

## The Yun Family's Ninth Child is an Imp! Chapter 2531

The fan family's Patriarch's face was gloomy. He felt that Yun Chujiu was exaggerating. Perhaps there really was such a divine Devil Hall, but it was definitely not as powerful as she had described.

However, he did not rebuke Yun chujiu again. After all, there were so many people present. If he were to speak again, it would appear that he was bullying the weak.

Alliance Master Yan waited until the crowd's discussion had quieted down before he said, "Regarding the Divine Devil Hall's matter, what do you all think about it? Do you have any countermeasures and suggestions?"

Although everyone was discussing intensely just now, they all knew that this order of speaking was not to be messed with. All of them turned their gazes towards the two sect masters of the Chaos Origin sect and the killing Origin sect.

Master Xiahou of the killing Origin sect and master Baili of the Chaos Origin sect did not say anything. Instead, they picked up their teacups and drank their tea.

Everyone present knew that these two people were not on good terms with each other. They probably wanted to speak first. However, they did not want to show it due to their pride, so this difficult problem was left to Alliance Master Yan.

Everyone's gaze turned to Alliance Master Yan, wanting to see how he would resolve this difficult problem.

"Yun Chujiu, you are the person involved, and you have dealt with the people from the Divine Devil Hall several times. What do you think?" Alliance Master Yan changed the topic very cunningly.

Yun Chujiu had just sat down and was about to watch the show, but she did not expect to be called out again.

She could only stand up again, her face revealing an awkward expression. "Alliance Master Yan, you are flattering me too much. I am just a small shrimp, how can I have any opinions.

"How about this, I will explain some of the practices of the Qing Xuan continent and the Tian Yuan continent to see if there is any value in using them for reference." Those two continents had discovered the traces of the Divine Devil Hall by chance, and then followed the clues to find some hidden clues.

However, because the Divine Devil Hall was in the dark, there was not a good way to completely eradicate their forces.

"Their method is to first investigate themselves, and then widely publicize the harm of the Divine Devil Hall. Everyone knows the sinister intentions of the Divine Devil Hall, so naturally, the Divine Devil Hall would not have the soil to develop their forces."

After Yun Chujiu finished speaking, she returned to her seat with some embarrassment. This fellow Cursed Alliance Master Yan in his heart. 'you've thrown the blame away, but you've pushed me out to take the blame. Shameless!'

When everyone heard Yun Chujiu's words, they felt that this method was not bad. If the people of the immortal Yuan continent could consciously resist the Divine Devil Temple, then it would be very difficult for the Divine Devil Temple to continue expanding its power.

Since the Divine Devil Hall did not dare to appear in public, it must have not fully developed yet. Once there was no soil for development, it would be very difficult for it to stir up big waves.

Alliance Master Yan cupped his hands at Master Baili of the Primordial Chaos sect and Master Xiahou of the Shi Yuan sect. "What do the two sect masters think of Yun Chujiu's suggestion?"

Alliance Master Yan's words were very skillful. He was talking about the two sect masters. There was no order, so he would not be found out.

The old man on the left-hand chair took the lead and said, "This method is also feasible. Everyone go back and check it out first. If there are people who act abnormally, pay attention to them. In addition, Alliance Master Yan Can Have Your Sky Bearing Alliance put up notices in every city in the immortal Yuan continent, informing everyone of the dangers and sinister intentions of the Divine Devil Hall."

The old man on the right-hand chair frowned slightly, obviously not satisfied with the old man on the left speaking first.

Chief Yan nodded. "What Master Xiahou said makes sense. Master Baili, do you have any suggestions?"
