

The Yun Family's Ninth Child is an Imp! Chapter 825

The man continued, "But it doesn't matter. Lord Goldface said that there will soon be a good opportunity to weaken the powers of the various factions in the Azure Mystic Continent. When that time comes, it will be our chance to move from behind the scenes to the front.

"When that time comes, we will find the Eye of the Earth. Hahaha! Our master will bring us to become Gods and leave this lowly realm."

"What opportunity?"

"Lord Goldface did not say, but Lord Goldface said that it will be here soon."

Yun Chujiu was shocked. It seemed that she had to tell Master Xuanyuan and the others this news as soon as possible. Otherwise, if what the silver-masked emissary said was true, something big would definitely happen to the Azure Mystic Continent.

Seeing that she could not get any other useful information, Yun Chujiu took out a blood coagulation pill and two sleeping pills and stuffed them into the man's mouth.

Yun Chujiu took out two more voice transmission talismans and briefly told Di Beiming about the information she had obtained from the silver-masked emissary. She asked him to think of a way to pass the information to Master Xuanyuan.

A moment later, the voice transmission talisman began to tremble. "Little Jiu, I've already told my subordinates to inform Master Xuanyuan of the news. Don't stay in Wanghai City anymore, just in case the golden-masked man takes revenge on you. Return to Spirit Radiance Sect today and we will meet halfway."

After Yun Chujiu replied to Di Beiming, she then withdrew the isolation array.

“Young hero, the people in front have been subdued. Now, the Yongxing Trading Company is under our control.” Yu Hai and his men had already ended the battle.

Yun Chujiu nodded. “There might be some things that you guys don’t know. In short, the power behind this silver-masked emissary is very large. If you guys are afraid of taking revenge, split the assets of the Yongxing Trading Company and then think of your own ways out.”

Everyone immediately began to discuss. However, from their point of view, as long as there were Spirit Stones, it would be fine. It would be the same no matter where they went. At most, they could just had to plan further ahead.

Yun Chujiu continued, “The matter of the distribution of assets will be handled by Yu Hai. You guys finish discussing as soon as possible and divide it before dawn tomorrow. I’ll leave after you guys are done dividing it.”

Everyone agreed and quickly got busy. It was easy to talk about Spirit Stones, but it would be troublesome to divide some physical objects. Fortunately, Yu Hai was a straightforward person and did not care too much about it. He cut the Gordian knot and dealt with all the assets before dawn.

Seeing that the assets had been divided, Yun Chujiu planned to leave Wanghai City. Unexpectedly, Yu Hai and a dozen others knelt on the ground and said, “Young hero, we are willing to follow you in the future. Please accept us!”

Yu Hai and those people had already discussed in private that if they found a place to live in seclusion, they would end up like this for the rest of their lives. Although their spiritual power was not bad, there was no hope for them to ascend. Moreover, it was really cowardly to live like this for the rest of their lives.

Although this Shi Ling was not old, he hid his abilities well and was also a righteous person.

Back in the Endless Sea, he could have simply left without caring about them. However, he had saved their lives. After he killed the owner of the Yongxing Trading Company, he could also completely leave without caring about whether or not they would suffer revenge. However, he had considered things very carefully for them.

If they were to join him, he would definitely not mistreat them. Moreover, he would lead them to do something great.

Yun Chujiu did not expect Yu Hai and the others to do such a thing. She touched her nose and said, "Everyone, thank you for your kindness. However, I will be going forth alone now. I'm afraid that I will only hamper your future."

"Young hero, if you had not saved us, would we be able to even talk about our future? Please accept us and let us do our best for you."

Yun Chujiu saw the sincerity in everyone's words and could only nod. "Alright, since that's the case, then you guys can leave with me."

This fellow secretly thought that it was not bad to accept them. In the future, she would also create a sect or something. That old witch had always despised her family background. When that time came, she would definitely blind her titanium snobbery!
