

The Yun Family's Ninth Child is an Imp! Chapter 3379

Jing Jiahong's face was very gloomy. He had really underestimated that female emperor of Zephyr!

After these few days, he had already confirmed that the leader of the four countries' Allied army stationed here was that female emperor of Zephyr, and that damned Yun Chujiu!

This B * TCH must have already planned to beat them at their own game. No wonder she didn't try her best to stop them when they were setting up the wet firewood.

They must have taken the antidote beforehand and climbed down from the cliff under the cover of the thick fog. That was how they caught them off guard.

Shang Liangxin saw that Jing Jiahong's expression was very ugly. He gathered his courage and said, "Your Highness, that female Emperor Fenghua is very cunning. W-what should we do next?"

Jing Jiahong gritted his teeth. "I will ask father to send more troops. Even if we have to pay a heavy price, we have to pass through this valley. That Yun chujiu may be cunning, but their talismans are limited. They can't last for more than a few days."

"Your Highness is wise! They definitely won't last more than a few days." Shang liangxin echoed.

..

As expected, two days later, another fifty thousand troops of the Jing Wood Kingdom rushed over.

Prime Minister Sima said with a sad face, "Your Majesty, we don't have many talismans left, and we don't have much chili and pepper noodles left. If the Jing Wood Kingdom attacks us, I'm afraid we won't be able to last much longer."

Yun Chujiu's brows were tightly knitted. She was already lucky to be able to hold on for so many days. Now that the Jingmu Kingdom army was pressing down on the border, if she couldn't think of any other way, she might really not be able to hold on.

The four-nation alliance army led by Emperor Nan Xuan and the others had already conquered three vassal states. She would have to hold on for at least half a month before she could receive reinforcements. However, how could she withstand the 90,000 troops of the Jingmu Kingdom?

It was obvious that the Jingmu Kingdom wanted to use their lives to attack. Not to mention that the four-nation alliance army was short of resources, even if they had enough talismans, they would not be able to stop the Jingmu Kingdom army.

Yun chujiu thought for a while, then gritted her teeth and said, "Throw all the talismans in your hands and the burning vines and firewood. No matter what, we have to stop their attack tonight."

Prime Minister Sima said with difficulty, "Your Majesty, I'm afraid this won't have any effect. At most, it can only delay them for a few hours."

"A few hours is enough for us to retreat from here. We can't defend this place anymore. Let's Retreat!" Yun Chujiu said in a deep voice.

"Retreat? Your Majesty, this is the easiest place to defend and the hardest place to attack. If we retreat, there won't be any terrain that is advantageous to us in the future."

Prime Minister Sima felt that Yun Chujiu had been too smart for her own good. Had she been scared silly by the army of the Jing Wood Kingdom?

"I have my own plans! Just do as I say." Yun Chujiu didn't explain further and directly gave the order.

Prime Minister Sima knew that their Emperor was a man of his word, so he could only pass the order down.

Thus, that night, when the army of the Jing Wood Kingdom attacked, the allied forces of the four countries didn't hold back anymore. They threw down wooden stones with talismans and burning branches and vines.

The Jing Wood Kingdom army was blocked at the entrance of the valley. Jing Jiahong had no choice but to ask the army to stop attacking. He sneered. He didn't believe that the four-nation alliance army could maintain such a strong defense until daybreak, they could definitely pass through the valley.

The next morning, although the valley was still filled with smoke, the visibility was much higher when the sun came out. Under Jing Jiahong's order, the Jing Wood Kingdom army began to attack the valley.

However, the crowd soon realized that something was wrong. Why were there no talismans on either side of the cliff?
