

## The Yun Family's Ninth Child is an Imp! Chapter 3070

Hei Xinjiu ran with her life on the line. When she couldn't run anymore, she let Xiao Hong out and rode on it.

Xiao Hong's fifth tail had already grown out, but it hadn't fully grown yet, so she didn't know what abilities it would gain.

However, its speed was much faster than before.

Ao Ji looked at the girl on top of the red fox in front of him and gritted his teeth in anger. He bit his finger and was about to cast a forbidden spell.

"Your Highness! You have already used a forbidden spell once before, you can not use it again! Although that Yun Chujiu is detestable, you do not need to use a forbidden spell! Moreover, the poisonous miasma area is ahead. She can not escape," the commander of the guards advised bitterly.

Ao Ji thought about it and agreed. Even if she couldn't catch up with her now, she couldn't run away from the poisonous miasma area in front of them.

Therefore, Ao Ji gave up the idea of using the forbidden spell and followed closely behind Hei Xinjiu.

Finally, hei xinjiu reached the edge of the poisonous miasma area.

"Yun Chujiu, the poisonous miasma area is in front of us. If you don't want to die, stop right now!" Ao ji shouted coldly.

Yun Chujiu jumped down from Xiao Hong, she curled her lips. "Ao ji, even if I die, I won't go back with you! We'll meet again! "Oh right, if you want to be the Yan clan's crown prince or the future Emperor Yan, then you can live peacefully with US humans. Otherwise, I'll kill you!"

Ao Ji was so angry that he laughed. “Yun Chujiu, I’m not joking with you. If you go into the poisonous miasma area ahead, you’ll definitely die. I can promise you that as long as you come back with me to the Crown Prince’s residence, I won’t kill you.”

“Who are you lying to? How can you not kill me? However, you should thank me. If it wasn’t for me, your royal family would still be restricted by the four great families.

“However, the power of a foreign relative is also a disaster. You are also stupid enough to dare to marry Princess Pian Pian.” Hei Xinjiu had already stepped into the miasma area with one foot, so she had nothing to fear.

Ao Ji had a complicated expression on his face. The reason why he sent troops to attack the human race was to get rid of the four great families’ suppression.

Yun chujiu had instigated the internal strife in the Yan clan, which had indirectly helped him to clear the obstacles. As for the external relatives, they were only worried about their mother. It would be easy for them to take care of King Ankang.

“Yun Chujiu, you are right. You have indirectly helped me. So, as long as you obediently follow me back to the Crown Prince’s residence, not only will I not kill you, I will also treat you well,” ao ji said somewhat anxiously.

Yun chujiu curled her lips. It would be a ghost if she believed him!

Yun chujiu smiled brightly at Ao ji. “Then thank you for your good intentions. However, I don’t like to be manipulated by others the most. So, Goodbye. I will never see you again!”

Yun Chujiu said that she was having fun. She slipped into the poisonous miasma area and disappeared in a moment.

Ao Ji did not expect that Yun chujiu would really dare to enter the poisonous miasma area. He subconsciously wanted to chase after her, but was stopped by the guards beside him. "Your Highness! You Can't go in! That is the poisonous miasma area! If you go in, you will die!"

Ao Ji stopped in his tracks dejectedly. Why did she still go in even though she knew that going in meant death? Was he so unworthy of her trust? He really did not intend to kill her!

Ao Ji was stunned for a while, and then a hint of ruthlessness flashed in his eyes. "Send a message to Mo Luan and imprison King Ankang."

"Your Highness, that Crown Princess Consort?"

"I did not complete the marriage ceremony with her, so what kind of crown princess consort is she? Imprison her as well!"

"Yes!"

..

Ao Ji stared at the poisonous miasma forest. Yun chujiu would not die just like that. She cherished her life the most, so how could she go in even though she knew she was going to die?

Yun Chujiu, I will catch you one day!
