

The Yun Family's Ninth Child is an Imp! Chapter 3356

Emperor Nan Xuan and the other two looked at each other. Was That Girl Crazy?

Although the flying spirit tool was relatively sturdy, it could not withstand the lightning strikes!

Although everyone thought so, they still boarded the flying spirit tool and followed from afar. They watched as the flying spirit tool wrapped in purple lightning flew up and down, nimbly dodging the lightning strikes.

Even so, the heavenly lightning was too dense, and the flying spirit tool finally fell to the ground like a kite with a broken string.

Prime Minister Sima cried out in alarm. Oh My God, would their majesty fall to her death?

At this moment, they saw Empress Jiu standing on a large chopping board and slowly landing on the ground.

As soon as she landed on the ground, Empress Jiu summoned another flying spirit tool. After climbing up, the flying spirit tool once again shot into the sky with a whoosh.

After fifteen minutes, the flying spirit tool once again fell to the ground. Empress Jiu once again sat on the chopping board and landed on the ground. Then, she summoned another flying spirit tool..

Emperor Nan Xuan and the others were dumbstruck when they saw this. Then, a thought emerged in their hearts at the same time. This girl really knew how to waste money!

A flying spirit tool was worth tens of millions of upper-grade spirit stones. In just a short period of time, she had already obtained hundreds of millions of upper-grade spirit stones.

Empress Jiu was also very helpless!

She didn't want to, Alright?

However, other than this method, she really couldn't think of a way to take a breather. Although it was a bit of a waste of money, it was her sister's fault for being rich!

However, this also allowed her to open the door to a new world. This flying spirit tool was much more resistant than ordinary defensive spirit tools! After returning, she urgently needed to do one thing, and that was to buy a flying spirit tool, a flying spirit tool, and a flying spirit tool..

Wu Yun in the sky was simply about to Puke!

Where did this smelly girl get so many flying spirit tools? She actually couldn't hack them off no matter how she hacked!

She had hacked so many people and demonic beasts, but she had never used so much effort! This damn smelly girl was really too difficult to deal with!

HMPH! She didn't believe that the flying spirit tool in her hand wouldn't be hacked off, we'll see!

Finally, Wu Yun was pleasantly surprised to find that after that wretched girl landed on the ground, she did not take out her flying spiritual weapon. Could it be that she had used it all up?

Wu Yun was overjoyed and continued to hack down!

Who would have thought that Yun chujiu would silently say to it, "Idiot! Little Sister wants to absorb some heavenly lightning to break through. Come on, Hack Me!"

Wu Yun was so angry that he couldn't take it anymore. After a series of bombardment, a huge pit appeared on the ground.

Emperor Nan Xuan and the others watched from afar, not daring to get close. This time, the girl was probably doomed! TSK TSK, they didn't expect to be struck to death just because they agreed to the marriage of the Crown Prince of the Jing Mu Kingdom. It was really tragic!

However, that girl was already dead, so why was the Heavenly Lightning still striking non-stop?

Soon, two hours passed. The crowd was stunned to find that a chopping board had flown out of the deep pit. who was sitting on it other than Yun Chujiu? !

Yun chujiu summoned her flying spiritual device again. After rolling and climbing up, the flying spiritual device disappeared into the horizon once again with a Whoosh..

Wu Yun was going crazy!

Why did she still have a flying spirit tool? Could it be that she sold flying spirit tools? She was so mad!

Therefore, after Hei Xinjiu destroyed a few flying spirit tools, she landed on the ground and was hacked. Then, she summoned her flying spirit tool again and entered it to regulate her breathing. After that, she landed on the ground and was hacked..
