

## The Yun Family's Ninth Child is an Imp! Chapter 2666

The few patrolling disciples heard a huge explosion and rushed to the edge of the forbidden area. Then, they saw the following scene:

Under the dim moonlight, a black ancient pagoda slowly rose. A little girl sat on the top of the pagoda. If it wasn't for the little girl screaming for help like a pig being slaughtered, they would have thought that the scene was quite beautiful.

Everyone was stunned for a moment, and then someone exclaimed, "Isn't that Yun Chujiu? Why did she run into the forbidden area? And what's going on with that Pagoda?"

"Aiya, we don't have the time to study what's going on right now. It's better to save her quickly and report to the sect."

"Wait! That's a forbidden area, we can't go in there. Besides, what if we get hung on the pagoda when we go in? We should first report to the elders for instructions." A garlic nose stopped them.

..

Just as they were discussing, Yun chujiu suddenly disappeared from the top of the tower!

A second before Yun Chujiu lost consciousness, she only had one thought. That damn garlic nose, just you wait, wait for her to come out and beat him up first!

When the disciples saw Yun chujiu disappear, they became even more anxious. Where Did Yun chujiu go?

Not long after, master Baili and the other peak masters of the Primordial Chaos sect arrived.

Everyone was shocked when they saw the black tower in the forbidden area.

They had never known that there was a black tower in the forbidden area at the back of the mountain of Yuheng Peak. Of course, this was because no one had ever used a sudden rupture talisman to blow up the Forbidden Area..

Master Baili asked briefly what had happened. Was it that little girl, Yun Chujiu, again? Ever since she entered the sect, she seemed to have never stopped. It was really strange that a small handyman could make such a fuss!

Naturally, sect master Baili and the other peak masters would not rashly step into the forbidden area together. If they were all finished, then the chaos origin sect would also be finished.

Therefore, mountain master he of Yuheng peak unhesitatingly entered the forbidden area.

After stepping into the forbidden area, there was nothing unusual. The Black Tower continued to rise until it finally stopped moving.

Mountain master he counted. This black tower had a total of nine floors. At the bottom floor, there was a similarly pitch-black door. Above the door, there were three large characters written in ancient characters. HMM, he did not recognize them.

Mountain master he did not recognize them, but mountain master Baili did. Those three characters were — Asura prison.

When Mountain Master Baili's words left his mouth, everyone was stunned. Asura prison? Why did it sound so scary? How could there still be something with such a murderous aura in the primordial chaos sect?

Would its appearance bring disaster to the primordial chaos sect?

Mountain master he raised his spiritual energy barrier to push the pitch-black door, but there was no response. He gritted his teeth and raised his hand, and a huge spiritual tiger pounced at the pagoda door.

Unexpectedly, the spiritual tiger was bounced back by the pagoda door. If not for mountain master he dodging in time, he might have been bitten back.

Everyone could not help but frown when they saw the situation. This pagoda was really strange. It seemed that they still had to make a long-term plan.

During this time, they had already arranged for disciples to find Jin Zhi and ye Bingyu, and had them use sound transmission talismans to contact Yun chujiu. However, the sound transmission talismans could not be sent out at all, and the identity jade plate did not respond.

In the end, Master Baili gave the order to have people guard the surroundings strictly, and to report any situation at any time.

A certain jiu, the troublemaker, had already slowly woken up at this time, and was somewhat dumbfounded when she saw the scene in front of her. She was currently in a huge stone room, and the surrounding stone walls were hung with corpses, lifelike corpses.
