonic beasts here aren't low. If it weren't for the four of us working together, I reckon our progress wouldn't be so fast."

Liang Hong said proudly, "That's right. Even if our group's strength isn't ranked first, it can still be ranked in the top five. That trash group still thinks they can compete with us. They really overestimate themselves! I reckon that they haven't even completed one-third of the journey. Their bodies must be riddled with injuries."

The other three heard Liang Hong's words and laughed loudly, "Leader, you're right. If that trash group wants to beat us, the sun must have risen from the north!"

Teacher Wen, who was watching from outside, said faintly, "The sun might really rise from the north. This tenth group, TSK TSK, there will be a good show to watch in a while."
