

The Yun Family's Ninth Child is an Imp! Chapter 2420

When the six servants heard doctor Deng's words, they felt even more grateful towards Yun Chujiu. At first, they thought that Yun chujiu was just scaring them. They thought that even if they were disfigured, they would be able to recover their looks with the muscle revitalization pill, they did not expect that the salt-free powder really did not have an antidote.

Yun chujiu was very clear about their thoughts. She could not be bothered with them and said to doctor Deng, "Old Miracle Doctor, there is no doubt that the salt-free powder was put in there by our ye residence. The purpose was to disfigure me.

"Fortunately, I have always been careful in my actions, so I did not fall for their tricks. "However, there are only a thousand days of being a thief and not a thousand days of being on guard against thieves. I was afraid that they would come up with a poison plan if their plan failed, so I simply played along and said that we were disfigured."

Doctor Deng had already guessed a thing or two when he saw the wind-blade Rabbit's corpse, so he was not too surprised when he heard Yun chujiu say this.

Doctor Deng Sighed. "But I'm afraid this matter can't be kept secret for long. Miss Yun, why don't you go and talk to Old Master Ye? Old Master Ye is a sensible person, so he will naturally protect you."

Yun chujiu sneered with slight mockery. "Old Miracle Doctor, you also know that my aunt's husband's family is a super aristocratic family, the fan family. Do you think my great-grandfather will fall out with her because of me? "In this ye family, I can only rely on myself. I can't rely on anyone."

Doctor Deng was stunned at first, then he sighed. In a large family, the most important thing was the interests of the family. Family ties were really thin. What this little girl said made sense. I'm afraid that Old Master Ye wouldn't be able to protect her.

"Sigh! Miss Yun, then how do you want me to help you? Even though this old man sympathizes with all of you, if people were to find out that this old man had collaborated with you to cheat, I'm afraid that not only would this old man's medicine shop be unable to protect itself, this old man's life would also be in danger!" Doctor Deng said in a troubled manner.

The last time he helped Yun Chujiu and the others to hide it, it was because it was a piece of cake. He was not afraid that others would find something wrong with it. However, it was different this time. Yun Chujiu and the others had already told the public that they were disfigured, but in the end, their looks were still intact. If the person behind the scenes were to vent his anger, he would definitely not be spared.

"Old Miracle Doctor, actually, this matter is not difficult to handle. Everything that you said happened on the basis that there was no antidote to the salt-free powder. If you had the antidote to the salt-free powder, wouldn't this matter be solved easily?" Yun Chujiu said with a smile.

Doctor Deng almost choked with anger!

Aren't you talking nonsense? !

If there was an antidote to the salt-free powder, would he be so bored that he would worry about nothing? !

Doctor Deng said angrily, "Miss Yun, the salt-free powder doesn't have an antidote. Even the mysterious family doesn't have an antidote. How can we get an antidote? Isn't this nonsense? !"

"Everything in the world is mutually reinforcing and counteracting each other. Nothing has no natural enemies. It's the same for humans and everything else." "Moreover, although the salt-free powder is vicious, it takes several hours to take effect. This means that its main medicine should be a kind of poisonous grass."

"I think that since the Violet Blood Forsythia you just took out can be tested to be salt-free, it might be the nemesis of the salt-free powder." Yun chujju blinked her eyes and said.

Doctor Deng said with a wry smile, "Miss Yun, although what you said makes some sense, but if the Violet Blood Forsythia is the antidote, that mysterious family wouldn't have found it after so many years? So, it's impossible."

Yun Chujju raised her eyebrows. "Old Miracle Doctor, there's a saying that those who are in the middle of the matter can see clearly. They might really be riding a donkey to look for a donkey! If you don't try, how do you know that it won't Work? Besides, we won't be exposed for eight to ten days anyway. You can go back and study it. If it doesn't work, you can report us again."
