

## The Yun Family's Ninth Child is an Imp! Chapter 2748

Yun chujiu was very guilty. After all, she was in the wrong first, so she tried to explain to everyone at the beginning. However, the people of the wood peak were all red-eyed, so they would not listen to her explanation. They rushed forward and wanted to catch her.

Yun chujiu was not stupid. If she was caught, it was possible that the crowd would beat her to death. No matter what, it was more important to save her life first.

Therefore, this guy planned to escape and go to Master Xiahou's place to hide.

However, because the people of the wood peak were gathered here, there were many people. Yun Chujiu had no way to escape.

Yun chujiu could only retreat again and again. Gradually, she was very close to the "Thorn". Because she knew that there was an array separating them, Yun Chujiu was not worried that the "Thorn" would attack her.

Suddenly, a 'thorn' vine rolled Yun chujiu up. Fortunately, the vine had just borne fruit, so the Thorn had not grown out in time. Otherwise, Yun chujiu would have been pierced into a sieve.

No one thought that the 'Thorn' would break through the array and attack Yun Chujiu. By the time everyone reacted, Yun Chujiu was already gone.

Mountain Master Ren's mind was blank. No matter what, he first told the disciples to quickly retreat from the 'Thorn' attack range and then reported it to Master Xiahou.

Master Xiahou finally got a good sleep last night. Early in the morning, he felt that his right eyelid was twitching. He felt that something was going to happen.

He did not expect that, as expected, something would happen again! Moreover, it was caused by that Yun Chujiu!

Master Xiahou regretted it. If he had known this would happen, he would have firmly grounded Yun Chujiu yesterday. She was a troublemaker! Why did she go to the wood peak all of a sudden?

It was one thing for her to go, but she actually swallowed the Black Egg!

To take a step back, if she swallowed the black egg, she would confess her crimes. Why did she run away? Now, it had disappeared into thin air. Was this disaster dead or gone somewhere?

The other three peak masters also rushed over when they heard the news. They gathered together to analyze Yun Chujiu's whereabouts.

Mountain Master Zhao of the fire peak glanced at the 'thorn' in the distance, then he said, "Since Yun Chujiu was attacked by the thorn and disappeared after being trapped by it, I think Yun Chujiu's disappearance is most likely related to the Thorn."

Water Mountain's mountain master Mo said in confusion, "Mountain Master Zhao, although what you said makes sense, where did the Thorn take Yun Chujiu? It doesn't have a storage ring like us, so where did it take a living person?"

Mountain Master Ren suddenly exclaimed, "I remember!" The thorn was an ancient tree, so it had its own space and was usually used to store water. Could it have taken Yun Chujiu into its own space?"

Everyone was stunned!

This was very possible. Then the question was, should they save Yun Chujiu or not? If they did, there was only one way, and that was to kill the Thorn. Once the Thorn died, Yun Chujiu, who was trapped in its space, was naturally released.

However, the Thorn was a treasure passed down from the Wood Peak, and it was the only one in the world. It was a pity to kill it just like that.

Everyone present had their own opinions, but no one was willing to speak first. The atmosphere was a little stagnant.

At this moment, Qu Quan, who had been watching from not far away, walked over and bowed to everyone. Then, he said, "Seniors, I take the liberty to say that 15 minutes have passed since Yun Chujiu went missing.

I feel that Yun Chujiu is basically dead. If that's the case, why should we get involved in this? Moreover, she brought this upon herself. Her death was not unjustified!"
