

The Yun Family's Ninth Child is an Imp! Chapter 2499

Thinking of this, Yun Chujiu took out her big kitchen knife and muttered, "Big Kitchen Knife, big kitchen knife, this time it's all up to you!"

The students around Yun chujiu saw her eager expression and heard her muttering. They were all dumbfounded. Could it be that she wanted to use this big kitchen knife to cut the monster's limbs?

Although the kitchen knife had cut the stone egg last time, they still felt that it was a fluke. Could it cut the monster's limbs this time?

At this moment, the ground began to shake, and it was getting more and more intense.

Yun chujiu signaled for everyone to step back, then she held the kitchen knife and carefully observed the situation.

There was an intense hissing sound coming from the entrance of the cave. It was probably the monsters talking.

After a while, a tentacle tentatively reached in. A glimmer of light flashed in Yun Chujiu's eyes. This was her chance!

Yun chujiu raised her kitchen knife and slashed at the tentacle.

Poof!

After the tentacle was cut off, the black liquid inside sprayed onto the stone wall.

Seeing that the kitchen knife was effective, Yun chujiu was overjoyed. Just as she was about to chop off another part of the Tentacle, the tentacle suddenly retracted.

Moreover, there was a shrill cry from the monster outside the cave. It was obviously in great pain.

The students behind Yun Chujiu immediately cheered up!

Those monsters had suffered a loss. It was estimated that they would not be able to extend their limbs in for a while. They could finally catch their breath.

After waiting for a while, Yun chujiu saw that the monster did not take any further action. She asked the students to stay alert here and then walked into the tunnel.

The tunnel was not very long, about 500 feet long. At the end of the tunnel was a large stone room, which was more than enough to accommodate 400 people.

Everyone was meditating and resting. When they saw Yun Chujiu come in, they all asked about the situation.

Yun chujiu gave a simple explanation. Although she was a little worried that the strange feature of the big kitchen knife would attract the attention of others, it was not good to hide it at this time.

After listening to Yun Chujiu's explanation, everyone could not help but feel a little more at ease. Someone said, "Miss Yun, since your kitchen knife can cut off the monster's limbs, I guess they won't dare to attack us easily."

"Yes, perhaps they will leave after they can't take advantage of us. In that case, we will be safe."

..

Yun chujiu shook her head disapprovingly. "Those monsters won't give up easily. They'll definitely think of a way to force us out or attack us. "Let's take advantage of the fact that they haven't attacked us yet. Everyone rest well and rest up to prepare for the next battle."

Although some people thought that Yun chujiu was exaggerating, they still began to meditate on the spot to recover their strength.

A few hours passed, but the monsters did not make any further moves. They could only hear the occasional hissing sound coming from the cave entrance. No one knew what the monsters were discussing.

Just when everyone thought that they would be safe for the time being, there were scattered rocks falling from the cave ceiling. Everyone cried out in surprise, "What, What's going on? Is this place going to collapse?"

An ominous feeling rose in everyone's heart. Could it be that those monsters were planning to collapse the cave? Those monsters were huge, so it was not too difficult for them to collapse the stone wall.

Everyone's faces were filled with fear. If they did not rush out, they would be crushed to death by the rocks. If they rushed out, they would be eaten by the demonic beasts guarding the entrance of the cave.

It was over! They were dead meat!
