

The Yun Family's Ninth Child is an Imp! Chapter 3358

"Your Majesty Fenghua, in half a day's time, we will be able to reach the border between the two countries. Everything is normal on the way here. It seems that you are overthinking things." Emperor Nan Xuan said sarcastically.

Yun chujiu glanced at him. "Your Majesty Nan Xuan, why do I hear that you are not being hunted down? Are you feeling a little regretful? I didn't expect that at your age, you would actually like to be hunted down."

Emperor Nan Xuan was so angry that he was twitching. Just as he was about to argue, a guard rushed over and said, "Your Majesties, there are more than a dozen flying spiritual artifacts approaching us."

Emperor Nan Xuan's head buzzed. He hurried to the window and looked outside.

As expected, there were more than a dozen flying spiritual artifacts approaching quickly.

The imperial court of the Jing Mu Kingdom must be the one who had so many flying spiritual artifacts. He was not naive enough to think that Emperor Mu Xuan had sent people to deliver them something. If he had really sent them something, why would he send so many people? Sending one flying spiritual artifact was enough!

Emperor Nan Xuan and the other two immediately broke out in a cold sweat. They could not help but look at Empress Jiu, who looked calm behind them. "Your Majesty Fenghua, look, what should we do?"

"What else can we do? Run! Run at full speed. We can stall for time. As long as we cross the border, we will be safe," Yun chujiu said calmly.

Emperor Nan Xuan and the other two didn't have any good ideas either. However, they were skeptical of Yun Chujiu's words that they would be safe once they crossed the border.

The people of the Jingmu Kingdom wouldn't care about the border. When the time came, they would definitely pursue and kill them.

While everyone was still in shock, they discovered that there were flying spiritual artifacts flying over from the front, left, and right. It was obvious that they had come prepared.

Emperor Nan Xuan and the other two had a buzzing sound in their heads. It was over! They were dead meat!

They glared at Yun chujiu fiercely. Damn it, they would not let this girl off even if they were ghosts! If it were not for her, they would not have fallen to such a state!

The voice of the crown prince, Jing Jiahong, came from one of the flying spirit tools. "Miss Yun, I still have something to discuss with you. Come out and meet me!"

Yun chujiu blinked her eyes and said helplessly, "Your Highness, we are fated but not fated. Why do we have to meet again? It's only sad to see you. It's better that we never see each other again."

"Miss Yun, you have to see me today! Father still has something to discuss with you. Come back to Jing City with me!" Jing Jiahong said coldly.

Yun chujiu knew that it was useless to talk anymore. She had to think of a way to escape.

The flying spiritual artifacts of the Jing Wood Kingdom were everywhere. At this moment, she could only land on the ground and think of a way.

Therefore, she ordered the guards, "Land quickly. As soon as the flying spiritual artifact lands, follow me and run for your lives!"

Emperor Nan Xuan and the other two had already regarded Yun chujiu as their backbone, so no one raised any objections. All of them prayed to the Gods and Buddhas in their hearts, hoping that they could escape this disaster.

The flying spiritual artifact was falling rapidly downward. Jing Jiahong and the others obviously didn't expect such a situation, so their reaction was half a beat slower.

When they landed, they only saw Yun Chujiu and the others running away.

Jing Jiahong sneered, "They are really desperate. After passing this grassland, they will find the spirit-extermimating valley. They can only enter but not leave. After all the living beings enter, they will only die!"

"Your Highness, should we continue to chase?"

"Yes! We will chase them all the way to the entrance of the spirit-extermimating valley!" Jing Jiahong said viciously.
