### Chapter 316.1: The Human Sentiment Is Not Perfect

“Sect Master Lu, the two elders, turn the cultivation method backwards, and then ponder the content.” Yang Chen shook his head and denied the speculation of the Sect Master. At this moment, Yang Chen no longer kept them guessing, and gave more direct hints.

In the past, Yang Chen knew the trick and from the beginning, searched for it directly. The previous article did not explain it in detail. Even so, Yang Chen didn't find the cultivation method until he endured the torture of the first few million words.

«Eighth Metal True Secret Art» was an ancient cultivation method. The description of the cultivation method long ago was somewhat different from the modern grammar vocabulary. When it was reversed, it was even more nonsense.

Sect Master Lu and the two Elders did not think about this possibility at first, just pondering the words and meanings. If an inverted cultivation method could make them directly see the meaning, then they were also considered keen people.

However, starting from the prompting for Yang Chen, the several seniors thought about Yang Chen's adventure with Sun Qingxue and Shi Shanshan before, so their instinct was focused on the location, and did not think about the content of the cultivation methods.

At Yang Chen's prompt, all three began to ponder about it. The contents of the were just a few thousand words, all three being well minded, and the cultivation method being only a few hundred words, even if it was very incoherent, the three had also been able to memorise it.

Pondering it over in reverse, it became much smoother, without even putting in much thought, they were abler to get through it right away. It was no longer incoherently difficult to understand. After a moment, the faces of the three people were all serious, and it was obvious that the mystery of the cultivation method had been discovered.

“This is...” Sect Master Lu was the head, although her identity was very high, their cultivation base was not as high as the two dacheng stage elders, naturally Sect Master Lu was not as accurate as the two elders in judging this cultivation method. In the words of Sect Master Lu, there was also an unbelievable tone of “Is it possible that this is.....”

““«Eighth Metal True Secret Art»!” Elder Shi Cultivation Base was the highest and her voice most affirmative among the three. Although she has the earth attribute spirit root, it does not prevent her understanding of metal attribute cultivation methods.

The time it took for Elder Hua to be promoted to the dacheng stage was not as long as Elder Shi, and for a long time she was fighting the blood demon vines. In terms of knowledge, there was a slight gap between the Elder Shi and the Elder Hua. However, Elder Hua had also discovered the power of this method, which was actually the direct use of the most original essence of the Eighth Metal True Essence cultivation method.

“It should be «Eighth Metal True Secret Art», it can’t be wrong.” With the affirmation of the Elder Shi, Sect Master Lu also guessed that Elder Hua was also confident in this cultivation method.

However, the reason why Elder Hua was so sure was because of Yang Chen. Since Yang Chen reminded them so seriously, he would never take a fake counterfeit to peruse deception. Moreover, this was the original from the library building, and Yang Chen was likely not able to make a fake.

Sect Master Lu finally understood why Yang Chen had asked them to take the original collection out of the library, which was originally to prove that it had not touched his hands.

Even the mood of the two masters of the dacheng stage, in the face of the original cultivation method Eighth Metal True Secret Art, could not suppress their excitement. Even if none of the three of them had metal attribute spirit roots, the Sect Master and Elders of Blue Cloud Sect would definitely support this kind of good thing that brings countless benefits to the Blue Cloud Sect.

The shock of the three predecessors took only a small amount of effort, and they soon returned to normal. However, when they looked at Yang Chen, there were a lot more things in the eyes of the three people.

A junior in the Jiedan stage, and at the time when he got this jade slip only a junior at the early foundation stage, to have such good eyesight, such a strong insight, that from the millions of boring and even mentally torturous words in this ruthless book, found such an incredible martial art, along with also having to think about it in reverse, how much daunting patience was needed to do this?

All three of these predecessors had seen it, but none of them read the million words. If it was before Yang Chen's suggestion, even if this was in front of them, they would look at a maximum of three or five thousand words, and then how far it would be to throw was not known, where would they notice that within the following millions of words, there would be hiding such a peerless treasure?

Admire, shock, gratitude, regret, a lot of complex emotions intertwined, was the mood of the three seniors. When the three looked at Yang Chen, it was like watching a little monster.

One can't do anything about it but to treat Yang Chen as a monster. When he reached the foundation stage, he could refine the Black Tiger Yuan Replenishing Pill that dacheng stage masters needed. The Black Tiger Suppressing Pill, the Questioning Inner Heart Pill and the Heaven Seizing Pill. What could he be if not a monstrous talent?

Which cultivator would practice all five elements of the martial arts, and even because of an unexpected magic weapon, also cultivate his main spiritual power into a wooden attribute that was not the root of his own fire attribute? What could he be if not a monstrous talent?

Among ordinary cultivators, who could bear the story telling words that were so bad that they have reached the extreme, and could still persist on through the words and sentences and find out the Eighth Metal True Secret Art? What could he be if not a monstrous talent?

If Yang Chen was a disciple of the Blue Cloud Sect, how good would that be? Sect Master Lu's heart flashed such a regret. It had to be known that Sun Qingxue knew Yang Chen in the past, if Sun Qingxue received more attention in the sect, maybe she would look for Yang Chen and then pull Yang Chen into the Blue Cloud Sect.

If that was the case, then Yang Chen would become a disciple of the Blue Cloud Sect, and then no matter what kind of medicinal pill, it would become a medicinal pill of the Blue Cloud Sect. No matter how many secret planes that Yang Chen discovered, it was to the benefit of the Blue Cloud Sect.

They all blamed that damn Wan Qian, in order to suppress Sun Qingxue, she got her own disciple to make way, and did not hesitate to send Sun Qingxue to the most mediocre Zhou Suzhen's sect. She even gave a hand-made cultivation method so that Sun Qingxue would not get out of the crowd early and attract everyone's attention.

Now, Wan Qian and her six apprentices had been missing for decades. When they came back, they must administer Wan Qian, a sin that harmed the same sect. Even if she was an elder of the sect, she must not be let off lightly.

This kind of thought just flashed past, and Sect Master Lu quickly concentrated on the present. This Eighth Metal True Secret Art was discovered by Yang Chen. If Yang Chen did not say it, it was estimated that no one would know that such an important method would be hidden in such a bad book.

The main question was, how do they reward Yang Chen now?

Chapter 316.2: The Human Sentiment Is Not Perfect

Now Sect Master Lu and the two elders had some understanding into why Yang Chen had hesitated before. This kind of thing, Eighth Metal True Secret Art, with Yang Chen's knowledge, was something he should not know about it.

Such an important cultivation method, Yang Chen himself knew, if he secretly dedicated it to his own sect, there would be no problem at all. Now speaking in front of these three people, it was almost equivalent to giving a peerless cultivation method to the Blue Cloud sect.

Among the miscellaneous books that Wan Qian prepared for Yang Chen, who knows what was inside? No one would know that Yang Chen had gotten this book that records the Eighth Metal True Secret Art.

If Yang Chen does not say it, no one would know. Although in a strict sense, since this was from the Blue Cloud Sect, this method should belong to the Blue Cloud Sect.

But Yang Chen was not a disciple of the Blue Cloud Sect. He has no obligation to safeguard the interests of the Blue Cloud Sect. He insists that it was a duty, but it was a big favour.

This kind of favour was not the kind that the Blue Cloud Sect asked Yang Chen to do for the sect, just like this time when the sect asked Yang Chen to refine the medicinal pills, but Yang Chen took the initiative. From this perspective, the weight of this person's favour would be greatly different.

Of course, no one would know that even if Yang Chen does not say anything, after a few decades, the Blue Cloud Sect would also have a disciple who does not seek advancement that would discover this Eighth Metal True Secret Art cultivation method from the story-telling script. Since no one knew, in order to repay Yang Chen for this extraordinary favour, it was a bit difficult for Sect Master Lu.

They asked Yang Chen to refine the Questioning Inner Heart Pill, because there was a precedent for the Green Jade Immortal Island, the Blue Cloud Sect only needs to refer to the rewards. But there was no object to be mentioned for this matter, and it could only be discussed by Sect Master Lu and several Elders.

"Yang Chen, for this extraordinary favour, I represent my Blue Cloud Sect to thank you!" How to repay him must be thought of quite well, but they should thank him at this moment. The reason why Sect Master Lu was the sect Master was because Sect Master Lu has a versatile means to immediately thank him. No matter what thank you, this kind of thankful attitude must be expressed at least first. In the face of Yang Chen, Sect Master Lu also thanked him.

It was not a simple matter to let the sect master of the Blue Cloud Sect say thank you. With the strength of the Blue Cloud Sect, what could they not achieve if they wanted to? Unless it was a kind of thing like refining the Questioning Inner Heart Pill, it was worth it to say a word of thanks.

Now that the Eighth Metal True Secret Art was revealed, Sect Master Lu had to sincerely say this thank you.

"I don't dare to accept the thanks of the sect master." Yang Chen hurriedly returned the courtesy. How to say that this was also a predecessor. People who are well mannered would not forget etiquette. Yang Chen was a younger generation junior, how would he dare show scorn "This is from the Blue Cloud Sect, and I am just giving it back. The Blue Cloud Sect is also considered to be the original owner."

The more beautiful Yang Chen's words were, the more the three seniors of the Blue Cloud Sect felt that they should compensate Yang Chen. Yang Chen, a descendant of the Jiedan stage, could achieve this. As the predecessors, how could they do it poorly? With less rewards, not only do they seem to be lacking in their temperament, even the Blue Cloud Sect would be ridiculed.

“Yang Chen, this Eighth Metal True Secret Art is a matter of great importance...” After thinking about it, Sect Master Lu still had to brace onwards and put some words forward. Regarding the reputation of the Blue Cloud Sect, Sect Master Lu could not be careless.

“This younger generation junior understands!” Without waiting for Sect Master Lu to speak out, Yang Chen has already directly received the words “This matter, this younger generation junior swears by my heart, I will definitely keep my mouths shut, and ask the sovereign to be rest assured.”

Swearing by his heart, this was the highest level of oaths among cultivators, and it was not easy for cultivators to make such a vow. Yang Chen’s attitude made Sect Master Lu and the two Elders feel that they owed him more. What they thought was just how to make up for it.

Of course, this was really a matter of great importance. Sect Master Lu must also discuss with the other Elders before deciding how to deal with this matter. For the time being, it was still not possible to give Yang Chen a specific reply immediately.

Yang Chen certainly understood this. His thoughts along with Sect Master Lu’s were almost the same, so he directly grabbed the thread of conversation and swore with his heart to never reveal it. This was a modest method that he uses.

If Sect Master Lu mainly said these requirements, it would be a little bit unreasonable, but it was something that had to be so, so everyone’s face was ugly. Yang Chen grabbed the words and took the initiative to express his position. This made him feel ignorant, and he was relieved of everyone’s embarrassment. At the same time, he also felt that Sect Master Lu felt that he was owed, and he would naturally consider more in return.

Compared with this practical favour, Yang Chen would not care about this little reputation. And if it was because of this fame, but the price was to make the Blue Cloud Sect embarrassed, whether it was from the relationship between Yang Chen and Sun Qingxue, or from the current cooperation between the Pure Yang Palace and the Blue Cloud Sect, it was not a good thing.

On the contrary, this situation was a win-win result that would benefit both parties. The Blue Cloud Sect would preserve their face, and Yang Chen would gain a big favour, Maybe there would be a good repayment. Compared with a false name, Yang Chen valued the latter.

“Have you come to see Little Xue this time?” Sect Master Lu was pleased with this procedure, with a smile said calmly “Little Xue is in seclusion to condense her golden Dan, it is the latest thing, you can stay here for a while and wait for Little Xue to come out of seclusion.”

“Then this younger generation junior will not be polite, thanks for your hospitality.” This was Yang Chen’s plan from the beginning, but letting Sect Master Lu personally send an invitation for him to stay made him feel shameless and thick skinned, the feeling was completely different.

“You have done a great service to my Sect, if you have any need, you can say it freely.” Sect Master Lu asked him directly. To thank him, of course, they must first look at what Yang Chen wants to decide. If Yang Chen’s request was not high, Sect Master Lu could even decide on the spot.

“I don’t dare, this younger generation junior just did some duty, and does not dare to say that it is a great service like the senior said.” At this time, if he asked for anything, he would be a fool. The more he declined the credit, the more the Blue Cloud Sect would feel that they owe him, where Yang Chen would use this kind of big favour easily, he must use it at a critical time.

“In this case, my sect will have an auction in the vicinity of the sect in the near future. You can see what is of interest to you. “Sect Master Lu did not ask anymore, but turned serene, and then, seemingly casually asked “It is said that the last time the Island Master of the Green Jade Immortal Island personally went to the Pure Yang Palace. Apart from talking about the matter of the Questioning Inner Heart Pill, was it also to set the marriage for you and that little girl Shi Shanshan?”

When he heard the words of Sect Master Lu, Yang Chen could not help but secretly swear. At that time, in order to cover up the cooperation with the Pure Yang Palace, the main excuse of the Island Master was Shi Shanshan and Yang Chen’s marriage. Now Sect Master Lu also said this, what does it mean?

“Little Xue is also a good girl, and she also has a deep affection for you. “Sect Master Lu said with a smile: “When Little Xue comes out, I can say that I have to go to the Pure Yang Palace in person, and would have to decide about you two with Palace Master He.”

Chapter 317.1: Sun Qingxue’s Golden Dan

On this topic, Yang Chen was now afraid to have more bonds. However, Sect Master Lu also revealed another meaning, that was, she would personally go to the Pure Yang Palace.

Sect Master Lu going to the Pure Yang Palace, of course, it was impossible to just discuss things about Yang Chen, Sect Master Lu would certainly have to discuss further cooperations with the head of the palace. Just like the cover of the Island Master before, the things about Yang Chen and Sun Qingxue were just an excuse.

However, Sect Master Lu's personal move to the Pure Yang Palace has illustrated many issues.

In the past, if the Pure Yang Palace wanted to cooperate with the Blue Cloud Sect and the Green Jade Immortal Island, it was the master of the palace that personally went to the two sects to seek cooperation. This kind of unequal status was the embodiment of the strength of the martial art sect.

Now, not only had the head of the Green Jade Immortal Island personally gone to the Pure Yang Palace, but even the Sect Master Lu of the Blue Cloud Sect wanted to go to the Pure Yang Palace, this in itself explains many issues. At least now the Blue Cloud Sect and the Green Jade Immortal were truly treating the Pure Yang Palace as an object of equal cooperation.

This was an amazing progress. Although the Pure Yang Palace had not yet reached the level of being equal to the two big sects in terms of strength, it was only through the efforts of one person, Yang Chen's, and the resources of the master, that everyone's cooperation had been promoted to an equal position.

Even if Yang Chen was not good at interface, he still has to express his appreciation "Thank you for the concern of the Sect Master Lu, this younger generation junior will be the one who will tell the master of the palace, we will be waiting for the lord to visit."

At this point, the purpose of Sect Master Lu and the Elders to see Yang Chen has been all reached, and they even had a big surprise. They must also immediately report to other elders and review how to thank Yang Chen. Soon, the two were polite and left the courtyard of Elder Hua.

There was one more essence cultivation method, which was also a big event for the Blue Cloud Sect. Elder Hua settled Yang Chen in a room and told the servants to take care of him, and then also went to attend the high-level meeting of the Blue Cloud Sect.

For ten days or so, there was no unexpected situation. Yang Chen was also very quiet in his room, he didn't go out the door, he just devoted himself to cultivation.

Among the five elements of Yang Chen, the third fire spirit power had condensed its golden Dan, so had the first wood spirit power, while the others were still in the foundation stage. Originally, Yang Chen thought that in the case of the first wood spirit power reaching golden Dan, the three spiritual powers would be as good as the others at the same time, and the spiritual power of other attributes would be condensed at the same time, but now it seems that this was not the case.

Perhaps the spiritual power needed to condense the golden Dan was stronger, and the three spiritual powers were far from enough to trigger all the spiritual powers to condense. Next, Yang Chen must find ways to condense the other spirit powers. Otherwise, if various spirit powers of his cultivation base was too far apart, it would be detrimental to his future cultivation.

If there was no other way, Yang Chen could only carry out a certain kind of spirit power cultivation in a certain period of time. He believed that it was not so difficult to breakthrough the foundation stage one by one at the level of Yang Chen's current peak foundation stage. The only thing that was needed was time.

But this time, the matter of the first wood true essence spiritual solution, let Yang Chen discover that the things left by the guys above were simply scary. Obviously on the Immortal Executioner Stage, the Immortal only said that there was a vein of the First Wood True Essence, who knew that after so many years, this vein of First Wood True Essence could actually accumulate into a pool of First Wood True Essence?

This reminded Yang Chen of what another person had said. That person was none other than the Golden Star of the Sun Li Chang'geng. Golden Star of the Sun also said that the lower realm had a pulse of Seventh Metal True Essence, which was a gift to Yang Chen.

However, for the Seventh Metal True Secret Art, Yang Chen succeeded in getting a bottle of the Seventh Metal True Essence for his cultivation from the plains of the beast last time. Originally, Yang Chen thought that there was no need to look for the Seventh Metal True Essence, and Li Changgeng's good intentions were to be left for their own fated person.

However, Yang Chen, who discovered in the Banyan tree Cave, the First Wood True Essence Spiritual Solution, found that after the original level of the first wood true essence reached a certain degree,

there would be such a horror. After its collection, it was simply inexhaustible to use the First Wood True Essence.

Even the ordinary Monster Race experts in the Heavenly court didn't have such a rich accumulation. What was the situation of that Seventh Metal True Essence, which belonged to the Golden Star of the Sun that has existed since the establishment of the Heavenly court? Thinking about it would make anybody's mouth flow with water.

Looking for clues in his memory, there was another one that made Yang Chen very tempted.

Before a certain immortal died, he said that in the lower realm he left a Medicine Nourishing

Gourd. As long as a medicinal pill was preserved in this gourd, there would never be a situation in which the pill was dissipated after being stored for thousands of years, and it would save Yang Chen a lot of effort. Concerning the most important medicinal pills, Yang Chen had to go through the troubles of making large quantities of high-level Talismans to preserve them.

After bidding farewell to Sun Qingxue, and after returning to his master's sect, Yang Chen planned to set out to find these two things. Naturally, because there was the Penglai divine wood, it was only a smooth process to gather the First Wood True Essence Spiritual Solution. Before the departure, Yang Chen must also prepare a Seventh Metal Magic Weapon.

This was just in case, like in the Banyan tree cave when he suddenly fell into the pool of the first wood true essence, Yang Chen needs at least a magic weapon to support his body.

As for the collection of the Seventh Metal Spiritual Solution, there would be no problem with using the gourd of the Dragon Palace. There were only a few liquids in the gourd, one was the first wood true essence, another was the four seas mysterious coral liquid, the other was the jade dragon brewed wine, plus the auxiliary wine brewed, and the pulse of the spiritual spring, the space left was still big.

One of the immortals said that he still left dozens of refining flying swords, which allowed him to fly in the heavens. The quality of the flying sword was almost unimaginable. This was also the reason why Yang Chen promised his Master and Senior sister that he would prepare for them the life source flying sword.

Now both his Master and Sister's dāns were already condensed, and they were consolidating their cultivation base. After they have consolidated their cultivation base, they could start to temper their Life Source Flying swords.

Yang Chen's discovery has left his time a little bit tight, the schedule was very close, and there was almost no time left for himself. It seems that the condensation of his other spiritual powers could only rely on some external means.

Of course, the external means does not mean that he would damage his foundation, nor does it mean that Yang Chen would be opportunistic, but similar to the technique of using the First Wood Spiritual Solution to condense his own Seventh Metal spirit power. He believed that his own five elements of the three spirit powers of the Jiedan stage, even if it could not let the full attribute spiritual power reach the Jiedan stage, it could drive the other five kinds of spiritual spirits.

After a series of plans, Yang Chen did not actually make a decision in the Pure Yang Palace, but when he was in the Blue Cloud Sect waiting for Sun Qingxue to leave seclusion, it must be said that this was also a result that left him speechless.

Ten days later, when Yang Chen was cultivating, he suddenly noticed a riot in the heaven and earth spiritual qi. The courtyard of Elder Hua was adjacent to Sun Qingxue's own, and the center of the spiritual riot was in the courtyard where Sun Qingxue was located.

This familiar spiritual fluctuation, Yang Chen was very familiar with it.

Sun Qingxue had condensed her golden Dan!

Chapter 317.2: Sun Qingxue's Golden Dan

Within the big sects like the Blue Cloud Sect, almost regularly there would be such a spiritual qi riot, some building their foundations, some were condensing Dan, and some were forming their Nascent soul. Therefore, this familiar spiritual fluctuation would not cause any sensation in the Blue Cloud Sect.

At most, there would be several people who cared about the sect who were looking in the direction of the spiritual fluctuations. They would look in thought, nod their heads slightly, and feel that there were more people who had broken through in the sect. Their strength would grow more than a few points, and they would rejoice.

Yang Chen's heart was happier than others. He came here to wait for Sun Qingxue to condense her golden Dan. Sun Qingxue's timing and Yang Chen's estimated difference was only a month's time, indicating that Sun Qingxue still walked on her original genius road.

The spiritual riot lasted for a long time, and then it stopped. Elder Hua had long felt this aura, and she flew back, waiting for her disciple to come out.

"Congratulations!" When Sun Qingxue went out, she came to her Master to report her good news, but did not expect to see Yang Chen waving his hand to her. She was pleasantly surprised and almost jumped up happily.

"Don't be so free mannered, you are already a master of the Jiedan stage, you can't keep the mood of a little child." Elder Hua next to her couldn't help but cough, reminding Sun Qingxue not to be rude.

Shi Shanshan was a recognized Dao Companion of Yang Chen, and she was not as active as Sun Qingxue. She was currently the biggest rival of Sun Qingxue. If Yang Chen does not like Sun Qingxue, then it was not good news for Sun Qingxue and the Blue Cloud Sect.

When Sun Qingxue was scorned by her Master, she was naughty and spit out a small tongue, and her face flashed a touch of intelligence. Yang Chen just smiled at her and nodded. He had nothing to say. The Master was giving directions to her disciple, and if he speaks, he would be out of place anyway.

After berating Sun Qingxue, Elder Hua also expressed congratulations to Sun Qingxue. This disciple of hers was really worthy of the name of a genius. Under her own sect, she succeeded in condensing her golden dan in less than a hundred years. This was after she had wasted more than ten years, after she had discarded her own cultivation base to start from the beginning.

When she thought of this, Elder Hua felt exceptionally satisfied. Towards Wan Qian, who had designs on Sun Qingxue before, Elder Hua was really not too resentful. On the contrary, it was not because of her, how could the Elder Hua receive such an excellent disciple?

For Sun Qingxue's cultivation base, Elder Hua did not have much guidance, but she was forced to consolidate her cultivation base. In the face of Yang Chen, Elder Hua was not likely to give too thin a direction for Sun Qingxue. Anyway, she has already condensed her golden dan and needed to

consolidate her cultivation base. Later, at some time she could give her more detailed guidance. It was not necessary to delay the closeness of Yang Chen and Sun Qingxue at this time.

Sun Qingxue certainly understood that her Master was creating conditions for herself and Yang Chen. She was a little red-faced while giving leave to her Master, and returned to her courtyard with Yang Chen.

“Yang Da Ge, am I not as stable as a child?” In her own domain, Sun Qingxue did not have much scruples. When she came back, she asked with a little nervousness. She was very concerned about Yang Chen’s perception of herself.

“No!” Yang Chen replied with a smile: “Is it not very good to be active? There is no need to learn to have a cold face. Cultivation is not to be made into a piece of wood. The Divine Immortal’s also have joys and sorrows. As long as they are the real you, it’s okay.”

When she heard Yang Chen’s words, the nervousness that had suddenly appeared on Sun Qingxue’s face disappeared without a trace, revealing a relaxed smile. A lively image appeared again on Sun Qingxue’s face.

In another yard, Elder Hua seemed to have a relaxed look on her face. After all, Sun Qingxue was her own disciple, she also cared about the perception of her disciple in Yang Chen’s heart. Originally, she was worried that Yang Chen’s speech would not be so mature, and he would have a bad impression of Sun Qingxue. Now that Yang Chen likes it, then everything was not a problem.

Yang Chen likes the true color of Sun Qingxue, and Sun Qingxue was of course happy. She acted like an elegantly beautiful, incomparable fairy maiden in front of other young outstanding talents, but in front of Yang Chen, she still likes hearing Yang Chen’s innocence when he says to her, “I will not deceive you.” which gave her an alternative sense of security.

“Yang Da Ge, how are you here? Were you deliberately waiting for me?” The Happy Sun Qingxue did not become like her master’s consciousness at all. There was no mature and stable style at all, perhaps only in the presence of Yang Chen. When she came out, she saw Yang Chen. When she was happy, she was more concerned about why Yang Chen appeared here.

“My calculation was almost the same for you to reach golden Dan, so I came over to see you!” Yang Chen was not hypocritical, bluntly speaking his own intentions. Anyway, he came to let the little girl become happy, but also plainly gained a big favour from the Blue Cloud Sect. If you want to count the possible refining of alchemy in the future, this trip to the Blue Cloud Sect was absolutely perfect.

“Thank you, Big Brother Yang!” Sun Qingxue heard Yang Chen admit it, that he calculated her own condensation moment, which shows that Yang Chen put her in his heart. The little girl heart became sweet, thanking him with her mouth, but her face had a very enjoyable look watching Yang Chen while breathing roughly.

Sun Qingxue had already regarded herself as a person of Yang Chen. Otherwise, she would not be in mourning after she thought that Yang Chen had an accident. Therefore, she felt that everything she had given to Yang Chen was justified.

“This time, thanks to your immortal wood and Eternal Spring wood, it was so smooth.” However, even so, Sun Qingxue deliberately thanked Yang Chen for these two kinds of wood. The immortal wood was given by Yang Chen. The Eternal Spring Wood was traded by Sun Qingxue with Yang Chen’s jade dragon wine from Jiu Xian. It could be said that they were all Yang Chen’s credit.

“That is also your own diligent cultivation, otherwise it wouldn’t work no matter how many precious materials you use.” Yang Chen smiled and did not take credit. Who was she kidding, would the future snow fairy be afraid of not being able to condense her golden Dan? Yang Chen has only mostly played the role of putting icing on the cake. Yang Chen does not diminish his praise: “You are more outstanding than I expected.”

This was not Yang Chen’s flattering. It had to be known that due to the mistakes in cultivation that Sun Qingxue made in the past ten years, she had to abolish her own cultivation base. Even so, she reached the Jiedan stage only twenty years later than Yang Chen. However, Yang Chen had many advantages, while Sun Qingxue was far from being comparable.

“In order to celebrate your success, and for your ability to consolidate your cultivation base.” Yang Chen was very happy so he came up with a few large branches of the Penglai divine wood “These are my gifts!”

Chapter 318.1: Conversing With The Snow Fairy

Now Sun Qingxue was not the little girl who didn't know precious materials before. Especially after she built her foundation, Yang Chen had also sent her third grade First Wood foundation stage pills, which contained the aura of the Penglai divine wood.

Now, in these three large branches, there was also a First Wood aura with the same aura as Sun Qingxue. Sun Qingxue immediately knew what was in the hands of Yang Chen.

Such a large Penglai divine wood branch could be used to cultivate the seedlings of the

Penglai divine wood. Even if Sun Qingxue was a disciple of the Blue Cloud sect, even if Sun Qingxue was an apprentice of the master of the dacheng stage, watching Yang Chen suddenly come up with such a big gift still shocked her and she couldn't speak for a long time.

"What's wrong? Don't you like it?" The reason why Yang Chen took out the Penglai divine wood branch instead of the first wood true essence spiritual solution was to let Sun Qingxue have a gradual process.

From the ordinary spirit power to the first wood true essence spiritual solution, the need to consolidate and the adaption time was too long, but it was better to deepen the aura of the Penglai divine wood, and then slowly upgrade to the first wood true essence spiritual solution.

Of course, Yang Chen had another consideration, the first wood true essence needs refining, unless it was the Monster Race Penglai divine wood, it would absorb on instinct, just like She Kui and Xie Sha. If the human cultivators want to use the First Wood True Essence, besides the long-term habit absorption, only the First Wood True Secret Art could be used to do it.

Yang Chen didn't know if there was any First Wood True Secret Art in the Blue Cloud Sect, even if the other party was Sun Qingxue. On the domain of Blue Cloud Sect, Yang Chen could not tell Sun Qingxue about the First Wood True Secret Art.

A Eighth Metal True Secret Art made Sect Master Lu and the two masters of the dacheng stage excited to form that look. If he added the First Wood True Secret Art and First Wood True Essence, they could definitely have the idea of silencing witnesses.

Yang Chen, who had lived for two generations, naturally knew that people were sinister. However the Eighth Metal True Secret Art was originally for the Blue Cloud sect, there was no pressure on Yang Chen to return it to them, but the First Wood True Secret Art was really awkward, and Yang Chen was not so generous.

Even if Yang Chen was willing to help Sun Qingxue, he must have Sun Qingxue really become a person of Yang Chen. She would have to swear by her heart and make an oath that she must not tell the people of the Blue Cloud Sect or to teach the First Wood True Secret Art.

Therefore, at this time, these branches of the Penglai divine wood were the best gifts, enough for Sun Qingxue to consolidate her cultivation base.

Of course, Yang Chen also considered such a precious thing. Maybe Sun Qingxue would bring it to the sect to cultivate the Penglai divine wood. However, Yang Chen does not care about such a small branch.

It was not so easy to cultivate the Penglai divine wood. It was far from enough to rely on spiritual power. Survival may be able to do it, but the scale of wanting to grow into the ones in Yang Chen's Medicine garden would take at least 100,000 years to slowly cultivate it. Not everyone has the liquefied First Wood True Essence.

Sun Qingxue, was excited about Yang Chen's gifts, she immediately sent the branches into her Qiankun bag. Then she did something that Yang Chen couldn't think of.

"Don't let Master and Sovereign know that you have these branches of the Penglai divine wood." Sun Qingxue didn't even open her mouth, but sent a message through spiritual awareness, which shows how much she valued it.

The little girl's attitude made the smile on Yang Chen's face more prosperous. Although the master's sect was as important to her, Sun Qingxue paid more attention to Yang Chen.

Perhaps it was because of the shadows of Yang Chen in several major incidents. The Blue Cloud Sect did not leave any good impressions on Sun Qingxue at first, especially Wan Qian and Zhou Sulan. Although Hua Wanting was also caring for Sun Qingxue, but if you let her choose between the sect and Yang Chen's life, she was still willing to choose Yang Chen.

It was not that Sun Qingxue does not maintain the interest of the sect, but she would not damage Yang Chen's life for some illegitimate interests of the sect. That was all.

The branches of these the Penglai divine wood were enough to make some people in the sect red with envy. At least Sun Qingxue thought so, so she immediately became a little more careful.

"It's no big deal, it's not a big deal." Yang Chen was happy, and naturally he won't treat Sun Qingxue unjustly, "If you have time, you should be refining and absorbing these branches to consolidate your current realm."

Taking out these branches, this was to let Sun Qingxue consolidate her realm. The same spiritual power was a great complement to Sun Qingxue. With these branches, at least half the time for Sun Qingxue to consolidate her realm would be taken out.

With Yang Chen's words and the branches of these Penglai divine wood, Sun Qingxue naturally regarded them as Yang Chen's love for herself. Although there was a little fear, she still accepted it graciously, she had already made up her mind in her heart, even if it was her Master, she would not tell her what Yang Chen sent.

He haven't seen Sun Qingxue for decades. Now there were no outsiders here. Yang Chen naturally has to look at Sun Qingxue.

He didn't know what Sun Qingxue had been through these years. Yang Chen had seen the shadow of a predecessor snow fairy from Sun Qingxue's cool and heroic posture.

As if knowing that Yang Chen was watching her, the little girl was very naughty and put on a face that was a thousand miles away from the pesky young outstanding talent who entangled her. This face was simply the iconic expression of the memory of her in Yang Chen's previous life. For a time, countless memories came to his mind, and Yang Chen seemed to stay in a trance.

Sun Qingxue was very happy that Yang Chen was looking at her in a daze, which fully shows that she has an unusual attraction to Yang Chen. Yang Chen's performance made Sun Qingxue even more happy than his 10,000 words.

For a time, she had condensed her golden Dan, and received a gift from Yang Chen. Together with Yang Chen's current performance, Sun Qingxue felt that she had good luck today and her goal was at the door.

They haven't seen each other for decades. Sun Qingxue has a lot she wants to talk to Yang

Chen about. With Sun Qingxue, Yang Chen certainly does not drink tea like when with Shi Shanshan, but he took out a large pot of jade dragon wine, plus a large plate of peeled Profound Yang Fruits.

This little girl was born in an official residence, and she had a good wine capacity, quite able to drink. Yang Chen and her, in the small courtyard of Sun Qingxue, the fruit of the millennium Profound Yang Fruit as a side dish of the wine, slowly tasted the wine, do not know how much information was exchanged with the jade dragon wine. While drinking, they talked to each other about these decades of mutual experience.

Sun Qingxue was really happy today, and she was excited to tell Yang Chen what she did after she left Yang Chen to go back into seclusion. From the experience of going out to gain experience and of returning into seclusion, even the small things were also very detailed.

These words, Sun Qingxue has never said to anyone, including her Master Hua. Now facing Yang Chen, she has said these like flowing water, all of them have been said.

#### Chapter 318.2: Conversing With The Snow Fairy

From the beginning of her cultivation, Sun Qingxue was a lively little girl, but in the Blue Cloud Sect, she first encountered the conspiracy designs of Wan Qian master and her apprentices. Later, she took Elder Hua as her Master, although the conditions were already unique, the little girl did not have a friend of the same age who she could be open with, except Yang Chen.

In addition to telling her own experiences, this was the first time for Sun Qingxue to talk about the happiness of her own cultivation in the past 100 years in front of others.

This was just like venting, and she couldn't stop. Taking advantage of the energy produced by the jade dragon wine, Sun Qingxue almost continuously said that there were still a few moments still unfinished.

Yang Chen did not stop Sun Qingxue from venting, but listened quietly, sometimes with a few words, and let her vent out completely. These things were long and boring in her heart, but it was easy to become a heart's devil. There was certainly not much problem in the Jiedan stage, but once it happens to be the tribulation of forming the Nascent soul, it could be a big problem.

On the contrary, by pouring it out to Yang Chen, the pressure in her heart would be released, and she would be happy; she had found a catharsis outlet. In a fashionable word, this was a vent, and the thoughts were always accessible, it was absolutely great for her cultivation.

After a few hours, Sun Qingxue unwittingly drank a lot of jade dragon wine. Especially at the last moment, Yang Chen felt that the timing was almost the same. Sun Qingxue also vented enough. He directly used a large cup of the four seas mysterious coral liquid to reconcile a drop of wine and let Sun Qingxue drink it, letting Sun Qingxue enter into a dreamlike state.

Holding the dancing snow fairy, her heart-warming body, Yang Chen sent Sun Qingxue back to her boudoir embroidered couch, and then notified the maid who had been supporting Sun Qingxue to take care of her.

Looking at the still fascinating Sun Qingxue, Yang Chen had some envy that at least if the dancing snow fairy had troubles and happiness's she could find himself to talk to, but he could not find a person to talk to.

The secret of rebirth was the biggest secret of Yang Chen in this world. It must not be easy for anyone to know, even if it was his Master. He didn't want his Master to be afraid of knowing the secret. She might even want to come out to help him deal with the Greatest Heaven Sect.

Although in the future, if the Pure Yang Palace and the Greatest Heaven Sect were on the opposite side, his Master must be duty-bound, but Yang Chen would rather face them alone at this time.

Sun Xiaoxue had this talk, and with the last cup of the four seas mysterious coral liquid he

added some finishing touches, after waking up, her thoughts would be accessible, her body would be free from impurities, and the Penglai divine wood branches sent by Yang Chen would make her cultivation base rock solid.

Coming here to see Sun Qingxue, was to give congratulations on her success. Now that the goal had been exceeded, Yang Chen had no reason to stay there again. After informing a few servants of Sun Qingxue, Yang Chen did not even say goodbye to Elder Hua, and he left the Blue Cloud Sect.

Anyway, Sect Master Lu would come to the Pure Yang Palace and would definitely bring Sun Qingxue for Yang Chen and Sun Qingxue to have a chance to see each other again.

Yang Chen does not care about the time when he gets to be together with her so much. There would be plenty of time for that.

The famous snow dance fairy of the later generation turned out to talk to him like a little girl. If this was said in his previous life, no one would believe it. But in this life, it happened not long ago, so Yang Chen had a feeling of disbelief.

If Dancing Snow Fairy was like this, then what about the Cold Plum Fairy Maiden who was cold all the time? Every day, a pair of frosty faces may have accumulated a lot of complicated feelings. Yang Chen was looking for an opportunity to help Shi Shanshan.

Of course, this was just Yang Chen's own sudden thoughts, and it was not operational at all. Shi Shanshan was not Sun Qingxue, a little girl, who has such a dependence on Yang Chen. However, it was all right to sit with Shi Shanshan, indulging in drinking tea, it would be a wonderful enjoyment.

Depressing these thoughts, Yang Chen drove the shuttle and went straight to the Pure Yang Palace. From the last time he left the sect, he had not been back in the past six years. In the heart of Yang Chen, the faces of his Master and Senior Sister were involuntarily raised. Then he naturally thought of the embarrassing scenes of his Master and Senior Sister and their spiritual awareness double cultivation.

On the road for another month, Yang Chen once again saw the familiar scene of the Pure Yang Palace gate. The first time to return to the Pure Yang Palace, Yang Chen went directly to his Master's courtyard to meet his Master.

What Yang Chen didn't expect was that his Master Gao Yue was not there. After inquiring about it from the servant, he realized that his Master and his sister had gone out in the third year of his going out. It was said that they were going to consolidate their cultivation base and then gain experience.

His Master and Senior sister were not there, Yang Chen could only go to see the head of the palace. He had collected Mu Bai as a disciple. This must be reported to the head of the palace and the cypress family had all joined the Pure Yang Palace. This matter was also necessary for the palace master to know, otherwise it would be inexplicably bewildering thing. Pure Yang Palace has more than a hundred people in the Hall of Eccentrics, isn't that a weird thing?

Yang Chen went to the master of the palace and faced no obstacles at all. This was not for anyone who wants to see the master of the palace. Yang Chen could come to him at any time, even when he was in retreat. This was the special command of the head of the palace, of course, Yang Chen would not find a time to visit the palace master when he was in seclusion.

After a big ceremony, Yang Chen was planning to report, but was stopped by the head of the palace. The palace master had already asked people to ask a few elders to be there for Yang Chen's report, or wait until the elders were all together and then say so later, lest they have to say a second time.

This was from the experience of the palace master after a few times. Every time Yang Chen came back from the outside, there would be big things happening. Except for some secrets that cannot be said to others, it was necessary for the palace master and the elders to discuss with each other. So now that Yang Chen wants to report, naturally it was necessary to wait for the elders to come to in full.

Except for ancestor master Wang Yong, the other elders arrived. Seeing Yang Chen, the elders naturally received greetings from Yang Chen, and they settled down.

"Let's see, what good things have happened this time?" the palace master waited for everyone to be ready and he said with a smile. This was the face of a smile, but he raised his legs and made preparations for listening.

The other elders also followed the palace master's example, all posing a comfortable posture, waiting for Yang Chen to surprise them again. The last time he was in the Greatest Heaven Sect, everyone had already vaguely guessed something. It was a happy time, and now it was estimated that miracles would appear again.

The elders having made such a posture, Yang Chen couldn't help laughing a little. But he couldn't blame anything, they were all elders, and he couldn't turn his fingertips. He could only respectfully say: "This time, this disciple has gone out and accepted an apprentice. His aptitude is excellent and definitely worth training."

## Chapter 319.1: Shock

“Oh? You actually received a disciple?” when Yang Chen’s words were exported, suddenly the interest of the elders sprouted up, and they asked questions, especially Zhu Chentao, almost like he wanted a confession “Quickly tell us, where is your disciple? What’s his background, what’s the surname, what is his attribute, what is his aptitude, don’t be relaxed like that!”

The apprentice who could make Yang Chen accept him must be absolutely good. When Yang Chen was a disciple in the Ye Xiu Manor, he was known for his unique vision, and the people who he pointed out had nothing wrong to say. The disciples that Yang Chen received would naturally make everyone curious.

“The disciple who received this disciple acceptance is named Mu Bai, he is a cypress tree which has become a monster cultivator.” Yang Chen didn’t conceal it, there was nothing to hide. The origins of Mu Bai could be seen at the time of seeing it. There was no need to hide it at all “It was found in the northern part of the monster plain and is absolutely good, maybe even equal to the snow dance fairy.”

The Cypress was a monster cultivator, naturally it was a wood attribute. This was not a question for everyone. Yang Chen does not have to answer at all.

“Tree monster?” Everyone was stunned, they did not think that Yang Chen’s first disciple was not a cultivator, but a tree demon.

Everyone was just a little surprised, but there was no means of rejection. Now the first dacheng stage master of the Pure Yang Palace, Gui Shanyou of the Hall of Eccentrics, was a laurel tree turned into a monster cultivator. Everyone knew that the trees were powerful, and Yang Chen chose a cypress demon as an apprentice, which was not an unacceptable thing.

“He has the same qualifications as the snow fairy?” This sentence made everyone a bit surprised. Snow fairy Sun Qingxue in recent years had become a big name, she has been faintly catching up with the cold plum fairy Shi Shanshan, if it was not because of the limitations of her cultivation base, which has not yet reached the Jiedan stage, she was definitely a person who can keep pace with Shi Shanshan.

This cypress has such a good qualification. Now everyone in the Pure Yang Palace has accepted the existence of the Hall of Eccentrics, and it was more acceptable to live in the same sect with these

monster cultivators. If the cypress really has such excellence, it would definitely be a joyous event of the Pure Yang Palace.

“Maybe it is not!” Yang Chen smiled and said, “he is actually a first wood that has turned into a demon, so the attribute is pure, and the natural wood body, specializing in the First Wood cultivation method is not necessarily worse than the snow fairy.”

“Your vision can’t be wrong, but where is the person, let me and the others see him!” Gao Shiyan asked with a smile. Such a genius disciple, everyone was interested in him.

“That, this disciple has not brought him back to the sect for the time being.” Yang Chen hurriedly replied: “In addition, the family of the cypress, of more than a hundred cypresses, the strongest of which is at the peak Jiedan stage, have all made promises to join my sect Hall of Eccentrics and have already issued a monster soul vow. This disciple agreed with them that I would take them back to the sect 30 years later, and they would like to report to the elders.”

“A hundred or more cypress demon?” Everyone’s eyes had become bright, everyone was clear about the strength of tree demons. More than a hundred cypresses, if they really grew up well, it was not a small force.

“Unfortunately, my Pure Yang Palace is not particularly suitable for the cultivation of the tree demon. Otherwise, they would be carefully cultivated, and later it would be a force of my sect.” The elder of the Sect Hidden Pavilion Elder Geng Hong seemed to think it was pity, he couldn’t help but sigh.

The cultivation methods of the monster race, in addition to a Transformation Secret Art, there was none here. Everyone knew this well, so the sigh of Elder Geng Hong was exactly what everyone felt that is was regrettable.

“This disciple is not talented. This time I went to the plains of the beast. In the Immortal’s Cave of the monster race, I bought a few cultivation methods suitable for the cultivation of the tree demon, from the low-level foundation laying cultivation methods to the advanced cultivation methods. And there was a cultivation method to increase their spiritual awareness.” Listening to the sighs of the elders, Yang Chen licked his mouth and said this. “Oh?” The words came out, and suddenly the eyes of Elder Geng Hong were brightened: “Really?”

It was unbelievable because the elders had never heard of such systematic cultivation methods among the monster races. Yang Chen actually got a set of cultivation methods from low level to high level.

“Before leaving, this disciple has already taught Mu Bai and his people to cultivate it.” Yang Chen did not answer directly, but he gave a positive answer with this answer.

“There is a good thing for the Hall Master Gui.” The elders were relieved.

Everyone knew that there were no special cultivation methods. If there was a high-level cultivation method that Yang Chen said, does it not mean that the strength of the Pure Yang Palace would become more powerful?

“What is the story of the Immortal’s cave of the monster race that you said?” The Palace Master was more concerned about the affairs of the banyan tree cave. When did the monster race have their own Immortal’s Cave and inheritance? This was a big event. It was a matter of all the cultivators. It is inadvertent to the Palace Master. Of course, he had to ask.

Next, Yang Chen naturally said the matter of the banyan tree cave in the Ten-thousand Trees forest. Of course, it was limited to the part on the ground. The first wood true essence spiritual liquid matter was of great importance. Yang Chen did not mention much of it.

Hearing that for the monster race, there was actually an Immortal’s Cave that was suitable for their cultivation, and it has also been organized by the monster race of the dacheng stage with systematic cultivation methods, everyone was even more stunned.

“Since there are such cultivation methods, why didn’t you buy more than a few, and bring back the cultivation methods of the few for the Yuanying stage and others?” After Geng Hong listened, he immediately asked. With such an opportunity, how could Yang Chen not catch it? It would not be so easy to go to the banyan tree cave in the future.

“I did buy more!” Yang Chen replied with a smile: “I bought some for Xie Sha. As for the others, this disciples also promises that he has a cultivation method for them.”

“Well, then that’s very good.” Elder Geng finally nodded with satisfaction and finally praised. Yang Chen, this disciple, always manages every situation accordingly.

However, as the elder of the Hidden Pavilion, Elder Geng still habitually came up with the following sentence “If you can take back the Monster Race Inherited cultivation methods in the banyan tree cave, that would have been good.”

“In this way, my Pure Yang Palace would be the first sect that the monster race would want to enter. It’s a pity!”

Listening to the words of Elder Geng, the other Elders, including the head of the palace, were shaking their heads for a while. There were so many easy things, and it was impossible to say whether this was a matter of fact. If you really wanted to take a copy, it was estimated that the Pure Yang Palace could become the focus of the Dao Sect and be placed on the fire.

However, the more the palace master looked, the more he thought that Yang Chen was laughing with his mouth. Was it a pity, what that the elders just said? He couldn’t help but ask with a frown: “Yang Chen, what is your expression?”

“This... this...” Yang Chen said two of this. He looked up, a little afraid of sticking his head out, and looked at the head of the palace. He laughed and said: “The complete cultivation methods were passed down, and this disciple accidentally got it. “!!

Chapter 319.2: Shock

Boom, Yang Chen’s words directly ignited the entire high-level members of the Pure Yang

Palace. The master of the palace was shocked. Even if he was in the lobby of the Blue Vault Mountain Immortal’s Cave, the palace master still felt that they were not safe enough. He waved his hand and put up a restriction. He added a few layers of insurance to the already isolated voice. He was shocked and asked, “What are you talking about?”

“This disciple is careful, and he has gotten back the inheritance of the monster race!” Yang Chen did not have any kind of guilty conscience. He was originally going to tell the elders. This was not him purposefully withholding it, but that the elders asked about it before he had a chance to reveal it.

“How is it possible?” the calm palace master, couldn’t help but widen his eyes and ask this. The other elders were even more stunned, they looked at Yang Chen, as if looking at a monster.

Bang, Yang Chen no longer explained in detail, and directly brought out the eight boxes that were obtained from the hands of the second city master from the Achievement Ring and placed them in front of the elders.

The box was open, it was full of jade slips. Everyone did not hold back and pressed forward, each grabbed a handful of jade slips from the box, and their Spiritual Awareness directly explored the contents and then they showed a surprised expression on their face. Everyone took a few pieces of jade slip in the box and explored them in detail piece by piece. It’s not that everyone didn’t believe in Yang Chen’s words. It was really that Yang Chen’s words were too astonishing. He’s actually moved the inheritance of the monster race cultivators directly. This was really unbelievable.

Eventually, everyone finally confirmed that these jade slips were indeed the various cultivation methods of the monster race cultivation, in addition to the techniques of alchemy refining and so on. With these eight boxes, it could be said that ninety-nine percent of the world’s monster race could find a suitable cultivation method here.

“Fast, go and tell the disciples in the Immortal’s Cave, not to kill the monsters in the Immortal’s Cave again!” Elder Geng was the first to react, and hurriedly yelled at the head of the palace.

With his words, everyone has come to understand it. Since there was a full set of cultivation methods, the monsters that were kept in the Blue Vault Mountain Immortal’s Cave could be the most convenient object to supplement the power of the Pure Yang Palace. It would be a pity to kill them all.

The palace master couldn’t wait for the others and his body disappeared on the spot. The Blue Vault Mountain Immortal’s was now for the palace master to govern. At this time, even the younger reporters of Yang Chen were not allowed to go, and he would first order the disciples in the Immortal’s Cave.

After a while, the body shape of the head of the palace reappeared in the same place, but the joy of the face could no longer be concealed. No one knew more about the number of monsters in the Immortal’s Cave than the actual controller of the Immortal’s cave. He knew, these were all future Pure Yang Palace disciples. How can such a number of disciples not let the palace master smile from ear to ear?

“Tell us about it, how did you get these things?” When the head of the palace returned, he directly asked a question that everyone was curious about.

Everyone was wondering, even if he could buy a cultivation method in the banyan tree cave, the price was too high, Yang Chen could not buy all these cultivation methods. How Yang Chen got these cultivation methods was the thing that most of his elders wanted to figure out.

“This is a long story.” Yang Chen was very unscrupulous with a cliché with his opening remarks, and after the staring of the head of the palace, said there was a conflict with the second city lord.

Of course, the real reason for the conflict was naturally replaced by Yang Chen, and it was replaced by the magic weapon, that the second city master coveted Yang Chen’s magic weapon, so he moved his mind and wanted to kill and rob. However, there was nothing wrong with these claims, but the number of the magic weapons is somewhat different.

As soon as they heard that Yang Chen was stared at by a master of the dacheng stage, everyone’s eyes were stunned. Was it possible that Yang Chen and the master of the dacheng stage had a grudge? How could he be noticed by the master of the dacheng stage otherwise?

“Later, what happened!” Yang Chen talked about when he was surrounded by the Yuanying stage masters and stopped, he was immediately urged by the curious elders.

Yang Chen could only slightly change the plot, the second city master had been stunned by the bloody river because of the spiritual awareness. He did not change the ending so no one would question it.

“A master of the dacheng stage was put in a coma by you?” Elder Zhu Chentao was left speechless by Yang Chen’s words and felt a little unbelievable. Everyone else had the same feeling, that was a master of the dacheng stage, saying that he is dizzy, how could he kill him?

One can’t do anything about it, Yang Chen could only put the complete body of the second city master out. When the body of hundreds of feet came out, it occupied more than half of the space in the hall.

Looking at this mustard hawk corpse that exudes a strong aura, the palace master and the elders couldn't believe their eyes.

This was the body of the mammoth monster of the dacheng stage. How many times have they seen the masters of the dacheng stage in their lifetime? There was a body of a master of the dacheng stage, and it was still killed by a Jiedan stage master of their own sect. Even if they were looking at the body, everyone had a very unreal feeling.

This little guy in the early Jiedan stage, killing the master of the dacheng stage? Regardless of who they tell this to, others would think that they were mentally ill and had abnormal brains. If there was a reaction, it would be a very serious sentence: "Young people, don't even think about it, is that possible?"

But now, this "maybe" must be changed to "certain". No one could believe it, but the complete body was in front of them, even the demon was incomparably complete, could there be a more convincing thing than this?

"What did you think at the time? From the very beginning, you were going to take these inheritance materials from him?" The head of the palace made a sigh of relief, which seemed to spit out a series of shocks in his heart, directly directed it at Yang Chen and asked.

"He was going to kill me at the time. I also tried to kill him. I didn't know that he had such good things." Yang Chen spoke in confidence on this matter "In addition, although Master also has a praying mantis puppet, after all, the speed is a bit slow. This dacheng stage corpse if made into a puppet, can help Master fly faster."

Yang Chen's words once again gave everyone a blank eye. In order to let his master fly faster, Yang Chen actually played with the idea of a master of the dacheng stage. This could not be said, it was an unusually crazy move.

"That is fine, are you afraid that we will rob you of the benefits of your master? This kid!" The Palace Master was really attentive, he said to Yang Chen after careful thinking.

"I don't mean to refer to the elders that they would make a move, but to help me to refine it!" Yang Chen smiled and played rogue, anyway, his generation is the smallest, there was this qualification!

## Chapter 320.1

Indeed, the body of a monster at the dacheng stage, even with the strength of Gao Yue now in the Jiedan stage was far from being able to refine it. To be successful in refining, the strength of the late Yuanying stage or peak Yuanying stage at least was needed for it to be completed.

Moreover, even with strength at the peak Yuanying stage, refining a dacheng stage puppet was also a protracted process.

“Senior Brother Wang has been in retreat for a long time, and he should have almost crossed the dacheng stage tribulation!” The master of the palace directly pushed the matter to Yang Chen’s master’s ancestor, Gao Yue’s master Wang Yong “Handing the refining of the puppet over to him, it is to refine for his own apprentice.”

Wang Yong had been retiring for decades. Before retreating, he brought at least five second grade Questioning Inner Heart Pills with the suggestion of Yang Chen. The master of the palace also knew that these things were not as precious as imagined, and naturally let Wang Yong bring more of it. A few more, so that he could be more sure.

Counting up, in a maximum of another ten years, Wang Yong would be able to break through the realm of the peak Yuanying stage and cross into the dacheng stage. This was Yang Chen’s estimate. In this regard, the master of the palace was also well aware.

The elders also knew that Wang Yong’s retreat was to impact the dacheng stage, but they were not as confident as the head of the palace and Yang Chen. Now that they heard the words of the head of the palace, it seems there were also no small accidents.

However, in the midst of there being no accident, everyone was still happy to live in the Pure Yang Palace. If there was another master of the dacheng stage, it would definitely be a good thing.

The body of the second city lord was still collected by Yang Chen, but the jade slips that recorded the inheritance of the monster race were handed over to the sect, and the sect began to copy and classify their management.

Elder Geng Hong also supervises the work on the research of martial arts. The work of categorising and analyzing whether it helps human cultivators to practice was naturally handed over to him. Of course, all those who could participate were the core disciples of the Pure Yang Palace.

Next, Yang Chen reported the initial agreement with the Blue Cloud Sect Leader, Sect Master Lu, to the head of the palace and the elders. Since this kind of cooperation had been done once with the Green Jade Immortal Island, this time with the Blue Cloud Sect bringing the medicinal material along with their close cooperation with the Pure Yang Palace because of the 100,000 mountains. Naturally, it was not a problem.

For the sect, Yang Chen thought, this was a good thing, and everyone knew that. With the same conditions as the Green Jade Immortal Island, not only could the sect get most of the benefits of the 100,000 mountains, but they also believed that Yang Chen, in the process of refining, could make a lot of Questioning Inner Heart Pills for the Pure Yang Palace.

As for Yang Chen's discovery of the Eighth Metal True Secret Art for the Blue Cloud Sect, Yang Chen's vows would not be circulated, so it would naturally be hidden.

At this point, Yang Chen's experiences of this experience has been fully explained. Next, it was time for everyone to discuss some things.

The Blue Cloud Sect's thing was best done. It was very easy to handle it according to the Green Jade Immortal Island's. It was easy to be impartial. Even Yang Chen's remuneration had not changed. It was still the fire seeds of the third grade, fourth grade and fifth grade, so long as the two sides do not repeat the same fire seeds.

The most troublesome thing was that the inheritance of the monster race cultivation methods was only a reference. There was absolutely no big problem. The key point was that with the rapid development of the Pure Yang Palace, the number of disciples had greatly expanded, even then the Blue Vault Mountain Immortal's Cave had room still for more than ten times the disciples.

Originally, the number was small. If there was a monster race, it was definitely an opportunity to strengthen their strength. But the question was, once the monster race joins, how would the other Dao sects react? The Pure Yang Palace had these Inherited cultivation methods. This news couldn't be concealed. If the time comes and others come to ask for it, do they still give it?

If they give it, the Pure Yang Palace would not be reconciled. If they don't give it, they would greatly offend the others. Moreover, if the monster race joined the sect in large numbers, this would be unprecedented. For the Pure Yang Palace, it may be an unprecedented opportunity, but it may also be a huge problem.

After all, monsters and humans were different. It takes time for the cultivators to accept the monster race when they join the sect. This problem would definitely be faced and must be discussed.

In other words, the big city lord of the Immortal's cave still does not know the identity of Yang Chen. If the Pure Yang Palace reveals the legacy of the monster race cultivation methods, it would mean that the identity of Yang Chen's identity would be exposed. It was very likely that Yang Chen would be faced with a chase from the dacheng stage and innumerable Yuanying stage monster cultivators.

If the big city lord was willing to make those things public, maybe there would be such a strong and invisible guy who would come after him, unless Yang Chen stays in the Pure Yang Palace for a lifetime, but even then his safety was not guaranteed.

Adding these questions together was really a headache for the palace master and elders. Everyone was very optimistic about the addition of the monster race to the sect's strength, even the monster race who joined because of the monster soul vow, were more reliable than the human cultivators. However, when they thought about these problems, there was no good solution at the same time.

They wanted to seize the opportunity to revitalize the Pure Yang Palace, yet they were afraid that they couldn't bear the enormous pressure. This was the place where the palace master and the elders were in conflict.

"Actually, this disciple thinks that these problems are not too big. So long as it is over a period of time, there will naturally be a solution." After listening to them for a while, he saw everyone frowning, and Yang Chen slowly opened his mouth.

Yang Chen's words made everyone's eyes focused on him, and no one understood why Yang Chen said so. Would there be a solution after a while? What solution?

“Why do you say this?” The master of the palace provoked a brow, and his eyes that were originally troubled was now bursting with light. Yang Chen was not the kind of untargeted guy. Since he said there was a way, there must be a way.

“Palace Master, Elders, in fact, the people in most need to strengthen their strength now is not our Pure Yang Palace.” Yang Chen smiled and said: “It is another sect, the Greatest Heaven Sect!” He thought of this and said it. Compared to the small-scale expansion of the Pure Yang Palace, the last time the gate was destroyed, was the biggest loss. Even if the connection was supplemented by dozens of small sects and rogue cultivator squads, their original strength could not be restored immediately.

The eyes of the elders also suddenly lit up. According to Yang Chen’s suggestion, the Greatest Heaven Sect was the most in need of strengthening their strength, and in accordance with the normal method, wanting to restore to the heyday of the Greatest Heaven Sect, would take at least for a hundred years.

But now, where would the Greatest Heaven Sect take a hundred years to recover? Almost all other major sects would have dissatisfaction with the Greatest Heaven Sect. During this time, they would definitely put a lot of blame on them. Even if they don’t know how to strike the sword at the Greatest Heaven Sect, they would find the way to pull the Greatest Heaven Sect.

#### Chapter 320.2: Current Situation

Under such circumstances, it was not so easy for the Greatest Heaven Sect to regain their vitality in a short period of time. It could only be done in other ways.

The quickest way was to recruit a large number of disciples. However, those who have the qualifications for cultivation were not monopolized by the Greatest Heaven Sect, so the Greatest Heaven Sect needs to expand its strength through other channels. The Demon Sect and Monster Race were the objects they needed to consider.

Daoists, Demons, and Monsters were existing, but Daoists and Demons do not coexist, and the Greatest Heaven Sect would never find people from the demon sect to enrich their own sect. From the perspective of spiritual cultivation, the Daoists and Demons were simply the opposite, there was no possibility of integration. Moreover, cooperation with the Demon sects does not match the image of the Greatest Heaven Sect, being the leader of the Dao Sects, so the Greatest Heaven Sect would certainly not consider the Demon sects.

The Monster Race was a lot simpler. In fact, the cultivators so-called “beheading monsters and eliminating the demons, eliminate the Demons to protect the Dao.” However, the beheading of the Monsters was to hone their strength and cultivation base, not to say that the monsters and humans were coexisting, but there has never been a saying about beheading monsters to protect the Dao.

Therefore, if the Greatest Heaven Sect wants to expand its power quickly, it could only start from the monster race. This was also the only way for the Greatest Heaven Sect.

In Yang Chen’s previous life in fact, the Hall of Eccentrics was first made out by the Greatest Heaven Sect. In the beginning, in order to lay a foreshadowing for the draw of the monster race, standing firm and letting the Dao Sects basically accept. After a long time, the Greatest Heaven Sect began to recruit the monster race.

However, at that time, the Greatest Heaven Sect did not have such good cultivation methods so this was a sudden opportunity for Yang Chen. At the beginning, it was opposed by many Dao sects. The Greatest Heaven Sect relied on its strong strength and finally spent decades to let everyone accept the monster race to join the hall of eccentrics.

In this life, because of Yang Chen’s reason, the Pure Yang Palace took the lead in having a hall of eccentrics, and the excuse was very reasonable, people could not pick anything to say against it. Mountain Protecting Spirit Beast, when they break through the Yuanying stage, give them a status, this was all said in the past.

Especially after the Great Calamity of Demonic Arts happened in the near past, the old tree demon Gui Shanyou in the battle protected a lot of masters of the Dao Sects and won a large number of praises, this was why they were able to stand firm.

But for the time being, the Pure Yang Palace hall of eccentrics only has three people, and there was no plan to expand wantonly. This was the root cause of true acceptance of all sects.

Since there was a foresight of the Pure Yang Palace, he believed that the Greatest Heaven Sect would soon put their ideas on the monster race. It would not take long for the Greatest Heaven Sect’s Hall of Eccentrics to be established.

After all, they were the first big faction of the Dao Sects, and their foundation was extraordinary. The problem of the cultivation methods that the Palace Master and the Elders were worried about was not a big deal to the Greatest Heaven Sect. Over the years, the Greatest Heaven Sect had been using the “beheading monsters and eliminate the demons to protect the Dao” as a pretence, and it was not known how many formidable Monster Race cultivator have been killed by them. There was a large number of monster race cultivation methods in their hands, which was a certain thing.

After trying to understand this, the problem of the cultivation method that everyone was worried about was almost no longer a problem. Other sects want the cultivation methods? The Greatest Heaven Sect first got it out so go and ask them for it!

Don't look at the fact that the Greatest Heaven Sect has just been in trouble, after all, it was still the Greatest Heaven Sect. Even the big sects such as the Blue Cloud Sect and the Green Jade Immortal Island were not like this. Other sects want to go to the Greatest Heaven Sect to ask for their cultivation methods, who dares?

Since the Greatest Heaven Sect faced nothing damaging, then the Pure Yang Palace only needed to follow rules laid down by the predecessors. When the big sects were imitated, it was natural to follow the recruitment of the monster race. Where else would there be any problems?

The Greatest Heaven Sect has got the channels of the Greatest Heaven Sect to obtain the monster race cultivation methods. Pure Yang Palace also has the channel of the Pure Yang Palace. It was always impossible to come to the sect to discuss it. This was the inheritance of the sect. It was meaningless to play the righteous and principal pretence. It was equivalent to asking someone to surrender their esoteric secret.

The Pure Yang Palace was not the Pure Yang Palace in the past. There were the Blue Cloud Sect and the Green Jade Immortal Island plus the Beast Taming Sect as their allies. It was definitely not a soft persimmon. There were four masters of the dacheng stage in the 100,000 Dashan Mountains. Wasn't it being uprooted by the Pure Yang Palace and several allies? Luo clan has a master of the late dacheng stage Luo Yuan, didn't the Pure Yang Palace destroy it as usual? Before the Pure Yang Palace, even the Greatest Heaven Sect steps had to be carefully measured.

Anyway, there was the Greatest Heaven Sect in front of it, the Pure Yang Palace under the tree was good to enjoy the cool, logically they could expand their own strength, others do not have a little bit to say about it.

At that time, there would be the old tree demon and Yu Kui and Xie Sha, which have been used as role models, and with the systematic cultivation methods, won't many monster cultivators come to seek shelter? The monster race was the monster race, they were not fools, whoever was bad, naturally could also be distinguished by them.

It was not known if the Greatest Heaven Sect knew that Yang Chen had already received as his disciple the future master of their hall of eccentrics, what their expressions would be like. Of course, they would never know, and Yang Chen could only be secretly happy in the back.

As a result, it seems that the problems that everyone was worried about were no longer a problem. The only remaining one was the big city lord of the banyan tree Immortal's Cave.

"As for the banyan tree Immortal's Cave..." Yang Chen dragged his voice a little and observed the faces of the surrounding elders. He slowly said "There is only one big city master in the dacheng stage. Since there are four masters of the dacheng stage, the 100,000 mountains can be our domain, then the banyan tree Immortal's Cave may... maybe... say no? Big?..."

When Yang Chen said a few ambiguous words, and each one said it was slower and dragged longer, just like tempting these elders.

Sure enough, as Yang Chen expected, as he said this slowly, the expressions on the faces of the elders just changed from the calmness of the problem, and they turned into thinking, expecting, eager, and finally, everyone's face was full of hustle and bustle, and both eyes were beginning to shine.

Yes, there was only one master of the dacheng stage, and the four dacheng stage master's of the 100,000 mountains had been eliminated. Could a big city lord still be on their mind? If Elder Wang Yong succeeded in this tribulation and entered the dacheng stage, then there would be two masters of the dacheng stage in the Pure Yang Palace and they could overwhelm them with their numbers, were they still afraid of not being able to take on a big city master?

Even if as a re-insurance, they used a few Questioning Inner Heart Pills to hire a few masters of the dacheng stage. The banyan tree Immortal's Cave could almost be said to be stable in the bag of the Pure Yang Palace.

“This disciple on the body of the second city lord also found the Secret Technique to control the banyan tree Immortal’s Cave.” Yang Chen saw that everyone had been tempted, once again added a heavy chip. In fact, this Secret Technique was basically what the original Immortal’s Cave owner left behind. Where was it on the second city lord?

Seeing that Yang Chen took out a jade slip to the head of the palace, it goes without saying that it was definitely the Secret Technique that Yang Chen said was used to control Immortal’s Cave.

“This, can I see it!” Elder Meng Xian of the Law Enforcement Hall directly said his thoughts! .
