

The Yun Family's Ninth Child is an Imp! Chapter 2872

An Linchuan and Shangguan Hao were no longer in the mood to eat or drink. The rise and fall of the world was the responsibility of the common people. If they couldn't stop the Yan clan's attack, the entire immortal essence continent would fall into a desperate situation.

Moreover, there was a divine Devil Hall watching them from the shadows.

The Immortal Essence Continent, which was supposed to be peaceful, was suddenly shrouded in a layer of shadow.

The three of them finished the meal and went to the courtyard that Yun Chujiu had bought before.

Uncle Li, Aunt Li, and the guards of the Ye family were all very excited when they saw Yun Chujiu. Yun chujiu asked about the situation briefly and then told Aunt Li to buy more ingredients and cook some dishes. She wanted to take them away.

Aunt Li and uncle Li immediately started to get busy. Yun chujiu took some time to look at the accounts that Liu Cai had reported to her, then, she said to an Linchuan and Shangguan Hao, who were frowning, "The general trend of the world will be divided after a long time. After a long time, it will be peaceful and prosperous. You Don't have to worry too much."

The two of them were not used to Yun Chujiu's serious tone.

An linchuan laughed dryly. "Junior Sister Jiu, you're right. "Actually, it's no use worrying about us. The sect master and the others are still up there. Although the Yan clan is difficult to deal with, they are far inferior to the demons. We can definitely chase them back to their nest."

The three of them chatted and laughed for a while, and their mood lightened up a little. Yun chujiu took out a pen and paper and began to design the knife cover for the large kitchen knife.

This fellow was murmuring in her heart as she drew. Sun Wukong's Golden Cudgel was still better. It would be fine if it was hidden in the eyes of the ear. She still had to make a knife cover for her large kitchen knife. It was really troublesome.

This fellow ridiculed and drew at the same time. In the end, he designed a small knife cover that could be hung at the waist.

When Aunt Li finished cooking, Yun Chujiu's big knife case was also freshly made. Rather than calling it a knife case, it was more like a Fanny Pack. Although it was a little cumbersome., it was still better than being stuck in a hopeless situation.

The guy put the big knife into his storage ring and hung it at his waist when he went out.

In the evening, Yun Chujiu and the other two arrived at the Hunyuan sect.

Yun Chujiu had already made a good argument with an Linchuan and the other two. The three of them had gone through a life and death test, so they still had basic trust in each other. Therefore, Yun Chujiu was more at ease with them.

After the three of them met with master baili, Yun Chujiu told them everything she could.

Master Baili was stunned when he heard that. He couldn't digest it for a moment, so he let the three of them go back to rest.

The next day, Master Baili gathered six peak masters and elders with experience. He called the three of them over and questioned them.

When everyone heard about the matter of the Divine Devil Hall, their mood became even heavier. Especially when they heard about the Succubus, they felt as if a storm was coming.

Although Yun Chujiu had found out the hiding places of a few of the devils, whether it was the Qiankun secret realm, the five-colored Relic Pagoda, or the Candle Sky Valley, they were all legends and had never appeared in the world, therefore, they couldn't get rid of the three demons for the time being.

After much discussion, they could only strengthen their defenses and inform the major forces. After all, the most important thing now was to deal with the Yan clan's attack.

Since the Yan clan was only wreaking havoc in the far west, the atmosphere in the Hunyuan sect was no different from usual.

After Yun Chujiu returned, the first thing she did was to be found by Mountain Master Zhuo of Tianji Peak. Her purpose was naturally to give the snow jade silkworm a month to live.
