

The Yun Family's Ninth Child is an Imp! Chapter 766

Zhu Hao and Lu Ji were puzzled. Ji Lu rarely expressed his opinion, so why was he acting so strangely this time?

Fu Ao was a meticulous person. He knew what Ji Lu was planning with just a little thought. If all the remnant souls followed the little girl out, the spirit tools here would naturally have to be taken away. If a portion of the remnant souls were left behind, the spirit tools would not be able to be taken away. This old man was the most greedy, he probably could not bear to part with those spirit tools.

The remnant souls were already wavering. After hearing what Ji Lu said, they agreed to go out with him.

Fu Ao and the other three saw that everyone had agreed, so they came to see Yun Chujiu.

“Little girl, all the remnant souls agreed to go with you. What do you think we should do next?” Fu Ao asked Yun Chujiu.

“We only need to do two things well. First, the fewer people who know about you going out with me, the better. It's best if we can think of a way to cover our tracks. Second, the spirit tools here are essential to your future. Naturally, you have to bring them with you. We have to think of a way to collect all the spirit tools,” Yun Chujiu said with a smile.

When the four of them, especially Ji Lu, heard the hidden meaning in Yun Chujiu's words, he said that these spirit tools were left to them in the future. They were very excited. They thought that Yun Chujiu would blackmail them and take at least half of the spirit tools! This little girl was really kind-hearted.

How would they know that Yun Chujiu had always been the type who would sell you and let you help count the money? If she did not want it now, it meant that she did not want it in the future. Moreover, when they were outside, it was not up to her to decide. They could do whatever they wanted!

These remnant souls had been stuck there for a long time, so they naturally became a little naive.

“The second thing is easy. We know where the spiritual artifacts are hiding. You just need to follow us and put them away. As for the first thing, it’s not easy. If we hide in the jade bottle, they will notice that something’s strange,” Fu Ao said with a frown.

“What are you trapping them in now?” Yun Chujiu pointed at the black fog in the distance.

“That’s the black fog that we created with our feelings of resentment and obsession. However, it won’t last for long. At most, it will last for four hours.”

Yun Chujiu rolled her eyes. “After the black fog has dispersed, you can tell the remnant souls how to resist it. The four of you will lead us to the innermost part of the tomb to collect spirit tools. It will probably take a few days to collect most of them. Let them pick up the rest.

“When the ancient sword tomb is about to close, they will naturally have to leave. This place is at least five days away from the exit. When the time comes, I will find an opportunity to return and take you away.”

Fu Ao and the other three did not have a better idea, so they could only agree with Yun Chujiu’s idea.

The four of them brought Yun Chujiu and the others to a place where the cultivators could not see them and began to pick up the spirit tools.

There was no need to search. These remnant souls had stayed here for tens of thousands of years and knew the locations of the spirit tools like the back of their hands. Regardless of whether it was a spirit tool or an immortal tool, none of them were fully hidden from the souls.

Ji Lu was afraid that these spirit tools would be seized by Di Beiming and the others, so he stated that they had to be kept in Yun Chujiu’s storage ring.

Although the spirit tools didn't like Yun Chujiu, with the remnant souls at her side, they stated that Yun Chujiu was temporarily keeping them and not making them acknowledge her as their master. That was why Yun Chujiu reluctantly kept these spirit tools into her storage ring.

Yun Chujiu was very excited at first. Her mind was filled with the words "I'm Rich". Later, she became numb. Looking at these spirit tools was like looking at cabbages!

"By the way, I heard that the Divine Weapon, the Divine God Axe, once appeared here. Is it still here now?" Yun Chujiu asked curiously.
