Chapter 346

Yang Chen's spiritual awareness was retrieved from the mountains and rivers geographical map and then he shook his head silently and sighed and put the geographical map into the merits ring.

At the moment of Li Junyu's attack, Yang Chen began to look for ways to deal with it. With dozens of tenth water divine thunder, by relying on the protection of the dome and the golden bell, Yang Chen could not guarantee his safety.

The golden bell may be able to block it, but it was not something that the present golden bell which has only been refined to the first layer could do. The material would never be damaged, but there was no guarantee that Yang Chen would not be injured.

It seemed a bit far-fetched to use the shuttle with the water dividing wings to escape. Whether it was in the water or on the water surface, it couldn't go far in this moment as it was within the explosion range of the tenth water divine thunder. The shuttle's protective ability was slightly weaker and it may be damaged at that time.

Within a blink of an eye, Yang Chen suddenly thought of the mountains and rivers geographical map that he just got. That was an array made with dragon skin as a substrate. Yang Chen has already marked it with his own spiritual awareness imprint and he could be barely counted as the master of it, so the mountains and rivers geographical map was used.

The great thing about the mountains and rivers geographical map was that it could instantly transport what Yang Chen wanted into the map. And in the map, the average person wouldn't find anything wrong with the situation.

When Li Junyu and the dozen tenth water divine thunder entered the geographical map of the mountains and rivers, it was also at the same time when the tenth water divine thunder exploded. However, Yang Chen was very reassured about the geographical map of the mountains and rivers produced with the dragon skin, it was impossible to destroy it in the slightest with the tenth water divine thunder.

The facts also proved the correctness of Yang Chen's judgment as it has not been blown up. Instead, the tenth water divine thunder exploded within the map and it actually restored the scene of the explosion, so that Li Junyu couldn't tell if she was in an illusion or still in the formation.

The geography in this mountains and rivers geographical map was based on the real geography. Now both Yang Chen and Li Junyu were above the East China Sea and there was a complete East China Sea map in the geographical map. Everything that Li Junyu saw in her eyes was a manifestation of the true geographical map form.

If it was on land, it may be discovered by Li Junyu because of some changes in the geographical characteristics of the mountains and rivers. But now at sea, there was a sea of water everywhere. After the violent shock of the explosion, who would compare the difference between the sea surface before and the current sea surface?

Li Junyu naturally thought that she had completed her own strategy and seriously injured Yang Chen. In order to let Li Junyu continue this cognition, Yang Chen threw a group of his own spiritual awareness into the geographical map, pretending to be weak.

For a long time in the future, Yang Chen's group of spiritual awareness would take Li Junyu around the sea. After all, there was only the geographical map of the East China Sea in the geographical map of the mountains and rivers. The circle around the sea would not let Li Junyu notice it. Once she wanted to go back to the land and reach the edge of the sea, she would be aware of it.

Although the map was not so simple that the edge did not have nothing at all, but after all, it was different from the real situation. As a veteran Yuanying stage ancestor, Li Junyu has rich experience and may recognize it immediately.

However, after recognizing it, she couldn't be separated from the map. If there was no accident, Li Junyu would be trapped in this picture or she would be ignorant and chase Yang Chen's spiritual awareness, or knowing the truth but she could do nothing about it, there was no other possibility.

The most tragic thing was that Li Junyu would not notice that when she used spiritual attack or her flying sword in the map, all the spiritual powers would be absorbed by the array and become one of the sources of spiritual power for the array.

If Yang Chen was willing to do so, he could even gather a bunch of cultivators to practice in the map. As long as they practice the cultivation methods related to this map, they would automatically refine the map during the practice and the array power would be getting greater.

Of course, if he wanted to do this, it had to be decided by his senior apprentice sister Gongsun Ling. Yang Chen has already planned to give this mountains and rivers geographical map to Gongsun Ling. If this magic weapon would be refined in the future, of course, it had to be decided by her.

Speaking of this, Li Junyu used to be associated with the Greatest Heaven Sect. Otherwise, she would not send her descendants to the Greatest Heaven Sect. Maybe this time, the few disciples of the Green Jade Immortal Island who took the ancient scripts to ask Yang Chen was arranged by Li Junyu.

This happened in a place hundreds of miles away from the mountain gate of the Green Jade Immortal Island. Yang Chen believed that besides Li Junyu, nobody would ever know. However, now Yang Chen had to decide whether to return to the Green Jade Immortal Island to inform them about the situation or according to his own plans, return to the Dragon Palace treasure house.

The Green Jade Immortal Island was on the beach and Yang Chen's gourd and inverted sea jasper never stopped collecting the tenth water true essence. After more than a year, a bathtub-sized puddle has been formed in the gourd. Although it couldn't be compared with the big lake of the first wood true essence spiritual solution, it was enough to be shocking to anyone who saw it.

This many tenth water true essence was just enough to allow Yang Chen to cultivate the tenth water true secret art and form the golden dan. Yang Chen has already made up his mind, This time he would return to the Dragon Palace treasure house and immediately go into seclusion and achieve the golden dan.

Once again, his whole body was covered with the sea jasper and the shuttle was lunched under the addition of water dividing wings. It took only half a month to rush back to the Dragon Palace.

This time, it took more than a year and a half to return to the treasure house. Yang Chen discovered that Xiao Tian was about to absorb the dragon qi of the jade case. The exquisite pagoda above would be ready soon.

For the time being, Yang Chen first resisted the impulse of his seclusion. While absorbing the fire seeds and practicing, he waited for two months with patience and finally the exquisite pagoda finally came into his hands.

With the pagoda in his hands, Yang Chen habitually sent his spiritual power and spiritual awareness into it. Unexpectedly, the pagoda did not have any information to pass to him. He tried to control the pagoda, but he found that his spirit power input could only change the size and other functions were not available.

This made Yang Chen fall into meditation. What kind of pagoda was this that could make the Dragon King solemnly place it in the Dragon Palace? The Heavenly King pagoda that Yang Chen has seen, clearly was not this style.

Could it only get bigger and smaller? The material doesn't look so secure. If it was used to attack an enemy, it would definitely be like an egg touching a stone. Was the pagoda only this weak, what was the use of it?

While being in doubt, Xiao Tian suddenly roared and its body shape twisted and rushed directly into the first layer of the pagoda. Subsequently, the gate of the pagoda was slowly closed and above the gate, the words "Dragon Tower" in the dragon clan's writing appeared.

Through the window of the pagoda, Yang Chen could vaguely see that Xiao Tian was flying cheerfully inside, it seemed very happy. Yang Chen's heart moved and he suddenly communicated with Xiao Tian and he immediately saw the scene inside the dragon tower through the eyes of Xiao Tian.

Xiao Tian was now on the first floor of the pagoda. Looking from outside, the space of the pagoda was not large, but it was extremely spacious inside. The body of Xiao Tian was almost the same size as the pagoda, but inside it was like a small ant.

On the wall around the first floor, eight beautiful pictures were drawn and each painting had a dragon that was circling and dancing. Around the dragon, there was a cloud of various lines, each dragon was very lifelike, it was as if they hated that they could not fly out of the wall straight into the sky.

The aura of the Dragon Tower seemed to make Xiao Tian feel very comfortable. When the roaring of Xiao Tian was completed, a behavior that made Yang Chen unable to understand was started.

Xiao Tian's long body suddenly began to twist, posing a very complicated posture and then paused in the middle of the first floor of the Dragon Tower, it became motionless.

Yang Chen didn't pay attention to it at first, but soon found that the posture of Xiao Tian was a bit familiar. Immediately he remembered, the posture of Xiao Tian was clearly the posture of a dragon drawn on one of the eight paintings.

After a little thought, Yang Chen understood. This dragon tower was clearly a cultivation ground for dragons. The murals above were the postures and secret techniques of the cultivation. However, this could only be the secret techniques that dragons could understand and use.

Although Xiao Tian was a wolf-dragon, it was essentially one of the dragon race. It has the blood of the dragon clan, so it was easy to practice these secret techniques.

Whichever items the East China Sea Dragon King carefully collected was not an ordinary thing, this was Yang Chen's unusual belief. It's been a short time since Xiao Tian took the pose, but Yang Chen has been able to detect that it absorbs the dragon qi on the three jade cases and was digesting and absorbing it at a speed hundreds of times more than usual.

This was clearly the reason for the cultivation methods in the Dragon Tower. Before Yang Chen knew some techniques to promote Xiao Tian, but it was far worse than the orthodox dragon clan's cultivation methods. Being able to practice systematically was absolutely more effective than the ability to swallow tool spirits to advance.

Xiao Tian seemed to have been indulged in the dragon tower and does not want to come out. The remaining jade case couldn't be broken temporarily. The two branches on the jade case, Yang Chen has been able to guess what it was, it was definitely two dragon horns, as for what magic weapon it has been refined into, Yang Chen was still not clear about it.

But now that Xiao Tian was cultivating, Yang Chen did not stop it. It was his own and it would always be his own. However, Yang Chen believed that the cultivation was not going to last forever. He gave Xiao Tian a command to let him find time to break the jade case. Yang Chen went straight out, sat on the nautical chart of the sea and started his own seclusion and cultivation.

This time, Yang Chen's goal was to condense the tenth water spirit power. With the gourd and the sea jasper, Yang Chen already had enough tenth water true essence and there was no need to worry about there not being enough for his cultivation.

With this method, Yang Chen was confident that he would not need at least five years and he could shorten the process of condensing Dan to one year. With the idea fixed, Yang Chen did not care about anything more and entered the state of seclusion.

Specializing in a kind of spiritual power, the tenth water true secret art has been pushed to the extreme. The tenth water true essence in the gourd directly entered the body of Yang Chen and began to blend with the spiritual power of Yang Chen, which was easily absorbed by Yang Chen.

The continuous stream of tenth water true essence spiritual solution constantly supplemented the needs of Yang Chen's body. Under the guidance of Yang Chen's tenth water true secret art, it was constantly absorbed, integrated and condensed to become part of the spiritual power in his body.

This process, repeated itself again and again, it did not stop. The Dragon Palace seems to have once again fallen into silence because of Yang Chen and Xiao Tian's cultivation.

In just four months, Yang Chen's body flashed a light blue light, which broke the silence in the treasure house.

As the light flashed over, the whole chart was filled with a strong aura of the tenth water and Yang Chen's body seemed to be covered with a shiny blue coat.

In Yang Chen's body, the tenth water true essence was also shrunk in his dantian within this moment and it was effortlessly condensed together, in a moment it became a round and light blue golden dan.

Suddenly, the tenth water true essence was dried up and the tenth water true essence spiritual solution in the gourd was quickly absorbed into his meridians. The golden dan began to absorb the tenth water true essence spiritual solution madly and the color began to deepen until it became blue like the sea water and then slowly stopped.

In the moment of this breakthrough, his sea of consciousness has made new changes. However, this change has not brought about qualitative changes. It seemed that the original water surface seems to be a little bigger. The overall sea of consciousness has expanded slightly by about 20% compared with the previous one. It has become two hundred and forty acres in size.

However, the spiritual awareness directly broke through the threshold of the early dacheng stage and entered the middle dacheng stage. The silky spiritual awareness threads seemed to become entities.

The tenth water golden dan, because of the supplement of the tenth water true essence spiritual solution has become about the same size as the first wood golden dan. After the condensation, by relying directly on the tenth water true essence spiritual solution, the cultivation base of the tenth water spirit power was pushed up to the peak of the early jiedan stage.

Until now did Yang Chen slowly stopped the cultivation and stood up. By counting his fingers, he found that the time spent on this seclusion was only about four months which made him presently surprised. Originally he thought that it would take at least ten months to a year, he couldn't think of saving so much time.

However, strictly speaking, Yang Chen was still slightly disappointed. At the time of building his foundation, when Yang Chen's three spiritual powers built their foundation, they immediately led the ten spiritual powers of the Yin-Yang Five Elements to build their foundation at the same time. But now when he was condensing dan, there were already four kinds of spiritual powers to achieve their dans, but they still couldn't bring all the spiritual powers to condense. It seems that if he wanted all the condensed dan, he needed more spiritual power to condense.

The seventh metal true essence that was left by the Golden star of the sun was not taken. Perhaps, as long as the seventh metal spirit power was also condensed, with five kinds of spiritual powers, more than half, it could drive all the spiritual power to condense. Otherwise, Yang Chen had to control his cultivation and strive to maintain the balance of the spiritual power of the Yin-Yang Five Elements.

He didn't know what the results of Xiao Tian's cultivation in the Dragon Tower was, but Yang Chen had an idea. Since Xiao Tian could use the cultivation methods of the dragon tower to practice and absorb the dragon qi, maybe this time he could get all the magic weapons on the jade case.

When he came to the Dragon Palace for the next time, I believed that it would be the moment that Yang Chen could collect the entire treasures of the Dragon Palace.

Chapter 347.1: You're Still Alive

The Dragon Tower was still in the main hall. It was tall as one person, Yang Chen did not control the Dragon Tower to become taller. After entering the hall, Yang Chen once again established a connection with Xiao Tian and soon understood the situation of Xiao Tian.

Xiao Tian seemed to have completed the first posture, but there was still a lot of dragon qi left in his body, the second posture was being practiced and the second posture was nearing completion.

Yang Chen was in the hall practicing the Three purities secret art and the body refining technique while waiting for Xiao Tian to complete the second posture cultivation. After half a month, Xiao Tian came out from the dragon tower.

The Dragon Tower was directly thrown into the medicine garden by Yang Chen, just beside the pile of magic weapons, that was the old nest of Xiao Tian in the medicine garden.

In less than two years, Xiao Tian completely digested the dragon qi absorbed in the three jade cases, but in the past it took about ten years to do it.

The last remaining jade case, Yang Chen, of course, would not be polite and immediately told Xiao Tian to begin to devour the dragon qi.

Xiao Tian was cracking the formation of the jade case and Yang Chen's gaze was on the huge dragon bead that the main hall was facing.

Although Xiao Tian has already practiced two postures in the Dragon Tower, Yang Chen does not feel that it has the ability to move this Dragon bead. The postures inside the Dragon Tower was obviously a set of system practice of the Dragon race, but Yang Chen knew that it was only the first layer of cultivation. The entire Dragon Tower has nine floors.

Yang Chen estimates that after Xiao Tian completed the cultivating the cultivation methods of the first layer and after its cultivation base was strong enough, it would be able to enter the second layer of the dragon tower. The second layer must have a second cultivation method and it would be the same for each layer advanced.

In Yang Chen's estimation, if Xiao Tian wanted to move the Dragon bead, it had to at least reach the third floor of the Dragon Tower. If the dragon bead was completely absorbed, Yang Chen couldn't imagine what it would be like when Xiao Tian grows.

After practicing the cultivation method in the Dragon Tower, the speed of the dragon qi absorption has become faster. Now that it was not swallowed in the way that it did before, it puts the pose of the first picture directly and sucks in the dragon qi.

According to this speed, he believed that it would take a few days to get the two dragons horns on the jade case. Yang Chen simply continued to let the gourd and the inverted sea jasper absorb the tenth water true essence and he was in the hall, while studying and waiting for Xiao Tian to finish.

As expected by Yang Chen, it was only two months. The dragon qi on the jade case was swallowed up by Xiao Tian revealing two dragon horns.

Yang Chen has been staring at it at that moment. As soon as the formation broke, Yang Chen reached out and grabbed the two dragon horns in his hands. Instinctively, his spiritual awareness and spiritual power were sent in it.

Unexpectedly, it did not have any effect. Even the mark of his spiritual awareness couldn't be imprinted. After for the spiritual power exploration, Yang Chen only knew the attributes of the two dragon horns.

These two dragon horns, one was a fire attribute and one was a water attribute. At this moment, Yang Chen also understood why the spiritual awareness could not mark it. So far, these two dragon horns have not undergone any sacrificial rituals. They were simply two dragon horns. How could they be like magic weapons and lay down the mark of spiritual awareness?

However, this does not prevent Yang Chen from showing a smile on his face. The two dragon horns of water and fire attributes, isn't it the best material for his master's life source magic weapon?

His master was originally a master of refining, these two dragon horns, he could just let her refine it herself into her favorite style. No matter what it looked like, Yang Chen would not doubt the quality of flying swords made from the two dragon horns. He believed that even the Qilin horn flying sword of the ancestor Wang Yong may be dwarfed if it faced the flying sword of his master.

After coming to the Dragon Palace treasure house even his master's life source magic weapon together with his Senior sister was all solved, it was just like it was arranged by the Heavens. Yang Chen didn't know what to say.

This was not including the dragon tower that was given to Xiao Tian and the five-line hook specially prepared for the birth of the magic weapon in the future. This harvest was even better than Yang Chen's going to the monster plain to get the property of the second city lord.

When he got everything, he was able to condense the tenth water golden dan, Yang Chen almost reached all the goals of going out to sea. There are even other seizures, such as those of the ocean spirit medicines and such as Li Junyu.

Originally, Yang Chen planned to go to the Demon realm to get the seventh metal true essence vein left by the Golden star of the sun, but after getting the two dragon horns and the geographical map of the mountains and rivers, Yang Chen changed his mind.

These things still needed to be returned to his master's sect first and they have to be handed over to his Master and Senior apprentice sister. The quenching of this life source magic weapons were also a time-consuming and laborious work. The earlier it was began the earliest it would be successful.

Yang Chen doesn't know how long it would take to go to the Demon realm. According to the experience of going out a few times in recent times, it would take a few years. This was only when it comes to the search for the seventh metal true essence plus the gathering of it, it has not counted the time Yang Chen needed to condense the seventh metal golden dan.

Instead of wasting it for a long time, Yang Chen still first decided to go back to the sect and gave it to his Master and Sister, so that they could start earlier. Delaying time on the road for a few months would not delay Yang Chen too much, with the water dividing wings, the speed of the shuttle was faster, maybe even more time could be saved.

After thinking about it, Yang Chen immediately put it into practice and rushed out of the hall, he took back the gourd and the sea jasper, the medicine garden was also retrieved from the spiritual vein. He left the Dragon Palace and directly called the shuttle to fly in the direction of the Pure Yang Palace.

Along the way, he was so busy that he didn't bother to take care of myself. He looked for the direction and flew all the way. In just two months, he rushed back to the Pure Yang Palace.

Of course, he couldn't fly in the Pure Yang Palace recklessly. Taking back the shuttle, Yang Chen went straight to his master's small courtyard. On the road, he met several Pure Yang Palace disciples. When everyone saw Yang Chen, they all showed their horror, as if they had seen something magical.

Yang Chen didn't care at first, but several consecutive disciples had such a performances. Suddenly, Yang Chen had a bit of an interest but he couldn't figure it out. What was going on here?

However, Yang Chen did not stop to ask what was happening, anyway after seeing his master, he was sure he could understand what happened. Ignoring these strange disciples, Yang Chen went all the way to the courtyard of his master.

After recognizing his master's aura from far, Yang Chen rushed into the yard and shouted as soon as he entered the door "Master, I am back!"

When the sound suddenly transmitted into the room, Gao Yue's body rushed out and saw Yang Chen, it was as if she could not believe her eyes. After standing, Gao Yue looked up and down a few moments, she cried out in surprise "is it really you, Yang Chen? Are you okay?"

Chapter 347.2: You're Still Alive

"What could have happened to me?" Yang Chen stared blankly, why was his master's behaviour so strange?

In her panicked mindset, Gao Yue came forward and pulled Yang Chen groping him up and down from time to time, as if to determine whether Yang Chen was really there. In the end, she was so happy that she cried "It is true, it is true, Yang Chen, you are really fine!" Her body was soft and fluttered in the arms of Yang Chen.

"Master, what happened in the end?" Yang Chen held his master and slowly walked to the stone table in the center of the yard to sit down and then he strangely asked.

“It was rumored outside that elder Li of the Green Jade Immortal Island was chasing you with a large number of masters when you left the Green Jade Immortal Island.” Gao Yue finally calmed down, but her eyes still stared at Yang Chen’s face and did not leave it as she explained “Li Junyu took hundreds tenth water divine thunder to attack you. Later, you have never appeared again. Everyone guessed that you should have faced misfortune.”

When Gao Yue spoke, Yang Chen also looked at Gao Yue. It seemed that Gao Yue has been very worried during this period of time. Yang Chen couldn’t help but feel distressed.

From the medicine garden, a ginseng of more than a millennium year was taken out. The profound spirit furnace quickly appeared in the hands of Yang Chen and in the blink of an eye the ginseng became a liquid ginseng.

Expectedly, Yang Chen poured the ginseng into a jade cup and sent it to his master. Gao Yue knew Yang Chen’s mind. Although she knew that she was not in serious trouble, she still opened her mouth and drunk the ginseng.

“Master why would you believe it so easily?” When Yang Chen saw that Gao Yue had finished drinking, he relieved a sigh of relief and said with a smile “Luo Yuan who was at the late dacheng stage chased me, but am i not okay?”

“This time was different.” Gao Yue also smiled and shook her head. She said “The last time Luo Yuan was just one person. This time, Li Junyu was said to have brought at least three masters of the dacheng stage and four Yuanying stage ancestors to kill you and still arranged it in advance, many people say that you surely faced misfortune.”

“Where is the news coming out from?” Yang Chen frowned. The news was really a bit strange. It seemed to be directed at the cooperation between the Pure Yang Palace and the Green Jade Immortal Island so he hurriedly asked “What did the palace master say about it ?”

“The palace master didn’t believe it in the beginning.” After seeing Yang Chen, Gao Yue calmed down completely and talked a lot “But later, there were more rumors and even the removal of Li Junyu from the Green Jade Immortal Island as an elder, there were many people who believed in it after this.”

The Green Jade Immortal Island responded quickly and removed Li Junyu's eldership, this was not surprising. The reaction of the island master was not slow. But this matter has actually developed because everyone thought that Yang Chen was dead, which was a bit ridiculous.

"After a few months the head of the palace began to send people to contact the island master of the Green Jade Immortal Island, but the island master could not give any certain information." Gao Yue gave Yang Chen doubts, then hurriedly reminded "Yang Chen, you should go to see the master of the palace and clarify the misunderstanding."

Regarding the cooperation between the Pure Yang Palace and the Green Jade Immortal Island, Yang Chen certainly did not dare to neglect it. He quickly went to the main hall of the Pure Yang Palace to visit the palace master, while Gao Yue directly asked her servant to inform Gongsun Ling, while she herself rushed to the location of Master Wang Yong, to report the news of Yang Chen's return.

"Yang Chen!" When the head of the palace heard that Yang Chen was here to meet him, he directly ran out. When he saw Yang Chen's face, his face suddenly turned to the sky and he laughed happily: "I knew you were fine!" After the laugh, he pulled Yang Chen into the hall and immediately sent someone to go get the elders.

While waiting for the arrival of the elders, the palace master only briefed Yang Chen on the current situation. Because of the death of Yang Chen, the Green Jade Immortal Island and the Pure Yang Palace now have some small misunderstandings, but under the strong control of the Island master and the head of the palace, there has not been much contradiction. But if Yang Chen didn't come back again, they would not be able to continue to suppress it.

Yang Chen's master ancestor Wang Yong was one of them. Because of the previous experience, everyone had a blind faith in Yang Chen and firmly believed that nothing would happen to Yang Chen, but this time it was different.

The head of the palace sent people to ask the island master if it was true that Li Junyu took three masters of the dacheng stage to chase Yang Chen but she did not know. It was only that Li Junyu had links to the three masters of the Green Jade Immortal Island and she refused to accept her as the island master. On the day of Yang Chen's accident, Li Junyu and the three masters of the dacheng stage were indeed out, but then all three masters returned, but Li Junyu's whereabouts were still unknown.

The Island master also questioned the whereabouts of the three masters. The three masters of the dacheng stage did not lie in front of the island master. They only said that they were invited by Li Junyu

to intercept Yang Chen in several directions, but the three people were not lucky and no one met Yang Chen.

Moreover, Li Junyu brought dozens of tenth water divine thunder and it was said to be several hundreds. It may be that Li Junyu herself said this in order to increase the confidence of some people.

Li Junyu was missing and no one knew what happened. The island master could not give an affirmative news, the two sides were in a deadlocked.

At the beginning, everyone could restrain, but as time went by and there was no news from Yang Chen, Wang Yong began to move.

His own grand disciple was inexplicably attacked by the elders of the Green Jade Immortal Island at the gate of the Green Jade Immortal Island. According to Wang Yong, they had to find the sect and ask them to give an account to them. The master of the palace tried to calm down Wang Yong, but recently Wang Yong was also a little untenable.

During their talk, the elders have already arrived in the hall quickly and upon seeing Yang Chen, they were all surprised and happy. Especially Wang Yong, just like a little child, he was happily laughing.

The palace master also immediately thought of sending someone to send a letter to the island master, telling her that Yang Chen was safe and sound. This was related to the cooperation between the two sides of the sect and so he was not sloppy. He wanted to inform the island master earlier and also lift the misunderstanding earlier.

“Was Li Junyu chasing you in the end?” Wang Yong became a master of the dacheng stage, but his temperament was more and more impetuous. After the arrangement of the master of the palace, he immediately asked Yang Chen “Why is Li Junyu missing? What happened?”

“This disciple was indeed chased by Li Junyu.” Yang Chen gave an answer directly. He looked at the eyebrows of Wang Yong and stood up and hurriedly replied “As for the disappearance of Li Junyu, since this disciple is fine, then of course she is only a little trouble.”

Chapter 348.1: Senior Apprentice Sister’s Magic Weapon

Because the Green Jade Immortal Island did not deny the involvement of Li Junyu in the issue, the news sent to the Pure Yang Palace from the island master that said that the three masters of the dacheng stage did not encounter Yang Chen was suspicious.

The cooperation between the two sides had a crack because of Yang Chen and lost the foundation of the cooperation. Now that Yang Chen was back, only he knew everything.

“This disciples did not encounter any masters of the dacheng stage.” Yang Chen answered truthfully “I only met Li Junyu alone. After taking care of her, this disciples went to collect some underwater medicines and was delayed for a period of time, I didn’t expect that so many things would happen.”

Li Junyu had a little trouble, what kind of little trouble, Yang Chen did not mention. Just like the elder Wan Qian of the Blue Cloud Sect, there were some things that he couldn’t say.

The palace master and elders of the sect also understood this truth, so they did not ask, but nodded with a clear attitude.

He believed that if the island master of the Green Jade Immortal Island knew the end of Li Junyu, it was estimated that she would not have any issues with it. This method was the best way to deal with Li Junyu.

Li Junyu did not die, because her life source spirit tablet did not break, so they could not talk about him killing her. As for her going missing, they could not point their fingers at Yang Chen, since the Green Jade Immortal Island could say that the three masters of the dacheng stage did not see Yang Chen, Yang Chen could of course say that he has not seen Li Junyu.

The Island master would definitely take this statement to deal with the dissatisfaction in the Green Jade Immortal Island, with the support of the island master, Yang Chen was not afraid of what they said. Anyway, the Island master lost a person in the sect who would go against her and Yang Chen lost a moment to plan to kill her, this was the best for both sides.

As for what they said in private, it was a private matter. As long as they have been through for a while, those masters of the dacheng stage would enjoy the strength of the questioning inner heart pills and would naturally not ask the island master about it, if a trivial Yuanying stage elder who was entangled with the Greatest Heaven Sect was missing, it was not a big deal.

“Why are you interested in the ocean medicine? Is there any inheritance that you have gained about it?” Zhu Chentao was also worried about Yang Chen’s safety at the beginning, now that Yang Chen was fine, he also calmed down and immediately began to ask about alchemy. In fact, everyone was also interested, but has not said anything, Zhu Chentao asked just at the right time.

“That is really this disciple who wants to study the elixir in the ocean.” Yang Chen smiled bitterly. It seemed that because of this, many people have misunderstood and thought that Yang Chen had obtained an ancient inheritance or a top grade pill scripture.

The pill scripture was there, but it had nothing to do with the marine medicine and it does not involve anything about the ancient inheritance. But even Zhu Chentao of Pure Yang Palace felt so much, not to mention other people.

“The medicinal garden in the hands of this disciple can now cultivate marine elixir, so I plan to grow a group of it.” At this time, Yang Chen had to come up with something to let the high-level members of the Pure Yang Palace relax, otherwise everyone would start to worry, which was not a good thing.

In a single movement, Yang Chen gave a command to A’Zhu and A’Bi to let them move all the herbs in the medicine garden to the second layer. This action was only completed in an instant, then Yang Chen apologised to the palace master and the elders “Palace master, elders, don’t be offended!” After he said this, he waved his big hand, the medical garden space opened and everyone was pulled into the medicine garden.

This was the first time that Yang Chen brought an outsider into his own medicine garden. Before that, even his master and Senior apprentice sister did not come in.

As soon as everyone entered the medicine garden, they were immediately shocked by the vast ocean that stretched for thousands of miles. They have seen much more space of many medicine gardens. The palace master has refined one, but who has seen a medicine garden with an ocean?

At the moment, in the ocean of the medicine garden, there were already many elixir collected by Yang Chen along the road and there were many living creatures on the seabed. They were living leisurely in the ocean and seem to have a lively scene.

When everyone was amazed, they accidentally saw the elixir on land. Although Yang Chen has transplanted most of it to the second layer, there were still countless coveted precious things left behind.

There was over tens of thousands millennium profound yang fruits, now it had almost two thousand years of maturity, dozens of two thousand years ginseng, polygonum multiflorum and other elixirs, other kinds of elixirs were almost everywhere, the people were feeling dizzying looking at almost all the different kinds of spirit medicines.

Even the elixirs that Yang Chen and Shi Shanshan got when they took the Howling Celestial Dog Blood Essence, they were still there. Although the most useful ones has been removed, in addition to the use of these elixir rhizomes, other plants were still there.

The most shocking thing was the gathering of the thunder pomegranate trees in a group. Yang Chen's batch of thunder pomegranates, there were hundreds of them, directly forming a forest. There were huge pomegranates on the trees, it looked more than two hundred years old.

Of course, among the many elixir, a few old tea trees were somewhat nondescript, but everyone knew that Yang Chen loved to drink tea and so having a few tea trees was also a very normal phenomenon.

"It turns out it was like this!" The master of the palace also only glanced at the elixirs planted in the medicine garden. Instead of watching more, he stood on the beach and looked at the creatures growing in the clear ocean.

After watching it for a long time, the master of the palace turned back and did not discuss with the elders. He said directly to Yang Chen "Yang Chen, what kind of marine medicine is needed, pull a list out, I will let the Pure Yang Palace disciple help you collect it."

After telling Yang Chen, the head of the palace turned to other elders and said "This is a medicine garden that can cultivate marine medicine. After thousands of years, it will make my Pure Yang Palace spirit medicines more precious than other sects. The source of the medicine and with Yang Chen training here, plus the study of the medicinal hall and Yang Chen, we will be one step ahead, when the time comes, the ocean elixir may be a good thing for my Pure Yang Palace like the questioning inner heart pills""

This was the vision of the master of the palace. Everyone seemed to have no doubt about this and nodded. In these years, the Pure Yang Palace has received countless benefits from the questioning inner heart pills and everyone was watching it. It seemed now that these marine medicines were also a big step ahead in the future.

There was no one who was tempted by the precious things in Yang Chen's Medicine Garden. After coming out of Yang Chen's medicine garden space, everyone's face also had a layer of brilliance.

This disciple Yang Chen was simply the lucky star of the Pure Yang Palace. Whenever it seems, he could bring a surprise to the sect. Just in alchemy, there was a constant surge of surprises.

Chapter 348.2: Senior Apprentice Sister's Magic Weapon

Cooperation with the Green Jade Immortal Island was naturally a matter that the palace master and the elders would think about seriously, Yang Chen could just explain things clearly.

However, with this opportunity, it was necessary to repair their relationship with the Green Jade Immortal Island and explain the misunderstanding so that they could continue the cooperation between the two parties.

Anyway, everyone has already set an excuse, that was, the Pure Yang Palace had no knowledge of this, Yang Chen has been collecting submarine medicine and has not met Elder Li Junyu.

As for the whereabouts of Elder Li Junyu, no one knew now, but since there were rumors, it could be said that those who spread the rumors would be clear about it. To this point, Li Junyu also made an attempt to murder Yang Chen.

Anyway, the Green Jade Immortal Island has now removed Li Junyu's eldership status. For a missing Li Junyu, the Green Jade Immortal Island would never be in conflict with the Pure Yang Palace. Moreover, the root of the cause was still Li Junyu, it was not the Pure Yang Palace and it was also not Yang Chen.

The elders here were discussing how to deal with the relationship between the two sides. Wang Yong then stood and went straight out, bringing Yang Chen to Gao Yue's residence. He wanted to thoroughly understand what Yang Chen has experienced. Nothing could be done about it, this was his favorite grand disciple, Wang Yong wanted to always hear news of everything about him.

His Senior apprentice sister, Gongsun Ling, also got the news and has been waiting here for him. She knew that Yang Chen would definitely come here. Although she already knew it was only a rumor, when she saw Yang Chen, she still couldn't repress her joy.

"What the hell is going on? Where is Li Junyu?" Wang Yong sat down on the main seat and waved to place a few restrictions around them directly, Then he asked majestically "And don't think about hiding anything."

"Li Junyu wanted to kill this disciples and she was trapped by this disciples. That's it." Yang Chen's explanation was too simple and the people simply wanted to slap him.

"Where is it?" Gao Yue's sharp eyes stared at Wang Yong as she rushed to ask and also gave Yang Chen a meaningful look.

"Here!" Yang Chen reached out and added a quaint painting axis to his hand. It was the geographical map of the mountains and rivers.

"What is this?" When Yang Chen took it out, Wang Yong stood up in shock. Gao Yue and Gongsun Ling were in low realm so for the time being, it was impossible for them to see how extraordinary the geographical map of the mountains and rivers was, but Wang Yong was different. The realm of the dacheng stage allowed him to instantly discover the strength of this map.

"This mountains and rivers geographical map is a very strong array map and a high-level magic weapon." Yang Chen smiled and explained: "This time, I found the life source magic weapon for my senior apprentice sister!"

"Is it for me?" Gongsun ling was surprised as she took the geographical map of the mountains and rivers and she felt a little unbelievable.

"I have already removed my spiritual awareness imprint from it so you can be recognized as the master as long as you put in your spiritual awareness imprint." Yang Chen indicated that Gongsun Ling should immediately mark it with her spiritual awareness imprint.

Gong Sunling was a little disbelieving and she couldn't help but glance at Wang Yong, who had the highest cultivation base there. Wang Yong could not conceal the shock on his face, but he nodded at Gongsun Ling. Nearby, Gao Yue was also looking forward to seeing Gongsun Ling complete it.

Everyone supported it, so Gongsun Ling sent her spiritual awareness imprint into it with some embarrassment and immediately her face changed when she learnt the strength of the mountains and rivers geographical map.

Yang Chen has always carried the geographical map of the mountains and rivers. In addition to the East China Sea, the geography of the mountains and rivers hundreds of miles around the road that he has passed back to the Pure Yang Palace has entered the geographical map of the mountains and rivers. The current geographical map of the mountains and rivers was much larger than the original one, but it was limited. After all, the geographical area of Yang Chen's road was not comparable to the East China Sea.

"There is a Yuanying stage master in here?" After she became the master of the magic weapon, Gongsun Ling immediately knew everything in the map, Li Junyu certainly could not hide her body shape from her.

In fact, Li Junyu has now completely fallen into the illusion of the geographical map of the mountains and rivers and could no longer recognize the difference between reality and illusion. In the few months, she had only one thing on her mind, that was, chasing the spiritual awareness of Yang Chen in front of her, and constantly chasing it without stopping. Her mind has gradually been tempted by the map, unless Gongsun Ling was willing to let her out, otherwise she could only live in this array map.

Before Yang Chen confirmed Li Junyu this point, although she was already a master of the Yuanying stage, but because of the influence of the array, plus her own anger and smug double emotions, she could not calmly think about it, so the formation was getting harder and deeper.

Yang Chen even allowed the map to allow her to absorb the spiritual power of the outside world to restore her strength. All the spiritual powers that Li Junyu used in the map were equivalent to indirectly cultivating the geographical map of the mountains and rivers.

Now that Gongsun Ling has gotten her hand on it, she still was only recognized as the master, but she already had a master of the Yuanying stage who was constantly sacrificially refining it for her.

“That is Li Junyu.” Yang Chen was in front of Wang Yonggao and Gongsun Ling, of course he would not hide the truth “I think she will live well in this array map, the Green Jade Immortal Island is looking for her, but she will never appear.”

“That is Li Junyu?” Hearing Yang Chen’s introduction, Gongsun Ling’s eyes immediately emitted a bright glint.

Li Junyu wanted to kill Yang Chen and everyone knew this. When Gongsun Ling learnt the news, her beautiful face was eclipsed and almost collapsed again, but finally knowing that Yang Chen would not be so easily killed, she had a strong endurance. For her to be merciful to the murder of Yang Chen, it was better to believe that the sun was going to come out from the west.

Gao Yue and Wang Yong were shocked. A Yuanying stage master was actually trapped in the array map. Wang Yong could still accept it in an instant. After all, he has vaguely discovered that the geographical map of the mountains and rivers was definitely not so simple. However, Gao Yue had no concept about it at all and she was shocked and stunned.

A master of the Yuanying stage was easily trapped in the map by Yang Chen, a Jiedan stage junior and it was said that hundreds of tenth water divine thunder were used. Even if this number was exaggerated and they were to narrow this number to dozens of pieces, it was still not something a junior generation Jiedan stage master could do!

Moreover, listening to the explanation of Yang Chen, it seemed that he just imprinted his spiritual awareness into it so that he could use. Without any sacrificial refining, it could actually trap a Yuanying stage ancestor, How strong was this array map?

This kind of map was also an earth attribute, to become Gongsun Ling’s life source magic weapon, it was absolutely more than enough. No wonder that Yang Chen’s words were so confident before, the magic weapon was on him. It turned out that there was such a foreshadowing.

Gongsun Ling was excited beyond measure, an unrefined array map life source magic weapon and it was accompanied by a Yuanying stage master to help with the sacrificial refining, it was like a precious material just falling from the sky, how could she not be overjoyed?

Especially this was what her own lover gave to herself, Gongsun Ling could not help but sneak a glance at Yang Chen full of joy.

Chapter 349.1: Gao Yue's Weapon

“Senior apprentice sister you should start refining this mountain river geographic map with the method of the life source magic weapon as soon as possible.”

Yang Chen would not care about Li Junyu's situation, he only cared about the cultivation of the people around him, so he immediately suggested; “In addition, explore more places as the more area you cover, the greater the power of the mountain river geographic map would become. If senior apprentice sister has the opportunity, try to go outside and experience it.”

She had already learned these characteristics from the geographical map of the mountains and rivers so Gongsun Ling certainly understood the meaning of Yang Chen, she nodded heavily and collected the map seriously.

Seeing that Gongsun Ling already had her own magic weapon, even Wang Yong was moved.

Gao Yue couldn't help but envy and couldn't help but smile and said, “sister Ling's life source magic weapon has already been settled, then what about me? Yang Chen, you promised that you will find me a life source flying sword!”

“Of course, I will not forget Master!”

Yang Chen smiled and took the two dragon horns out and put them in front of his Master, “the materials have been prepared for Master and you can make whatever you wish with them!”

Gao Yue opened her eyes with joy and smiled, but as she was about to pick them up, she suddenly saw a figure in front of her. Wang Yong didn't even know when he stood up, and he had already picked up the two dragon horns, the shock on his face, it was as if he was watching something which was impossible to exist.

Wang Yong's performance once again caused Gao Yue to be shocked, and then it turned into ecstasy. Even her master was so shocked, it meant that this was definitely a precious thing. It seemed that Yang Chen really found a good material for herself.

It was impossible for Wang Yong not to be shocked. When the two dragon horns were taken out, even his own flying sword, the sword made of Qilin horns, trembled.

This kind of tremor was obviously not a battlefield cry, but an instinctive fear of the other's high-level origins. Even if the Qilin had lost its life, after Wang Yong's sacrificial refining, it seemed that there was still a spiritual intelligence remaining in it. In the face of these two dragon horns, they shook slightly.

The spiritual wisdom of the Qilin horns was no longer the spiritual wisdom of the Qilin, but the spiritual wisdom of a tool spirit. Although Wang Yong's tool spirit had not yet been produced completely, there was already a wisp of existence. In addition to the awe of the two horns, there seemed to be a trace of greed, wanting to absorb it.

"What is this?"

Wang Yong couldn't help but use his spiritual awareness to find out but found himself unable to break half of what it was.

It was not surprising as the dragon clan seldom existed in the mortal world. The pure dragons could be said to have completely disappeared. Only some descendants with less pure bloodlines were left. Xiao Tian was one of them. Even for Xiao Tian, at the beginning its wolf-dragon bloodline was very thin, if it was not stimulated by the Howling Celestial Dog Blood Essence, it could not grow to the present stage now.

The dragon clan had long been extinct for tens of thousands of years or even earlier, it was certainly excusable for Wang Yong to not know the dragon horn. But this did not prevent him from understanding that this was a very powerful horn of a formidable monster, the two attributes of water and fire was just right for the current Gao Yue.

"These are two dragon horns!" Yang Chen carelessly replied, "a water and a fire attribute, just right for Master."

“What? Dragon horns?”

Not only Wang Yong, but even Gao Yue and Gongsun Ling, they all screamed out loudly. Before they conversed, Wang Yong had casted a few restrictions otherwise this information may have seriously shocked many people.

“What’s this fuss about them?” Yang Chen looked at their strange behaviour. He looked at the three people in front of him and smiled, “senior apprentice sister’s geographical map of the mountains and rivers, isn’t the frame made by dragon skin?”

“Dragon skin?” Gongsun ling’s brain went blank and she almost fainted.

Although she knew that the geographical map of the mountains and rivers was very strong and was also very suitable as her own magic weapon, but she did not know of the raw materials used. Now, when she heard that it was actually a dragon skin frame, she felt completely astounded.

Wang Yong and Gongsun Ling seemed to be hit by a giant hammer, all of them were struck mute while standing.

Even if Wang Yong was already a master of the Dacheng stage, even if his own magic weapon was made from the horns of the Heaven and Earth Variant Beast Qilin, his eternal sensation was still not at par.

Not to mention Gao Yue and Gongsun Ling, the joy in their minds was even more powerful than Wang Yong. After all, whether it was the dragon horn or the dragon skin, they were their own magic weapons, their own things, how could they not become ecstatic?

“Is this true?”

After standing for there a long time, Gao Yue reached out and took a dragon horn with the water attribute from Wang Yong’s hand. After scanning it with her spiritual awareness, she couldn’t believe it and scanned it again. After watching it for a long time, did she ask.

For this question, Yang Chen did not even have to answer. Of course, he knew that Gao Yue was not suspicious of his words, just because the facts were too shocking that an affirmative would take a while to take in.

“Did you rob the Dragon Palace?”

Even after Gongsun Ling regained her senses, she still remained in a state of shock and then unexpectedly asked.

When this sentence was spoken, Wang Yong and Gongsun Ling seemed to want to understand what it was and then their body trembled, they thought of the possibility.

Linked to the geographical map of the mountains and rivers made by the dragon skin and the dragon horn, Yang Chen had gone to the sea. Thus, there was a possibility to find the legendary Dragon Palace. The dragon horn and the dragon skin flame could only prove that Yang Chen had found the Dragon Palace and got these things from there.

Thinking of this possibility, the three looked at Yang Chen’s gaze and almost changed their breath. Finding the Dragon Palace, what kind of blessing could it provide?

In the hearts of Gao Yue and Gongsun Ling, there was nothing more than joy. Their beloved was actually trying to find a magic weapon for them by risking his life and exploring the Dragon Palace, how could it not make them happy?

Except for Yang Chen, no one had ever seen a dragon. No one knew whether these was really a dragon’s skin and horns. However, they all believed that Yang Chen would never lie to them.

This could be detected from the texture of the dragon’s horn and the dragon’s skin. The high level of these two materials, even Gao Yue and Gongsun Ling could not further sacrificially refine it.

Gongsun Ling was okay, the geographical map of the mountains and rivers was already a magic weapon. If she carried out the refining of this life source magic weapon, it could become her own magic weapon by spending few hundreds of years at most.

But Gao Yue's contenance was different. The two dragon horns had not been sacrificially refined. If she wanted them to become flying swords, she didn't know how long it would take!

Chapter 349.2: Gao Yue's Weapon

"Can I really use the dragon horns to refine the flying swords?"

Up until now, Gao Yue still did not believe anything at all.

"Of course!" Yang Chen told Gao Yue very firmly, "this is what I have given to you."

After the last time he spoke of his feelings to her, Yang Chen no longer claimed to be a disciple in front of Gao Yue but used his name instead.

"However, how can the dragon horn be refined?"

Gao Yue was confused. This dragon horn material, not to mention the refining system, the refining methods have not even been recorded. How would she refine it into a flying sword?

"This..." Yang Chen paused a little and he somewhat embarrassedly said, "I only know a little about the method."

In an instant both Wang Yong and Gao Yue's eyes all lit up. Yang Chen actually knew how to refine the dragon's horn? The problem just flashed past and the two immediately became clear.

Yang Chen had the reputation of reading a lot of books. Maybe even the location of the Dragon Palace was something he found from those ancient books. It was not surprising for him to know how to refine the dragon's horn.

With the current strength of Gao Yue, it was clear that the refining of the Dragon Horn would be unsuccessful for her and she was sure to rely on the strength of Wang Yong. However, she would have to be personally involved in the refining process so that it would be marked with the refining traces of Gao Yue's spiritual awareness from the beginning to end. The life source flying swords produced in this way were better than the ready-made life source magic weapons.

Wang Yong's excitement also lied here. He was good at refining, but he was also obsessed with it. If he was able to personally participate in the process of refining the dragon-horn flying swords, he would be refining them as life source flying swords for his disciples and he believed that his refining level would also skyrocket, so why would he not be excited.

Everyone was now immersed in extreme joy and shock. As for the issues concerning Li Junyu, it had already been thrown out of their minds, who would care about such an irrelevant person at this moment?

The method used by Yang Chen to refine the dragon's horn was very complicated. However, the dragon horn sword that would be refined in this way would definitely be one of the best flying swords in the cultivation world, even compared to the great yin-yang five elements flying sword of Yang Chen, it would not lose out.

There was no doubt that Yang Chen's great yin-yang five elements flying swords had an overall coordination, while the dragon's horn flying sword had a strong body and the pursuit was not the same.

Besides Yang Chen, Gao Yue, Gongsun Ling and Wang Yong, no one else knew what happened in this courtyard today. Even the top-level Elders in the Pure Yang Palace only knew that after Wang Yong had a discussion with Yang Chen, he immediately became extraordinarily spirited as if he had revived his youthful vitality.

On the same day, Gongsun Ling went into seclusion to begin to temper her own magic weapon. The mountain river geographical map was too powerful, when it had not even been sacrificially refined, it was easy to use it to trap Li Junyu, a Yuanying stage master. Once it went through sacrificial refining, it would become so powerful that Gongsun Ling could hardly imagine.

Gao Yue put all her energy into the process of refining the dragon's horn. Of course, there must be a lot of preparation work at the beginning, but at least in terms of materials, Gao Yue would never be lacking. Yang Chen had refining materials from various channels, including the second city lord so it was enough to support the refining of the Dragon horn flying sword.

However, in order to complete the refining of the dragon's horn, it did not require just materials, but also a special refining technique. In the early stage, Gao Yue must also go through a long period of

nourishing the dragon horns, in order to have a comprehensive and intuitive understanding of the dragon's horn and every gap in every corner of it must be fully understood.

Next, a detailed design was needed to meet Gao Yue's usage habits and aesthetic requirements etc., and finally, refining could begin under all these circumstances.

There was almost a ten-year preparatory phase in the early stage. It was especially important to nourish the dragon horn, it was related to Gao Yue's control of the finished flying sword. This process alone took seven to eight years.

After starting the actual refining, even with the help of the ancestor Wang Yong, it would be a long process. The dragon's horn material was so advanced that it took a lot of spiritual power and hard work to change even a little bit of its shape.

Fortunately, Yang Chen's refining technique was simply the best refining technique of life source flying swords. From the very beginning, it would begin the refining of the flying sword. So, although it took a long time, it would become her life source flying sword after they were successful. The sword, plus the whole process of refining itself, the effect was even more powerful than the method of Gongsun Ling's, at least in the manipulation of the flying sword, it was far beyond by a large disparity.

From preparation to refining, it would take centuries to complete. However, the refining process would not hinder the cultivation of Gao Yue. On the contrary, while refining the dragon's horn flying sword, because of the huge spiritual power consumption, it would prompt her cultivation to continue to improve, making her kill two birds with one stone.

After his Master and Senior apprentice sister's life source magic weapons were arranged. Yang Chen had to go with the head of the palace again to analyze the source of this rumors going around.

Obviously, the purpose of the rumor was to create a gap between the Pure Yang Palace and the Green Jade Immortal Island, thus undermining the cooperation between the two sides. But this time the rumor was not entirely a rumor. At least the elder of Green Jade Immortal Island, Li Junyu, brought a bunch of masters of the Green Jade Immortal Island to block Yang Chen, but only the results were not as rumored.

If it wasn't for the fact that the Pure Yang Palace high-level members always had a blind faith in Yang Chen and if it wasn't for the timely communication between the sects masters, he even admitted that he could not restrain some of the sect's people, so taking advantage of Li Junyu to make a crack in their relationship had worked to some extent.

If Yang Chen's arrival was a bit later, Wang Yong might have gone to the Green Jade Immortal Island. At that time, since Li Junyu's move against Yang Chen, there may be another master to intercept Wang Yong. If they wanted to do this, the result was likely to be completely different. It was possible for both sides to turn against each other.

The source of the rumor and the possible behind the scenes manipulator almost all pointed to the Greatest Heaven Sect, that was the sect who would gain the greatest benefit if the Pure Yang Palace and the Green Jade Immortal Island conflicted with each other.

The strength of the Greatest Heaven Sect was now greatly damaged, and in the dark, they would delay the rise of the Green Jade Immortal Island and the Blue Cloud Sect. If they were successful, this would serve to be the best ending. Moreover, the connection between Li Junyu and the Greatest Heaven Sect was publicly suspected. Combining these two points, it was almost certain that the Greatest Heaven Sect was at least 90% suspected overall.

But no one could point their fingers at the Greatest Heaven Sect. Everyone could only doubt, but nothing could be done. They could only target at the Greatest Heaven Sect in the dark, but out in the open, they would still maintain the atmosphere of sincere cooperation with everyone.

Chapter 350.1: Sect's Expansion

The other party's rumors were set to make a difference. At that time, the Blue Cloud Sect may also be involved, if it failed, it was just a rumor, so the other party would not lose anything.

It was completely guided by the situation, but it made two big sects almost fall into a desperate situation. This kind of action, the master of the palace was not able to swallow it quietly.

"The Greatest Heaven Sect wants to expand its strength. They have already established a hall of eccentrics. They are also planning to recruit monster cultivators as disciples in large numbers." Yang Chen almost did not want to say it directly, "since they have spread these rumors, we will also spread rumors of our own; saying that the Greatest Heaven Sect wants to recruit the demon and monster cultivators wantonly to replenish their strength."

“Will this make a difference?” The head of the palace frowned and asked. It seemed that Yang Chen’s approach to rumors did not feel effective.

“It will not!” Yang Chen’s replied, “but it will push the time the Greatest Heaven Sect needs to recruit the monster race, and they will also need to spend a bit of time to make the other sects of the Dao feel safe.”

“Just to postponed it? Is there any other benefit?” The palace master was very greedy and wanted better results.

“The Greatest Heaven Sect will pay a lot of thought and effort and will give us more time to plot for the Banyan tree Immortal’s Cave.” Yang Chen’s heart moved, and he explained, but he remembered another plan.

It was also a good idea to delay the rise of the other party and gain time for themselves. At least the master of the palace had begun to feel tempted. Anyway, just like the Greatest Heaven Sect, they would just spread a few rumors, but it’s not without benefits. Success would not only let them achieve their goals, but also disgust the other side, if it failed, they would also not pay any price. So, it didn’t matter.

The master of the palace was convinced that this rumor would be trusted, because at present, the Greatest Heaven Sect was in the process of starting to recruit monster cultivators. They just didn’t dare to do it on a large scale, thus, a small number of monster race was being made as a subject to test the waters.

At this time, the scenes of the many Dao Sects asking the Greatest Heaven Sect for explanation would definitely look good. He couldn’t wait to see the foreign affairs hall master of the Greatest Heaven Sect and even the sect master explain the scenes for everyone.

As Yang Chen said, the Greatest Heaven Sect would definitely implement the method of recruiting the monster race to strengthen themselves, then they would really be leading in front of the Pure Yang Palace. After the Greatest Heaven Sect tried their best to let the people accept the monster race as part of their disciples, they would find that it would not be long before the Pure Yang Palace actually received the monster race of the Banyan tree Immortal’s cave. Their strength would soar so high that they didn’t know what it would be like when the time came.

“Palace master, this disciple has an idea, but I do not know when it is appropriate to talk about it!” Yang Chen took a break to consider and finally said it.

“It’s fine, you might as well say it!” The palace master told Yang Chen that he trusted him 100%, so he could speak up if there was anything he wishes to say.

“After enrolling the monster cultivators, there will definitely be a rebound in the beginning from the other Dao Sects. The sect should consider first if the hall of eccentrics should firstly maintain the current scale. After most of the other Dao Sects have begun to recruit the monster cultivators, it would not be too late to follow up. Yang Chen took a moment to think about it and said slowly, “before this, the sect could consider thinking about ways to recruit more mortals.”

“Oh?” The palace master thought came back to their conversation and he curiously asked, “what would be the best way?”

Expanding the strength of the sect now was in the mind of the palace master and he would never forget. The development of the Pure Yang Palace had now surpassed the limits of its predecessors. Even in the era of the founding master, it had not reached this much glory. It was an indispensable achievement for the Palace Master of the Pure Yang Palace.

However, the master of the palace now had only two things on his mind, one was that he should also cross his tribulation into the Dacheng realm. This point became possible when Yang Chen gave Wan Qian to the master of the palace as his Dao Companion. Now the master of the palace had been able to feel that his cultivation progress had greatly improved. He believed that within 20 years, there would be no problem for him to break through to the late Yuanying stage.

According to this cultivation speed, within a maximum of two hundred years, the head of the palace could also enter the peak Yuanying stage and even face his tribulation. This kind of progress with enough time, could always be achieved.

His second thought was to continue to strengthen the Pure Yang Palace. Since becoming a sect master, the head of the palace had been thinking about this goal all the time, but it was always counterproductive. Before Yang Chen joined the Pure Yang Palace, the situation of the sect could not be said to be worse, but it was barely supportive.

In particular, the master of the palace was also influenced by Liang Shaoming. Once, he also intended to move closer to the Greatest Heaven Sect. After discovering the plot of the Greatest Heaven Sect in time, he even hated them through his teeth. The best way to retaliate against the Greatest Heaven Sect was to let the Pure Yang Palace grow stronger under his own care.

If there was such an opportunity, of course, the master of the palace would not let go of it, so he immediately asked with interest.

“Every time you recruit a disciple, the sect is to open the mountain gate, so that all people come to accept the spirit root test and meet the conditions before they can join the sect.” Yang Chen was not at all polite and quickly continued, “if they want to cultivate, it can only be considered a small test for all prospective candidates to come forward.”

“Every sect is doing this.” The palace master nodded. The same was true of the Pure Yang Palace, so there was nothing else to say, “if they had the right aptitude, they could join the sect. People who don’t have the right aptitude, of course, will not.”

“If you change this and what if the sect took the initiative to go to the mortal world to find a disciple who has the right spirit root?” Yang Chen directly raised his own question, and then waited for the reaction of the head of the palace.

“How can that be? Do we have to go to them and ask them to cultivate?” The palace master reacted like the way Yang Chen thought, shaking his head directly “No, absolutely not!”

The Dao Sects were always aloof. Everyone had always looked up to the sects. Why do they have to condescend to meet mortals? This was also the common aspiration of all the current Dao sects, if they took the initiative to find the right qualified people, won’t they lose too much face?

“Since all the sects are following the same method, if the Pure Yang Palace goes ahead with my plan to recruit disciples, won’t we have more chances to find better disciples than other sects?” Yang Chen looked at the palace master once again and said, “they will not have to visit the mountain gate once a year, but can do it anytime, anywhere, perhaps won’t we get more opportunities?”

That was the crux of his plan. It was better to take the initiative to find disciples than to wait for those disciples to come to the sect. It was just that no sect had ever thought of such a method before.

According to Yang Chen, they were almost certain to find more qualified disciples, and the master of the palace cannot help but fall into meditation to think about it.

The Immortal sect should take the initiative to go to the mortal world to find suitable disciples, instead of waiting for the Dao seekers to come to the sect, this was definitely a suggestion that would make all the sects shocked.

This was equivalent to losing the pride of an Immortal sect in the eyes of outsiders.

However, from another perspective, it was completely different. Actively looking for disciples meant more choices than other sects and they could find more disciples. Now who did not know, if one wanted to improve the power of a sect, one must have enough support from the younger generation of disciples. Otherwise, once experts faced their tribulation and ascended, there would be no more successors to rely on, and the sect would definitely decline.

Numerous families had verified this point. In the past year, the Heaven Seizing Pill refining system of the Xiang Clan, Luo Yuan's family, all proved this truth from another perspective.

Whether it was the Greatest Heaven Sect, Five Elements Sect, Blue Cloud Sect or Green Jade Immortal Island, every big sect was no exception, the truly successful sects always had continuous experts emerging to take the place of the older generation. In other words, the more outstanding younger disciples there were, the better the sustainable development of the sect would become.

The reason was easy to understand, but the face of the sect was not so easy to put down. This was one of the reasons why the head of the palace was somewhat hesitant.

Yang Chen looked at the hesitating head of the palace, but he smiled and gave another reason; "The people who have been unable to become outer sect disciples have always become servants. But they are also cultivators who have practiced, do you think that they are willing? If you let them go to the mortal world to find prospective disciples, maybe these people would also be happy to help."

Needless to say, they would indeed be happy. Although it was not a high position, but they would definitely become masters when they go back to the mortal world. Naturally they would enjoy a high

status there. Compared with being servants, it would be a complete upgrade of their status, who would not want it?

“These disciples can get themselves worldly wealth and live a good life in the secular world.” Yang Chen continued, “we can also allow them to choose a basic cultivation method to pass on to future generations, but only if they find a suitable disciple for the sect, and if future generations would want to continue their cultivation, they must come to the Pure Yang Palace. In this way, the Pure Yang Palace will not even have to worry about not finding a suitable disciple, palace master will only have to worry if some other trouble arises.”

“What trouble?” The teacher of the palace was thinking along Yang Chen’s thoughts and asked without thinking.

“The trouble would be that there would be too many excellent disciples, and it would not be easy to manage them.” Yang Chen smiled and continued, “perhaps the palace owner will stipulate that spirit roots below the middle grade will not be accepted in the sect.”

This was the common method adopted by the Dao Sects in the memory of his previous life. The Greatest Heaven Sect were so powerful that they forced the living space of other sects. Many sects had to put down their arrogance and actively seek suitable disciples. When competition became fierce, to seize more land, they would not hesitate to interfere in mortal affairs.

Although it started almost a thousand years later. Yang Chen had now described it though it seemed a bit early. But if they could really have the advantage of a thousand years, the Pure Yang Palace could definitely grow into a giant like the Greatest Heaven Sect.

But abandoning their face and tradition was the problem, when the head of the palace began to seriously consider the feasibility of this matter, he suddenly found that if it was carried out according to what Yang Chen proposed, the Pure Yang Palace could grow to an unexpected enormity, even the master of the palace could not imagine it.

The palace master couldn’t help but start to get excited and his breathing began to become heavy. The pressure of recruiting human cultivators was less than the stress that came with recruiting monster cultivators. The Greatest Heaven Sect wanted to recruit from the monster race, at least in the early stage, they would face great pressure but if the Pure Yang Palace recruits’ mortals, there would be no such problem at all. At most, they would only be ridiculed by other sects.

Moreover, if the whole thing was handled well, even the servants could be promoted to disciples. At most, on the day of opening of the mountain gate, it would become normal for prospective disciples to go through the gate and enter the sect.

He believed that most of those servants were willing to choose to be experts in the secular world, not servants of the sect. Moreover, the sect would not cut off their desire for the Dao. Although they could not be enlightened because of their qualifications, they will hold more opportunities for future generations.

They could maintain their human wealth, their children and grandchildren may have the opportunity to become enlightened, the only thing they had to affirm to was loyalty to the sect. Where could such a good solution be found? Moreover, the more faithful they would be, the stronger the Pure Yang Palace would become in the future, the more prosperous their families would be, what idiot would not want this.

The more the palace master thought about it, the more excited he became, and it seemed that he could already see the situation of good disciples flying into the sect in the future. Perhaps if they really did this, then, other disciples who go to the other sects may be the ones rejected by the Pure Yang Palace. Just imaging it made him extremely excited.

“It’s a big deal. I have to discuss it with the elders.” Despite his excitement after thinking about it, the palace master did not immediately agree, but it was safe to discuss with the elders. In the face of Yang Chen, the master of the palace suddenly sighed with emotion; “Yang Chen in view of this matter, I consider you the most outstanding disciple of my sect. I intend to propose to the elders to make you the Young palace master, what do you think?”

The title Young palace master signified the heir to the master of the palace position. The palace master said this to express his appreciation for Yang Chen as the disciple of the sect.

“I don’t want it for publicity, at least this disciple can be safer without it.” Yang Chen smiled and refused, using a random reason.

“Believe me, the elders will definitely agree.” The palace master did not give Yang Chen the opportunity to refuse, “as for the publicity, the elders can order it first, and not announce it.”

Obviously, the master of the palace had already made up his mind. But Yang Chen was undecided about that.

If the palace master has decided then it would be for the best. However, there was something that Yang Chen thought he should still discuss with the head of the palace, and ask his advice.

“Palace master, suppose say that if there are many benefits to be had, but an enormous price had to be paid to get them, should this disciple still let the sect fight for it? Or should this disciple spread news about it in exchange for more support and cooperation with our sect? Letting the Greatest Heaven Sect take the lead, and make the Blue Cloud Sect and the Green Jade Immortal Island pay their own cost of getting those benefits?” Yang Chen asked about how he should handle the information brought to the lower realm by the consciousness clone of the Greatest Heaven Sect.

Chapter 350.2: Sect's Expansion

The Immortal sect should take the initiative to go to the mortal world to find suitable disciples, instead of waiting for the Dao seekers to come to the sect, this was definitely a suggestion that would make all the sects shocked.

This was equivalent to losing the pride of an Immortal sect in the eyes of outsiders.

However, from another perspective, it was completely different. Actively looking for disciples meant more choices than other sects and they could find more disciples. Now who did not know, if one wanted to improve the power of a sect, one must have enough support from the younger generation of disciples. Otherwise, once experts faced their tribulation and ascended, there would be no more successors to rely on, and the sect would definitely decline.

Numerous families had verified this point. In the past year, the Heaven Seizing Pill refining system of the Xiang Clan, Luo Yuan's family, all proved this truth from another perspective.

Whether it was the Greatest Heaven Sect, Five Elements Sect, Blue Cloud Sect or Green Jade Immortal Island, every big sect was no exception, the truly successful sects always had continuous experts emerging to take the place of the older generation. In other words, the more outstanding younger disciples there were, the better the sustainable development of the sect would become.

The reason was easy to understand, but the face of the sect was not so easy to put down. This was one of the reasons why the head of the palace was somewhat hesitant.

Yang Chen looked at the hesitating head of the palace, but he smiled and gave another reason; “The people who have been unable to become outer sect disciples have always become servants. But they are also cultivators who have practiced, do you think that they are willing? If you let them go to the mortal world to find prospective disciples, maybe these people would also be happy to help.”

Needless to say, they would indeed be happy. Although it was not a high position, but they would definitely become masters when they go back to the mortal world. Naturally they would enjoy a high status there. Compared with being servants, it would be a complete upgrade of their status, who would not want it?

“These disciples can get themselves worldly wealth and live a good life in the secular world.” Yang Chen continued, “we can also allow them to choose a basic cultivation method to pass on to future generations, but only if they find a suitable disciple for the sect, and if future generations would want to continue their cultivation, they must come to the Pure Yang Palace. In this way, the Pure Yang Palace will not even have to worry about not finding a suitable disciple, palace master will only have to worry if some other trouble arises.”

“What trouble?” The teacher of the palace was thinking along Yang Chen’s thoughts and asked without thinking.

“The trouble would be that there would be too many excellent disciples, and it would not be easy to manage them.” Yang Chen smiled and continued, “perhaps the palace owner will stipulate that spirit roots below the middle grade will not be accepted in the sect.”

This was the common method adopted by the Dao Sects in the memory of his previous life. The Greatest Heaven Sect were so powerful that they forced the living space of other sects. Many sects had to put down their arrogance and actively seek suitable disciples. When competition became fierce, to seize more land, they would not hesitate to interfere in mortal affairs.

Although it started almost a thousand years later. Yang Chen had now described it though it seemed a bit early. But if they could really have the advantage of a thousand years, the Pure Yang Palace could definitely grow into a giant like the Greatest Heaven Sect.

But abandoning their face and tradition was the problem, when the head of the palace began to seriously consider the feasibility of this matter, he suddenly found that if it was carried out according to what Yang Chen proposed, the Pure Yang Palace could grow to an unexpected enormity, even the master of the palace could not imagine it.

The palace master couldn't help but start to get excited and his breathing began to become heavy. The pressure of recruiting human cultivators was less than the stress that came with recruiting monster cultivators. The Greatest Heaven Sect wanted to recruit from the monster race, at least in the early stage, they would face great pressure but if the Pure Yang Palace recruits' mortals, there would be no such problem at all. At most, they would only be ridiculed by other sects.

Moreover, if the whole thing was handled well, even the servants could be promoted to disciples. At most, on the day of opening of the mountain gate, it would become normal for prospective disciples to go through the gate and enter the sect.

He believed that most of those servants were willing to choose to be experts in the secular world, not servants of the sect. Moreover, the sect would not cut off their desire for the Dao. Although they could not be enlightened because of their qualifications, they will hold more opportunities for future generations.

They could maintain their human wealth, their children and grandchildren may have the opportunity to become enlightened, the only thing they had to affirm to was loyalty to the sect. Where could such a good solution be found? Moreover, the more faithful they would be, the stronger the Pure Yang Palace would become in the future, the more prosperous their families would be, what idiot would not want this.

The more the palace master thought about it, the more excited he became, and it seemed that he could already see the situation of good disciples flying into the sect in the future. Perhaps if they really did this, then, other disciples who go to the other sects may be the ones rejected by the Pure Yang Palace. Just imaging it made him extremely excited.

"It's a big deal. I have to discuss it with the elders." Despite his excitement after thinking about it, the palace master did not immediately agree, but it was safe to discuss with the elders. In the face of Yang Chen, the master of the palace suddenly sighed with emotion; "Yang Chen in view of this matter, I consider you the most outstanding disciple of my sect. I intend to propose to the elders to make you the Young palace master, what do you think?"

The title Young palace master signified the heir to the master of the palace position. The palace master said this to express his appreciation for Yang Chen as the disciple of the sect.

“I don’t want it for publicity, at least this disciple can be safer without it.” Yang Chen smiled and refused, using a random reason.

“Believe me, the elders will definitely agree.” The palace master did not give Yang Chen the opportunity to refuse, “as for the publicity, the elders can order it first, and not announce it.”

Obviously, the master of the palace had already made up his mind. But Yang Chen was undecided about that.

If the palace master has decided then it would be for the best. However, there was something that Yang Chen thought he should still discuss with the head of the palace, and ask his advice.
