

## The Yun Family's Ninth Child is an Imp! Chapter 3337

Both the blood-sucking warblers and the crowd were stunned by Yun Chujiu's words!

What the F \* ck!

So that was her plan!

This guy was too mean!

Was she planning to take revenge? Moreover, not only did she want to win the competition, but she also wanted to abduct those 20 blood-sucking warblers?

What do you mean she would definitely release them? Who would believe it! There was no such thing as the Heart Demon Oath in towering sky continent. The heavenly lightning just now must have been a coincidence. After all, the talisman-making competition had also been struck by the Heavenly Lightning.

However, everyone felt that the blood-sucking warblers would not agree to it!

If they could simply trick the blood-sucking warblers into recognizing them as their masters, then they would not be blood-sucking warblers!

A contestant from Bei Xuan kingdom said disdainfully, "Bi Xuying, don't waste your energy! You are harming others without benefiting yourself! These blood-sucking warblers will never recognize you as their master, unless they have lost their minds!"

"That's right. They are not old, but they are full of evil thoughts. Just give up!" Another bei Xuan Kingdom's contestant echoed.

They hated this little girl to death. If not for her, they would have been able to control at least three blood-sucking warblers by now. Would she still want to kill them all? Dream On!

Bi Xuying ignored them, instead, she looked at the blood-sucking warblers on the withered tree with a smile. "Hey, this is your only chance to regain your freedom. Since you are all going to die anyway, why don't You Trust me this once? After all, I'm the only one who can feed you on this stage, right?"

The blood-sucking warblers flapped their wings restlessly and didn't know what to do at that moment.

At that moment, bi xuying sighed and said, "Forget it. It's not sweet to force things. Since you don't want to, then forget it! Anyway, what does it have to do with me if you're skinned and eaten? ! I'm just too kind!"

After saying this, Bi Xuying turned around and walked to the furthest corner from the withered tree, not even looking at the blood-sucking warblers.

The blood-sucking warblers were obviously more anxious. They started to chirp, as if they were discussing something. Then, they all flew towards Bi Xuying.

The three contestants from Bei Xuan Kingdom immediately showed gloating expressions. Those blood-sucking warblers were probably preparing to attack that stinky girl, and that stinky girl still wanted these blood-sucking warblers to recognize her as their master? How naive!

Who would have thought that not only did those blood-sucking warblers not attack bi xuying, but they even obediently established a temporary contract with that little girl, and then flew around that little girl like a hundred birds paying homage to the Phoenix.

Everyone was stunned by this unexpected turn of events!

They had previously treated it as a joke, thinking that those blood-sucking warblers would never be able to establish a temporary contract with that Bi Xuying, but now, it had actually succeeded?

So the beast taming technique could be used in this way? So it turned out that just a few snaps could contract the most unruly blood-sucking warblers?

Those referees and hosts were clearly dumbfounded too!

It wasn't until quite a while had passed since the end of the competition that they opened the enchantment and announced that East Phoenix Country had won the first place in the beast taming competition.

Yun Zhichen had experience this time. He nervously stared at prime minister Sima, in case the old man made any more shocking moves.

Unexpectedly, prime minister Sima's face was very calm. Yun zhichen heaved a sigh of relief. Prime Minister Sima was still relatively calm this time!

Just as he thought of this, he saw prime minister Sima faint with a choking sound!

Yun Zhichen: "..."

Alright, forget he said anything just now!
