

## The Yun Family's Ninth Child is an Imp! Chapter 2203

Hearing Yun Chujiu's muttering, the little black bird inside the spiritual beast pouch pouted. This black-hearted master was obviously trying to trick Xiao Heiniaoyao.

Xiao Heiniaoyao's thousand years fire marrow was the source of all fire seeds in the world. It was originally the most awesome fire. Why did she need you to admit it? !

Huh? That's not right! The most awesome fire should be my nirvana fire. HMPH!

Yun Chujiu did not know what the little black bird was muttering about. She only felt a wave of heat in her right palm. subconsciously, she fired several bolts of lightning at the red-horned golden-ringed python.

The red-horned golden-ringed Python did not care about the four humans in front of it at all. These four small fries would be able to kill them in less than fifteen minutes.

If one of Yun chujiu's group "Died", the entire group would be teleported out. This test would also fail.

Just as the red-horned golden-ringed Python was feeling proud, it saw the little girl's lightning strike towards its body. The other three people attacked the Red Horn on its head at the same time, so it was impossible for the red-horned golden-ringed python to completely avoid it.

It felt that it would be fine as long as it avoided the red horn on its head. After all, its body was strong, so it would not be a problem for it to be struck by a few lightning strikes.

Therefore, the red-horned golden ring python dodged the attacks of Xue Wuji and the other two. Yun Chujiu's lightning really struck its body.

The red-horned golden ring Python instantly felt a burning pain, and then nothing happened..

Xue Wuji and the other two looked at the red-horned golden ring python that had turned into charcoal. They were so shocked that they could not speak. When did little Jiu's lightning become so powerful?

"Little Jiu, this... Your Lightning?" Xue Wuji asked in surprise.

Of course, Yun Chujiu would not tell the truth, she giggled and said, "My lightning will occasionally explode. This is also a new skill that I have recently discovered. However, this thing doesn't work at all. "Don't idolize me anymore. Let's hurry up. Otherwise, it would be bad if the tenth group got there first."

Xue Wuji and the other two completely believed Yun Chujiu's "Truth" because they could not think of any other explanation. After all, it was normal for abnormal things to happen to abnormal people. Really, it was very normal.

The three of them calmly followed Yun chujiu away. The surrounding teachers who were watching could not stay calm anymore!

“Oh my God! is the Heavenly Lightning Spirit Root so awesome? Those bolts of lightning just now actually directly turned the level 35 red-horned golden-ringed Python into charcoal? Even people with spiritual void cultivation could not do it!”

“Didn’t that little girl also say that her lightning bolts would occasionally explode? Those lightning bolts probably contain the laws of heaven and earth. After all, she has the heavenly lightning spirit root.”

“Although she’s quite powerful, it’s difficult to deal with her sometimes and sometimes. Moreover, she might be killed by the Tian Dao at any time, so I still don’t think highly of her.”

“You’re right. I also think that the future of this Mo Fangcao is bleak. On the other hand, that Xue Wuji is not bad. He will definitely become a great asset in the future.”

..

While teacher Guagua was discussing animatedly, Yun Chujiu and the others had not walked far when they encountered a level 35 four-eyed red-tailed Fox once again.

Yun chujiu could not help but curse in her heart. Damn it, could it be that the feng shui of the route she chose was not good? ! How could they encounter a high-level demon beast in just a few steps? !

The four-eyed red-tailed Fox shot wind blades at Yun Chujiu and the others while using the charm technique. Its four eyes emitted a faint blue glow.

Xue Wuji did not have any problems, but Mo fangbing and Jin Zhi could not hold on any longer. They were in a daze, and their movements were becoming slower and slower.
