

The Yun Family's Ninth Child is an Imp! Chapter 765

Lu Ji pursed her lips. "Six to ten hours of lightning strikes? Little Girl, aren't you exaggerating a little too much?! Not to mention six to ten hours, even if you can withstand two hours of repeated lightning strikes, it's already inhuman."

Yun Chujiu glanced at her. "HMPH! It's up to you whether you believe it or not! With you like this, it's good that you don't need me to bring you out. Otherwise, you'll end up embarrassing me."

"You little!" Lu Ji wanted to turn against her, but when she saw Yun Chujiu hit the stone next to her with a bolt of lightning, her aura immediately became a little weaker.

"Forget it! If you're willing to come with me, I'll bring you out. If you're not, then forget it. Although I'm kind-hearted, I'm not crazy! If it weren't for uncle Zhu Hao being reluctant to abandon the friendship between the two of you, do you think I'd be willing to bring you out? Uncle Zhu Hao, forget it. Since they don't appreciate my kindness, I'll just bring you out alone. It'll save me from being struck by more Heavenly Lightning," Yun Chujiu took back the green jade porcelain bottle in Fu Ao's hand, then she pretended to leave.

"Little girl, Lu Ji has always been a person who speaks without thinking! If she doesn't believe me, I'll believe for her! Don't blame us for being too cautious. After all, this is life and death for us. We must be more cautious.

"If we stay in this sword tomb, even though it's equivalent to waiting for death, we won't have a problem holding on for another few thousand years. However, if we go out with you, we might be struck to death by Heavenly Lightning. Tell me, can we not consider it carefully?" Fu Ao lowered his posture and explained patiently.

"Hmm, what you said is reasonable. Let me put it bluntly. Whether it's the great void soul-repairing formation or whether your original bodies exist, it's hard to say. Moreover, even if they do exist, I might not be able to get them. Therefore, if you go out with me, you'll be taking on a great risk. Whether you want to stay here until your last breath or fight with dignity and hope, it depends on your choice." Yun Chujiu told them the pros and cons without reservations, then took out a spirit fruit and started to chew on it.

Fu Ao and the other two looked at each other. It was too difficult to choose.

Zhu Hao gritted his teeth. "Damn it! I've been trapped here for tens of thousands of years. What's the difference between living and dying?! I can't eat or drink. There's nothing here except these broken spirit tools. I don't know about the rest of you but I've decided to follow the little girl out."

Lu Ji glanced at Di Beiming and then at Xue Wuji who had a wicked smile on her face. She stomped her feet and said, "I'm going too! I can't even... Enjoy things without my body. It's boring to live like this!"

Yun Chujiu staggered. This big sister was bold. Her goals were too bold and avant-garde!

Fu Ao and Ji Lu looked at each other. "Since both of them have agreed, we're willing to go out with you. However, not all of our men are willing to go with us. We need to ask for their opinion."

Yun Chujiu nodded. "Of course. We will wait for your news here."

Fu Ao and the other three nodded and dispersed.

The people who were fighting with the remnant souls were suddenly enveloped in the black fog. They had no choice but to temporarily stop their attacks. Taking advantage of this opportunity, Fu Ao and the other three gathered their remnant soul followers and told them about what had happened.

The remnant souls immediately exploded into discussion. Some were willing to go with them, while others were willing to stay, at this time, Ji Lu sneered and said, "Do you think you can hold off wave after wave of cultivators if you stayed? In the end, you will still die.. Why don't you follow us and fight together?"
