

## The Yun Family's Ninth Child is an Imp! Chapter 2484

Yun Chujiu yawned when she heard this. What was the point of saying such nonsense? ! If you have the ability, why don't you increase the reward tenfold? As long as you have enough rewards, why are you afraid that these students won't work hard?

You want the horse to run fast, and you want the horse to not eat grass. Old Man Gongsun is really stingy!

When the crowd was excited, Dean Gongsun finally announced the contents of the test. The test location was the same as in previous years. It was still held in the Tianluo mystic realm on the outskirts of Tianluo City.

The method of calculating the results was very simple. The more Tianluo Flowers One obtained, the more points one would get.

Yun chujiu couldn't help but complain. Picking Tianluo Flowers once every half a year, wasn't the Tianluo Flower already extinct? !

Besides, what was the point of having so many Tianluo Flowers? ! Could it be that they were drying them out to light a fire?

Just as Yun Chujiu was complaining, she heard Dean Gongsun's explanation. Then, she rubbed her nose awkwardly. Alright, it was her ignorance and self-righteousness. Fortunately, she didn't say it out loud. Otherwise, wouldn't it be embarrassing? !

According to Dean Gongsun, the Tianluo Flower was an illusion created by the Tianluo Secret Realm. Although in the eyes of the students, the Tianluo flower was real, outside the Tianluo secret realm, the Tianluo flower was just a stone.

This kind of stone was called the tianluo stone. It was extremely sturdy. All the Tianluo stones would be given to mayor Huang to strengthen the city to prevent demon beasts or external enemies from invading.

Yun chujiu thought about it for a moment. The city walls of the heavenly Luo City were indeed made up of some stones with patterns. So that was the heavenly Luo Stone!

Dean Gongsun added a few more things to take note of. It was nothing more than a ban on flying and the use of talismans and the like. Yun Chujiu was numb to it. Although talismans were good, they could not be used in many places. They were really of little value!

However, since it was a mystic realm, there might be some rare spirit herbs. It would be best if she could get rid of the two herbs that were missing from the transformation pill.

Early the next morning, Yun Chujiu followed everyone to the outskirts of Tianluo city, which was about twenty miles away.

Yun chujiu thought that the so-called Tianluo mystic realm should be very awesome. At the very least, it should have some beautiful enchantment or something like that. However, when Dean Gongsun and Dean Duanmu of the WA Stone Academy jointly opened the Tianluo mystic realm., this fellow could not help but be greatly disappointed.

After the two principals formed a seal, a hole appeared on the ground. In the words of a certain jiu, it was a dog hole, alright? !

The size could only accommodate one person. Holy Shit, how many years and months would it take for ten thousand people from two academies to enter?

Just as Yun Chujiu was complaining, she saw that the dog hole had changed.

The dog hole was expanding at a speed visible to the naked eye. In less than fifteen minutes, it had turned into a, uh, super-large dog hole.

Yun chujiu stretched her neck and looked inside. It was dark inside and nothing could be seen. It was like a huge black hole.

The students entered the black hole according to their grades. It was probably a super-large teleportation array.

Yun Chujiu felt that based on her past experience, there was an 80-90% chance that she would be rejected again or something would happen. Therefore, she waited until everyone had entered before she entered the black hole with Xue Wuji and Jin Zhi.

However, nothing unexpected happened. Yun Chujiu and the other two successfully entered the Tianluo mystic realm.

There were other people at the place where the three of them were teleported. Yun chujiu finally heaved a sigh of relief. It seemed that the Tianluo mystic realm was quite normal and did not target her.

Everyone gradually dispersed. The terrain of the Tianluo mystic realm was different every time. Therefore, everyone did not have a topographic map and could only rely on luck.

Yun chujiu and the other two randomly chose a direction and began their trial journey.
