

## The Yun Family's Ninth Child is an Imp! Chapter 3306

Empress Jiu's acting skills were online, and her script was reasonable. She quickly won the reputation of an emperor that had never been seen before in the history of the East Phoenix Country.

Even the old Prince felt that although this granddaughter of his had a lot of bad water, she was really the material to become an emperor.

Of course, the old Prince and the old princess took a long time to digest the fact that the originally kind and silly girl had become a little devil in their eyes.

Yun Chujiu felt that in her position, she had to do something useful.

Therefore, this guy worked hard for a few nights and produced a copy of the "East Phoenix Kingdom, Year Five, regulations, Plan". Simply put, it was how to put the spirit stones from the South Dragon Kingdom, West Tiger Kingdom, and North Xuan Kingdom into the pockets of the East Phoenix Kingdom.

Yun chujiu set up a department specifically for Yun Zhichen to be the leader. Then, she threw the plan at Yun Zhichen. "Fifth brother, don't say that I mistreated you. The opportunity for you to become rich is here."

Yun Zhichen saw the words on the cover and the corner of his eyes twitched. What the hell was this. ! When he saw your dog-like handwriting again, the corner of his eyes twitched even more.

However, when he saw the contents, he was immediately shocked. His voice trembled a little. "Your... Your Majesty, did you write this?"

Yun chujiu nodded calmly. "Fifth brother, the people are rich and the country is strong. Don't underestimate business."

Yun Zhichen nodded his head in agreement. Cultivation was originally a matter of burning money. Naturally, the more money the better.

“Also, don’t get too close to the Prince of Peace’s residence. Otherwise, when you ascend the throne in the future, I’m afraid there will be trouble for your relatives.” Yun Chujiu said.

Yun Zhichen nodded his head in a daze. He had long given up on the idea of the throne. From what little jiu meant, was she really going to give up the throne to him in the future?

With this understanding, Yun Zhichen put in a lot of effort in doing things. Soon, many shops appeared in east phoenix country like bamboo shoots after a rain.

In particular, a restaurant called Qian duo duo quickly opened to the other three countries, and business was abnormally booming.

Needless to say, the behind-the-scenes owner of this restaurant was naturally hei xinjiu. On one hand, she was doing it to earn money, and on the other hand, she was doing it to gather information. There was no place more convenient to gather information than a restaurant.

Seeing that everything was on the right track, Yun Chujiu began to get people to gather books on alchemy and talisman refinement. Then, she began to fiddle with alchemy and talisman refinement in the palace.

The imperial guards were in deep SH \* t!

Yun Chujiu was afraid that the smell of alchemy would cause unnecessary trouble. Therefore, every time the alchemy was completed, she would deliberately refine a batch of pills. Moreover, there were many medicinal herbs with a strong smell added to it.

Hence, every time this fellow finished refining the pills, the entire imperial palace would be filled with a sour and refreshing smell.

Hence, very quickly, there was a rumor in the four nations. The eastern Phoenix country's female emperor, Fenghua, liked to refine pills very much, but she was a useless pill refiner.

Yun chujiu was happy to see this happen. Everyone had their flaws. If she was too perfect, how would others live? !

Even so, the growing momentum of the East Feng Kingdom still made the other three kingdoms wary. They had originally thought that the East Feng Kingdom would suffer a great loss in their national strength after the successive internal conflicts, and they could take the opportunity to divide the territory of the East Feng Kingdom.

Later on, they heard that the East Feng Kingdom actually let a little girl become some sort of female emperor of Zephyr. They even despised her to death, thinking that the people of the East Feng Kingdom had most likely lost their minds.

Who would have thought that not only did the East Phoenix Country not weaken, it even became more and more powerful. At this rate, their three countries would be in a passive position.
