

The Yun Family's Ninth Child is an Imp! Chapter 2819

Yun Chujiu took advantage of the time when the two of them were choking with tears and tears. She gave each of them a rolling pin and knocked them unconscious.

The situation was critical. Yun chujiu forced Guai Cao to make a drop of liquid. After diluting it, she poured it into an linchuan and Shangguan Hao's mouths.

It had to be said that guai Cao was sometimes random, but sometimes it was quite reliable. After the liquid was poured in, when the two of them woke up, their eyes returned to normal, they looked at Yun chujiu blankly. "Junior Sister Little Jiu, where is this place?"

Yun chujiu let out a sigh of relief, with a serious expression, she said, "We were sucked in by the vortex. Just now, you guys sucked in that black liquid and lost your consciousness. Later, if that kind of monster appears again, you must hold your breath, understand?"

Although the two of them didn't know that they had attacked Yun chujiu just now, they could guess a little bit. They looked ashamed and very uncomfortable.

An linchuan rubbed his eyes. "Eh? Junior Sister Jiu, why do I feel that my face is burning? Especially my eyes. It's so uncomfortable!"

Shangguan Hao also sneezed non-stop and said in confusion, "It seems like chili noodles. Why do we have chili noodles on our faces?"

Yun chujiu touched her nose and began to change the topic. "You can just rinse it with water. Let's quickly see what this place is."

After saying that, Yun chujiu started to look around. This was a stone room, and the floor was covered with green stone slabs engraved with the patterns of the spider lilies.

The surrounding walls were engraved with murals, and Yun Chujiu walked closer to take a closer look.

The main character in the painting was a man wearing a red mask. Although her face could not be seen, she could feel the domineering aura of looking down at the world.

The main idea of the painting was nothing more than singing praises and praising virtues, and it was extremely exaggerated, as if everything in the world was created by the red-masked man.

Yun chujiu curled her lips. Could This red-masked man be the Lord of the Divine Devil Temple? Did he think that he was Pangu and Nuwa? Ptui! Shameless!

Yun chujiu noticed in the painting that strange-looking demon beasts often appeared around the red-masked man. Some of them were on land, some in the ocean, and some with wings. Among them was the monster she saw in the Tianluo mystic realm last time.

Yun chujiu frowned. It seemed that the monster that she had killed last time was with the Master of the Divine Devil Temple, so why was it in the Tianluo Mystic Realm? Moreover, it seemed that it had been in the Tianluo mystic realm for a long time. It was really strange.

Yun chujiu found another monster with arms and legs in one of the pictures. It looked very similar to an octopus, except that it had a human face. It looked extremely strange.

Yun chujiu thought to herself, could this stone chamber be the nest of this monster?

Just as Yun Chujiu was thinking, the door of the stone chamber opened. A human-faced octopus that looked exactly like the monster in the picture crawled in.

Two of its arms and legs were broken. Yun chujiu thought to herself, looks like it was the one who attacked them at the bottom of the sea.

The human-faced octopus hissed a few times, then, it said, "Keke, it's a little girl like you who has ruined the good work of our Divine Devil Temple Time and time again? "Those humans are really useless. They actually let a good-for-nothing like you jump around. "However, it's really God's will. I met you when I went out hunting for the first time today. I can use you to make up for it."

“The first time?” Yun chujia thought to herself. No wonder the big bastard did not know about the existence of this monster. So today was its first time out. So the storm on the surface of the sea was also related to it? Her fate with the Divine Devil Temple was really not shallow. She could easily meet the Divine Devil Temple’s minions.
