

The Yun Family's Ninth Child is an Imp! Chapter 890

Yun Chujiu quickly ran to the spot where the Golden Tortoise had bounced against. She threw a bolt of lightning in front of her, and sure enough, her spiritual power attack hit something.

“Haha, Haha!” She laughed so hard that she fell back and forth. “Blessed people don’t need to be busy. I didn’t expect that I would find the enchantment with just one kick. My Little Jiu’s shadowless kick is too cool!”

There were dozens of onlookers nearby. They stared at each other. How could things work like this?!

Damn it! They had been searching for the enchantment for months without finding anything. The Little Shell found it with one kick from the Little Devil?! Were the heavens bullying them because they were uneducated?! This was too f*cking unfair!

“Little Sister Little Jiu, you are so awesome! You are the person that I admire the most!” Xue Wuji immediately began to flatter her.

Yun Chujiu was laughing so hard that she could not close her mouth, but she still pretended to be modest. “I’m just so-so, so-so, so-so.”

Di Beiming was calculating in his heart. No matter what, he had to find something for Xue Wuji to do after leaving the enchantment. He was getting annoying.

“Everyone, quickly call back those people and beasts. Let’s discuss how to break the enchantment and seize the moment,” Di Beiming said to those onlookers and beasts.

The crowd and the beasts immediately went to deliver the message happily. Not long after, the others rushed back at the fastest speed in their lives!

“Little Jiu, did you really find the enchantment? How did you find it? I heard that it involved kicking a tortoise? What happened?” Elder Qu asked anxiously.

“Hehe, I’m the kindest person. I saw that this Golden Tortoise crawled too slowly, so I used my Little Jiu’s Shadowless Kick to send it off. Then, Hehe, it coincidentally bumped into the enchantment and bounced against it.” The corner of Yun Chujiu’s mouth was so proud that it could not be hidden, she felt that this matter could be bragged about for years.

Everyone and the other beasts listened to Yun Chujiu’s story and were also dumbfounded. The difference between the abilities of humans was too big! It was really a blow to regular people!

However, they were more concerned about how to break the enchantment. They were already going crazy being trapped here for so long. Moreover, the Godly Devil Hall might have already made a move outside. Almost half of the high-level cultivators of the Azure Mystic Continent were trapped here, if the Godly Devil Hall made a move now, things would be dire.

After Yun Chujiu divided everyone into groups, they began to take turns attacking the barrier.

Yun Chujiu also released the demonic beasts of the West Valley and asked them to help attack the enchantment together. She also warned those high-level demonic beasts not to hurt them, or they would be struck by lightning to their death.

Those high-level demonic beasts had already eaten their fill. Naturally, they would not be so stupid as to openly defy Yun Chujiu, this Little Devil. They let out a few roars as a sign of agreement.

This enchantment was much stronger than the ancient sword tomb’s. This was because the ancient sword tomb’s enchantment had been greatly depleted by the Wu Yun there expending much of its energy. However, the spiritual energy here was abundant. Fortunately, there were many cultivators and demon beasts. They could replenish their spiritual energy by taking turns to attack.

However, cultivators could take fasting pills and food. Those demon beasts, however, did not have a reliable food source. They could only stare and starve. Even their attacks were not as fierce as before.

Yun Chujiu thought for a moment, and she painfully took out a lot of low-level demonic beast corpses from the Great Void Mystic Realm and fed those demonic beasts. She thought to herself, 'When I get out of here, I'll have to earn back twice as much of these things, or else I'll suffer a huge loss.'

Everyone was busy attacking the enchantment, so they did not pay much attention to Yun Chujiu's actions. Even if they saw it, they thought that these demonic beast corpses were collected by Yun Chujiu during the trial. They thought to themselves, 'this Yun Chujiu is really greedy...' She even collected the corpses of these low-level demonic beasts. She does not waste anything at all.
