

The Yun Family's Ninth Child is an Imp! Chapter 705

Yun Chujiu was afraid that she would attract other demonic beasts, so she quickly stopped strange grass from releasing its scent.

The Scarlet Poison Frog suddenly became aware. It realized that it was far away from the ice lake. It did not have the time to attack Yun Chujiu, so it turned around and ran back.

“Little brat! Since I got you out, you still want to run? Dream on! You unethically ugly monster! Is that ice lake yours? You actually took over the public waters. You’re absolutely shameless!” Yun Chujiu said as she fired several bolts of lightning at the frog.

It was startled by the purple lightning, but its eyes immediately revealed a vicious glint. ‘A second level spirit cultivator actually tried to kill me. That’s just wishful thinking! Even if I’m not used to the climate of the ice plains, I can still kill you without a problem.’

The Scarlet Poison Frog shot out its poisonous arrow again. Its poisonous arrow did not come from its mouth, but from the bumps on its body, which were filled with poison.

On one hand, the Scarlet Poison Frog used its poisonous arrow to attack Yun Chujiu, and on the other hand, it stretched out its huge tongue, wanting to swallow Yun Chujiu directly into its stomach.

“Little Madman, you don’t have to help me first. If I can’t deal with it, you can attack! If its poisonous arrows hurt you, you’ll be in trouble.” An Feng wanted to help, but Yun Chujiu quickly stopped him.

Although the Scarlet Poison Frog was equivalent to a human at the sixth level of the Spirit Emperor realm, it was not used to the cold weather. At most, it could only display the third level of the Spirit Emperor realm. She could still defeat it if she gave it her all.

Yun Chujiu dodged the poison arrow and the Scarlet Poison Frog's tongue while using lightning to strike its body. What made her depressed was that the Scarlet Poison Frog's skin and flesh were extremely tough—even though a few heavenly lightning bolts had struck it, only a shallow trace was left behind.

Yun Chujiu frowned. If this continued, it would be extremely disadvantageous to her. The Scarlet Poison Frog basically did not expend much energy and was able to force her to dodge in all directions. As time passed, her physical strength would be exhausted.

She did not know what was the Scarlet Poison Frog's weakness. Could it also be its behind? However, it was too difficult to attack its behind. She might as well try attacking its eyes.

As Yun Chujiu thought of this, she struck the Scarlet Poison Frog's eyes with lightning. The Scarlet Poison Frog hurriedly dodged. Yun Chujiu was delighted. It seemed that the eyes were indeed the weakest part of the Scarlet Poison Frog's body. Therefore, she focused her attack on the eyes of the Scarlet Poison Frog.

The Scarlet Poison Frog was very angry. This human seemed to only have the spiritual power of the second level of the Spirit Cultivator realm. Why could he persist for so long without being defeated? It was really detestable!

The Scarlet Poison Frog suddenly opened its mouth and spat out a large amount of poisonous fog!

It was very proud. This was its trump card. There was once a purple-ringed double-eyed flood dragon that was about the same level as it in the ice lake. In the end, it relied on this poisonous fog to kill it. This little human was bound to die. The area of the poisonous fog was very large. Even if he could hide, he would not be able to escape.

As expected, Yun Chujiu inhaled a bit of the poisonous fog. However, the strange grass in her Dantian immediately swallowed the poison. Moreover, it urged Yun Chujiu to absorb more. It was a good thing. This herb loved these delicious poisons the most!

When the Scarlet Poison Frog saw that the human in front of it was not dead but was still breathing in the poisonous fog, as if he was eating something delicious, it was instantly dumbfounded!

While the Scarlet Poison Frog was still in a daze, Yun Chujiu struck its eyes with lightning.
