

The Yun Family's Ninth Child is an Imp! Chapter 2207

The teachers could no longer express their shock in words. All of them stared at the big screen with their eyes wide open. Could it be that the four bloodthirsty wind blade wolves would really be obedient? Wouldn't they attack them ferociously midway?

Xue Wuji and the other two were even more dumbfounded than the teachers. The three of them couldn't believe it even until they sat on the back of the bloodthirsty wind blade wolves. weren't they still on the line of life and Death 15 minutes ago? Why was little jiu so cocky? Now, these level 35 demon beasts had become their mounts?

With the protection of four bloodthirsty wind blade wolves, the remaining 30 miles could be said to be unimpeded.

Yun chujiu sat on the back of one of the bloodthirsty wind blade wolves. From Afar, she could see the four people of Team 10 walking towards the finish line from the other direction.

The four members of Team 10 were obviously exhausted, so they didn't walk very fast.

Yun Chujiu was afraid of alerting the enemy, she lowered her voice and said to the wind-blade wolf she was riding, "Master Wolf, speed up. Do you see those four people? They are all stopping us from reaching the finish line. We must overtake them."

When the bloodthirsty wind blade wolf heard Yun Chujiu's words, a cold glint immediately appeared in its eyes. In its mind, stopping them from going to the slope meant stopping them from awakening the Sirius bloodline. It was simply courting death!

In its heart, this bloodthirsty wind blade wolf hated the four people from team 10. When it got its hands on the medicinal pills, it would definitely bite those four little ants to death to vent its anger.

The four bloodthirsty wind blade wolves increased their speed and quickly dashed towards the slope.

The four members of Team 10 bragged proudly as they walked, "Do you guys think that trash team can make it halfway?"

"They are so trash. I think that they can't even make it a third of the way, and they still want to compete with us? They are simply overestimating themselves!"

Hearing his companion's words, Liang Hong said arrogantly, "When we go out, we will humiliate them, especially that red-clothed one. He is just an embroidered pillow. I don't like him."

At this time, one of them said in horror, "You, Look! In front!"

Liang Hong and the other two looked in the direction of that person's finger and saw four bloodthirsty wind-blade wolves running toward the finish line. On the back of the bloodthirsty wind-blade Wolves sat four people. It was actually Xue Wuji and the others!

"How, how is this possible? How could they tame four bloodthirsty wind blade wolves? The bloodthirsty wind blade wolves are level 35 demonic beasts!" One of them said in disbelief.

Liang Hong's reaction was faster. he shouted in exasperation, "Don't bother about that. It's more important to snatch the tokens. Go!"

Yun Chujiu was sitting on the back of the bloodthirsty wind blade wolves. She naturally saw the actions of Liang Hong and the other three. She rolled her eyes. The opportunity to take revenge had arrived!

"Lord Wolf, put us down. You guys go deal with the four people. We'll go get the tokens. Don't worry. I've already sworn in my heart. I Won't lie to You! "If you kill them, I'll give you a few more bottles of pills to stop the bleeding." Yun chujiu lowered her voice and said to the four bloodthirsty wind blade wolves.

The bloodthirsty wind blade wolves had long been displeased with the four people of the tenth group. Damn it, they actually stopped the little girl from getting the tokens. This was to stop them from awakening the Sirius bloodline. They really deserved to die!

Yun Chujiu and the other three jumped down from the backs of the bloodthirsty wind blade wolves and headed straight for the slope. The Four Bloodthirsty Wind Blade Wolves roared and pounced on Liang Hong and the other three.

Liang Hong and the other three felt as if their hearts had been bawled out. were these four bloodthirsty wind blade wolves crazy? Why would they attack them?
