

## The Yun Family's Ninth Child is an Imp! Chapter 533

The two of them walked for some distance, and Yun Chujiu smelled a strong fishy smell. Yun Chujiu secretly cursed in her heart. 'This Purple-striped Venomous Python is the same as the Fire Dragon in the fire cave. Both of them are unhygienic and smell disgusting!'

After some distance, there was indeed a huge array disk in front of them. Next to the array disk was a Purple-striped Venomous Python that was hundreds of feet long. When it saw Gold Face, it spat out a bright red core at him.

The Tier Nine spirit beast already had intelligence. Gold Face cupped his fists at the python. "Brother Python, the alliance leader sent me to check on the formation plate. I wonder if everything is normal?"

The python's eyes revealed a trace of disdain as it nodded its huge head.

"Brother Python, I think that with you guarding, no one would dare to come in and cause trouble. I have some fresh demon beast corpses here. Come over and I'll feed them to you so as not to dirty the formation plate." Gold Face took out the wind blade deer's corpse from his storage ring.

The striped python revealed a trace of arrogance as it quickly swam over and swallowed the wind blade deer's corpse!

Yun Chujiu took advantage of the opportunity and leaped up while the Purple-striped Venomous Python was eating the wind blade deer, heading straight for the disk array!

The python felt a wave of spiritual energy fluctuations and its vertical pupils revealed a trace of doubt. Gold Face hurriedly threw the demon beast's corpse out continuously. The python's huge head looked around and saw that there was nothing unusual. Then, it continued devouring the demon beast's corpse.

Yun Chujiu jumped to the front of the formation plate and sized up the situation. This formation plate was the size of a millstone, and there were hundreds of high-grade Spirit Stones in the middle groove. She was very willing to kill the leader of the alliance for it!

It was too late to dig out the formation plate, so she could only destroy it violently!

Yun Chujiu did not care about whether or not she would expose herself. She raised her right hand and struck the formation plate with lightning!

Both the python and Gold Face were shocked!

Gold Face thought to himself, he did not expect the little girl to have Lightning Root Spirit! The information he gathered did not contain anything about the little girl's root spirit, and she had never used her spiritual power to attack in front of outsiders. This little girl's thoughts were really profound.

However, why was the lightning struck by the little girl purple? Should it not be silver?

The python was startled at first. Was there lightning in the sky?

However, it quickly reacted. There was a cave wall blocking it, so it was impossible for lightning to strike! That meant that someone was destroying the disk array!

The Purple-striped Venomous Python flew into a rage out of humiliation. It spat out a large mouthful of poisonous fog at the gold-masked man. Although the gold-masked man was already prepared and held his mouth and nose, he still inhaled a little. Immediately, he felt nauseous and dizzy.

Fortunately, the Purple-striped Venomous Python was in a hurry to stop Yun Chujiu who was destroying the disk array and did not continue to attack the man with the gold mask. Otherwise, he would definitely lose his life.

Although the python could not see Yun Chujiu, it used its huge tail to sweep around the disk array!

Yun Chujiu hurriedly dodged. The Purple-striped Venomous Python smelled an unusual smell and spat out a large mouthful of poisonous mist toward Yun Chujiu's direction!

The purple-striped poisonous python swept its huge tail around wildly. No matter who it was, they would not be able to escape this python's poisonous mist. Prepare to die!

At this moment, the gold-masked man who had slightly recovered could not help but feel his heart tighten. It was over. With such a huge mouthful of poisonous mist, the little girl definitely would not be able to dodge it. He had just inhaled a little bit of it and already felt dizzy and weak. This time, the little girl would not be able to keep her life!
