

The Yun Family's Ninth Child is an Imp! Chapter 2577

"Since you want to eat them, you should listen to me. Let's retreat a little further and weave the vines on our backs into a net. After the ambush is done, I'll be the bait to lure the snakes over.

The three snakes have to guard the wild fruits, so most likely only one of them will chase after us. When the time comes, once the snakes enter the net, you guys will drag the snakes into the air. I'll take care of the rest," Yun Chujiu said.

"Little Jiu, will this method work?" The iron-skinned Viper already had a certain level of intelligence. Would it fall for it? Moreover, even if you can trap it in the net, how are you going to kill it? It's highly poisonous. What if the venom spits on your body?" Ye Bingyu said with some worry.

"I have my own brilliant plan. Just do as I say!" Yun Chujiu said proudly.

Xue Wuji and Jin Zhi knew that Yun Chujiu was not afraid of poison, so they were not too worried. According to Yun Chujiu's instructions, the vines were woven into three nets and placed at a certain distance. Xue Wuji and the other two controlled one net each. This way, even if the iron-skinned Viper avoided one of the nets, there were still two nets waiting behind.

When everything was ready, baited nine went online.

"A little girl picking mushrooms, carrying a big basket..." luring nine hummed a song as he hopped towards the bushes.

“Ah, so many wild fruits! This is great!” Luring nine pretended to be very happy as he ran towards a bush.

When the three iron-skinned vipers saw the delicious food, they immediately crawled towards Yun Chujiu silently. When they were less than ten feet away from Yun Chujiu, decoy nine exclaimed, “Oh my, snakes! It’s actually snakes! I’m scared to death!”

As decoy nine spoke, he began to run wildly. Naturally, the poisonous snakes would not let go of the delicious food in their mouths. One of the larger poisonous snakes stuck out its tongue and chased closely behind.

Yun chujiu turned around and saw that only one was chasing after her. She instantly felt more confident. Even without the vine net, she was confident enough to deal with this iron-skinned Viper with just her movement technique. However, in order to hide her weakness, she still used the vine net!

Very soon, she arrived at the first net where ye Bingyu was. Ye Bingyu was probably too nervous and was slightly slower. She only caught the tail of the iron-skinned viper, but its tail was long and thin, therefore, it was basically useless.

Ye Bingyu’s face was pale because the iron-skinned snake had given up on chasing Yun Chujiu. Instead, it climbed towards the big tree where she was hiding.

Seeing this, Yun chujiu could only pretend to stumble and fall on the ground. "Ouch, my leg is most likely broken. I'm finished, I'm going to be eaten by the snake!"

The iron-skinned snake hesitated for a moment and changed its direction to climb towards Yun Chujiu.

Just as the iron-skinned snake was about to approach Yun chujiu, Yun Chujiu suddenly jumped forward and ran at high speed.

The iron-skinned snake was so angry that it spat out its tongue. Didn't it say that it would break its leg? Why was it running faster than a rabbit?

The iron-skinned snake only had a little intelligence, so it did not know how to turn its head. In its anger, it forgot about ye Bingyu and chased after Yun chujiu again.

Soon, the iron-skinned snake arrived at Xue Wuji's position. Xue Wuji was quick and exerted force with his hand. The iron-skinned snake was caught by the vine net and was suspended.

Yun chujiu saw that the iron-skinned snake had been hit and quickly ran back. She first asked ye Bingyu to rearrange the vine net. Then, she looked at the iron-skinned snake that was biting the vine with its teeth.
