

The Yun Family's Ninth Child is an Imp! Chapter 891

Everyone and the demonic beasts kept up the attacks for a full ten days. Although there were ripples on the barrier, there were no signs of cracks. However, everyone had little spiritual power left. Although they could take turns to rest, they had been using up their spiritual power faster than the rate at which they could recover.

Everyone was a little discouraged. After all, this was an ancient formation. How could it be so easy to break the barrier? Previously, in the ancient sword tomb, it was because the rune spirit had fallen for Yun Chujiu's trick. That was why they had taken advantage of it. This time, they were afraid that they would not be able to escape using the same method.

"Everyone, don't be discouraged! Take out all the spirit-gathering pills and explosive spirit pills in your storage rings and consume them. If there are any medicinal herbs, pass them to me and a few alchemists. We will immediately start refining pills for you. You must persevere, or else all your previous efforts will be wasted! The spring breeze blows and the war drums beat. Who have we ever been afraid of? Everyone, charge!" Yun Chujiu took out a small pink veil and waved it vigorously.

Everyone and the other beasts were immediately energized by Yun Chujiu's words. They swallowed the medicinal pills one by one. Moreover, there was no distinction between humans and beasts now. While they ate, they also tossed some food to the demonic beasts, and the crowd began a new round of attacks.

Yun Chujiu and the other alchemists began to refine more explosive spirit pills.

She did not use the Heaven and Earth Universal furnace. Instead, she took out an alchemy furnace that she usually used in her sect and began to refine the explosive spirit pills.

Then, the so-called high-level alchemists of the Azure Mystic Continent were dumbfounded!

They saw that Yun Chujiu could refine a batch of explosive spirit pills in less than fifteen minutes. Moreover, all of them had a 100% success rate. What was even more abnormal was that ten of them were all super-grade explosive spirit pills.

Elder Qi had always suspected that Yun Chujiu had been hiding her strength so that he would not lose face. At this moment, he was even more convinced of this idea. This little girl's talent in refining pills was simply too shocking.

Yun Chujiu used the corner of her eyes to sweep across the dumbfounded crowd. She hurriedly said, "Everyone, don't just stand there. Hurry up and refine the pills. Whether or not we can break through the enchantment will depend on us."

Only then did the crowd come back to their senses and resumed refining the pills. Although they were not as abnormal as Yun Chujiu, they were still the top alchemists of the Azure Mystic Continent. Soon, a large batch of explosive spirit pills appeared on the ground.

However, something seemed strange, they were placed on big dishes by Yun Chujiu!

Those alchemists were dumbfounded! When had they ever used the big dishes to hold the pills! At the very least, they had used a gourd to hold it. It was an eye-opener for them.

Yun Chujiu said with conviction, "It's convenient for them to use their hands to hold it in a bowl. Moreover, it's intuitive. You can see the number of pills refined at a glance."

Another ten days passed. Cracks began to appear in the enchantment, but it was not large enough to let these people and demonic beasts out. Yun Chujiu began to think again, she waved her pink veil and shouted, "The dawn of victory beckons to us! This is the moment of darkness before dawn. As long as we persevere, victory will definitely belong to us! Do you guys want to have a good meal? Do you guys want to have a good sleep? As long as we persevere for another three days, the enchantment will definitely break! I have high hopes for you guys!"

Sleeping was now an attractive prospect to everyone and the beasts! They only had a short period of time to take turns to rest for the past few days. They had suffered from a serious lack of sleep, and now they were completely relying on their spiritual essence to support themselves.

With Yun Chujiu's bluff, everyone persisted for another three days. Although the crack had become a little bigger, it was still not enough for everyone to pass through. Yun Chujiu changed her strategy. "Combine two groups into one group and double the strength. The enchantment will definitely be broken tomorrow!"

In fact, she was not sure if the enchantment could be broken the next day. However, in order to encourage them, they believed her and rushed forward again..
