Chapter 326.1: Monopolising

The figure of Wang Yong had already appeared in front of the head of the palace and the elders. Although he did not straighten out that he had succeeded in the tribulation, all those who perceive the shock in the final process had already understood that Wang Yong was already a master of the dacheng stage.

Numerous spies in the Meiqing Mountain range, the rogue cultivators, after the realization of this, went almost at the fastest speed to spread the news.

The Pure Yang Palace had added a master of the dacheng stage, and it was also a master of the dacheng stage that was born in the sect. In the future, even if it was the Greatest Heaven Sect, it was impossible for them to behave like the last time, sending a master of the dacheng stage with more than a dozen Yuanying stage masters to dare to oppress the Pure Yang Palace. From then on, the era of the Pure Yang Palace as a second-rate sect faction, where they would have to act bashful, was gone forever.

“Congratulations to Senior Brother Wang!”

“Congratulations to Master Ancestor!”

.....

A series of congratulations was immediately said to Wang Yong. On everyone’s face was a joy that couldn’t be suppressed. With the second master of the dacheng stage, it meant that even if they go out in the future, they could also puff out their chests and straighten their waists. Even if they encountered the first-class sects’ cultivators, they did not have to be careful and whisper.

With Wang Yong’s success in the tribulation, even his temperament had a big change. There was no such thing as the guilty conscience of Yang Chen’s previous memories, but the confidence on his face was full, and the person was also calm. Standing there, not angry, like a mountain, giving a feeling of being strong and unable to climb.

“Same to you!” Wang Yong responded to everyone’s congratulations, but he went to the opposite side of the head of the palace and greeted the head of the palace as usual, “Greetings palace master!”

“Senior Brother you are exempted from such a ceremony!” The master of the palace was already trembling at the moment. When did the Pure Yang Palace have such a brilliant moment? Unexpectedly, under his tenure, such a thriving development flourished. Moreover, even if Senior Brother Wang Yong was promoted to the dacheng stage, he still respected him as always, and caused the head of the palace to be choked up with emotions, it was difficult for his heart to bear it.

“Palace Master! Fellow elders, Master Ancestor, it is not convenient to talk here, let’s change the place!” Everyone was very motivated, and no one had noticed that they were still in the public. Yang Chen saw that everyone had the feeling of being open to talk and hurriedly reminded them.

The people reacted to this, and the palace master flung the sleeves of his robe, and all of them were sent to the hall of the Blue Vault Mountain Immortal’s Cave.

With the disappearance of the crowd, the large group of Pure Yang Palace Jiedan stage masters reacted, one by one, almost like a rabbit in the middle of an arrow rain, flew quickly to their homes.

This time, not only did they get a close-up view of Xu Chengxin tribulation process, but they also fortunately saw the process of the tribulation of the Master Ancestor Wang Yong. These opportunities were simply the words of the gods in their brains. If you added the process of forming the Nascent soul three months ago, you could even say that this group of Jiedan masters who have been in the sect had the solid golden tangs that had fallen from the sky.

They were able to observe the ceremony of crossing the tribulation and forming the Nascent soul, they have already had the finishing touches to their cultivation. Now there was another experience through Wang Yong’s tribulation, the kind of momentum that was full of confidence and direct, so that everyone had a kind of almost crazy feeling to it.

At present, the bottlenecks they were facing was also difficult. It was simply a matter of being able to cross it. Even those cultivators who had no problems for the time had an understanding that the efficiency of future work was definitely at least five points higher than before.

Not to mention these masters of the Jiedan stage, even those disciples who were in the foundation stage had the same feeling. Their thoughts were accessible, and their confidence was increased by a hundred times. No matter what kind of cultivation method was cultivated, no matter what stage it was at present, it was nearly a high-efficiency catalyst effect on their cultivation.

All the inner sects' disciples who were present at the moment had an impulse to immediately retreat. All of them were rushing back to their residences and telling their slaves that they were going into seclusion immediately. At this time, if they still didn't know how to digest these experiences, they would be fools.

This kind of mood also existed in the elders and the head of the palace. However, their realm was high after all, and the realm of the Yuanying ancestors was not something that ordinary people could imagine.

The situation in which Wang Yong crossed his tribulation would certainly help them, but the situation of each person was different, and the situation of the tribulation would not be the same. What really had a great effect on them was the self-confidence that Wang Yong used to face his tribulation. For this, as a Yuanying stage master, they were not eager to retreat, as long as they believed this.

The elders knew more than the ordinary cultivators. With such confidence, if they added the second grade Questioning Inner Heart Pill, all the Yuanying stage elders had the confidence to attack the dacheng stage.

This point, even Xu Chengxin who succeeded his tribulation and forming the Nascent soul with the Thunder pomegranate had this feeling. In the process of the tribulation, Xu Chengxin relied on the power of thunderbolt to almost wipe out the weakness in his body because of the wrong direction of the previous cultivation. Even if he restarted from the early Yuanying stage, he had such confidence.

The entire Pure Yang Palace experienced this extremely confident situation. So many people went to Meiqing Mountain to visit friends, for a long time, they were told that the people they wanted to visit were in retreat.

In the year after Wang Yong successfully crossed his tribulation to become a dacheng stage master, the Pure Yang Palace created a record with the largest number of collective seclusions.

The Master of the palace and the elders did not say anything to Wang Yong at this time, and did not even need to say anything more. Wang Yong's promotion to the dacheng stage was the greatest contribution to the Pure Yang Palace. He could even do nothing, just improve his own cultivation base.

Wang Yong had been retreating for decades, and there were many things that he was not very clear about. This, it was enough for Yang Chen to explain. The head of the palace and other elders were also busy to discuss the development direction of the sect in the future.

In the same way, everyone should also start to consider the handling of the medicinal pills that Yang Chen refined. Although Yang Chen's medicinal pill was now his own, it had been closely related to the interests of the sect. If the Pure Yang Palace wanted to develop, sometimes it was inseparable from Yang Chen's medicinal pills support.

In any case, the present Pure Yang Palace had embarked on a path that was quite different from that of Yang Chen's previous life, and the road of this life was more spacious and brighter, allowing the sects disciples of the Pure Yang Palace here to walk on a road that was farther away.

Chapter 326.2: Monopolising

Wang Yong does have a lot of things he needs to know, and Yang Chen was the best person who could solve Wang Yong's doubts. A lot of things which happened directly involved Yang Chen. Regarding the level of details about the knowledge, apart from the master the palace, other elders couldn't compare with Yang Chen.

Yang Chen introduced the incidents that happened during the retreat of the master ancestors to him in detail; he promoted himself and his Master and Senior sisters were also promoted to Jiedan stage, detonating the Greatest Heaven Sect, Ming Guangruo and Mao Qi and the others came to the sect to ask about their innocence, etc. In accordance with the sequence, he spoke out all the way.

When he heard that the Greatest Heaven Sect was hit hard, Wang Yong laughed happily. When he heard that Ming Guangruo had come to the sect to pressure them, Wang Yong's laughter had become a sneer.

"No hurry, they are good for nothing." After the sneer, Wang Yong directly threw a sentence "This account, sooner or later, will come back. You continue."

Next, it was natural that Ming Guangruo and the others were once again swayed by the words of the Island Master, and they left behind their life source magic weapon. As a result, Yang Chen erased the owner's consciousness in the flying sword and they ate a big loss.

In this section, Wang Yong was of course happy. Yang Chen was his grand apprentice, destroying tens of thousands of outer sect disciples in the Greatest Heaven Sect, taking from a master of the dacheng stage, and robbing people of fifteen of their life source magic weapon. This kind of thing was even more convenient than him.

Behind the banyan tree cave, he bought the cultivation methods, killed the second city lord, got the monster race inheritance, these things, each piece made Wang Yong slightly drop his jaw. In particular, when he heard that Yang Chen got the monster race inheritance, and Yang Chen directly talked with the head of the palace and the elders to discuss the things that were won in the banyan tree Immortal's Cave, even let Wang Yong's eyes become stunned.

He simply doesn't know how to describe his own grand disciple. He thought that Yang Chen was already a very formidable person, but he still underestimated Yang Chen. He killed a master of the dacheng stage, and still kept the body intact, even the monster core was not damaged. Even if he was now a master of the dacheng stage, he did not dare to promise that he could achieve this, Yang Chen, a disciple of the early Jiedan stage, actually did this.

The body of the second city master was placed in front of Wang Yong's eyes. This body of a master of the dacheng stage that he wanted to refine into a puppet. Naturally, Wang Yong's high-handed manpower was required.

Although the old tree demon's cultivation was higher, the old tree demon Gui Shanyou himself was also of the monster race, if they let him refine the body of a monster race dacheng stage master, psychologically there may be a contradiction, this was something that Yang Chen wanted to give to his Master as a life-saving magic weapon, giving it to Wang Yong who was also the master of Gao Yue, was a perfectly justified thing to do.

After carefully examining the body of the second city master, Wang Yong collected the body of the master of the dacheng stage. For Yang Chen to consider Gao Yue, Wang Yong was satisfied, and he did not hesitate to agree to it.

Another thing was about Yang Chen going to the Extreme North Land and accepting a genius disciple of the monster race, which made Wang Yong comfort himself about his old age, his own grand disciple actually had a disciple, then his own generation, was it not the senior generation.

Wang Yong had never doubted Yang Chen's vision. Since Yang Chen said that Mu Bai was a genius, he would never be wrong. Wang Yong now really wanted to see his own grand disciple's disciple and see how it was.

Finally, Yang Chen was able to tell about the recent incident about the Inner Sensing Pill. Hearing that Yang Chen was refining a new kind of medicinal pill, and this second grade Inner Sensing Pill let the two hall masters of the peak Jiedan stage, who were trapped in the peak Jiedan stage for decades, cross their tribulations in just three months. Wang Yong almost jumped up in surprise.

"What kind of medicinal pill is it? Why is it so strong?" Wang Yong directly extended his hand to Yang Chen. He had to see for himself what kind of medicinal pill it was, and how it could be so powerful. If it was really able to make a Jiedan stage master form his Nascent soul, would it not be comparable to the high-grade Nascent soul forming medicinal pill?

How could Yang Chen refuse the request of the master ancestor? The second grade Questioning Inner Heart Pill was better than the Inner Sensing Pill by he didn't know how many times, but Yang Chen provided the medicinal pills in abundant supply. How could he be parsimonious with a little Inner Sensing Pill? He directly took out the first grade Inner Sensing Pills and second grade Inner Sensing Pills and handed them over to the hands of the master ancestor.

When he took it over, Wang Yong carefully observed the first grade Inner Sensing Pill and then he put it in his mouth for the inspection, even the protective array has not been set.

The master ancestor was a master of the dacheng stage and naturally he would not care about the small side effects of the Inner Sensing Pill, Yang Chen didn't remind him, he just waited slowly. ...,

Soon, Wang Yong recovered from the closed-eye experience and opened his eyes. He seemed to be thoughtful. After a while, he directly took the second grade Inner Sensing Pill.

This time, the time was shorter, but the master ancestor was sweating, and soon he opened his eyes, thinking for a while, and a smile appeared on his face.

“Good things, I thought that I have been tempered by the Yin fire, and the spirit qi and blood has already been promoted to the dacheng stage. I didn’t expect to have a place to take care of, good things!” he was almost straightforward to praise, Wang Yong was not afraid to praise his own grand disciple for his medicinal pill.

Wang Yong’s words made Yang Chen surprised and happy. Originally, he thought that this medicinal pill had no effect on the masters of the dacheng stage but did not expect to be able to help the master ancestor. This fully showed that in the early dacheng stage, the second grade Inner Sensing Pill could also be effective, which also means that the preciousness of the second grade Inner Sensing Pill had raised a step.

“This is the pill recipe of the monster race, and other people can get it. Can it be transferred to the second-grade refining system by them?” Wang Yong’s first thought was to ask Yang Chen if other alchemy masters could also refine the second grade Inner Sensing Pill.

To be honest, the first grade Inner Sensing Pill, even Xu Chengxin could not gain too much help from it. It could only let him have more references and find out the problems of his previous cultivation. The second grade Inner Sensing Pill was the real medicinal pill that changed everything.

Wang Yong asked this question, he just wanted to know if this pill was an exclusive resource of the Pure Yang Palace.

“There is a certain amount of trouble in the refining of the second grade Inner Sensing Pill.” Yang Chen had the most say in this matter: “There is a need for multiple fire seeds to be used together, and it must be controlled by several kinds of fifth grade fire seeds at the same time. ”

“That is to say, it is not so easy for others to refine,” Wang Yong was also a fire cultivator, of course he knew the difficulty.

There were the several kinds of fifth grade fire seeds, which were not a big deal for some big sects. However, if they wanted to control several kinds of fifth grade fire seeds at the same time, it required a lot of time and effort.

Even if there was a fire cultivator alchemist master who began to cultivate after knowing it. It would not be possible in less than hundreds of years. Not everyone was Yang Chen, able to have such a monstrous fire controlling ability.

Moreover, if the general alchemy master began to carry out the second refining system, and certainly did not know the key, which would take at least tens of hundreds of years to study how to carry out the second refining system.

Between the time of the study, it meant that the Pure Yang Palace could enjoy the second grade Inner Sensing Pill for at least two hundred years.

Chapter 327.1: The Sect's Support

Wang Yong was happy with this, but Yang Chen still had something upsetting him. Soon, Wang Yong discovered this.

"Was there any trouble recently?" He was promoted to the master of the dacheng stage and Wang Yong was shocked by his sensitivity and asked immediately.

"The disciples do have some troubles." Yang Chen did not hide at all. He replied directly "Master and Senior sister both had spiritual awareness double cultivation with me, now there is the Fairy Shi of the Green Jade Immortal Island and the Snow Fairy of the Blue Cloud Sect, this disciple does not know how to treat it."

"How difficult is this?" Wang Yong listened and almost blurted out "The people who cultivate are not necessarily trapped by etiquette. If you have the heart for it, you will accept all of them. If you don't, then you will refuse. Today, My Pure Yang Palace is not the Pure Yang Palace in the past. You are not an insignificant disciple of the younger generation. Why bother with these things?"(now we are talking)

These words have already explained the confidence and status of Wang Yong. After all, he still had to look at Yang Chen's own thoughts. Even if he refused Shi Shanshan and Sun Qingxue, the Green Jade Immortal Island and the Blue Cloud Sect would not get angry because of this matter with the Pure Yang Palace. The Pure Yang Palace now, as Wang Yong said, was no longer the Pure Yang Palace of the past.

The interests of the sect were no longer the shackles of Yang Chen, which made Yang Chen's choice more out of his own heart. Wang Yong's words had thoroughly demonstrated his attitude towards Yang Chen. As long as Yang Chen was willing to do so, he would fully support it.

In the discourse, there was some other content that was intentionally or unintentionally revealed. It was not necessary to be trapped by etiquette. It seems to be reminding Yang Chen that there was no need to care about his master and disciple relationship with Gao Yue. There were many people cultivating, and the master and disciple double cultivation was not starting from Yang Chen and Gao Yue, and it would never end with them.

Many times, cultivators would try their best to find a suitable Dao Companion as a double cultivator. In most cases, it was quite normal to train one from scratch. Therefore, the relationship between mentoring and apprenticeship should not become an obstacle between Yang Chen and Gao Yue. Even Wang Yong was not opposed to it. What other reasons and identity do others have to be against it?

"I don't have to bother?" It was also the first time for Yang Chen to hear someone say this to him. There was a feeling of seeing the clouds on the road, but after all, there were still some concerns, so he seemed to be somewhat unconfident.

"Of course!" Wang Yong laughed and said "At this time, who can stop what you from what you want to do? A yuanying stage master? Or a master of the dacheng stage? Unless it is the power of these several big sects, but would they do that just to stop a pair of master and apprentice from having double cultivation, don't their sect disciples have double cultivation with each other? Or have they rejected their disciples? Don't forget, my Pure Yang Palace is always standing behind you."

Although Yang Chen was still only a small Jiedan stage master, only a few yuanying stage masters were his opponent. Even if Yang Chen was willing, the masters of the dacheng stage would not be able to defeat him. This point, whether it was Luo Yuan or the second city master, had already set an example.

"Do what you want to do, don't worry about anyone, or anything." Wang Yong's voice was like it was coming from the clouds, filling Yang Chen's ears "Don't say that you are just overcast, just a few times, even if you smashed into the gates of the Greatest Heaven Sect tomorrow, there would be the sect behind you. Even if there is a war, the whole sect will not hesitate."

After being promoted to the dacheng stage, Wang Yong seemed to have thought about a lot of things and saw a lot of things. So when he spoke out, it was even more passionate.

“Yes.” The voice of the head of the palace who he did not know when he had been there was heard. Yang Chen began to think with fascination so he did not find the arrival of the head of the palace.

Hearing the voice of the head of the palace, Yang Chen raised his head and looked at the palace master with surprise.

The head of the palace master nodded slightly to Wang Yong, then turned to Yang Chen and said with a smile “Everything you do is in consideration for the sect. There is absolutely no reason for the sect not to support you. The Fairy Shi of the Green Jade Immortal Island and the Snow Fairy of the Blue Cloud Sect, if you like to take them together then do it, if you don’t like it, you will refuse all, no need to consider other things.”

Yang Chen was a calm person, and with the memories of two lives he had experience in dealing with his feelings. However, in the words of Wang Yong and the head of the palace, he was so proud. As a real man, if he wanted to do it, why would he think so much.

The advice given to him by Wang Yong was not only emotional, but was also a daily conduct. The previous few small plots against the Greatest Heaven Sect were basically hidden in the dark, so that the Greatest Heaven Sect could not grasp the handle of it. Speaking of it, there was no such thing as a face-lifting knife.

Within Yang Chen’s mind, he just wanted to scruple the power contrast between the Pure Yang Palace and the Greatest Heaven Sect, fearing to implicate the Pure Yang Palace. However, Wang Yong let him know that the sect absolutely supported him. The idea of the master of the palace was also the same. Needless to say, other elders must have the same mind.

Yang Chen was in the Pure Yang Palace, which cannot be erased. Therefore, as long as it was Yang Chen’s accident, it would definitely be related to the Pure Yang Palace. Yang Chen suddenly understood this point, and the long-standing worry in his heart seemed to have been thrown into the air.

He felt loose in his whole body up and down, which was very refreshing, even his spiritual power seems to have let go of its bondage and was swimming in his body.

The already condensed third fire, fourth fire and first wood spirit power, the three most primitive spiritual powers of the Fifth Earth True Essence, Seventh Metal True Essence and Tenth Water True Essence were madly surging and impacting.

In Yang Chen's mind, there was a little bit of enlightenment. It seems that as long as he could get more Fifth Earth True Essence, Seventh Metal True Essence or Tenth Water True Essence like the first wood true essence spiritual solution, these three spiritual powers could immediately condense Dan.

The Seventh Metal True Essence left by Golden Star of the Sun, he was definitely going to have a look at it. The Tenth Water True Essence was also convenient, but it only needed for him to stay at the sea for a long time and the sea jasper would naturally condense some. At that time, there would be two more spiritual powers to condense Dan, and maybe it could drive all the spiritual powers to condense.

Even Yang Chen did not think that this consultation with Wang Yong could have such benefits, it was unexpected. After silently controlling his spiritual power to calm down, he heard that the head of the palace was discussing with Wang Yong the method of handling the second grade Inner Sensing Pills.

"Since we can monopolize it alone, then we can't let go of this kind of benefit." The master of the palace had already learned from Wang Yong the difficulty of refining the second grade Inner Sensing Pill "The alchemist masters can crack it in two hundred years, then we will with the two hundred years, collect the biggest benefits."

"We can provide even the second grade Inner Sensing Pill. These second grade Inner Sensing Pills can be the same." The master of the palace seems to have a draft in the blink of an eye: "If you want, easy, take things to trade for it!"

Chapter 327.2: The Sect's Support

The second grade Questioning Inner Heart Pills was the first discussion between Yang Chen and the head of the palace. In a batch of Questioning Inner Heart Pills, the first grade Questioning Inner Heart Pills was mixed with two or three second grade Questioning Inner Heart Pills to be offered to the Green Jade Immortal Island.

The first grade Questioning Inner Heart Pill had been astounding and it wasn't known how powerful the second grade Questioning Inner Heart Pill would be, there was almost no need to ask. The Green Jade Immortal Island would definitely be looking at the two or three second grade Questioning Inner Heart Pills as treasures.

Shi Shanshan's problem, Yang Chen also drilled the horns of his own. In fact, only looking at these second grade Questioning Inner Heart Pills, what Yang Chen wants, the Green Jade Immortal Island would definitely not oppose.

The treatment of the senior alchemist was not thought of by Yang Chen. Of course, this was also related to his previous life in hiding. It was known that the senior alchemists were very popular, but he had not seen it personally.

The sect had set a strategy, and the following was naturally the vigorous implementation. However, this was not to let the Pure Yang Palace disciples go to the local area to go to announce it, but inadvertently, when several friends who knew each other were conversing, they accidentally leaked it out. This way, not only could it be credible, there would be no suspicion through speculation.

Soon, some people accidentally revealed that three months ago, the Hall Master Ming of the Fierce Yang Palace of the Pure Yang Palace crossed his tribulation at the entrance of Yang Chen's pill room.

In the chat of another group of people, it was revealed that Xu Chengxin, the Foreign Affairs Hall Master of the Pure Yang Palace, who had recently been able to form his Nascent soul, waited for a whole month outside the pill room of Yang Chen. After Yang Chen's exit, they went to the centre of the Pure Yang Palace for him to cross his tribulation.

The two people's tribulations were all related to Yang Chen, and the relationship between the newly-born dacheng stage master, Wang Yong and Yang Chen as the master ancestor and grand disciple, he was sure to have relied on the ability of the Questioning Inner Heart Pill to be successful. This time, for Yang Chen, many sects began to pay more attention.

It was too extravagant for the peak Jiedan stage master to use the Questioning Inner Heart Pill to form his Nascent soul, not to mention the Pure Yang Palace, which of the martial art sects of the Green Jade Immortal Island and the Greatest Heaven Sect could do this.

Ten thousand years spirit medicine, you could not get it if you just wanted to get it, even if Yang Chen had a great fortune, it was impossible to have so many refining materials. Then, there could only be a new medicinal pill.

Soon, people who had a relationship with the Pure Yang Palace came to the sect and asked for details. At this time, the Pure Yang Palace seems to realize that it was impossible to keep this secret. They told everyone that the two people who crossed their tribulations was indeed because of a medicinal pill. As for the name of the pill, it was called Inner Sensing Pill.

Since the name of the pill was available, people who were well-informed would immediately know the origin of the pill. This was a monster race medicinal pill. Although the pill recipe was rare, it was not impossible to obtain.

It was certainly impossible to ask for the pill recipe on the spot when they went to the Pure Yang Palace, but since there was a direction, it was not wrong to find the monster race. In particular, some of the big sects had the pill recipe of this kind of medicinal pill in their hands. After hearing the news, they would start experimenting immediately.

The medicinal materials of the Inner Sensing Pill were not rare, although they all need to be hundreds of years old, for many martial art sects, it was not something that was difficult to do.

The Inner Sensing Pill of the monster race seemed to be very simple, but even so, even Yang Chen took half a year for his first time before he succeeded in refining the first grade Inner Sensing Pill. Several martial art sects capable of refining began refining immediately, and the alchemists closed their alchemy rooms, while others were waiting laboriously.

Yang Chen would not manage these things. When Wang Yong crossed his tribulation and reached the dacheng stage, and the news came out, the entire cultivation world clamored, and various sects came to congratulate him.

This was different from the old tree demon Gui Shanyou joining the sect. After all, the old tree demon was still a monster, but Wang Yong was a disciple of the Pure Yang Palace, and he had the status of an elder, which was absolutely not ordinary. Moreover, after the Questioning Inner Heart Pill came out, the Pure Yang Palace did not know how many people wanted to form a relationship with them, so the ready-made opportunity was sent to their door.

As long as various sects and rogue cultivators had a relationship with the Pure Yang Palace, it was through the excuse of this congratulatory door to close the relationship with the Pure Yang Palace. If nothing else, just for one day, perhaps in exchange for a high price, to exchange for a Questioning Inner Heart Pill from the Pure Yang Palace.

Yang Chen stayed in the Pure Yang Palace and did not go out. Master Ancestor Wang Yong succeeded in his tribulation, after his master Gao Yue heard it, she would definitely return. He was waiting quietly in the sect, and he would soon see his master Gao Yue and his Senior sister Gong Sunling.

In addition, the Blue Cloud Sect's Master Lu said that after three years they would be visiting the Pure Yang Palace, now only half a year was left, Yang Chen was also waiting here for their reception.

However, Yang Chen was not without anything to do, the reward from Green Jade Immortal Island had already been handed over to Yang Chen.

After the Green Jade Immortal Island got the Questioning Inner Heart Pills, which was sent by Yang Chen, they were pleasantly surprised to find that there were two second grade Questioning Inner Heart Pills among the other pills. A first grade Questioning Inner Heart Pill has been able to let a master of the dacheng stage directly break through the bottleneck in the middle stage. This sudden surprise directly surprised the Island Master and the elders and they didn't know how to express it.

Based on Yang Chen's over fulfilled tasks, the conditions for the cooperation between the Green Jade Immortal Island and the Pure Yang Palace had also changed. Originally, the Green Jade Immortal Island was planning to give more benefits to Pure Yang Palace, but the head of the palace refused the goodwill of the Green Jade Immortal Island, saying that the transaction had already been agreed upon and couldn't be changed easily.

This point had won the favor of the Green Jade Immortal Island. Speaking of it, the master of the palace was also in disguise, thanks to the Island Master, because the last time the Island Master took the initiative to take the opportunity to help them deal with the Greatest Heaven Sect, otherwise the Pure Yang Palace would have suffered an insult. Moreover, after Ming Guangruo's life source magic weapon was snatched, the Island Master also shared a great suspicion.

However, this made the Green Jade Immortal Island more fond of the Pure Yang Palace. Based on Yang Chen's excess, when they asked for the Questioning Inner Heart Pills, and the Pure Yang Palace did not accept temporary changes, so the benefits of these thanks fell to Yang Chen.

The Green Jade Immortal Island prepared the fire seeds directly and sent it to the Pure Yang Palace. These included sixty third grade fire seeds, fifteen fourth grade fire seeds, and two fifth grade fire seeds.

Compared with the ones which was promised to Yang Chen at that time, there were more than 50% of the total, and there was also precious fifth grade fire seeds.

When Yang Chen came back, he threw out the monster race materials. The palace master forget to hand over these things to Yang Chen on the spot, and Yang Chen immediately closed up for his alchemy, then Qiao Ming crossed his tribulation, and then he closed up for refining, plus Xu Chengxin and Wang Yong tribulations. He had been busy until this time, so the palace master handed over these things to Yang Chen.

In the face of so many kinds of fire seeds, Yang Chen could not help but sigh. The Green Jade Immortal Island was the Green Jade Immortal Island indeed. In his previous life, for Yang Chen to obtain the fifth grade True Sun Fire fire seed, it was not known how much thought it took, and how many hardships he had to endure. Even the present day dacheng stage master, Elder Wu Xiong, had spent a few years looking for the True Moon Fire of He Lianyun. However, the Green Jade Immortal Island had sent him two kinds of it, the sect power was evident. !!!

Chapter 328.1: Being Of One Mind

When he got these kinds of fire seeds, Yang Chen went straight to his place of residence.

Yang Chen's small courtyard was full of spiritual power, but there was no servant to take care of it. Gao Yue sent her maid directly to help him take care of it usually. Yang Chen left for so long but the room in the small courtyard was still abnormally clean, and there was no dilapidation because Yang Chen was absent.

After greeting the maid, Yang Chen began to absorb these fire seeds one by one. The Yin-Yang Burning Heavenly Fire was now a higher-level fire seed at the third grade, so Yang Chen also started from the third grade fire seeds.

He was afraid that it would not be so easy to use the Yin-Yang Burning Heavenly Fire to absorb the third grade fire seeds after reaching the Jiedan stage. Fortunately, the absorption process was completely automatic, and did not require too much effort from Yang Chen.

What Yang Chen was doing now was to control the Profound Spirit furnace to store these fire seeds first. Although the Green Jade Immortal Island had kept these fire seeds very well, Yang Chen would feel more at ease if it was in the Profound Spirit furnace.

The Profound Spirit Furnace had absorbed several kinds of fifth grade fire seeds. After blending most of the Cyan Crystal Profound Gold, it had the same qualitative change as the same nature of the Yin-Yang Burning Heavenly Fire. The more fire seeds that were absorbed, the stronger the Profound Spirit furnace became. The stronger the Profound Spirit furnace was, the faster the speed of the absorption of the fire seeds. Now it was absorbing the third grade fire seeds, but it was as simple as the absorption of a first grade fire seed.

Even so, a third grade fire seed would take Yang Chen at least four or five days. Yang Chen absorbed them for two months before he absorbed the fifteen kinds of third grade fire seeds into the Profound Spirit furnace. It was necessary to absorb it all, so it didn't take a short time.

On this day, Yang Chen was controlling the absorption of one of the third-grade fire seeds. When it was about to be completed, his heart suddenly moved and there was an indescribable joy in his heart.

This kind of emotion came so suddenly that Yang Chen was very surprised. However, the mood of joy did not stop him from working with his hands. He still managed to control the Profound Spirit furnace, and after inhaling the third-grade fire seed that were being absorbed into the furnace, he stood up and pondered the inexplicable mood. what's going on?

The inexplicable joy came with no reason, was it in his heart? Yang Chen carefully looked through his mind and there was no such thing as a cultivation deviation in his memory. He just felt happy, no matter whether it was his spirit power or spiritual awareness, there was no change, it should not be a Cultivation deviation.

Soon, Yang Chen suddenly discovered that when faced with a certain direction, this feeling was at the strongest. Yang Chen couldn't help but feel a movement in his heart. The spiritual awareness threads of the peak early dacheng stage swiftly expanded in the direction crazily, and in a moment, it reached a hundred miles away.

Forcibly suppressing the excitement, Yang Chen urged the spiritual awareness to explore the farthest places in that direction. As a former Great Principle Golden Immortal, Yang Chen also knew that spiritual awareness was not omnipotent. Otherwise, Ming Guangruo would find that something was wrong with his flying sword and could detect many clues.

However, after all, the spiritual awareness threads were several times faster than the flying swords. After a while, the spiritual awareness were thousands of miles away from the scope of the Meiqing Mountain range.

This was not the limit of Yang Chen's spiritual awareness exploration. You must know that Yang Chen's spiritual awareness was now opened fully, and he was exploring a particular direction. When he concentrates on exploring in a certain direction, he could even explore five times larger than the scope of his exploration usually.

A stick of incense time later, Yang Chen's spiritual awareness finally reached the limit, two thousand miles, this was Yang Chen's farthest distance when exploring in this direction, he could detect that there was a person who was moving towards this side hurriedly.

After waiting for a while, Yang Chen's spiritual awareness knew the existence of that person.

These familiar figures, Yang Chen almost directly called out to them.

That was his Master Gao Yue, there was another familiar shadow around, it was his Senior Sister Gongsun Ling. He didn't know why, but Yang Chen could feel his Master's attraction to himself, but couldn't detect Gongsun Ling.

Gao Yue was obviously somewhat confused, but after entering the scope of the exploration of Yang Chen's spiritual awareness, Yang Chen sent a thought directly to his Master, using the Beast Controlling Secret Art method.

"Master!" In the mind of Gao Yue, Yang Chen's voice suddenly sounded, and she was overjoyed. Finally, it was a timely response. This was not because Yang Chen was talking to her. She did not openly ask Yang Chen why.

"I am in my residence in the sect." Yang Chen's voice of joy was not pretending and appeared again in the mind of Gao Yue. Then, after a pause, Yang Chen suddenly said: "I miss you, Master!"

This time, it let Gao Yue's face and ears directly become red. She couldn't communicate directly with Yang Chen. She didn't have Yang Chen's Beast Controlling Secret Art, and she also didn't have the

communication ability of the monster soul. Gao Yue could only listen to Yang Chen's words, but could not respond. Just, listening to Yang Chen's words, Gao Yue was somewhat ashamed, but her heart was happy.

She also felt strange. When she passed somewhere, she felt that there was something in front of her that attracted her. Suddenly, there was an inexplicable joy. It was precisely because of this that Gao Yue accelerated back to the sect with Gongsun Ling, and she heard Yang Chen's voice on the road.

Does this mean that she and Yang Chen had an indescribable connection? Could it be caused by the double cultivation? Gao Yue was not sure, because Gongsun Ling does not seem to respond to it.

"Senior sister!" Yang Chen did not pay any attention to this. After speaking two sentences with his Master, he also sent a greeting to Gongsun Ling.

"Yang Chen?" Gongsun Ling could not be as calm as Gao Yue, and she called out directly. However, she immediately realized that she did not seem to see the shadow of Yang Chen.

When Gongsun Ling opened her mouth, Yang Chen listened very clearly, and he knew that he could do this. This time, Yang Chen also sent a message to his Master and Senior sister "Welcome back to the sect."

Listening to the call that Gongsun Ling blurted out, Gao Yue also understood that this was definitely what Yang Chen and Gongsun Ling also said. However, looking at Gongsun Ling's astonished look it was not like the same feeling as herself. She was relaxed, she doesn't know why she felt like this. Maybe, when she sees Yang Chen back in the sect, she could explain it all.

Gao Yue and Gongsun Ling once again speeded up and set the flight of their flying sword to the highest, while Yang Chen was already driving the shuttle to fly over here.

The speed of the shuttle was faster, the two sides accelerate, and less than an hour, Yang Chen and his Master and Sister met in the middle. He didn't want to think about it. Yang Chen directly included the two women in the shuttle. He adjusted the direction of the shuttle to the Pure Yang Palace and he turned to his Master and Sister.

“I have been waiting for you for a long time, Master, Sister!” Faced with the two women, Yang Chen blurted out!.

Chapter 328.2: Being Of One Mind

From the last time he left the Pure Yang Palace to go to the Ten-thousand Trees Forest, it was now more than nine years. Gao Yue and Gongsun Ling both went out to gain experience after consolidating their realm. If they had not heard that Wang Yong had crossed his tribulation to become a dacheng stage master, Gao Yue and Gongsun Ling might have stayed outside for some time.

When they saw Yang Chen, the two women couldn't believe it that Yang Chen could find their whereabouts, especially Gongsun Ling, at such a long distance. It's impossible to imagine that Yang Chen was exploring with his spiritual awareness all the time.

This was not a good phenomenon. Exploring others at any time would be considered a provocation unless the other party was a friend or relative. Gongsun Ling certainly would not think that Yang Chen was provoking herself, but what about others?

Only Gao Yue slightly guessed some reasons but did not say it.

Between the two, they didn't know what the reason was, only that there was a connection that was incomprehensible. As long as it was within a certain distance, they could detect the existence of the other party. The inexplicable joy was caused by the close proximity of both sides.

However, at this time, neither Yang Chen nor Gao Yue elaborated on anything, they simply enjoyed the silent joy in their hearts. In fact, meeting again was a pleasure in itself.

The two women were told that Wang Yong's tribulation took turns, and naturally they were more concerned about this matter. Yang Chen would never conceal from the two women this kind of thing.

But before they heard that Wang Yong crossed his tribulation, they heard that Qiao Ming and Xu Chengxin took a second grade Inner Sensing Pill, causing the forming of their Nascent soul, the two women still issued an uncontrollable exclamation.

Only a few years later, Yang Chen made another kind of medicinal pill that allowed Jiedan stage masters to enter the Yuanying realm. It was absolutely sensational.

Although the news was only circulated among a small number of people, the two women were convinced that Yang Chen would definitely become a darling figure again because of this brand-new pill.

In this regard, Yang Chen did not care. What he cared about was that his Master returned safely, and his Senior sister was safe and sound. After her appointment with her Master Wang Yong, Yang Chen had a lot of words to say to his Master.

The first thing to do when they returned to the sect was to go to see the Elder Wang Yong, that was the purpose of the two women for coming back. As an apprentice of Wang Yong, Gao Yue easily saw Wang Yong, and Gongsun Ling certainly followed.

After paying respect to Wang Yong, Wang Yong also encouraged Gao Yue and Gongsun Ling with a few words, and the two women returned. Gongsun Ling was going to visit her master so Yang Chen was accompanying Gao Yue back to the small courtyard of Gao Yue.

Although there were thousands of words in her heart that she wanted to ask Yang Chen, but when it came to the end, Gao Yue found that when she faced Yang Chen alone, she couldn't say anything. Finally, there was only one sentence which was said "How are you doing recently?"

Yang Chen was not scornful. He directly told her about his experience after leaving the Pure Yang Palace. Of course, some of the things involved the secret of the sect, Yang Chen was still cautious and did not say these, but the process was already quite thrilling, especially killing the second city lord mainly for Gao Yue to refine it into a flying puppet, but it also let Gao Yue who listened to it become stunned.

"The body of the master of the dacheng stage, you are refining it to give to me to use for my flight?" Gao Yue did not know whether to be surprised or happy. Yang Chen had this heart, she felt very sweet in her heart, but for this, one must venture to challenge a master of the dacheng stage, this was by no means what Gao Yue was willing to see.

"I didn't provoke him. He chased after me. This disciple could only kill him." Yang Chen said "This disciple gave him three chances, but he continued to chase and tried to kill me, it was also difficult for this disciple."

On this issue, Gao Yue still did not say anything after all. Yang Chen came to her for the second time. Yang Chen won the victory and came back to bring back the body of the second city master of the dacheng stage. In the end, she just left one sentence: "you will not do such dangerous things in the future."

Yang Chen, of course, nodded and promised, and then continued to confess to his Master that he had accepted Mu Bai as his disciple.

When she heard that she already became Master Ancestor Gao Yue, she had an unusual mood. In the same way, she never doubted Yang Chen's vision. For Yang Chen's means of pointing his disciples, she was more reassured, just like Wang Yong. She was curious to see what this apprentice was like.

The trouble he was facing that he asked for advice from Wang Yong, Yang Chen, of course, would not mention it to Gao Yue. After trying to understand some things, Yang Chen understood that as a man, he wants his own happiness and must fight for himself. The same was true for Gao Yue's feelings. He couldn't wait for Gao Yue to arrange it, and he couldn't wait for Gao Yue to find out the question, the best way to deal with it, was to take the initiative.

"Master, although it is somewhat disrespectful, but this disciples have figured it out, there are some words this disciples must say." Looking at Gao Yue's emotions which was still calm, Yang Chen quietly placed a mask of sound barriers outside, followed by saying this to Gao Yue.

Looking at Yang Chen's so serious opening, Gao Yue seemed to realize what he was going to say, her head was slightly lowered, she bit her teeth, and asked softly "What?"

"I like you! Master!" Yang Chen did not hesitate this time and straightforwardly said something that had long since lingered in his heart. He never said this before in my life. This life he was finally standing in front of his Master and he has spoken out this sentence loudly.

Even if she had already guessed that Yang Chen might say this, when she really heard the words that Yang Chen said, Gao Yue still had a sigh of relief in her mind. Her heart has already been overflowing with joy, but there was still a voice in her mind that kept asking "He is my apprentice, what should I do? What should I do?"

"I know that this may be awkward, but I want to understand that without you being around, even if I am a Great Principle Golden Immortal, even if I became the Jade Emperor, it would be the greatest regret in my life." Since he has spoken the words, Yang Chen does not care about showing his true feelings to Master "I don't want my life to have this regret. Master, I like you!"

"You can go..., you can go..." Gao Yue listened to Yang Chen's words, and there was tears in her eyes. She didn't know if she was happy or anxious. She even said two things, but the following words was not coming out.

"I like you, I want to marry you!" Yang Chen continued to say loudly: "I want you to be my wife!" In the speech, he originally claimed to be a disciple, and now Yang Chen has also changed to me.

"Your master ancestor will not agree!" Gao Yue confided directly to Wang Yong, her face was blood red, her head was almost low to her chest "The master of the palace will not agree!"

"Even if the whole heaven is opposed, I will marry you as a wife!" Yang Chen's voice has never been so firm "The ancestor and the masters of the palace, they have no objections!"

Chapter 329.1: Agreement

Gao Yue didn't know if she heard what Yang Chen after that. She didn't even know if Yang Chen had talked again. She just heard Yang Chen firmly saying that he would marry her, and then he said that the palace master and Wang Yong were not in opposition of it, after that she fell into a sluggish state.

There has not been much time to get along with Yang Chen. This was about a hundred years since Yang Chen's apprenticeship. The real time Gao Yue spent with him was only about ten years.

Even if Yang Chen, Gao Yue and Gongsun Ling retired together for three or fifty years, they only cultivated separately, and had little time to chat and communicate. At most, when Yang Chen was cultivating, Gao Yue and Gongsun Ling would serve as his protectors, or he would do it for them.

However, this was the case. Between Yang Chen and Gao Yue, there was still a feeling that was growing slowly. This was a feeling that has left the apprenticeship realm, and the two did not find it at first.

Yang Chen always thought that he only remembered his Master's care for himself in his previous life, and he was grateful for his own burning of indiscriminately. However, he did not expect that in his past life he had missed it, and that kind of gratitude had already been replaced by another feeling.

Fortunately, Yang Chen figured it out at this time, and said something. As soon as the words were spoken, Yang Chen felt that the stone in his heart was really put down.

Gao Yue was already feeling overflowing joy. What did Yang Chen do for her, how could she not know? Killing Chu Heng, coming to the 100,000 mountains to save her life, because the other side hurt herself, so he did not hesitate to uproot the 100,000 mountains.

One thing at a time, which contains Yang Chen's thoughts on herself. Gao Yue was only hindered by the relationship between master and apprentice. She never dared to clarify these things. Later, she discovered that the Green Jade Immortal Island and the Blue Cloud Sect were interested in pulling him to their side, so instead she moved her mind to withdraw.

Now Yang Chen said in front of her face his desire to marry her. Gao Yue's happiness was to the limit, and there was an emptiness in her mind. She doesn't even know how to answer. It was not until Gao Yue noticed that her hand had been caught by Yang Chen that she became sober.

This was first time for Yang Chen to take the initiative to take the hand of Gao Yue, because of the reason being the Yellow Turban Strongman Body Refining Technique. His hand was more than twice as big as Gao Yue, and his body was so strong that it is like a big bully who was overpowering the local beauty. It was very funny.

When the two people's hands were pulled by each other, they suddenly had a heartfelt connection. The joy in the hearts of the two sides seemed to be connected together. Needless of them saying anything, naturally, they knew each other's wishes.

It was not known when, Gao Yue had slowly leaned back into Yang Chen's arms. This was the first time such a close contact between the two had happened besides the spiritual awareness double cultivation, but the wonderful taste was like drinking the jade dragon wine, involuntarily intoxicated.

None of them talked, because no one was willing to talk. Gao Yue and Yang Chen were embracing, standing quietly, enjoying this silent tacit of understanding and joy.

Gao Yue's heart has already flown into the air. She never thought that when she was leaning on Yang Chen's arms, it would feel so beautiful. At this moment, she didn't want any mentoring. She was not the master of Yang Chen, Yang Chen was not her own apprentice, he was just her own love.

The beautiful dreams were broken when Gao Yue woke up from the intoxication, it was already after two hours. The two stood up like this. Actually stood for two hours.

"What about Fairy Shi and Snow Fairy? What should your Senior sister do?" When she woke up from the beautiful dream, the first thing that Gao Yue thought of was the women who had something to do with Yang Chen.

Needless to say, Shi Shanshan has long been known as the double cultivation Dao Companion of Yang Chen. Although Sun Qingxue still does not have this reputation, the Blue Cloud Sect has already made plans for it. Moreover, Sun Qingxue and Yang Chen also had some unclear involvement.

Not to mention Gongsun Ling. She already had spiritual awareness double cultivation with Yang Chen and helped Yang Chen solve a big problem. The girls had long been secretly convinced of Yang Chen. Even if Shi Shanshan and Sun Qingxue don't care, Gao Yue must talk to Gongsun Ling.

Yang Chen also fell into silence. He and these women were indeed somewhat entangled, and they cannot make decisions lightly.

Although Shi Shanshan was very unhappy with him at the beginning, later they achieved their silent fighting and tacit understanding. It was not with anyone that this could be achieved. The cold and unparalleled Fairy Shi always shows a slight smile in front of Yang Chen. Yang Chen also had to leave an amount of four seas mysterious coral liquid for Shi Shanshan, but was already unconsciously worried.

Sun Qingxue and Yang Chen's acquaintance was almost as early as his with Shi Shanshan. According to the clues in his memory, Yang Chen had helped Sun Qingxue several times in a row. Coupled with the later experience, Sun Qingxue was dead set on Yang Chen. Yang Chen also likes this cheerful person. In front of him, she was a cute little girl.

For Gongsun Ling, Yang Chen has no need to think more, there was already the fact that he has a spiritual awareness double cultivation with her, and Yang Chen would never let her down.

Before Yang Chen was most worried thought, it was also the thought of Gao Yue. Now that there was no obstacle between himself and Gao Yue, Yang Chen has laid down the biggest worry in his heart. Gao Yue asked about the other people, Yang Che could now consider everything.

“I don’t know what Master thinks, as long as I am a man, I will fantasize to accept the two fairies and my sister.” Since he has already clarified the relationship with his Master, Yang Chen does not care about this “I am also a man, and I have had such thoughts. But if Master doesn’t like it, then you can tell me.”

In this world, men with three wives and four wives were commonplace, and Yang Chen certainly dreams of such beauty. There were many reasons why Yang Chen was not willing to cause his Master to be unhappy because of this. Here, Yang Chen still played a slap in the face and threw the problem to his Master. There was still a bit of fantasy in his heart.

Whether it was the Cold Plum Fairy Maiden or the Snow Dance Fairy Maiden, their later generations were famous big names in the world. Because of this, he was not willing to incur their hatred. The Green Jade Immortal Island and Blue Cloud Sect, although it may not be because of this, what about the Pure Yang Palace, their own genius disciples were rejected, and there will always be some dissatisfaction.

Just now he showed his master his heart, but immediately confessed to Master that he had this illusion, it was also the first time for Yang Chen. It couldn’t be helped but he said, even if Yang Chen had more knowledge, in terms of feelings, he was still a rookie among rookies.

Although Gao Yue put down the concern in her heart, when she heard Yang Chen’s words, there was still a thought of kicking Yang Chen out.

But when she turned around and thought that Yang Chen didn’t hide this grade of thoughts from her. It was better than the guys who would do it behind her back. Even Gao Yue herself did not understand, how could it involve Yang Chen, and everything would be beneficial.

Chapter 329.2: Agreement

Gao Yue did not immediately answer Yang Chen. Although she has accepted that she may be with Yang Chen in the future, she still needs to reorganize many things.

Of course, Yang Chen would not force Gao Yue, but he would tell the story of the Blue Cloud Sect visit to the Pure Yang Palace in a few months. The content of the transaction must be kept secret, but for Gao Yue, Yang Chen did not hide it.

When she heard that Yang Chen still has a bunch of fire seeds in his hands that needed to be absorbed. Gao Yue also suppressed her thoughts, for Yang Chen to complete the matter as soon as possible. It was related to the cultivation of Yang Chen, and it was a great point to absorb a fire seed for Yang Chen, of course, Gao Yue would pay attention to it.

The two people met, there was not much warmth, just a simple hand holding to embrace, the two had the same mind. It seems that they have been together for a hundred years. In fact, the two people have known each other for a hundred years.

Yang Chen said what he wanted to say and got the results he wanted. Although there were still no conclusions about the affairs of several other women, Yang Chen does not care at all. As long as his Master promises, then everything would be fine.

Gao Yue was busy with something but did not say to Yang Chen. Yang Chen does not worry about it anyway. Anyway, as long as she was inside the sect, he wants to do whatever Gao Yue wants. Yang Chen himself, once again began to busy himself with the absorption of the fire seeds.

Of the sixty kinds of third grade fire seeds, he had only absorbed 15 and there were forty-five kinds left, each of which takes four or five days each, so it would take half a year to fully absorb them all.

The days seem to be good in calculation. When Yang Chen absorbed all sixty kinds of third grade fire seeds into the Profound Spirit furnace, it happened to be the time of the appointment with the Blue Cloud Sect.

Along with Sect Master Lu's visit this time, he brought almost the exact same lineup as the last lineup of the Green Jade Immortal Island. Sect Master Lu himself, Elder Hua Wanting and Elder Shi Yanhe, plus Sun Qingxue, it was also the sect master with two elders and a disciple who has a relationship with Yang Chen.

This time, when the Blue Cloud Sect came, they did not conceal it from the outsiders. Anyway, the last time the Island Master came to discuss the marriage of Yang Chen and Shi Shanshan. This time, Sect Master Lu also had the same reason.

When outsiders saw this, their first reaction was that the Blue Cloud Sect wanted to draw Yang Chen. For more than half a year, the rumors about Xu Chengxin and Qiao Ming crossing their tribulation because of Yang Chen's refining of the Inner Sensing Pill had been raging. Together with the Questioning Inner Heart Pill, such a senior alchemy master, almost all the sects wanted to have him.

Even if there was no way to have him, they could have a good relationship with the Pure Yang Palace and Yang Chen, there were many sects who were more than willing to do this. In addition to the two major sects of the Green Jade Immortal Island and the Blue Cloud Sect, they have used marriage with their own female disciples, including other first-class sects such as the Greatest Heaven Sect and Five Elements Sect, they were also trying to form a close tie to the Pure Yang Palace.

In recent months, countless sects have come to Meiqing Mountain for the guise of congratulating Elder Wang Yong but they were trying to establish various cooperative relationships with the Pure Yang Palace. The master of the palace and several elders, plus everyone in the foreign affairs hall, everyone was busy and they were all hard pressed to receive these fellow practitioners.

Yang Chen had already told Gao Yue about Sect Master Lu's visit, Gao Yue was not convinced at that time, but when Sect Master Lu really came to Meiqing Mountain, Gao Yue still appeared in front of Yang Chen.

"If you want to accept Fairy Shi and Snow Fairy, you must first accept Ling'er." Gao Yue seems to have been hiding from Yang Chen, seeing Yang Chen, this was the first sentence she said.

Listening to his Master's words, Yang Chen couldn't believe his ears. Originally he thought that his Master would not agree, so Yang Chen has not thought much about other things, just thinking about how to give more compensation to the Blue Cloud Sect and the Green Jade Immortal Island, not to let Sun Guangxian and Shi Shanshan become sad, he did not expect his Master to have this meaning.

After Gao Yue finished, she did not give Yang Chen too many opportunities and left. Yang Chen was still dizzy and stayed in the same place, until Elder Xu Chengxin personally came to him to ask him to meet Sect Master Lu.

Xu Chengxin has become one of the Elders since he reached the Yuanying stage. He still has the position of a foreign affairs hall master. This time when Sect Master Lu visited, he was one of the reception Elders, but he personally came to call Yang Chen, it was enough to give Yang Chen face.

The details of the cooperation between the two sides have already had a preliminary communication through Yang Chen, and reaching an agreement was not a problem at all. Regarding the cooperation with the Questioning Inner Heart Pills, the master of the palace and several elders made a decision on the spot. The conditions were exactly the same as those of the Green Jade Immortal Island. Even the rewards for Yang Chen were exactly the same.

In the past three years, the Blue Cloud Sect was collecting the elixir needed to refine the pills, it could not be helped in saying that the big sects were indeed great. In just three years, it was not known where they got the medicinal materials needed for the refining, but they brought them directly to the head of the palace.

This cooperation has already been laid to bed, and there would be no more problems. However, Sect Master Lu still wanted to talk to Yang Chen personally.

The Blue Cloud Sect and the Green Jade Immortal Island, because they were also the sects dominated by women, they were closer in relationship. This point, from when Shi Shanshan brought Sun Qingxue back for Sun Qingxue eventually to be seen under the Blue Cloud Sect. The relationship between the two sects was generally good.

With this relationship, when Yang Chen gave the Green Jade Immortal Island the Questioning Inner Heart Pills, and there were a few that were the second grade Questioning Inner Heart Pills, naturally did not pass by Sect Master Lu .

Sect Master Lu mainly wanted to see Yang Chen's main purpose. Her hopes were that when Yang Chen was refining the medicinal pills for the Blue Cloud Sect, he should not favour one side and discriminate against the other. Of course, the words couldn't be said so straightforward, and could only point to this meaning.

In addition to this, Sect Master Lu had no other indications, just to indicate that Yang Chen could take Sun Qingxue to walk in the Pure Yang Palace. Young people should talk more and communicate with each other.

Yang Chen was somewhat bewildered. Calling himself over this circle was really a bit of a fuss. However, in the case of Sun Qingxue, Yang Chen certainly did not say anything. After retiring from the elders, he left with Sun Qingxue and returned to his residence.

Sun Xiaoxue didn't say much on the way. After waiting for them to reach Yang Chen's place, she signaled Yang Chen to arrange a soundproof restriction, and then she said "Yang Da Ge, the lord is ready to pay you in advance, you should first take it!"

As she said this, Sun Qingxue took out a lot of oil lamp-like things wrapped in a talisman, all of which were fire seeds. Interestingly, the number was the same as that of the Green Jade Immortal Island, but the types were different, all of which were increased by 50% on the original basis. It seems that they knew that Yang Chen could refine the second grade Questioning Inner Heart Pill.

"And, this is the special command of the lord, saying that it must be handed over to you." Finally, Sun Qingxue took out a jade box and sent it to Yang Chen's hand.

Chapter 330.1: I Must Consider - I Must Consider

The box that Sun Qingxue took out was white and flawless, and made of jade that was warm and delicate. It was smooth with no markings on it; the box was like a whole piece of jade with no discernible opening.

At the part that would normally be home to the keyhole, there was only a circular rune in the form of a variety of coloured spots. After she gave it to Yang Chen, Sun Qingxue had something to say as well, "The Sovereign said that it is very important to thank you, and that you shouldn't let other people see the contents."

Yang Chen understood what she was trying to say. This was another reward from the Blue Cloud Sect for finding the Eighth Metal True Secret Art. It was not like such a big sect to owe someone and delay repaying the debt by three years. Perhaps this item was the reason.

"What is inside of it?" Yang Chen asked casually. He would naturally accept a reward that he had earned for himself. Had he not gone to the lengths of making a Heart Oath? This reward was well deserved, and the Blue Cloud Sect's behaviour only served to prove it.

“I don’t know,” Sun Qingxue shook her head. “The Sovereign would not say, and Master would not tell me either.” It had admittedly made her feel a little wronged. She was delivering the item, but could not know what it was?

Yang Chen knew that the reward was well deserved. The Eighth Metal True Secret Art was not a common essence cultivation method. On the same level, its power was at least twice as powerful as ordinary cultivation methods. This kind of powerful method, if equipped with enough Eighth Metal True Essence, could definitely bring more masters to the Blue Cloud Sect. In some ways, the Eighth Metal True Secret Art was not much worse than even the Questioning Inner Heart Pills.

However, the jade box was tightly sealed and even Sun Qingxue did not know what was inside of it. This was a little strange. Moreover, he was told to not let other people see the contents. These “other people” should be referring to the Pure Yang Palace or the Green Jade Immortal Island, but there shouldn’t be a problem with showing it to Sun Qingxue.

Yang Chen’s spiritual power immediately activated the rune when he placed his finger on it.

Yang Chen knew that the Blue Cloud Sect would not place a trap within. Firstly, Sun Qingxue was right next to him, and secondly, he had not yet handed over the Questing Inner Heart Pills. Moreover, Blue Cloud Sect’s leadership was very cautious, and would never make such a mistake.

Kacha

The rune shined before breaking, turning into a mess of scattered fragments. The jade box surprisingly was very easy to open.

The rune had been there for security reasons, and clearly no one else had opened the jade box before Yang Chen. The rune functioned like a wax seal, and would break upon opening the box.

And inside the jade box was... another, smaller jade box! The difference this time was that the gap between the boxes was engraved with a dense array method. A warmth could be felt even through the two-fold array.

He could feel something familiar in the warmth. Yang Chen did not even need to open the jade box to know what it held. A fire seed... of sixth grade!

Purple Heart Profound Fire, a sixth grade third-fire. It was a full grade higher than the True Sun Fire, and it was now in his hands.

The True Sun Fire of the fifth grade had helped Yang Chen step into the realm of Great Principle Golden Immortal in his past life. What heights could he reach now?

What was more important was that the Purple Heart Profound Fire was an higher grade version of the fourth grade Purple Heart Fire, whose fire seed Yang Chen's master Gao Yue held.

The Blue Cloud Sect must have calculated Yang Chen's attitude toward his master. This reward was probably meant for both of them.

To annoy Gao Yue was to provoke Yang Chen, and conversely, to please Gao Yue was to please Yang Chen. In this matter, Blue Cloud Sect had hit the bullseye.

But what if they had judged incorrectly? Even if Yang Chen did not want to share the fire seed with his Master, he would still need a lot himself. It was a bet the the Blue Cloud Sect could not lose.

The gift made Yang Chen pleasantly surprised. It was unexpected but it was very much welcome. The Blue Cloud Sect didn't need to say out loud what their intentions were. From where he had found all the 2nd grade Questioning Inner Heart Pills, perhaps he could find one or two more? Haha...

Sun Qingxue was a wood attribute cultivator, and naturally was not fond of such strong flames. Realizing that it was a sixth grade fire seed, she completely lost interest. Her task finished, she pulled Yang Chen along to go touring.

Meanwhile, at Meiqing Mountain many things were now different. The new mountain gate's reconstruction was finished, and it was in many ways different from the previous one. After Yang Chen took Sun Qingxue for a short walk, he did not dare waste any more time. After all, Sect Master Lu and the head of the palace were waiting for them. So, the two quickly returned to the main hall.

He didn't know what Sect Master Lu and the head of the palace had discussed. But it seemed that both sides had some doubts, and so a conclusion hadn't been reached as of now. The two sides took the opportunity of their return to suspend their talks, and then exempted them.

In the evening, Sect Master Lu and his entourage were arranged to stay in a luxurious residence for important guests, and Yang Chen was called to the Blue Vault Mountain Immortal's Cave to discuss official business.

"Has the Blue Cloud Sect given you the remuneration for the alchemy?" asked the head of the palace.

Yang Chen nodded in admission. However, he did not reveal the Purple Heart Profound Fire as the time was not suitable. Moreover, he had taken a Heart Oath and thus could not provide them with a satisfactory explanation for it.

"Then you may refine the Questioning Heart Pills for them," sighed the master of the palace. After directing Yang Chen on this matter, the palace master told him that the two parties had not finished negotiation today. "Sect Master Lu said that they were interested in the Inner Sensing Pills, and want to buy the pill recipe from my sect. I have not promised them anything yet."

Accompanying the master of the palace in welcoming the Blue Cloud Sect, were the dacheng stage masters Wang Yong and the old tree demon Gui Shanyou, even Hall Master Xu Chengxin had the role of running errands. It was such an important affair that even the other elders were not told what had been discussed, until they heard it from the palace head himself.

Yang Chen and the others pondered on the unknown conditions proposed by the Blue Cloud Sect, which even the palace master was unwilling to agree with. They found it strange, but they found it stranger yet that the Blue Cloud Sect hadn't simply taken the Inner Sensing Pill's recipe from the hands of the monster race. It made Yang Chen sigh in regret.

"Yang Chen, what is your estimate on this?" asked the head of the palace, after indulging for a while. "If we gave the Blue Cloud Sect the pill recipe, how long do you think it will be before they will be able to refine the Grade-2 Inner Sensing Pill?"

Chapter 330.2: I Must Consider

Although Yang Chen already promised this to the head of the palace in front of Elder Wang Yong, at the moment, in front of all the elders, Yang Chen replied with respect "According to this disciple's estimate,

it is almost two hundred years, and if they are slow, for hundreds of years, it is unlikely if they will succeed in a shorter time”.

It's not that Yang Chen was arrogant, it was really that his Great Principle Golden Immortal controlling fire technique was not something that the mortal world fire controlling experts could imagine. Several kinds of fifth grade fire seeds were controlled at the same time. Even if it was a genius fire cultivator, it would take at least a hundred years to do it.

If the method of refining the pill and the method of refining the second-grade pill were counted, this time was absolutely tight. Even if they went to a sixth-grade alchemy master, he would not be able to solve this problem in just two hundred years.

Even Yang Chen, after seeing the Elderly Lord Pill Scripture, plus the «Pro-found Pill Scripture» left by a certain immortal, made this reference in just six months. Otherwise, the poor Yang Chen in this life time, could not achieve the second-grade refining system of the Inner Sensing Pill. Although the Elderly Lord was powerful, Yang Chen was still more and more experienced in this seemingly inconspicuous mortal small medicinal refining system.

With the guarantee from Yang Chen face-to-face, the master of the palace became more and more emboldened. The elders also understood the focus of the Pure Yang Palace and the Blue Cloud Sect.

Originally, they would have negotiated the use of the second grade Inner Sensing Pill for the greatest benefit. Now it was natural to push the benefits that the Inner Sensing Pill could reach to the limit.

“According to this disciple, since the Green Jade Immortal Island and the Blue Cloud Sect both have a relationship with my sect, this recipe of the Inner Sensing Pill, my ancestral sect should give it to them as a gift.” Yang Chen saw that everyone was temporarily indulging and not taking the initiative, so he said.

Everyone was shocked. Looking at Yang Chen, it seems that they didn't understand how Yang Chen would do this loss-making business. But soon Zhu Chentao reacted, and his eyes lit up. He immediately smiled and said “Good idea! Since this first grade Inner Sensing Pill cannot play much role, then it is easy to bring up the importance of the second-grade pill more and more, you can then open the price later.”

Zhu Chentao's words made everyone nod. Since the other sect had other chances to get the first grade Inner Sensing Pill recipe, they should simply make a personal feeling and give it to the other party. When

the other party found out that the first grade Inner Sensing Pill did not have the power that was speculated, it was then that they would be able to take the second grade Inner Sensing Pill and set a price.

“Okay, we will just do it like that!” The head of the palace also slightly nodded, he was very appreciative of Yang Chen’s idea. At first, he just thought about getting the biggest benefit, but he didn’t want to hurt the sincerity of the cooperation between the two sides if they didn’t know the strength of the second-grade pill to the strength of the first grade pill.

Yang Chen only said a little point, and everyone understood. If this was given to the other party, it was not necessarily a loss-making business. It was not necessarily for the Blue Cloud Sect to owe a favor to the Pure Yang Palace. When the real second grade Inner Sensing Pill turn to the end of the inspection, the price of it would be derived, and at the same time, without losing money, it would also be a person of the Blue Cloud Sect, which was a business that makes a profit.

“Yang Chen, this time Sect Master Lu came, and also mentioned the snow dance fairy and your marriage.” After determining the strategy of the pill recipe, the head of the palace directly changed the topic, and asked Yang Chen “Your Master does not object, what do you think about it?”

His Master did not object, Yang Chen was not surprised. Not long ago, his Master had already said this to Yang Chen. Regardless of whether Yang Chen wants the snow dance fairy or fairy shi, he must first consider his senior sister, Gongsun ling.

However, it was because of the reminder of Gao Yue that Yang Chen realized another thing. Did he really want to become a double cultivation Dao Companion with Sun Qingxue and Shi Shanshan? This question, Yang Chen himself has no answer until now.

Both women were glamorous and unparalleled characters, and they were all geniuses with excellent qualifications to the extreme. They were famous and cultivated to the pinnacle. No matter which aspect, accepting the two women was a very good thing.

But Yang Chen asked himself if he could pass his own. His own heart has not given an answer to this question. In this case, Yang Chen did not hesitate to give an answer immediately.

“This disciple still want to consider it again.” Yang Chen replied truthfully, not paying any attention to his own answer, causing the surprise of the elders.

“This kind of good thing has to be considered?” Elder Zheng Feng fully demonstrated his nature in charge of the treasury “Of course, good things must first be bagged for security, procrastinating, finally how could it not be cheap for others?”

“The disciple is still not sure if he wants it.” Yang Chen smiled and laughed at himself “One day if this disciples really want to, this disciples will go to their sect to ask for the marriage personally, instead of the elders of the two sides deciding it.”

“Why, do you want to set such a good thing aside, are you still not willing?” Elder Meng Xian’s eyes glanced, he was angry and self-defeating

“Of course, the disciple does not think so.” Yang Chen replied with a smile. He knew that no matter how the elders get angry with him, it doesn’t mean anything to him, but everyone’s ideas were different.

After a pause, Yang Chen looked for the right words, and then he said: “The disciples just have no answer. When I have figured it out, this disciple would naturally face the two fairies to determine the matter.”

“You are not afraid to get a hot head when you shave your head?” Gao Shiyan was the master ancestor of Gongsun Ling. He was very concerned about Gongsun Ling’s affairs. When Yang Chen temporarily refused Fairy Shi and the Snow Dance Fairy. He was the happiest one and joked “You don’t want to succeed now, when you have a name and a flower, how about you?”

“That’s what I didn’t want, disciple didn’t force me.” Yang Chen replied calmly.

“If the two fairies do not agree, then what?” Gao Shiyan still said in such a tone “No matter whether it is the Blue Cloud Sect or the Green Jade Immortal Island, would be so embarrassed. If you are willing, and the two main sects disagree, what about you?”

“If the two fairies are not willing, this disciple will not force them.” Although Yang Chen still smiled but his tone revealed a very strong self-confidence “But if it is for other reasons, please forgive the disciples,

even if the Green Jade Immortal Island and the Blue Cloud Sect have obstructed, the results would be the same. If this disciple wants to do it, I will be able to do it, no one can stop me.”

When Yang Chen’s words were said, this time all the elders were silent. Originally, Gao Shiyan still had a refutation in his heart, but suddenly thought about Yang Chen’s record in recent years, whether it was the Greatest Heaven Sect or the second city lord of the monster race, 100,000 mountain, or the Questioning Inner Heart Pill, Heaven Seizing Pill and Inner Sensing Pill. In the later period, Luo Yuan’s pursuit, now he could not find an example that could refute Yang Chen.
