

## The Yun Family's Ninth Child is an Imp! Chapter 3451

Princess Zi Yue's gaze was infatuated as she looked at di beiming who was approaching her. She had never seen such an outstanding man, especially that kind of unapproachable aura. It made her very infatuated.

Even if this man already had a wife and children, she would still want him! As for his wife and this little B \* stard, she would just find an opportunity to kill them!

Although Princess Zi Yue was scheming evil thoughts in her heart., the words she said were very understanding. "This young master is really a coincidence. We meet again. Why don't we look for the ghost face orchid together? I have many people here, and I can help you look after your daughter."

Di beiming nodded slightly. Princess Zi Yue immediately let her subordinates carry little jiu, but di beiming said coldly, "No need."

Hei Xinjiu was quite satisfied with di Beiming's actions. If he dared to let others carry her, she would... cry for him to see!

"May I know how to address you, Young Master?" Princess Zi Yue asked shyly.

"My father's surname is Bei, and his name is Bei Yu. He's a big fish! It's the kind of fish that can be eaten! But if you don't eat it well, you'll get fishy all over!" Little Jiu said softly.

Di Beiming's face stiffened, and he tightened his grip on Hei Xinjiu.

Princess Zi Yue felt that the little girl's words had a hidden meaning, and there was a hint of mockery in them. She could not help but feel angry in her heart, and there was a trace of viciousness in her eyes as she looked at little nine, it would be better to find an opportunity to kill this little B \* Stard in this Youlan Valley, so as to avoid ruining her good deed.

Even so, she still said with a slightly red face, “Young Master bei, ghost face orchids usually live in dark and damp places. We’ve found ghost face orchids not far ahead, let’s go and take a look.”

Di beiming hummed and followed Princess Zi Yue and the others.

After walking for about two hours, they came to a shrub.

This place was close to a stream, and there were many withered branches and leaves under the low shrub. This was the most suitable place for ghost face orchids to grow.

Hei Xinjiu was puzzled. Didn’t Princess Zi Yue say that she had a treasure to look for ghost face orchids? What kind of treasure was it?

Just as Hei Xinjiu was puzzled, Princess Zi Yue took out a bead that was emitting a faint blue light. Princess Zi Yue explained,

“Young Master bei, the ghost face orchid is the best at disguising itself. It’s very difficult to be discovered by others. However, the blue light emitted by the orchid bead in my hand can easily discover the ghost face orchid.”

Di beiming nodded indifferently and did not say anything.

Princess Zi Yue was slightly disappointed. This young master Bei was too cold. It was probably because of the little bastard in his arms. He really deserved to die!

Princess Zi Yue held the orchid pearl in her hand and searched through the bushes. Unfortunately, she did not find anything.

Someone sighed, "This ghost face orchid is getting harder and harder to find. Could it be that I have to return empty-handed again?"

"Yeah, it's been many years since we've found any traces of ghost face orchids. What the hell! Where did those ghost face orchids go?"

..

Princess Zi Yue heard her subordinates' complaints and coughed unhappily. Everyone immediately fell silent.

"Let's go to the ghost cave and try our luck. Maybe we'll find something there," Princess Zi Yue said as she glanced at little nine in di Beiming's arms.

Immediately, an elderly woman advised, "Princess, the Ghost Cave is extremely dangerous. Although the ghost face orchid is precious, it's not worth the risk. Let's just forget about it!"

Princess Zi Yue said unhappily, "Granny Liu, I've made up my mind. You Don't have to say it."
