

The Yun Family's Ninth Child is an Imp! Chapter 244

Master Xuanyuan and the others were dumbfounded!

What was going on?

If it was the Thunder Root Spirit, it would normally be a silver spark.

Why did Yun Chujiu have a purple lightning bolts?

Yun Chujiu was entranced by it and giggled. "This thing is quite fun. Master Xuanyuan, please give this ball to me! It can be used as a candle at night to save money!"

Master Xuanyuan coughed dryly. "This is the sect's most important treasure. How can I just give it to you?!"

Master Xuanyuan quickly put away the test ball in consideration of Yun Chujiu's bad habit of taking things.

"Master Xuanyuan, am I really a Thunder Root Spirit?" Yun Chujiu curled her lips. How stingy of him!

"This..." Master Xuanyuan could not figure it out. If he said yes, Yun Chujiu's situation seemed to be different from other people's. Even if he said no, the test ball obviously had a reaction.

Elder Qu reacted the quickest. He said, "Yun Chujiu, sit cross-legged and see if you can absorb the purple lightning element."

Yun Chujiu thought, 'Of course I can! Your Little Ancestor Yun has a sea of purple elements in my Dantian! If I told you about it, you'll be scared to death!'

Yun Chujiu pretended to sit cross-legged. After a while, she pretended to be surprised and said, "The purple elements has actually entered my body! Does this mean I can cultivate in the future?"

Master Xuanyuan nodded. Since she could absorb thunder elements, it meant that Yun Chujiu was indeed a Thunder Root Spirit. As for why she was different from others, he could only slowly investigate.

"That's great!! I told you that I was born to be useful. It turns out I have a rare Thunder Root Spirit! My master has a sharp eye. Otherwise, why would he take me as his disciple?! Sect Master, I'll definitely take care of Spirit Radiance Sect in the future. I will hack whoever comes to cause trouble for us to death! Come one person, hack one person! Come a pair, hack a pair! Let's see who dares to bully our Spirit Radiance Sect!" Yun Chujiu straightened her small body and began to talk incessantly, showing off.

At the beginning, everyone was happy for her. After hearing the end, the corners of their mouths twitched. They really could not bear to listen anymore. This Yun Chujiu was shining really brightly just because she had a little ray of sunlight on her. She was too cocky!

"Even if she has the Thunder Root Spirit, it's hard for her to have any achievements. After all, Spirit Radiance Sect isn't located in an area with frequent lightning strikes, and there are too few lightning elements. This path of leveling up is even more difficult!" Elder Xiao was the first to pour cold water on Yun Chujiu.

"That's right. Our sect had a few Thunder Root Spirits in the past. Although the methods of this lightning strike were indeed amazing, they all became ordinary in the end. They couldn't even reach the level of a spirit emperor."

"That's right. This Thunder Root Spirit is famous, but in reality, it's not as good as other root spirits paired with good talent."

...

Yun Chujiu secretly curled her lips. 'HMPH, you're talking about an ordinary person.' She had the strange grass in her Dantian. With this divine weapon, it would be too easy for her to level up, right?!

"Master Xuanyuan, do you have any Thunder Root Spirit cultivation techniques? Give me a few copies!" Yun Chujiu said with a grin.

Master Xuanyuan glared at her. "Thunder Root Spirit cultivation technique is very rare. Our Spirit Radiance Sect only has one copy of the Heavenly Thunder technique. It's stored on the seventh floor of the library. Why don't you make a copy of it?"

Yun Chujiu thought to herself, Heavenly Thunder technique? The name sounded very corny. It was definitely not as good as the cultivation technique that the gigolo gave her. However, it was not bad to use as a cover!

"Yun Chujiu, you can leave now. Go back and cultivate properly! We still have things to discuss!" Master Xuanyuan saw that Yun Chujiu did not have anything else to say, so he waved his hand, indicating that she could leave.

Yun Chujiu rolled her eyes and said pitifully, "Master Xuanyuan, where is the compensation?"
