

## The Yun Family's Ninth Child is an Imp! Chapter 2569

The three of them looked at her speechlessly and transferred the spirit stones they received to her.

Yun chujiu was so happy that she couldn't close her mouth. In order to save their lives, these people naturally wouldn't just buy one waterproof bead. They only bought a few beads, and each bead was worth 10,000 yuan. One could imagine how much money this guy had earned!

Xue Wuji and the other two were speechless and convinced. This was just the first round of testing, and this guy had already earned hundreds of millions of high-grade spirit stones. If all the tests were completed, this guy would probably earn more money than he could count.

Xue Wuji lowered his voice and asked in puzzlement, "Little Sister Jiu, your money now is probably more than that of the primordial chaos sect. Why did you earn so much money?"

"It's fun! I like to watch the pile of spirit stones that look like a small mountain. It's so fun to see them glistening!" Yun Chujiu said with a smile.

Xue Wuji pursed his lips. Alright, let's pretend that he didn't ask anything!

..

In the square of the primordial chaos sect, everyone was no longer looking at the other shadow stones. They were all looking at the number nine shadow stone. Someone was counting with his fingers, then, he shouted in disbelief, "Oh my God! That little girl actually earned another 300 million high-grade spirit stones! It's like picking up money!"

Everyone silently calculated their own wealth. It seemed that they only had tens of millions of high-grade spirit stones. Some even had a few million high-grade spirit stones. And that little girl had earned several hundred million just by taking the entrance exam, how could the gap between humans be so huge? They were too ashamed to live!

Of course, there were still a portion of people whose red-eye disease was seriously acting up.

"If the flood won't do, then we'll have a drought. We'll create a volcano and heat them to death! The people in area 9 are too stupid. It would be better if they were all eliminated!"

"That's right. That little girl was cheated out of tens of thousands of spirit stones just like that. It's impossible for such people to pass the subsequent tests. We'll let them heat up until they're half dead, and then we'll let the Demonic Beasts attack them. They'll definitely die!"

..

The disciples in charge of the tests were having an even more intense bout of red-eye syndrome. Thus, they disregarded the rules of the test and actually started to let the flood waters recede, forcefully creating a volcano in area nine.

Coincidentally, elder Linghu, who was in charge of the array formation, was not present. The one controlling the array formation was his eldest disciple, Bian Chen.

Bian Chen's eyes flickered, but he did not stop them.

In Area 9, before everyone could recover from their excitement, they realized that the flood was slowly receding, and they felt extremely hot.

"Look! Why is there a volcano there all of a sudden? There wasn't one just now."

"This place was originally an illusion. It's normal for anything to appear here. Looks like there's a new test."

"It's Too Hot! And it's getting hotter and hotter! This is even worse than the flood! I feel like I'm going to die from the Heat!"

..

Yun Chujiu and the others didn't feel too hot because they had the beads of Guai Cao!

Of course, Yun Chujiu wasn't stupid enough to sell the beads of Guai Cao. However, if all these people died from the heat, if there were other tests to follow, the four of them alone wouldn't be able to pass, therefore, it was better to think of a way to save these people.

Yun chujiu rolled her eyes and shouted to the crowd, "If you want to live, quickly put the flood water into your storage rings. The sooner the better!"

Everyone's eyes lit up. Using water to cool down was a good idea, so everyone began to collect the flood water. They did not care whether there was a container or not, so they simply put it all into their storage rings.
