

## The Yun Family's Ninth Child is an Imp! Chapter 2218

Could it be that they could only wait for death?

No! ! They had endured so much suffering, how could they not be able to deal with these demonic plants? !

There must be a way!

Yun chujiu forced herself to calm down. Since these demonic plants were so powerful, why didn't they spread out of the valley? They could have climbed up the cliff, and then they could reproduce on the Heavenly Dao Cliff and expand their territory. Why didn't they do that?

At this moment, the ten-thousand-year-old fire marrow in Yun Chujiu's hand stopped working. The demonic plants began to attack the three of them even more crazily.

Yun chujiu had no choice but to release the four Dumb Beasts to help. She felt that she had already thought of the key point. She was just a little bit away from finding a solution.., therefore, she shouted at Xue Wuji and Jin Zhi, "Why don't you tell us why these demonic plants didn't climb up the cliff wall?"

"Of course! They must be afraid of something!"Xue Wuji said casually.

Yun Chujiu was stunned. Yes, they must be afraid of something? Then what were they afraid of? Were they afraid of the Heavenly Dao Cliff?

No, the Heavenly Dao Cliff was just one side of the stone wall. They could climb up from the other side. What were they afraid of?

Yun chujiu subconsciously looked at the stone wall. Not only were there no demonic plants climbing up the stone wall, but there were also no demonic plants growing near the stone wall.

Yun chujiu suddenly had an idea. "Quick! Let's go under the stone wall! These demonic plants must be afraid of the slippery liquid on the stone wall!"

Hearing that, Xue Wuji and Jin Zhi did not have time to think. They fought and retreated at the same time. After a lot of effort, the three of them finally reached the bottom of the stone wall.

Yun Chujiu took out a piece of red cloth and rubbed it against the stone wall. Then, she waved it at the demonic plants.

The effect was extremely obvious. The demonic plants were very afraid of the red cloth. They were even more afraid than when they encountered the ten-thousand-year-old fire marrow. They suddenly shrank back and did not dare to attack any further.

Xue Wuji and Jin Zhi followed suit. They took out their clothes from their storage rings. After rubbing the liquid on them, they waved it at the demonic plants. Finally, they temporarily stopped the demonic plants from attacking.

Yun chujiu put the four spiritual pets into her storage ring and sat on the stone wall, panting heavily.

Jin Zhi also sat on the ground. Xue Wuji was the only one who held on. He stared at the demonic plants vigilantly, afraid that they would suddenly attack.

“Brother Wuji, it’s okay. Sit down! These liquids are very intimidating to the demonic plants. Otherwise, there wouldn’t be any demonic plants near the stone wall.”Yun chujiu said while panting.

Upon hearing Yun Chujiu’s words, Xue Wuji took out another piece of clothing and rubbed it against the stone wall. Then, he stood in front of the three of them and sat down on the ground.

“Little Sister Jiu, if you didn’t suddenly think of these liquids, we would definitely be in deep trouble today.”. No wonder this place was called the deep valley of Hell. It turned out that it was because of these demonic plants. “If it weren’t for these liquids, even if thousands of people came down, they would still be in deep trouble,”Xue Wuji let out a long breath and said.

Jin Zhi also said with lingering fear, “Yes. Fortunately, Little Jiu is smart. Otherwise, we would definitely be dead!”!

“We are only safe for the time being. Those demonic plants might attack us from underground. Therefore, we need to rest for a while and do some defensive work.” Yun chujie thought for a while and said.

After a while, the three of them had almost rested. Yun chujie brought out the Xiao Hei Rat and let it dig a hole about two people high above the ground.
