

## The Yun Family's Ninth Child is an Imp! Chapter 2581

Yun chujiu bared her little white teeth. "Isn't this simple? Let's just get the materials on the spot!"

Yun chujiu took a dagger and cut a thick piece of wood. She hollowed out the wood in the middle and then made two holes on both sides. After tying the vines, a wooden bucket was completed.

Xue Wuji and the other two were stunned. This little jiu was simply omnipotent. A person like her could not be called a genius. She could only be described as a monster!

Yun chujiu made a few wooden buckets and asked Jin Zhi and the others to fetch water.

She also made a big wooden pot. Although it might be burned through by the fire, she did not expect it to be durable. It would be fine as long as it could be used once.

Therefore, Jin Zhi and the others carried the buckets while a certain jiu carried the big wooden pot. The four of them happily found an empty space to rest.

Yun chujiu lit a big bonfire and then laid on the hammock, humming a tune leisurely.

“Little Jiu, didn’t you say that you could handle the devil yam with water? Why didn’t you do it?”Ye Bingyu said, clutching her stomach. She was really hungry!

“No hurry, no hurry! You guys peel off the skin of the devil yam first and then mash it into mud. I need it later.”Yun Chujiu threw the dagger to ye Bingyu and said with a smile.

Ye Bingyu and the other two had no choice but to accept their fate and start working. They first peeled the skin off the devil yam, cut it into small pieces, and mashed it into mud in the wooden barrel.

Although the three knew that this thing was poisonous, they still swallowed their saliva when they saw the mashed yam in the wooden barrel. They were really hungry!

Seeing that they had finished, Yun chujiu instructed Xue Wuji to dig an earthen stove and set the big wooden pot on it.

Only then did this guy jump off the hammock and move the bonfire into the earthen stove.

Yun Chujiu put the ashes into a wooden barrel and kept stirring it with water before stopping.

Jin Zhi and the other two looked at Yun Chujiu in confusion. What was she trying to do?

Yun chujiu poured the relatively clear ashes water into the big wooden pot that was already boiling. Then, she put Devil's Yam into the big pot piece by piece with a wooden spatula.

Xue Wuji and the other two widened their eyes. They saw that the originally soft mashed yam had actually turned into a meat jelly. It looked very elastic.

Yun chujiu pressed it with the wooden shovel. She felt that it was almost done. Then, she put the cooked yam jelly into the bucket filled with cold water to let it cool down.

Xue Wuji and the other two surrounded the bucket filled with yam jelly and drooled. Was this thing really made from Devil Yam? Was it not poisonous after this?

"Little Jiu, can this thing really be eaten?"Ye Bingyu swallowed a mouthful of saliva and asked.

"Of course, not only can it be eaten, but it can also be kept in water for a long time! Even if we can't find any other food, we can still rely on these yam jelly to last until the end of the test,"Yun Chujiu said proudly.

The poison of this devil yam was not very strong. It was enough to be detoxified by using gray water.

After about an hour, Yun chujiu picked up a piece of frozen yam and took a bite. Although it was tasteless, it could at least fill her stomach. She could make do with it!

When Xue Wuji and the other two saw Yun chujiu winking at them, they could not wait to pick up a piece and eat it. The texture was smooth and the taste was really good.

The people from the chaos origin sect watched the whole process with their mouths agape. Although they were surprised that the devil yam had turned into something like a meat jelly, was this thing really not poisonous? Could it really be eaten?

Until the next morning, when they saw that Du Yun Chujiu and the others were still alive and kicking, they had no choice but to believe that the so-called yam jelly was really not poisonous.
