

The Yun Family's Ninth Child is an Imp! Chapter 2381

Yun chujiu gathered everyone together and divided the spirit stone mine equally according to what she said, then, she said, "Now, you guys rush to the Cao family. You guys go first. I want to clean up the aftermath here and delay the time when the fan family finds out."

Everyone now wished they could immediately leave this killing den. After saying a few polite words, they all left.

"Little Jiu, if we don't run now, what are we going to do?" Jin Zhi asked in confusion.

Yun chujiu ignored her and shouted instead, "My two friends, you can come out now! They have all left!"

Jin Zhi and Xue Wuji were stunned. Was this guy crazy?

"The little girl is indeed smart. No wonder she is not fated." The old man and the Brawny Man walked out.

Yun chujiu curled her lips. "Let's talk slowly. Let me get some compensation for the mental damage first!"

Yun chujiu handed the supreme-grade burst talisman in her storage ring to the other four people. “Blow it up! Don’t be afraid of wasting it. Blow up as many as you can. You Can’t be a fire-burning girl for nothing.”

The four people looked at the dozens of sacks of supreme-grade burst talismans on the ground.”...”

Was this what she meant by cleaning up the mess?

Was this what she meant by cleaning up the mess?

Was this what she meant by stirring up a hornet’s Nest?

“What are you waiting for? Hurry up! If I don’t move half of the Spirit Stone Mine Today, my surname won’t Be Wang!”Yun chujiu rolled up her sleeves and picked up a sacks of super-grade burst amulets as she walked to the side and began to play tricks. Ah, exploding the mine.

The corners of Xue Wuji and Jin Zhi’s eyes twitched violently. Please, your surname wasn’t Wang in the first place, okay?

Although they weren’t greedy, they would be fools if they didn’t grasp such a good opportunity to make a fortune! Besides, that fellow actually dared to do this. He must have a way to escape.

Thus, Xue Wuji and Jin Zhi also picked up a few sacks of talismans and started to blow up the mine on the other side.

“Benefactor, what should we do?”The Brawny man asked the old man with a dumbfounded look.

The old man’s eyes twitched. “Let’s help together. I reckon that the little girl won’t leave until we get more spirit ores.”

Thus, everyone began to frantically mine.

The reason why the fan family had been using manpower to mine was because if they used talismans to mine, the losses would be too great. However, Yun Chujiu and the others did not care about this. With a sack of talismans, they could blow up many large pieces of spirit stones. It was enough for manpower to mine for a year.

Yun chujiu knew that such a huge commotion would easily attract the fan family’s people, so her operation was very rough and barbaric. She did not care about sustainable development, nor did she care about making the best use of everything. In any case, it was a business where she could just take a handful and leave! Why did she care so much? !

In less than an hour, almost half of the fan family's mines had been stored into Yun Chujiu's storage ring. This fellow waved his hand and said, "Stop, I'm not a greedy person. It's enough!"

The other four people only had one sentence in their hearts to say to her: Shameless!

Aren't you greedy? You've emptied half of the fan family's mines, aren't you greedy?

"Senior, what should we do next?" Yun chujiu asked the old man with a smile.

The old man was confused and pointed at himself. "You, you're asking me?"

"Of course. If it weren't for you here, would I dare to stay and make a fortune? Hurry up, which direction is safe for us to escape to?" Yun chujiu thought to herself. With a talent like Spirit Master Yan, she wouldn't need him. Would she keep him as a decoration?

The old man had no choice but to close his eyes and keep calculating with his fingers. Then he said, "We are going north. Only the north has a chance of survival."
