Chapter 331.1: The Greatest Heaven Sect's New Trend

The cooperation between Pure Yang Palace and Blue Cloud Sect was finally completed smoothly. The Blue Cloud Sect not only got the promise of refining the Questioning Inner Heart Pills, but also the pill recipe of the Inner Sensing Pill for free.

Although the monster race pill recipe was not so rare, the Blue Cloud Sect's luck was not good enough. The disciples under the sect had killed thousands of monsters, and they still could not obtain the pill recipe of Inner Sensing Pill from any of them.

Since the Pure Yang Palace was very generous to present the pill recipe as a gift, the decision regarding Sun Qingxue's marriage was not pursued by Sect Master Lu Zongzhu. After all, the Pure Yang Palace was not giving a refusal, but wanted the two to make this decision themselves.

This reason also showed the importance of Yang Chen for the Pure Yang Palace. Thus, it was understandable that Yang Chen's own opinions on such matters would be respected.

Similarly, the Green Jade Immortal Island had the same temperament for this matter which thus, served as the biggest reason for the Blue Cloud Sect to finally accept it.

To not sit idly by, the Blue Cloud Sect could only urge Sun Qingxue to get along with Yang Chen as much as possible, and practice together. Strive to tempt Yang Chen and snatch him from Shi Shanshan. Not to mention how the Blue Cloud Sect's people were looking forward to the wonderful success of the Questioning Inner Heart Pills refining.

Yang Chen was now working with his Master and Senior sister in the Blue Vault Mountain Immortal's Cave to find a suitable room to practice together.

There were only a few hundred disciples who were qualified to enter and practice in the Blue Vault Mountain Immortal's Cave. All of them were those who had passed the examination of Hall Master Meng Xian and other elders. These were the future of Pure Yang Palace. Of course, they must focus on training themselves.

Besides the fire seeds compensation given by the Blue Cloud Sect in advance, Yang Chen had already had sixty kinds of third grade fire seeds, thirty kinds of fourth grade fire seeds and four kinds of fifth grade fire seeds, and there was also the sixth grade fire seed Purple Heart Profound Fire. It was Yang Chen's unwillingness to keep it outside so that at least these fires should be absorbed into the Profound Spirit furnace first.

After Gongsun Ling came back, she always thought about something to busy herself with, and did not dare to disturb Yang Chen, unless she was dragged by Gao Yue and forcibly pulled in front of Yang Chen.

Yang Chen was also unpretentious. He was very straightforward to express his desire to have spiritual awareness double cultivation with his master and sister. Both women were embarrassed while listening to Yang Chen's request. But no one objected, and they followed Yang Chen to the inside of the Immortal's Cave.

They may have been aware of Yang Chen's attitude towards his marriage with either the Blue Cloud Sect or the Green Jade Immortal Island.

As the two women were very docile to Yang Chen, soon he started to feel like a patriarch with both being his beloved wives.

In the enormous sect palace, the three only occupied a small corner, even if someone payed attention, no one would disturb them.

Of course, Yang Chen leading the two goddesses for spiritual awareness double cultivation was an act. In fact, he wanted to take this opportunity to cement their relationships. Also, his Master needed to absorb the Purple Heart Profound Fire which was to be handed over to her in this hidden place.

Gao Yue and Gongsun Ling did not know when such an alliance had been formed. Yang Chen knew this well. Therefore, he didn't conceal anything from Gongsun Ling. He openly took out the jade box that preserved the Purple Heart Profound Fire.

There were no markings on the jade box. From the outside, they couldn't see what it contained. Gao Yue and Gongsun Ling looked at it with doubts.

“What is this?” Gao Yue turned to look at Yang Chen and strangely asked.

“This is a gift for Master.” Yang Chen replied with a smile.

After answering his Master, he turned to his Senior apprentice sister and apologetically said, “this time I went out without encountering something suitable for my sister. Next time I have the opportunity, I will find a suitable one for you.”

He did not explain the origin of the Purple Heart Profound Fire, only that he accidentally encountered it himself when he went out. The two women remained very calm. Yang Chen occasionally would bring good things for them when he went traveling. Just like how he had brought the four seas mysterious coral liquid which both had since drunk aplenty.

Opening the jade box, Gao Yue immediately felt the amazing heat of the Purple Heart Profound Fire through the two-fold array method. The Purple Heart Fire inside her body was attracted by the things in the box and was ready to move. This surprised Gao Yue.

“This is...”

At the beginning Gao Yue, was not sure, but the feeling got more and more familiar, and attractive so she quickly confirmed it. It turned out to be the sixth grade fire seed Purple Heart Profound Fire.

The flame of Wang Yong, because it absorbed the fire of the same kind of water and fire in the Qilin horn, became the Qilin fire, and then became the Qilin Heavenly Fire of the seventh grade under the tempering of the Yin Fire Tribulation. The Pure Yang True Fire that had been collected by the Pure Yang Palace was of the same level, so Yang Chen did not need to bother to find the fire seeds again.

If the problem of the master ancestor was solved, then his Master would naturally have to be on the agenda. It happened that the appearance of the Purple Heart Profound Fire satisfied his wish.

Looking at the appearance of Gao Yue’s surprise, Yang Chen’s heart was full of satisfaction. If his Master could become even happier, let alone the sixth grade fire seed, he would even bring her even more advanced fire seeds.

However, with the qualification of Gao Yue on controlling fire, even if she reached the Yuanying stage, the highest grade of fire seed that she could absorb would still be the sixth grade fire seed. Unless she also learned Wang Yong's method, tempering with Yin Fire Tribulation and promoting the Purple Heart Profound Fire into a Purple Heart Heavenly Fire.

This would happen a long time later, at least Yang Chen would not have to consider this issue in a few hundred years.

Although the Yin-Yang Burning Heavenly Fire also needed to integrate with other fire seeds, he had many fire seeds of third, fourth and fifth grades. It would take Yang Chen decades to integrate them. When it would be necessary to have a sixth-grade fire seed, Yang Chen may rather find it through other channels.

Gao Yue had been immersed in ecstasy, Yang Chen had quietly found her a Purple Heart Profound Fire. Now, she would not have to worry about fire attribute spirit power for at least a few hundred years. How could she not be happy?

Of course, the thing that made her happiest was Yang Chen's intention. When he went out, he didn't forget to find the right things for herself. This was what made Gao Yue most moved and the most joyful. If Gongsun Ling was not around, Gao Yue would not hate to be in Yang Chen's arms again and share this extreme happiness with him.

"Master, this kind of fire seed is for you to properly absorb."

Waiting for Gao Yue to gain tranquillity, Yang Chen reminded, "first slowly get familiar with the heat of the Purple Heart Profound Fire, wait until the adaptation is almost the same, then unseal the first layer formation. Gradually, I think it would take at least a hundred years to fully absorb, so there is no hurry."

Gao Yue certainly understood this truth, as this was a sixth-grade fire seed, thus, Yang Chen's words made her completely calm.

Yang Chen understood Gao Yue's mind, and did not say much. After reminding her with those few words, he turned towards Gongsun Ling. From the achievement ring, he took two first grade Inner Sensing Pills, and gave one to his Senior apprentice sister.

Chapter 331.2: The Greatest Heaven Sect's New Trend

“This is an Inner Sensing Pill, a first-grade pill, Senior sister can take one first to feel the blood and spirit power in your body.” There were good things to give to his own people, Yang Chen said with a smile “Although it cannot form your Nascent soul, it can help with your cultivation.”

For the Inner Sensing Pill which news was passed to the outside world, Gao Yue and Gongsun Ling of course knew about it, but they have never been seen one. Now Yang Chen took it out, just to satisfy their curiosity.

Gao Yue was also attracted, carefully put away the jade box, and then took another Inner Sensing Pill from Yang Chen’s hand and carefully observed it.

They have already taken the second grade Questioning Inner Heart Pill of Yang Chen. The two women were not surprised at Yang Chen for taking out the first grade Inner Sensing Pill. After appreciating them for a while, and then under the instructions of Yang Chen, they swallowed the medicinal pills in their hands.

Once you took a first grade Inner Sensing Pill, you don’t need to arrange a soundproof array to offset the damage of the sound, ten times to enhance the senses, all within the acceptable range. But Yang Chen was still careful to stay aside. Once there was a problem, he could solve it at any time.

The process of the effects of the pill was very normal, without any abnormalities. The two women also enjoyed the feeling of the spirit power operation in their body. After the completion of the efficacy of the pill, the two women had some feelings, and they sat quietly and began to relish it.

Yang Chen did not bother them, and he took out an Inner Sensing Pill and swallowed it, and began to feel the pill in silence.

Speaking of this, this was the first time that Yang Chen swallowed his own refined Inner Sensing Pill. Qiao Ming and Xu Chengxin, these two elders, because it happened just right, it was the same as taking the initiative to give him the test of the medicinal pill, let him confirm if the monster race medicinal pill also work for human cultivators.

His senses suddenly increased, and Yang Chen also used this extremely sensitive sense to understand the qi and blood power in his body.

The process did not last long. Yang Chen was very happy to discover that for the time being, there was no deviation in his practice, and everything was on the normal track.

It may be that this time when they went out to gain experience, the two women did have a lot of gains. After swallowing the Inner Sensing Pills, this time, the process of sentiment was surprisingly long. In a few days, even Yang Chen controlled the spirit furnace to absorb a third-grade fire seed. The two women did not wake up from that state of perception.

Carefully caring for his Master and Senior sister, Yang Chen absorbed the fire seed and began to ponder his next plan.

Now that the Blue Cloud Sect's remuneration has been received, it was only necessary to refine the Questioning Inner Heart Pills and make a difference. Then, when these fires were absorbed into the Profound Spirit furnace, Yang Chen would consider going to the vein of the Seventh Metal True Essence left by the Golden Star of the Sun.

If it goes well, the seventh metal true essence could also condense a Dan, Yang Chen would be folded to the East China Sea. On one hand, he could collect more Tenth Water True Essence, on the other hand, he could try to see if he could open the remaining restrictions in the Dragon Palace. On the East China Sea side, Yang Chen plans to stay at least until he reached the tenth water true essence condensed Dan.

Then, Yang Chen intends to collect a dozen flying swords left by a certain immortal to use as the life source magic weapons for his Master and sister. Of course, in the course of the road, Yang Chen would use the Yin-Yang Burning Heavenly Fire at any time to absorb the fire seeds and raise the level of the Yin-Yang Burning Heavenly Fire.

It was estimated that it would take at least two or three decades to complete this. Just in time, he could take Mu Bai and the cypress family back to the sect, and then he could plan for another future genius.

The plan was good, but unfortunately there was no arrangement for troubles in the Greatest Heaven Sect during this time. At present, both Yang Chen and the Pure Yang Palace needed to use the help of the Greatest Heaven Sect to rush to restore their strength, and to find a way for the sect to recruit large-scale monster cultivators.

It's not that Yang Chen doesn't want revenge, but revenge was not just as simple as killing a Yang Xi, The sect master of the Greatest Heaven Sect, including the entire Greatest Heaven Sect, was part of Yang Chen's revenge. This was not something that could be done overnight, Yang Chen had enough patience.

Moreover, using the power and influence of the enemy to strengthen themselves, and in turn to eliminate the enemy, wasn't this vengeful taste more beautiful?

Gao Yue and Gongsun Ling were awake from their understanding of the Inner Sensing Pill, and they were even more curious about the second grade Inner Sensing Pill. However, at this time, Yang Chen did not intend to give it to the two women, he at least wanted to wait for their cultivation base to be re-consolidated for decades, and for the time being, the effect of the first grade Inner Sensing Pill was enough.

Yang Chen wanted to refine the Questioning Inner Heart Pills. The two women also wanted to spend more time with Yang Chen. They stayed here to accompany Yang Chen and act as protectors for Yang Chen.

However, before alchemy, Yang Chen still planned to use a year or two, until all the fire seeds in his hand were absorbed into the Profound Spirit furnace. The upgrading of the Profound Spirit furnace also means that the quality of the medicinal pill would be higher, and the alchemy would be easier.

The spiritual awareness double cultivation naturally would also take turns to carry on. This kind of cultivation, which was of great benefit to both sides' spiritual awareness, would never be wasted. Anyway, the two women have long been having double cultivation with Yang Chen, and they continued the spiritual awareness double cultivation so everyone could accept it.

Here, Yang Chen was proceeding in an orderly manner according to his own plan. Outside, he had set off an uproar because of the Inner Sensing Pills.

Fortunately, there was a lot of martial art sects which had the pill recipe. Already an alchemy master succeeded in refining some Pills in a period of one year. Although the number of medicinal pills in a furnace could not be compared with that of Yang Chen, he has already obtained several Inner Sensing Pills that have been refined, which also indicates that the refining of Inner Sensing Pills has been completely successful.

The efficacy of these Inner Sensing Pills was almost exactly the same as that of Yang Chen's. The same could improve the sensory sensitivity by ten times, and let people explore the blood and vitality of their own body.

When many of the Jiedan stage masters who were on the verge of breaking through were looking forward to taking some of the Inner Sensing Pills, just as Xu Chengxin started, they also understood some deviations in his practice, but they could not take the last step in initiating the process of their tribulation.

With this problem, countless people rushed back to the side of the Pure Yang Palace to inquire about it, but it was a long time before they got a message from an elder of the Pure Yang Palace who was accidentally lost. Qiao Ming and Xu Chengxin were able to break through after taking the pill. It's not the first grade Inner Sensing Pill in their hands, but a second grade Inner Sensing Pill.

In the heart of many of them, they began criticising the Pure Yang Palace, and a bunch of alchemists have started a new round of refining of the second grade Inner Sensing Pill. However, the results of this time were unacceptable to everyone.

After spending hundreds of years of elixir, the one that has been formed has been turned into the first grade pills. When the second refining system was carried out, all of them failed without exception, and no pills was preserved. Those who did not believe in it continued to refine twice in succession, all of which ended in getting a stove of coke.

The second grade Inner Sensing Pill, was actually still firmly in the hands of the Pure Yang Palace.

Chapter 332.1: He Came To Our Sect

As long as you knew a little bit about the situation in the former Pure Yang Palace, it seemed that all this had happened after Yang Chen joined the Pure Yang Palace.

The name of Yang Chen as an alchemist master began with the refining of the Heaven Seizing Pill. When Elder Wu Xiong summoned the alchemist masters to refine the Heaven Seizing Pill, Yang Chen was considered a miscellaneous one, but it was this miscellaneous kid who finally turned trash into magic and completed the refining of the Heaven Seizing Pill.

At the beginning, there were still people who had ideas on Yang Chen's pill recipe, and more than once, He Lianyun, Xiang Clan, plus some sects, including the Greatest Heaven Sect, for this reason had launched attacks on Yang Chen, and Yang Chen took the Xiang Family pill recipe on this grounds. After the results were refuted one by one, He Lianyun was beheaded and the Xiang Clan was exterminated.

Afterwards was the emergence of the Questioning Inner Heart Pill, Yang Chen was already firmly seated on the throne of an alchemy master, and no one could shake it. The Questioning Inner Heart Pill has been studied by a few large-scale sects, but their respective Yuanying stage alchemy masters could not refine it.

They could only say that there was no pill recipe, they could only find some reasons for the inconvenience and inaccuracy. Now it was not hard to come out with the pill recipe of the Inner Sensing Pill. Even so, several martial art Sect's masters of alchemy couldn't succeed in even the second-grade refining system.

Yang Chen showed his talent of alchemy to outsiders at this moment, which made countless people drool in secret. Pure Yang Palace, what kind of dog's luck do they have to be able to recruit this kind of alchemy genius to be a disciple?

Because Yang Chen's reputation was too great, and the matters involved were also very important, so many sects have learned about Yang Chen's origin. Even when he was an outer sect disciple at the Pure Yang Palace, he was under the merit transferring disciple Chu Heng. Later, with Li Qingchen's life and death duel, people stringed some clues together.

Yang Chen didn't go through anybody's instructions. Just relying on his own fondness in reading some miscellaneous books, there was such a means of cultivation and alchemy. This made those guys who were called senior alchemists so embarrassed!

In the Greatest Heaven Sect, a young disciple in the sect was opposite the sect master. He was very careful to wait for the questions of the sect master and the elders.

This young disciple seems to be not very high-cultivated. He was only in the late stage of the foundation stage, and he was about to enter the peak of the foundation stage. However, there was still a certain gap from the Jiedan stage.

The young person was very familiar. If Yang Chen was present, he would be able to recognize that the young man was Yang Xi, the former enemy who he never forgets.

However, at this moment, how would Yang Xi still have the arrogance in front of Yang Chen, he was afraid to come out with care. In the face of a group of elders in the Yuanying and dacheng stage, it was simply very good if he wasn't trembling.

"Yang Xi, is Yang Chen your fellow villager?" The lord did not speak, but an elder of the Yuanying stage did, and he was an acquaintance of the Pure Yang Palace, the lord of the Greatest Heaven Sect's Foreign Affairs Hall, Mao Qi.

"Hall Master, Yang Chen is indeed a fellow villager." Even if only Mao Qi asked, Yang Xi did not dare to be less scornful, and hurriedly replied: "He and this disciple are from the same village, and we also came together to the Greatest Heaven Sect's outer sects' disciples' selection."

"What?" Hearing Yang Xi's words, he was always sitting behind the unspoken lords and elders, and an elder who seemed to be in his thirties directed a question at Yang Xi "He came to participate in my Greatest Heaven Sect disciple's selection?"

"Yes, elders!" Yang Xi was almost stunned by the elder, and quickly replied: "But he was not lucky, he was not selected at the time."

"His luck was not good?" When Yang Xi's words were exported. An elder had a bitter smile when he heard this: "His luck is not good, it's better to say that we are not lucky! Such a good seedling was actually not selected by my sect. When they chose a disciple, didn't they check out the roots."

Yang Xi listened to the words of the elder and moved in his heart. His head lifted slightly and made an action like he wanted to say something, then quickly lowered and returned to its original state. If no one has been staring at him, maybe they would not find that he had done this action.

But who are there? The person with the worst cultivation base was also a Yuanying stage elder. Although Yang Xi's movement was slight, but where could he escape the attention of any one person here?

“Do you have anything to say?” The foreign affairs hall master, Mao Qi, although he had lost his own flying sword, he did not lose his identity as a lord, saw Yang Xi’s little movement, and immediately asked.

“Disciple... Disciple... It’s hard to say.” Yang Xi was somewhat uneasy, and he repeatedly said that he had squeezed out three words, which was hard to say.

The brow of Mao Qi wrinkled immediately, in front of the lord and the elders, he dared to say that something was hard to say? With a cold snorted at Yang Xi, his momentum was slightly released, and the merciless order said “Speak!”

“Yes!” Yang Xi’s body was naturally shaking, and he promised that he was completely sincere and fearful. Under the pressure of a Yuanying stage master, he was a disciple of the late foundation stage. The fact that he did not directly succumb to the floor was already a very good performance.

“Yang Chen did not test his spirit roots that year.” Mao Qi took his pressure to swear at him, would he still dare to hide it, and said quickly “He shouted out in surprise when he entered the mountain gate, Then the uncle master said that he roared at the mountain gate and threw him directly out of the mountain gate.”

After listening to Yang Xi’s speech, including the sect master, all the elders’ faces were all having different expressions. Because of a cry, he was thrown out of the mountain gate? This throwing, wasn’t it directly throwing an alchemy genius to the Pure Yang Palace!

When they thought of the treasure that originally was to belong to the Greatest Heaven Sect, that he became a disciple of another sect because of such a small thing. The mood of everyone was simply unspeakable.

A kid who has never seen the world, entered the gate of the Greatest Heaven Sect, naturally everything would be, how was crying out too much? Was this the so-called roaring at the mountain gate?

“Which bastard throws people out?” A master of the dacheng stage who had never spoken before and usually did not care much about the sects affairs, who was usually immersed in cultivation, suddenly burst out, and his momentum was like a thunderous 300,000 jin mountain to pressure Yang Xi.

This elder has been trapped for a long time in the middle dacheng stage bottleneck. Once he heard about the Questioning Inner Heart Pill he was very excited. But even if it was the Greatest Heaven Sect, it was only bought at the auction house and was used for research. So he could not use it for breakthrough. Now he heard that the alchemy master who was supposed to be a disciple of the Greatest Heaven Sect had become a disciple of another sect, if he still couldn't get the pill now his time would elapse.

In the face of the majesty of the master of the dacheng stage, how could a small foundation stage disciple withstand it. Yang Xi was not as strong as Yang Chen, and his spiritual awareness was not so heaven defying. Seeing that Yang Xi was going to suffer, his side suddenly flashes a halo, and the pressure of the elder of the dacheng stage was also blocked.

Chapter 332.2: He Came To Our Sect

It was the sect master of the Greatest Heaven Sect who made the move. He used his own magic weapon, just to resist an unconscious eruption of the elder.

The elder saw the sect master make a move and realized that his attitude was problematic. The target he was looking for was not here. Yang Xi came to the Greatest Heaven Sect with Yang Chen that year, and it was not his fault that Yang Chen was thrown out.

"Who threw Yang Chen out?" The elder once again asked, this time, the sound was a little gentler, but still full of anger.

"This disciple does not remember!" Yang Xi seems to have been frightened and just said this, then dared not say any more.

It's no wonder that it's been forgotten, having been more than a hundred years ago, who would have thought that this was a big deal. Who would deliberately remember those who throws people out.

"Check, when did Yang Xi joined my sect? In that year, for all the disciples responsible for recruiting outer sect disciples, give them all to the law enforcement elder. They will have a penalty of facing the wall for ten years for each person. If you find out who threw him out, let him face the wall for twenty years, plus one hundred lashes!" The sect master whispered a sentence, and immediately there was the master of the law enforcement hall who went out to make arrangement.

Although the voice of the sect master was very light, but at the same time everyone could hear some dissatisfaction. Such an excellent alchemy genius, because he cried out after he looked at the beautiful scenery, he completely lost the opportunity and was pushed out, how could he not be angry?

“Speaking of this, this Yang Chen, that is the little guy who Li Qingchen instructed the Pure Yang Palace Chu Heng to deal with, is that right?” Another elder also remembered a lot of things “There was a duel with Li Qingchen, killing Li Qingchen was done by him right?”

It was impossible to notice these little things with the identity of the great people present. However, Yang Chen was now famous for his reputation. Secondly, Li Qingchen was considered an excellent disciple of the Greatest Heaven Sect. Everyone was somewhat impressed.

“So, it seems that if I want to pull him into my Greatest Heaven Sect, I am afraid it will be a little difficult.” The group of people were discussing here, not to confirm who Yang Chen was, but thinking about how to pull Yang Chen to the side of the Greatest Heaven Sect.

Originally, they discovered that Yang Xi was a fellow villager of Yang Chen, this relationship may be of use. But if you count Li Qingchen’s things, then it was hard to say. You must know that Li Qingchen had offended Yang Chen at the time, and he even did not hesitate to move Chu Heng to rebel. Even though Li Qingchen died in Yang Chen’s hand, who knew if Yang Chen still remembered?

“In any case, let’s try it first.” The sect master finally decided this, and he directed at Yang Xi, “Yang Xi, Yang Chen has been in the Pure Yang Palace recently. You are close to him as a fellow countryman so see if you can try to pull him over.”

After a while, not waiting for Yang Xi to reply, the sect master directly gave the bottom line to Yang Xi “As long as he promises to join us, everything he wants, we can give him. cultivation methods, Magic Weapons, pill recipes, spirit stones, medicinal materials, Beauties, what he wants is what we will give him, in short, what the Pure Yang Palace can give, we can also give, even exceed them. As long as he can join my Greatest Heaven Sect, all his wishes will be granted.”

“This disciple understands!” Yang Xi’s eyes lit up and immediately realized that this was an unprecedented opportunity. After he bowed to express his agreement, he seemed to think of something again. He once again asked “Sect Master, if Yang Chen asked about the pressure he will face for leaving his sect, how should I reply?”

“As long as he is willing to join my Greatest Heaven Sect, if there is any opinion from the Pure Yang Palace, we will take the opportunity to destroy them and will not give them a chance.” The sect master gave this answer without thinking about it.

“This disciple understands!” Yang xi knew that he should leave. This is not the place where he could stay. However, it seems that because of Yang Chen, he has also fallen into the eyes of the high-level, as long as things are handled beautifully, there was no need to worry about his future.

After retiring, Yang xi did not even return to his place of residence. When he left the hall, he went straight to the mountain gate and flew in the direction of the Pure Yang Palace.

His action let a few of the high-level members who had been observing his actions nod slightly, this person’s attitude was fairly correct.

It was only after a hundred miles from the sect of the Greatest Heaven Sect that Yang Xi’s face showed a strange smile. One of the guys who was responsible for picking out the outer sect disciples was oppressing Yang Xi. Yang Xi just used this opportunity to honestly tell the fact that Yang Chen was expelled, and the guy would immediately face retribution.

Although it hurts a lot of innocence people, Yang Xi would not have a little bit of guilt, they were unlucky, who let them be so close to the guy that year.

However, in the eyes of Yang Xi, there was still a thick ripple of envy. Yang Chen, the muddy leg of the country, even had his reputation being loud and unsound, was even stronger than him. How could this be accepted by Yang Xi, who has always been arrogant?

From infancy to maturity, Yang Xi was the best in the village, including his younger sister, no one could compare with him. No matter what, Yang Xi wanted to occupy the best position and he even became the disciple of the Greatest Heaven Sect, the biggest martial art sect.

Within a short period of 100 years, Yang Xi has cultivated to the late foundation stage. Although it was not comparable to the discerning disciples, he was also a rare outstanding child.

But what Yang Xi never imagined was that Yang Chen, who was originally a waste in the village, had already cultivated to the Jiedan realm, and he became a master of alchemy. If this were someone else, perhaps Yang Xi would feel a little better, but it was Yang Chen, which made Yang Xi almost crazy.

This time, he had to follow the orders of the sect to win over Yang Chen. It was inconceivable that Yang Xi had to put on a low-pitched attitude in front of Yang Chen, which made him angry.

If the deal was not successful, how would the sect deal with it? From the answer to the last question that the sect master gave him, Yang Xi had already guessed some of their attitudes, since he was not a person of the Greatest Heaven Sect they must cut short his growth, they couldn't see Yang Chen grow up. Otherwise the Greatest Heaven Sect was confident that it would be a big problem.

After thinking about this, Yang Xi suddenly understood how he should do it. Yang Chen, this guy, he would let him be proud for a few days, then there will be days that he would be crying.

Yang Chen, who was absorbing fire seeds in the sect, has received a notice from the sect that a former villager of his was here. Yang Chen was very surprised, he never thought about Yang Xi.

Later, when he heard that Yang Xi of the Greatest Heaven Sect came to see him, Yang Chen suddenly stopped and immediately laughed. He thought that this guy had died silently in the explosion of the sect so he didn't expect him to be alive.

This was the opportunity from the Heavens to avenge Yang Chen's personal revenge. How could it not let Yang Chen laugh happily?.

Chapter 333.1: Envy

Yang Chen had been absorbing those fire seeds for more than a year. There were a lot of fire seeds in the third grade, fourth grade and fifth grade, and the time spent was also quite a lot. In one year, Yang Chen had only absorbed all the third-grade fire seeds into the Profound Spirit furnace.

The fourth-grade fire seeds would take longer to absorb, each required at least half a month. Yang Chen now had at least 30 kinds of fourth grade fire seeds. He just absorbed four or five kinds when he received a notice from Yang Xi.

This time, Yang Chen was not in seclusion. He just sneaked into the Immortal's Cave. The news outside was still sent to him smoothly. Hearing that Yang Chen's old fellows came to visit him, Gao Yue and Gongsun Ling did not hinder him, and sent the news directly to Yang Chen.

For Yang Xi, Yang Chen had the deepest hate for him. However, all along, Yang Xi was in the Greatest Heaven Sect, Yang Chen did not find a suitable opportunity to take care of him.

Although Yang Chen could sneak into the inside of the Greatest Heaven Sect to kill Yang Xi, but that would lack the feeling that Yang Chen wanted, the open and overboard feeling of satisfaction.

In particular, after Yang Chen detonated the welcoming array of the Greatest Heaven Sect, the tens of thousands of outer sect disciples of the Greatest Heaven Sect who died, and many disciples of the foundation stage who were harmed; Yang Chen always thought that Yang Xi had died in that chaos, but did not expect this guy to have such extraordinary luck.

This was better, it was simply that the Heavens was also in line with the meaning of Yang Chen, so that he could have the opportunity to kill him with his own hands, the deep hatred of his previous life. As soon as he thought that he could see Yang Xi, the chief culprit, Yang Chen even had some excitement and trembled a little.

Gao Yue and Gongsun Ling did not understand him. They thought that because Yang Chen was told that he had a visit from a fellow villager, he was happy. Closeness with hometown people, is human nature.

He went to see Yang Xi, of course, without anyone else accompanying. Yang Chen quickly came to the guest quarters in the Pure Yang Palace. He pondered pondering along the way about what kind of attitude should he show to Yang Xi.

Anyway, now that Yang Xi was in the sect to visit him, he was a guest, Yang Chen could not help but treat him accordingly, and not immediately try killing him. This was the courtesy of being a host. Although Yang Chen and the Greatest Heaven Sect had deep seated hatred making them not bear to share the same sky. Now, Yang Xi was the one who made it, so he will let him live for a while.

The other party's arrival to the sect at this time, must have a reason. After all, Yang Chen's reputation had not become this resounding in the previous day or two, how come Yang Xi didn't come to the sect earlier?

“Yang Xi!”

Entering the guest quarters, Yang Chen saw Yang Xi, who was drinking tea. Although his heart was already angry and wanted to immediately pull his sword and chop Yang Xi into pieces, he still suppressed his impulse, and even faked a look of surprise on his face.

With a surprised voice, he called out, “is it really you?”

“Yes!” Compared with the surprise on Yang Chen’s face, Yang Xi was more like a calm young master; holding the teacup in an elegant position with one hand and with a seemingly noble smile on his face. Then he said very elegantly, “sit!”

Here was the guest quarters of the Pure Yang Palace, but Yang Xi instead put on the posture of a host. This tone made Yang Chen look like as if he wanted to laugh.

“Long time no see!”

Yang Chen seemed very natural to be forward and sit on the other side. Yang Xi had already taken the position of the Lord and the one left to Yang Chen, naturally was the seat of the guest. After sitting, Yang Chen naturally said hello, followed by his previous title, “Young Master Yang!”

“I have not seen you since a long time.” Yang Xi listened to the form of address Yang Chen gave him; Young Master, and his face showed a smile. This was the title that Yang Chen and other farmers called him with in the village. Yang Xi had not heard it for a long time. Listening now, it seemed that he had the feeling of being aloof in the village again.

“I don’t know what Young Master Yang has come to visit for?” Yang Chen was having faint smile on his face, while looking at Yang Xi. He wanted to see what Yang Xi was plotting.

“This martial art sect is a small sect indeed, even the tea is so low-level.” Yang Xi sipped from the cup of tea, then frowned, snorted and spit it out of his mouth.

“This kind of small martial art sect has no financial resources to produce real experts, if you stay here, there is no future for you.” Yang Xi very casually threw the tea cup originally in his hand on the table. Then said to him directly, “come with me and I will give you a good future.”

“A good future?” Yang Chen had been a bit strange about Yang Xi’s attitude. He was a guest at this sect, but he still had such arrogance. What did this mean? Proposing him a good future, didn’t mean that he had to point his people and sect in such a derogatory way? Could it be that he really thought that he was still a young master to Yang Chen, and everyone should still listen to him?

“The Greatest Heaven Sect is much better than the Pure Yang Palace.” Yang Xi had a sublime face, “don’t say that I don’t care about you, there is an opportunity to take you into the Greatest Heaven Sect, the world’s number one martial art sect. Go back, pack your things and just come with me!”

Yang Chen seemed to have guessed Yang Xi’s intention and he planned to sit in the same place with no intention of moving. Just squinting, looking at Yang Xi with a smile he suddenly said, “even if they allow me to join them, do you think I am a fool, or do you think that the elders of the Greatest Heaven Sect are fools?”

Yang Xi’s gaze stared fiercely over, seemingly with some unwillingness, he kept on staring at Yang Chen.

“You didn’t actually want to pull me to the Greatest Heaven Sect, right?” Yang Chen said with a smile.

“Yes!” Yang Xi did not expect to have his own mind to be seen through so quickly. Instead, he sat calmly and sneered at Yang Chen, “a little farmer, but still why do you have such achievements? Want to enter the Greatest Heaven Sect too? Dream on!”

“Then what will you tell the people who sent you?” Yang Chen was laughed at by Yang Xi, He had never seen such a person. Even in his previous life, Yang Xi did not seem to be so stupid.

“Tell them?” Yang Xi sneered, watching Yang Chen for a moment and then continued, “It’s easy! You don’t know how to appreciate good things, not only did you not give the Greatest Heaven Sect face, but also swore and insulted. Everyone in the Greatest Heaven Sect will regard you as their life and death enemy, and a target to kill. Are you satisfied with this account?”

“It sounds good.” Yang Chen nodded and seemed to agree with Yang Xi’s statement. Then he immediately asked again: “However, I forgot to remind you of a problem.”

“I am willing to hear the details!” Yang Xi asked since his position was set.

“I am now a master of the Jiedan stage, you are just a foundation stage junior.” Yang Chen said with a smile: “I will give you a day, after leaving, flee immediately!”

Chapter 333.2: Envy

Envy

Yang Xi’s face became very ugly. He always thought that he could control Yang Chen and did not hesitate to put up this posture to anger Yang Chen. It was also because he thought that Yang Chen would have nothing to deal with him.

There was no third party in the conversation between the two. Of course, what Yang Xi wanted to say, even he could install even more miserably, Yang Chen’s attitude towards the Greatest Heaven Sect was even worse.

All of this was in Yang Xi’s calculations. Anyway, he had learned from the inadvertent conversations with the Greatest Heaven Sect sect master the attitude of the Greatest Heaven Sect toward Yang Chen. They let him come to try and see, especially that last sentence, in order to let Yang Chen dispel the psychological pressure of rebellion, they would not hesitate to destroy the Pure Yang Palace.

According to this logic, if Yang Chen does not intend to join the Greatest Heaven Sect, then there was only one attitude estimated above, that was, if they couldn’t get him, they would rather destroy him and not leave him to others.

A master of alchemy such as Yang Chen, which was a treasure to a sect, may be able to make the sect rise. This situation was what all competitors were not willing to see.

If Yang Chen was only engaged in the Pure Yang Palace, it was estimated that there would be no major problems. But now the news from the Greatest Heaven Sect was that there was a deep cooperation

between the Pure Yang Palace, Blue Cloud Sect and Green Jade Immortal Island. As a result, Yang Chen's role was becoming more and more terrifying.

Sitting there and watching the Green Jade Immortal Island and Blue Cloud Sect getting stronger and stronger, it was not the style of the Greatest Heaven Sect. Although Yang Xi did not know much when he left the sect, he also heard several stories about the so-called eliminate the demons and protect the Dao from his predecessors. From these deeds, it was not difficult for Yang Xi to analyze the attitude of the Greatest Heaven Sect to opponents who refused to cooperate.

If he couldn't get Yang Chen, the Greatest Heaven Sect would definitely send someone to ruin Yang Chen. They would never wait to see the scenario where under the influence of Yang Chen, the Green Jade Immortal Island and Blue Cloud Sect would develop more than the Greatest Heaven Sect, especially now that the Greatest Heaven Sect was badly hurt. Under these circumstances, this method of secretly weakening competitors must appear frequently.

Yang Chen was a senior alchemy master, but since he was not a friend, he was an enemy that must be eradicated. If the Greatest Heaven Sect was not the one who could get Yang Chen, when Yang Xi's feedback was sent to the Greatest Heaven Sect, Yang Chen was destined to be a dead person.

The kid from a farmer's family was also better than himself, then it was not enough for him to die. Yang Xi even enjoyed this process. How strong was he, wasn't he played to death by him? Yang Xi was prouder, and his mood was good, this good mood continued until Yang Chen gave him the advice.

Yang Chen's words made him a little panicked. In the case of thousands of calculations, Yang Chen's cultivation was higher than him. To kill him would require just a little effort. And Yang Xi, obviously had not yet reached the point of ignoring life and death.

"I, I am the messenger of the Greatest Heaven Sect, the guest of the Pure Yang Palace!" Under panic, Yang Xi shouted with a loud voice: "You can't kill me!"

"So I will give you a day to escape." Yang Chen replied with a smile, sitting still in the same place, but the opponent has begun to panic, this feeling made Yang Chen also enjoy himself "And send my feedback and my attitude back to the Greatest Heaven Sect."

“If you kill me, aren’t you afraid of the Greatest Heaven Sect’s revenge?” Yang Xi finally understood that Yang Chen would not move on him now so his panic was quickly calmed down and he asked.

“Whether I kill you or not, the Greatest Heaven Sect will not let me go, isn’t it?” Yang Chen laughed. He did not think that Yang Xi would behave like this now.

In the past, Yang Xi was greedy. In order to snatch his own Ten Thousand Years Vermillion Fruit and his ambition, he would do that kind of thing for himself. This time, Yang Chen confirmed that he did not provoke Yang Xi from the beginning to the end. He didn’t know why Yang Xi wanted to put himself in a deathtrap.

No matter how Yang Chen wanted to break his head and think about it, he would not understand Yang Xi’s thoughts. Just because everyone was a fellow villager and before Yang Xi’s cultivation, Yang Xi’s identity was more noble than Yang Chen’s. Now Yang Chen’s achievements were higher than Yang Xi’s, and he was more able to get the weight of an expert. For this reason, Yang Xi would spare no expense to kill Yang Chen.

However, this was also good, at least Yang Chen does not have to think about any reason and could be justified in the pursuit of Yang Xi.

“Since you understand, then I will not talk anymore nonsense.”

Yang Xi had Yang Chen gave him a day’s time, and he was full of enthusiasm. He immediately began to swell up “I want to see if you die first, or I will die first.” ”

Having said that, Yang Xi already made up his mind. As soon as he leaves, he would rush back to the Greatest Heaven Sect. With Yang Chen’s strength, he would not be able to enter the gate of the Greatest Heaven Sect. Anyway, as long as the time of Yang Chen’s murder has been sustained, he could sway out.

“I will remind you of two points.” Yang Chen still sat still, and he smiled and held out two fingers.

“I want to hear the details!” Yang Xi blew his sleeves, sat upright and put on the elegant posture.

“First!” Yang Chen drew a finger and looked at Yang Xi calmly and said “I am an alchemy master, moreover I am still a senior alchemist master.”

“How about that?” Yang Xi did not know if it was because of the flame of jealousy in him, many things were not considered, and he asked a very stupid question.

“The meaning is that if I am willing to use a Questioning Inner Heart Pill to ask for a reward for your head, I believe that there will be elders in the Greatest Heaven Sect that will send me your head.” Yang Chen still used that calm voice and reminded him, but there was a lot of teasing in the tone.

Yang Xi’s proud face lost its blood, he completely forgot about it. He was eager to burn Yang Chen by this opportunity, but he did not think that Yang Chen could easily kill him even if he didn’t have to do it himself.

“Second!” Yang Chen looked at Yang Xi’s horrified face, and sneered in his heart, reminding him again “I said that I would give you a day, now the amount of time for an incense to burn has passed, but if you don’t want to put yourself under the pressure I am willing to keep my promise, you can spend it here.”

Yang Xi was not the kind of person who would keep his promises. Anyway, if he does not swear by his heart, naturally he would not value it. Yang Chen, who listened to it, said that it was even more shocking. If Yang Chen started here, he would not even have the chance to resist.

This time, Yang Xi no longer dared to sit in front of Yang Chen, stood up and hurriedly fled, he walked anxiously, even the door was smashed by a low threshold, slammed out a few steps after that and stabilized his figure. Without saying anything, he called his flying sword and flew outside the mountain gate.

Chapter 334.1

In Yang Chen’s memory of Yang Xi’s savvy and insidious character, he would never make such a low-level mistake. Strictly speaking, he could only say that Yang Xi, now, has not grown to the point of his previous life.

However, in the Greatest Heaven Sect, Yang Xi was by no means popular. At least Yang Chen knew that before Yang Xi’s condensation of his golden Dan, he was squeezed by a group of people and they

oppressed him. This led him to seek for a higher status and cultivation base at all costs, even giving his sister to the Young Sect Master as an acolyte.

Later, for reasons unknown to him, Yang Xi even killed the Greatest Heaven Sect Young Sect Master and blamed it on Yang Chen. His series of means was so fascinating, even the Sect Master of the Greatest Heaven Sect was deceived by him. Whereas today, even if the cause and effect were not completely considered, he came to the sect and wanted to set up a trick to kill Yang Chen.

Yang Chen would not care about why Yang Xi has not yet grown up. He just wanted Yang Xi starting from today to live on in fear. In the past life, when Yang Chen was chased, there was no shortage of such a day for him.

It was too cheap to meet him with a sword and hack Yang Xi to death. At least let him be scared for hundreds of years, then Yang Chen would start to deal with him. He wanted Yang Xi to taste the pains he has suffered in his previous life before he could dispel his hate.

Yang Chen always fantasized about how many times he would have to destroy the Greatest Heaven Sect to kill Yang Xi, but never thought that one day Yang Xi would have thrown himself into his net, he ran to Yang Chen to let Yang Chen plant a seed of fear in him.

Perhaps this was the arrangement of the Heavens, since the Heavens has let Yang Chen come back once again, and in this way, took the initiative to send Yang Xi over, this was the fulfillment of the Heaven's will!

For the threat of Yang Xi, Yang Chen did not pay attention to it. If they wanted to kill Yang Chen, it was definitely not just the Greatest Heaven Sect. This was something that everyone was aware of.

How many genius disciples occasionally perish due to an accident during their cultivation, many of which have become unresolved deaths. Usually they are nothing more than the enemy's hands, the demon hands, or the internal pressure of the Dao Sects, it was commonplace in the previous life of Yang Chen.

Anyway, if Yang Chen stayed in the Pure Yang Palace, it was absolutely safe. In his previous life, the Pure Yang Palace would be destroyed. However, there were now two dacheng stage masters and ten Yuanying stage ancestors residing within, along with the cooperation with Green Jade Immortal Island

and Blue Cloud Sect, the two major sects would never allow the Pure Yang Palace and Yang Chen to face any accident.

If Yang Chen was afraid of death, then he would be shrinking in the Pure Yang Palace, and many people were expecting it. But in this way, Yang Chen would actually be discarding his cultivation. From ancient times to the present, there has never been a timid guy who could make a positive result. Who could cross his tribulation and ascend and has not killed in a battle before?

Even if there was no courage to face some enemies or villains, how could they have the courage to face the tribulation, not to mention it as a series of three kinds of Heavenly Tribulations.

There was only one result behind closed doors, and that was no longer having the inspiration for breakthroughs. No matter how many books you read, how many seniors' insight are read, it was useless. It was better to travel thousands of li than to read thousands of books. This was the truth that the bumps are not broken, and the paper has to come to an end, knowing that this matter must be carried out.

Hiding in the Pure Yang Palace, perhaps Yang Chen could refine the Questioning Inner Heart Pill, maybe also refine the second grade Inner Sensing Pill, but that was all. If this was the case, for the Greatest Heaven Sect and other sects, the threat was still limited.

The Greatest Heaven Sect sent Yang Xi to come over, certainly for the sake of winning him over, when they were unable to win him over, it was estimated that this was the idea, to scare Yang Chen, and then he would not dare go out. If Yang Chen was not afraid and went out alone, they would always have the opportunity to seize or kill him. In any case, it was a good calculation.

When he scared away Yang Xi, Yang Chen did not care about the results, he directly went to the head of the palace to report to the palace master what had just happened. For some things he had to let the sect make a response plan in advance, otherwise it would always suffer if it was rushed to face battle.

Listening that the Greatest Heaven Sect even sent a kid who was at the foundation stage to go to the Pure Yang Palace with the identity of the same villager to calculate and try to win over their most valued disciple of his sect, the palace master lost his self-control and yelled abuses directly, there was no demeanor of the Yuanying stage ancestor on him now, not to mention the temperament of a master.

After the shouting, the head of the palace assured Yang Chen, he has absolute certainty. Among the entire sect, the disciples who were most relieved other than the palace master was estimated to be none other than Yang Chen.

The sect must of course respond, but it could not make obvious signs for the Greatest Heaven Sect. Otherwise, the Greatest Heaven Sect would definitely use this to act against the Pure Yang Palace. What they were now scolding was not the Pure Yang Palace, but the Green Jade Immortal Island and the Blue Cloud Sect who were rising with the Pure Yang Palace. For a reasonable reason, the Greatest Heaven Sect would definitely seize the Pure Yang Palace into the abyss and destroy the entire alliance.

Yang Chen still returned to the Immortal's cave as if nothing happened. Gao Yue and Gongsun Ling saw that Yang Chen had nothing suspicious in his appearance and did not ask and let Yang Chen continue to absorb the fire seeds.

Before, Yang Chen said that he would continue the spiritual awareness double cultivation with Gao Yue and Gongsun Ling, this time was not wasted. Every other month, Yang Chen and the two women practiced the Highest Mystery Yin-Yang Heart Sutra. The heart could not only reconcile the spiritual awareness, but also greatly enhance the conciseness of the two sides' spiritual awareness. It was an excellent spiritual awareness double cultivation cultivation method. It was a pity that this kind of cultivation method was at hand.

For more than a year, the two women could feel their spiritual awareness condensed at a rapid pace. Because the spiritual awareness of Yang Chen, Gao Yue and Gongsun Ling were now in a relatively balanced stage, the total quantity of spiritual awareness was only growing step by step. But after every spiritual awareness double cultivation, everyone's spiritual awareness was more concise and more and more stable.

He didn't know how Yang Xi would respond to the people of the Greatest Heaven Sect when he went back. At least so far, the Greatest Heaven Sect had made no signs of doing anything. Of course, it was impossible to start this time. It would be too obvious, and Yang Chen has not come out of the Pure Yang Palace. Even if they wanted to do it, they had no chance.

But Yang Chen knew that the Greatest Heaven Sect must have listed himself as a key concern. Before he had not shown the effect of changing the strength of the sect. Now that he has such a big role, he had to bear such a big risk. If he wanted to go out in the future, he would have to be careful about the sneak attack of the Greatest Heaven Sect or some other sects. It would not be as easy as before.

He didn't talk about it to his Master and Senior Sister, Yang Chen was afraid that they would be worried. In Yang Chen's heart, regarding this matter, he didn't care much about it. The direction of his cultivation was actually doomed from the moment he stepped into the Immortal Executioner Stage, it was a road full of killings.

Chapter 334.2

Regardless of the wind and waves outside, Yang Chen still acted according to his own pace. In the blink of an eye, another year had passed and the remaining fourth grade fire seeds were all absorbed into the Profound Spirit furnace. Yang Chen has already planned to start absorbing fifth grade fire seeds.

So far, the Profound Spirit Furnace has absorbed hundreds of mortal flames and the entire pill furnace has changed from a crystal clear state to another.

It was a kind of change to its simple natural state, after absorbing hundreds kinds of fire seeds, combined with all the Cyan Crystal Profound Gold of Yang Chen and many carefully selected materials by Yang Chen. After absorbing countless potions, now looking past it, the profound spirit furnace was like a medicine pot that was used by ordinary people. It was ordinary, simple and unremarkable.

But this profound spirit furnace, it was not known how many times the effect was compared to when it was crystal clear. As long as Yang Chen holds the profound spirit furnace, even if he does not practice alchemy, he could feel that his alchemy skills were improving.

The ability to control the flame was also more and more sophisticated. No matter which kind of flame, Yang Chen felt like it was like controlling his arm. Associated with this, Yang Chen's Yin-Yang Burning Heavenly Fire seems to be a bit active.

There were also four kinds of fifth grade fire seeds in his hands. Yang Chen was hesitating about whether to absorb these fire seeds first or to refine the Questioning Inner Heart Pills of the Blue Cloud Sect.

When Gao Yue and Gongsun Ling knew why Yang Chen was hesitation, they were speechless. In the end, Gao Yue helped Yang Chen to decide to absorb the fire seeds and then refine the pills later. Anyway, it was only a year away from each other. For these cultivators, it was not a problem at all.

In accordance with his Master's instructions, Yang Chen continued to absorb these fifth grade fire seeds. The fifth-grade fire seeds were the same type of fire as the True Sun Fire and True Moon Fire, and it was also the highest grade of fire seed in the current profound spirit furnace. It would take longer to absorb these kinds of fire seeds.

Fortunately, now the profound spirit furnace has absorbed hundreds of kinds of flames, including several kinds of fifth grade fire seeds, absorbing a fifth grade fire seed would take about three or four months, compared to the previous speed, it was simply several times faster.

One year passed in a hurry and four kinds of fifth grade fire seeds have also been absorbed into the profound spirit furnace. At this point, Yang Chen's fire seeds he received from the Blue Cloud Sect and the Green Jade Immortal Island and have all been absorbed into the profound spirit furnace.

It was no exaggeration to say that almost all of the fire seeds below the fourth grade have been covered by the profound spirit furnace. The fire seeds of more than the fourth grade has also fallen into the hands of Yang Chen. At this time, if there was someone who wanted to compare the person with the most fire seeds, Yang Chen would definitely be the victor.

The absorption of these kinds of fire seeds was equivalent to the compensation paid by the Blue Cloud Sect in advance and Yang Chen was also asking for refinement in any case.

When Yang Chen used the profound spirit furnace to start alchemy, Yang Chen really discovered how powerful the current profound spirit furnace was.

Once the medicinal herbs was put into the profound spirit furnace, even if it was not controlled by Yang Chen, it would be automatically refined and the heat was always just right, it was just like the profound spirit furnace had a consciousness and could automatically control the fire.

What made Yang Chen unexpectedly add to the surprise was that when he began to control his own refining process, he started directly with the second refining system, and even did not need to go through the refining method of the first grade.

This also means that if the alchemy was carried out according to the normal method, the profound spirit furnace would directly come out with the second grade pill, all the medicinal pills were upgraded by a grade.

If Yang Chen wanted to carry out the second refining system of the medicinal herbs in the profound spirit furnace, it would probably turn into third grade medicinal pills. When Yang Chen was building his foundation, he could refine the third-grade foundation stage pills, which indicated that Yang Chen was already a third-grade alchemy master. Now counting the efficiency of the profound spirit furnace, Yang Chen has actually become a fourth grade alchemy master because he could now refine the fourth grade foundation stage pills.

The fourth grade alchemy master, who was already the top alchemist in the mortal world, he has never heard of an alchemy master who could break through from the fourth grade alchemist master realm in the mortal world.

In the past, the main force of refining the Heaven Seizing Pill was Deng Yiya of the Heavenly Lake School and was just a fourth grade alchemy master. It was estimated that if Deng Yiya could cross the tribulation and ascend, then before crossing the tribulation, Deng Yiya could only be a fourth-grade alchemist master and it was impossible to improve.

You must know that Deng Yiya was a Yuanying stage ancestor and Yang Chen was still only at the early stage of the Jiedan realm. With Yang Chen's growth rate in the Dao of alchemy, it was a certain thing for him to become a fourth-grade alchemist master without using the profound spirit furnace when he reached the Yuanying stage.

At that time, when Yang Chen used the profound spirit furnace again to refine a fifth-grade medicinal pill. It would definitely be an alchemy record of anyone who has come before. No one in the mortal world would have a higher achievement than Yang Chen in the Dao of alchemy.

For Yang Chen, this was definitely good news, but at the moment, Yang Chen was in amazement and also had some helplessness.

Now the Questioning Inner Heart Pills that he was refining was for the Blue Cloud Sect. When it comes out, it would be at the second grade. Doesn't it mean that the Questioning Inner Heart Pills that Yang Chen would give to them would all be second grade pills?

This was obviously impossible. Yang Chen should consider the balance between the Green Jade Immortal Island and the Blue Cloud Sect. Once Yang Chen let the two sect masters think he was unfair, it would not be good news for the Pure Yang Palace.

Therefore, this alchemy furnace that was close to the immortal tool pill furnace, Yang Chen was not only unable to exert all the power of the profound spirit furnace, but he also must suppress it to control the profound spirit furnace not to make second grade Questioning Inner Heart Pills.

Refining the first grade Questioning Inner Heart Pills with this furnace was even more difficult than Yang Chen refining the second grade Questioning Inner Heart Pills. Fortunately, after all, the quality of the furnace was improved and the time for refining was greatly shortened.

Originally, refining it took a year and ten months, but this time, after Yang Chen completed the steps to receive the pills, it was only a year later.

This was already the fourth refining Yang Chen had done, and it has become more and more sophisticated. In addition, the strength of the profound spirit furnace had increased, although he has tried hard to suppress it, but the Questioning Inner Heart Pills were better than ordinary Questioning Inner Heart Pills. According to Yang Chen's own judgment, it should be between the first grade and the second grade.

The Questioning Inner Heart Pills of this quality, it was completely possible to cross, even if the Green Jade Immortal Island had some doubts, after all, refining techniques are more and more sophisticated. If the Green Jade Immortal Island wanted it, they could continue to cooperate with the Pure Yang Palace. Yang Chen could provide the same quality of pills.

At this point, Yang Chen's need to stay in the sect has been completed. Next, whether he was to gather the Seventh Metal True Essence or Tenth Water True Essence, he needed to go out.

Yang Chen arrived at the days when he needed to leave the Pure Yang Palace again.

Chapter 335.1

"This time, the quality of these Questioning Inner Heart Pills are..." Anyway, before Yang Chen planned to go out and practice, many things had to be arranged. At least the pill which he refined for the Blue Cloud Sect must be handed over. Zhu Chentao, the master of the medicinal hall, took over these pills and soon discovered the abnormality of the medicinal pills.

“Why, is there a problem?” The lord of the palace was shocked. If the medicinal pills of the Blue Cloud Sect were ruined, it would be difficult to explain. It was said that Yang Chen would not make such a mistake. Was it a miss?

“No.” Zhu Chentao shook his head and took a careful look at a questioning inner heart pill. This time, Yang Chen’s alchemy confused him. Zhu Chentao did not know what happened during the refining process. Therefore, he observed it very carefully and replied casually: “It is a bit too good.”

“Is it a second-grade pill?” The master of the palace was relieved, and the worry in his heart was finally laid down. But he immediately frowned, if it was a second-grade pill, then it could not be easily handed over to the Blue Cloud Sect.

“No, it is still a first-grade medicinal pill, but the quality is much better than that of the Green Jade Immortal Island’s.” After Zhu Chentao was promoted to the Yuanying stage, the ability of his spiritual awareness to explore the quality of pills was more skillful and his judgment was much more accurate. After a long time of observation, he has already confirmed the quality of this batch of Questioning Inner Heart Pills.

Listening to Zhu Chentao’s judgment, the eyes of the head of the palace were transferred to Yang Chen, Zhu Chentao also looked over and seemed to be waiting for Yang Chen to give a reasonable explanation.

“Sorry, I didn’t control it for a while.” Yang Chen faced the two big eyes and he only gave a little helpless explanation, but his look seemed to be innocent.

Yang Chen’s expressions and words directly made the palace master and Zhu Chentao silent. This level of medicinal pill, it could also be said that the quality was excellent, but he did not control it. Would this news not make many alchemy masters feel embarrassed? If someone else doesn’t control it, it would be the destruction of the pills, but Yang Chen’s pills were actually more than ordinary. What was the meaning of this?

They became speechless, but both the master and Zhu Chentao could understand what these pills mean. If it works properly, the Pure Yang Palace would definitely get more benefits. The head of the palace was even anticipating the expression of the people of the Blue Cloud Sect when they got these pills.

As for how to explain to the Green Jade Immortal Island, it was very easy, the more the refining was, the better the skills would become, naturally if there was better quality, it was nothing strange. If the Green Jade Immortal Island wanted to continue cooperation, the Pure Yang Palace would never refuse.

Handing over the pills to the head of the palace, Yang Chen had already completed one task. At least the transaction with the Blue Cloud Sect was considered to be preliminary done, and they would only be waiting for the income for the Pure Yang Palace in the next few decades.

Next, Yang Chen would consider going out to collect the seventh metal true essence and tenth water true essence. This was the key to Yang Chen's great yin and yang five elements secret art golden core.

According to the normal practice, with the experience and sentiment of Yang Chen Great Principle Golden Immortal memory, plus many elixirs, Yang Chen was able to let his remaining spirit power condense.

However, if he used this method, Yang Chen would only have a kind of spiritual power golden core. Each estimate requires Yang Chen to spend about ten years. In this way, it would take 70 years to fully condense the golden core. This was what Yang Chen was not willing to wait for.

The Great Yin and Yang Five Elements secret art also paid attention to balance. In the 70 years, the fire attribute of the first condensed Dan must have reached the middle Jiedan stage, and the last condensed Dan would only be at the early Jiedan stage. The difference in the Jiedan stage was not as small as the foundation stage. If the cultivation base had decades of difference, it would inevitably disrupt the balance of Yang Chen's Yin-Yang Five Elements.

The emergence of Yang Xi let Yang Chen understand that the Greatest Heaven Sect's high-level has made up their mind to eliminate himself. This was not only a pressure for Yang Chen, but also a driving force.

Fortunately In this life, he was not like in his previous life, the Pure Yang Palace was getting stronger and stronger, even if the Greatest Heaven Sect wanted to deal with him, it would not be possible for them to be brazen, they could only go about it secretly.

This was the same as Yang Chen's need to deal with the Greatest Heaven Sect. For the time being, it cannot be made public. However, if the other party wanted to remove himself in secret, then they must

bear the loss of the manpower, but they couldn't get the upper hand. Even if he openly kills the other person, they could only bite their teeth and swallow.

Gao Yue and Gong Sunling practiced very hard. After Yang Chen saw Yang Xi the last time, he finally said Yang Lan's intention. The behemoth of the Greatest Heaven Sect had a murderous heart for Yang Chen, the two women suddenly felt a terrible pressure. It seems that they intended to share some pressure with Yang Chen and for the sake of themselves not becoming the burden of Yang Chen, they almost went on a crazy cultivation spree. In this regard, Yang Chen persuaded them many times, but the speed was not let up, the two women could not easily let themselves relax, Yang Chen could only let the two women go crazy. This time when Yang Chen went out for a trip, he must be ready to give the two women their life source flying swords.

From the rare materials obtained from the banyan cave house, Yang Chen gave them to his master. She was a master of refining, and with these things, she could definitely improve her level quickly.

Before leaving, Yang Chen did not forget to go to the ancestor Wang Yong. On one hand, it was to let the ancestor pay more attention to the safety of Gao Yue, on the other hand, it was to find the ancestor to ask him to promise to refine the second city lord's body for Gao Yue.

The corpse of the second city master was reflected in the fact that it has been refined into a flying eagle, but the final step was still to be completed. After Wang Yong's promotion to the dacheng stage, he did not do anything else and he was fully committed to refining this flying eagle. He also knew that this was the last card that Yang Chen prepared for Gao Yue so he was very careful.

In fact, Wang Yong knew that after Yang Chen was able to refine the second Inner Sensing Pill, he knew that his own grand disciple who had such a great talent in the Dao of alchemy would definitely cause many people's worries and dissatisfaction. Wang Yong, who was already a master of the dacheng stage knew the cruelty of the cultivation world more than anyone else, so he was also trying to get Yang Chen out of trouble.

"There are always many challenges in cultivation, go!" Wang Yong's attitude toward Yang Chen was far freer and easier than Gao Yue and Gongsun Ling. Without tempering, he would never become extraordinary. The path of cultivation was not smooth.

For Yang Chen's safety, Wang Yong was almost never worried. The speed of the shuttle has been personally seen by Wang Yong, he could always escape, and even the powerful second city lord had died in Yang Chen's hands. He believed that others could not pose much danger to Yang Chen.

“The Greatest Heaven Sect people have always been arrogant, and if you meet them on any occasions, don’t hold back.” Since Wang Yong passed the yin fire tribulation, his temperament changed greatly, not only the incomparable self-confidence in cultivation, but also the threat of treatment ” No matter what, you just have to remember that the sect is always behind you. Remember, we are not afraid of anyone, including the Greatest Heaven Sect!”

Chapter 335.2

When leaving, Gao Yue and Gongsun Ling just sent Yang Chen off in Immortal’s Cave and did not follow Yang Chen outside. They knew that Yang Chen couldn’t always stay in the Pure Yang Palace as a coward.

Yang Chen did not fly away with the shuttle at the beginning, but first flew to the market of the meiqing mountain with his flying sword. Here, the first thing Yang Chen did was to send news to Shangguan Feng through certain channels and use a pound of high-grade spirit stone to buy Yang Lan’s head.

Yang Lan was just a late foundation stage cultivator. A pound of high-grade spirit stone has surpassed the limit of the reward needed for a foundation stage expert. There would be many guys interested in this business.

Although it would be absolutely easy to get Yang Lan’s head with a larger reward such as the questioning inner heart pill, that would make him get killed too easily. Only with this kind of price, just beyond the general market prices, would have Yang Lan live in the fear of being killed and spend every day in fear.

When Yang Chen appeared in the market, many people had their eyes in him, but here was still within the scope of the Meiqing Mountain, the site of the Pure Yang Palace, different from the past, no one dares to scatter in the site of the Pure Yang Palace now. The anger of the two dacheng stage masters was by no means acceptable to anyone.

Very contradictory things, no one dares to face the Pure Yang Palace on the bright side, but many people were secretly going out with the idea of the most powerful alchemy master in Pure Yang Palace. This was reality, it was never set on the bright side.

When Yang Chen drove the flying sword away from the Meiqing Mountain, he did not know how many eyes stared at the direction he was threading, until his figure disappeared into the sky, only then did many talents slowly recover their gaze.

Just as Yang Chen intended to adjust his direction and call the shuttle to fly to the direction where the Golden Star of the Sun left behind the seventh metal true essence, the spiritual awareness imprint that was hiding in his sea of consciousness suddenly gave a strange flash.

With Yang Chen's current understanding of his sea of consciousness, the spiritual awareness imprint that was wrapped by his spiritual awareness could flash, this was by no means what ordinary people could do.

This group of spiritual awareness imprint, the last time Yang Chen went to the Dragon Palace treasure house, some people used it to chase after him . At that time, Yang Chen constantly threw some things with the mark of spiritual awareness into the ocean, causing a group of the chasing guys to be attacked by monsters, and finally Yang Chen easily killed them after coming out of the treasure chest.

The only mark of the spiritual awareness that was kept, Yang Chen intended to use it to follow the other side after waiting for his strength to improve, then he would think of a counter attack.

Being able to respond under Yang Chen's early dacheng stage spiritual awareness threads, it was sure that the master of the spiritual awareness imprint has been helped by a master of the dacheng stage.

The imprint of the spiritual awareness left in the past was inexplicably missing, no one could trace it. Yang Chen also dragged on for too long and almost forgot about it. Unexpectedly, the other party actually started to trace this imprint near the Meiqing Mountain.

This was a master of the dacheng stage or an expert who have the spiritual awareness of the dacheng stage. Only the level similar to Yang Chen's spiritual awareness could cause the vibration of the spiritual awareness.

Since the other party was coming to him, Yang Chen would certainly not be polite, he would still entertain them. Because of the existence of the shuttle in the sea, it was almost the home of Yang Chen, Yang Chen immediately changed his direction.

The other party had suffered a big loss in the sea the last time so they must be prepared this time. However, Yang Chen was not afraid at all. The other party seems to be very prepared. However, it was impossible to know his destination by relying on the spiritual awareness imprint. It was only decided by Yang Chen where he wanted to go.

Since the spiritual awareness imprint could vibrate once, the other party has once again traced Yang Chen. Yang Chen was not afraid of the other party, he called out the shuttle and just found a direction, he then flew there at full speed.

Letting the other party know that their destination was arranged in advance was not the style of Yang Chen. It was necessary to use the high speed of the shuttle. It was good to play with these tracking guys before he led them to the final battlefield. There was such an opportunity after coming out from the retreat after his refining. Yang Chen was eager to move his muscles.

Yang Chen also had no specific goals in the direction from his random selection. It was only after two hours that the spiritual awareness imprint had shaken again. The vibration was very slight, but in the sea of consciousness of Yang Chen, it was very clear.

The other party was not close to himself, he was at least a thousand miles behind. Yang Chen didn't know what the other party was going to do to catch up with him, but it was not within his consideration.

After flying for almost three or five days, Yang Chen changed his direction very casually. It was repeated three times and five times, after half a month, even Yang Chen does not know where the front may lead, let alone the guys who were tracking him.

However, the other party was obviously going to follow the fate of Yang Chen. On the way, the spiritual awareness imprint would vibrate once every half day and the vibration became stronger each time.

Yang Chen didn't know what it was, was it that the strength of the guy who was tracking himself still improving? He didn't understand, Yang Chen simply didn't think much about it, he just gave it a quick thought.

On the way forward, Yang Chen had been in the shuttle and he didn't neglect his cultivation. The leisurely control of the fire seeds into the profound spirit furnace, the separation of a third-grade fire

seed, making the Yin-Yang Heaven Burning Fire fuse with it. A month's time was enough for Yang Chen to merge and devour a third-grade fire seed, and the Yin-Yang Heaven Burning Fire grew a bit.

After four or five consecutive changes, Yang Chen finally determined a direction and then rushed toward the sea. But this time it was not the direction of the East China Sea, but the direction of the South China Sea.

There was no stop on the way. After this selection, there was no change. After one month, Yang Chen's shuttle rushed to the South Sea. When he arrived at the beach, Yang Chen did not stop at all. The shuttle plunged into the sea and went straight into the sea. He turned slightly westward on the seafloor and swam rapidly toward the depths of the sea.

Less than half an hour after Yang Chen entered the sea, there was a ship-shaped magic weapon that appeared on the beach. This magic weapon was very big. It looked like a pointed-headed sailboat. It didn't stop falling on the surface of the sea. The wind and power were generally chased down in the direction of Yang Chen.

Even on the sea, the sailboat has maintained an amazing speed. If Yang Chen saw it, he would be surprised. The speed of this sailing boat was not slower than that of Yang Chen's shuttle, and it could almost go hand in hand.

In the cabin of the sailboat, a few figures were sitting on a plate, motionless. The brave man in the center, looking at a compass in front of him, the pointer of the compass referred to the direction of Yang Chen.

"He thought that only he had a flying magic weapon, hey, this time let him die without a place to bury!" After reading the compass, the brave man suddenly snorted, on his hands a stroke pair of crystal clear wings suddenly appeared, it became bigger and flew outside the cabin and fixed on the ship's side.

The wings suddenly flickered, the speed of the sailing boat almost doubled, and chased Yang Chen.
