

The Yun Family's Ninth Child is an Imp! Chapter 692

An Feng took off their storage rings and scanned them with his spiritual sense. He did not expect to find so many Spirit Stones in them. It seems that they had taken advantage of many others in similar situations before.

Yun Chujiu sucked the poison from the vines. 'Damn plant! You wanted to suck out all my spiritual power? I'll turn the tables and suck you dry instead! Let's see how you harm others after this!'

That Spirit Sapping Vine was really unlucky!

Although they were demonic plants, their spiritual power level was not that high and they could not move their bodies. They could only watch helplessly as Yun Chujiu sucked out the poison in their vines.

An Feng, who was watching from the side, clicked his tongue. The heavenly spirit root was indeed different from ordinary people. Whether the Spirit Sapping Vine's juice was poisonous or not was another matter. However, wasn't Miss Jiu's stomach tolerating it too well?! How many vines had she sucked already, yet she still had no intention of stopping?!

It was not until the sun set that Yun Chujiu finished sucking all the Spirit Sapping Vines poison into her stomach. The Spirit Sapping Vines withered without the poison, but they did not die. It would just take some time before they could replenish the poison again.

Yun Chujiu originally planned to burn down the forest, but on second thought, since this place had existed for thousands of years, it had a reason for existing. If she burned it down, it might upset the balance here. Forget it, let them live.

"Little Madman, let's go! There's no one here. I'll call you that from now on in case I slip up. You should also call me Young Master."

"Yes, Young Master!"

An Feng resigned himself to his fate and followed Yun Chujiu out of the Spirit Sapping Vine forest. 'Little Madman... It was better than that flower's name. In comparison, Little Madman was not too bad, right?!'

Outside the Spirit Sapping Vine forest was a valley. Under the moonlight, it looked somewhat hazy and beautiful. However, after Yun Chujiu and An Feng went through the Spirit Sapping Vine forest, they became even more cautious. These Chimeric Plains were full of hidden dangers, they had to be ready for the unexpected.

The two of them took turns to be on night watch duty. Yun Chujiu was on duty in the first half of the night, and An Feng the second half. Yun Chujiu also put the Three Silly Munchkins on night duty. Extra sets of eyes always helped.

Sure enough, Yun Chujiu had just fallen asleep in a daze for a short while when An Feng shouted, "Young master, there are demonic beasts coming."

Yun Chujiu opened her eyes and saw a group of dark things crawling over from afar.

"Little Madman, what the hell are those things?" Yun Chujiu thought to herself. Fortunately, she did not have a fear of crawling things, or else she would have vomited.

"They don't look like demonic beasts, but demonic insects! Although the level of these demonic insects' spiritual power is not too high, there are a lot of them. If things look bad, we should get on our swords and escape."

Yun Chujiu nodded. When she got closer, she realized that it was a large group of Poison Hook Centipedes.

These Poison Hook Centipedes were different from ordinary centipedes. Each of their legs were like iron hooks which could inject lethal venom into their victims. Once their skin was pierced by the Poison Hook Centipedes, they would die on the spot.

Little Black Bird was immediately happy. "Master! This is my specialty! Leave it to me, I will immediately get rid of these stinking pests!"

Yun Chujiu let Little Black Bird out and yawned. "Alright! I'll leave it to you then. I'll go back to sleep, I'm so sleepy!"

Yun Chujiu lay down again and closed her eyes.

An Feng was dumbfounded. Miss Jiu, are you that sleepy?!

Although Little Black Bird was quite powerful, there were at hundreds of Poison Hook Centipedes in this group. No matter how powerful Little Black Bird was, he couldn't kill so many of them!

"Little Madman, step aside and watch me!" Little Black Bird said to An Feng.
