

The Yun Family's Ninth Child is an Imp! Chapter 862

Even after many years, the cultivators who were trapped there would still remember the beautiful scene they saw that day. They remembered the smile on the young girl's face, the one like a breeze that blew away the fear, decadence, and despair in their hearts.

Ever since they were trapped in the Western Elixir valley, their confidence had gradually eroded. They were even prepared to be trapped here for a lifetime or even die. They did not expect that just a smile would restore their confidence. The arrival of the young girl, just like the rising sun behind her, rekindled their hope.

After the young girl approached, the Yun siblings rushed over. "Little Jiu?! It's Little Jiu!"

"Little Jiu, why are you here?! You're fine, that's great!"

"Little Jiu, how did you become so beautiful?"

...

Feng Ming and the others also surrounded her. "Junior Sister Little Jiu, is it you? I thought our eyes were playing tricks on us! You've escaped from the ancient sword tomb?! I knew it! I told everyone how could that little evildoer die so easily!"

After they chatted for a while, Yun Chujiu said with a smile, "Tell me about how you were trapped! Little Bun, come here and be my chair!"

The Leopard King, who was slowly walking the other way and was about to secretly escape, trembled and had no choice but to trot over. It lay prostrate on the ground and sadly became Yun Chujiu's chair.

“Junior sister Xiao Jiu, this... this is a level eight Ironhide Leopard. Eh? The fur of the Ironhide Leopard is not usually like this. How did it end up looking like this?” Feng Ming asked curiously.

The Leopard King felt that it had been hit by a heart attack!

F*ck!

This little brat really opened up a can of worms!

‘If it wasn’t due to my lack of strength, I would fight you to the death! Leopards can be killed but not humiliated!’

“Hehe, this is a new outfit I designed for them. Isn’t it pretty?!” Yun Chujiu felt much more relieved when she saw that the Yun siblings and Feng Ming were safe and sound.

Only then did Feng Ming realize that those black spots weren’t spots at all! It turned out that they were scorch marks from lightning strikes! Feng Ming silently sympathized with the leopards in his heart. Meeting Junior Sister Little Jiu was the greatest misfortune of your lives!

Feng Ming told them what had happened. When they initially entered, they saw the medicinal plants all over the ground. Naturally, they were elated and excitedly harvested them.

However, after a month had passed, they tragically discovered that they had not been automatically sent out at all.

Everyone had no way to escape and had dispelled their previous prejudices. All the people from the various factions had gathered to think of a solution, but they still had no way out.

Later on, when some people came in to investigate what had happened, they also ended up trapped here.

At first, they had held on to the hope of finding the exit and enchantment barrier, but after countless disappointments, the hope turned into despair. They had given up on the search and gathered together to resign themselves to their fate.

Yun Chujiu nodded after listening. "Everyone, don't give up. There will definitely be a solution to this predicament."

Just as Yun Chujiu finished her sentence, a few scattered and disdainful voices sounded. "TSK! Do you think you are that great?! There are so many of us here, but we still couldn't find a way out. What makes you, who just go in, think you can?"

"Hmph! Some people are lucky enough to succeed once and think they are amazing! There might not have been anything wrong in the ancient sword tomb and spread exaggerated rumors instead!"

"That's right, you think of yourself as a prodigy! No matter how powerful you are, aren't you only at the fifth level of the Spirit Emperor Realm?! You can't even enter this place at that level!"

...

Of the majority of the people who escaped from the ancient sword tomb, there were only a few at the level of the Spirit Emperor realm. Only about twenty people among the people in the Elixir Valley had seen Yun Chujiu's abnormal abilities, so the remaining few thousand people were naturally suspicious of Yun Chujiu.
