

## The Yun Family's Ninth Child is an Imp! Chapter 300

The wolf king howled a few times. Yun Chujiu thought about it and finally understood what it meant.

The wolf king meant that it could escort her out of the desert, but it wanted the supreme-grade blood coagulation pills.

Yun Chujiu bargained with the wolf king and finally settled on two bottles of supreme-grade blood coagulation pills.

The wolf king chose eight strong silver wolves to escort Yun Chujiu. She did not know what fear and shamelessness meant. After she left the wolf king's sight, she would use a few supreme-grade blood coagulation pills as reward to get the silver wolves to take turns to be her mounts. She happily sat on the silver wolves' backs, humming a little tune as they travelled east.

When a certain realm spirit saw this scene, it was so angry that it almost vomited blood!

'I asked you to eat Yun Chujiu, not escort her and be her bodyguards!'

'You actually became her freaking mount!

'How can you wolves be so cheap?!

'You threw away your honor just for a couple pills?!'

The realm spirit's energy bounced around wildly, and in the end, a sinister smile appeared on its face.

'This little girl has many tricks up her sleeve. It seems that the demonic beasts can't deal with her, so I'll let her own kind deal with her.'

'Hmph! Humans are the most greedy and shameless, and during these so-called trials, they would they kill each other over a few spirit herbs.

'Yes, those few people who have a different attire from Yun Chujiu's are vicious. They will do it.'

Two days later, Yun Chujiu finally arrived at the edge of the desert under the escort of the eight silver wolves.

Yun Chujiu waved her small claws at the eight silver wolves, then continued hopping and walking toward the east.

There were some low shrubs growing sparsely at the edge of the desert. Occasionally, she could see some low-level demon beasts. Yun Chujiu felt that from then on, her trial path would return to normal.

However, she still felt that something was fishy! Did they not say that the highest level demon beast in this mystical realm was tier four? Why did she encounter a tier eight single-horned demon lizard, and then a group of tier five silver desert wolves?! Was it because she was unlucky or something?!

Hmph! If she knew who was scheming behind her back, she would not let him off!

A certain realm spirit sneezed twice and then continued scheming.

After passing the edge of the desert, there was a vast grassland.

Yun Chujiu looked at the green and was in a good mood. Suddenly, her eyes lit up and she ran toward a place.

"Mushroom ring! Haha, I'm so lucky! I can use it to stew the remaining red-feathered chicken in my storage ring."

Mushroom rings, as the name implied, were mysterious rings on the prairie. When one approached them, they would discover that they were formed by many delicious mushrooms.

Seeing the white and tender mushrooms, Yun Chujiu was so hungry that her saliva flowed out. She picked them in no time and put them into her storage ring.

Yun Chujiu was not in a hurry to start a fire to cook. Instead, she hastily ate a few buns and continued on her journey. She did not plan to spend the night in the prairie. If she encountered a demon beast at night, there would be nothing to hide in the prairie, so she was a little uncertain.

When the sun was about to set, Yun Chujiu finally walked out of the grassland and entered a valley.

Yun Chujiu climbed to the top of a big tree and looked at the surrounding terrain. She was very satisfied.

There were trees, flowers, gurgling streams, and some low-level demon beasts. They set up camp here and did not go anywhere! She would just wait for the trial to end and be teleported out! Besides, with the single-horned demon lizard's demon core, she was most definitely guaranteed first place!

Yun Chujiu found a hidden cave. The most peculiar thing was that Yun Chujiu found it behind the stone wall. It was probably created by the disciples from the previous trial. It was really a good place to plot against people.
