Chapter 371.1: Cooperation

“Yang Chen, someone recently offered a reward for interpreting some ancient writings.” After arranging Yang Chen’s arrangements of Yang Lan’s rewards, Shangguan Feng returned to Yang Chen’s face again and said “Maybe you will have some interest in it.”

“Interpreting ancient scriptures?” Yang Chen’s heart moved, was it the Greatest Heaven Sect? Thinking of this, Yang Chen couldn’t help but ask “Who is posting the rewarding?”

“An overseas rogue cultivator.” Shangguan Feng replied: “It is said that he got a secret manual from the ancient times and he need a master who can interpret the ancient script to help him interpret it.”

“Snort, he is not afraid that I will learn it after I interpret it?” Yang Chen casually asked, since it was a rogue cultivator and it was a secret manual, it was not necessarily a person from the Greatest Heaven Sect. Holding an indifferent attitude, Yang Chen just got to know more.

“He will definitely portray the individual words one by one and split them apart for you to interpret.” Shangguan Feng replied with a smile: “As long as you disrupt the order, you will not know what it is.”

“This is true.” Yang Chen nodded, but there was still some suspicion in his heart. He was only here with Shangguan Feng and he did not show much.

“I think you should go and see.” Shangguan Feng looked very interested and said with a smile: “There have been several people who have said this to me, to let me help you to pay attention. The rewards are believed to be of interest to you.”

“Oh?” Hearing what Shangguan Feng said, Yang Chen immediately smelled at the strong conspiracy. There was a lot of people who were actually reminding Shangguan Feng to recommend a post of a rogue cultivator who was not famous to him and the rewards were something that Yang Chen would be interested in. If it was not specified for himself, Yang Chen really would not believe it.

“It’s a kind of fire seed, fourth grade fire seed.” Shangguan Feng continued to smile and say “Are you not always collecting fire seeds? This guy’s reward seems to be directed at you.”

Hearing the reward was a fire seed, Yang Chen has been sure that this must be directed at himself. Otherwise, few people would not remind Shangguan Feng to inform him. Five or six years ago, there was already such a time in the Green Jade Immortal Island. It was so obvious now that it would be a joke if this has nothing to do with the Greatest Heaven Sect.

“There is no need to pay attention to this news in the future.” Shangguan Feng would not be harmful to Yang Chen, he was just telling Yang Chen about an indirect news. Yang Chen would never blame him, but he expressed his own thoughts “If another person asks, say that I said that I am not interested.”

“Good!” Shangguan Feng did not have the slightest dissatisfaction. How Yang Chen decided that it was Yang Chen’s business. He never thought about making an appointment for Yang Chen. But curiosity still drove him to ask: “But, you don’t want these fourth grade fire seed?”

“Of course.” Yang Chen smiled again and said “But I don’t want to die more.”

“What do you mean?” Shangguan Feng’s brow suddenly wrinkled. He told Yang Chen the news only to help Yang Chen, but if Yang Chen was hurt because of this, it would not be his original intention.

“What kind of secret manuals are worth the fourth grade fire seed?” Yang Chen sneered aloud “If it is so precious, he will never allow any leaks afterwards. Who knows if I will disperse from those in the broken words, when the secret manual are restored? Perhaps the text of the secret manual is not much?”

Shangguan Feng knows some of the grievances between Yang Chen and Greatest Heaven Sect, but Yang Chen would never tell him everything, so he used such a reason to explain.

But for Shangguan Feng, this reason was enough. When the other party arranged, it was obvious that it was in order to attract Yang Chen’s attention, that was why the fourth grade fire seed was used. However, this has become the only flaw.

Yang Chen has a lot of low-quality fire seeds on his hands. Therefore, the fire seeds below the third grade were definitely not able to attract Yang Chen. The fourth grade fire seed was just right. However, in order to attract Yang Chen, they have forgotten the preciousness of the fourth grade fire seed. Perhaps in the eyes of those decision-makers, the fourth grade fire seed was is not a great thing, but it was indeed not normal for a rogue cultivator.

Shangguan Feng immediately realized the danger. He initially thought that if Yang Chen could interpret it, he could easily get a fourth grade fire seed, but he didn't think too deeply about the danger. Of course, this was also because several people who have mentioned this matter with him were old friends who have been working together for many years, so he was not too precautionary.

The other party also said casually that if Shangguan Feng thought that Yang Chen would be interested and would go deeper into understanding, which also made him ignore some things. Now that he thought of it, he suddenly felt a cold sweat.

"I was negligent." Shangguan Feng's face was very bad. This little thing has also made him discover that even some friends who have cooperated with him for a long time in business were not necessarily to be fully trusted.

Between these business partners and Yang Chen, Shangguan Feng would definitely not hesitate to choose Yang Chen. Without Yang Chen, Shangguan Feng would be nothing, but without these business partners, Shangguan Feng was still Shangguan Feng, it was as simple as that.

Apart from changing the attitude of Shangguan Feng to several business partners, the small episode did not seem to cause any waves. But Yang Chen knew that this was his chance which has come.

Through Shangguan Feng, Yang Chen clearly expressed that he was not interested in the interpretation of the ancient manuals. These things seemed to disappear, and then slowly disappeared in the eyes and ears of everyone, as if they had never appeared before.

Yang Chen began to prepare. The other party has repeatedly determined whether Yang Chen was familiar with some ancient scripts, and even used several temptation techniques. He could only explain that there was something in the Greatest Heaven Sect that they needed Yang Chen to interpret and it was very likely that this thing at present, only Yang Chen had the talent to accomplish it.

This seemed to be a good opportunity, Yang Chen never believed that there was a secret manual which required a big sect like the Greatest Heaven Sect to invest heavily in. Even if there were new secret manuals, the Greatest Heaven Sect was still the most powerful sect. If they have this manuals, it doesn't matter.

Therefore, the things that the Greatest Heaven Sect valued would not be any secret manuals, but other things. A single magic weapon was not possible, combined with the current dilemma of the Greatest Heaven Sect, there seems to be only one thing that can make them pay such attention.

Resources, a lot of resources, or most likely a secret plane passed down from the sect. The time that this secret plane was passed down has been so long that even the text has changed. No one in the Greatest Heaven Sect could interpret it, so they would find an expert like Yang Chen who knew ancient scriptures.

Opportunity seems to come to Yang Chen inadvertently.

Chapter 371.2: Cooperation

Yang Chen now wanted to give the Greatest Heaven Sect a secret plane resource, which was the secret plane resource that came back with the consciousness clone, but it was not exclusive to the Greatest Heaven Sect.

With competitors, it would not be the same situation the Greatest Heaven Sect faced in his previous life. Although they damaged some people, they still received huge benefits. How could Yang Chen leave this benefit to the Greatest Heaven Sect?

The opponent would find it for the Greatest Heaven Sect, but the benefits were not necessarily for the Greatest Heaven. At the last key points, Yang Chen could bring benefits to the Blue Cloud Sect and the Green Jade Immortal Island and let the Greatest Heaven Sect's efforts become as futile as using bamboo to fetch water. There seems to be a few key places in the memory of the surviving consciousness that could be fully utilized.

The problem now was that the Greatest Heaven Sect was easy to deal with because it was really a secret plane, but it would be very troublesome to explain to the Blue Cloud Sect and the Green Jade Immortal Island.

One problem was how to make the two masters believe that this secret plane was not a trap that was made out of nothing. Second, if the two major sects had misunderstandings, they would be provoking their direct conflicts. Third, Yang Chen hopes to use this opportunity to give sect master Lu and the island master an opportunity to clean up their sects. He also do not want them to misunderstand that he was indirectly harming the interests of the two main sects.

This was not something that could be done with a red mouth and white teeth. Don't mention the fact that Yang Chen was only a younger generation junior of the Pure Yang Palace. Even if the palace master came in person, he may not be able to explain it clearly.

Yang Chen's worries were not groundless, the secret plane was true, but the two major sects would also doubt his sources and why they were not directly told to them, but they would want to compete with the Greatest Heaven Sect.

He had a very big headache, Yang Chen had to think hard about it and wanted to find a solution to these problems.

After returning from the outside, Yang Chen did not go out again. On the one hand, Yang Chen wanted those from the Greatest Heaven Sect to give up and come up with real things. And another was that Yang Chen was indeed planning to have all his spirit powers condense before going out.

Among the remaining spirit powers, Second Wood spirit power, Eighth Metal spirit power, Sixth Earth spirit power, have not yet condensed. As long as there was another one to condense, Yang Chen could complete all the Yin elements.

Among these three spirit powers, second wood spirit power was the most outstanding. Compared with the two ordinary spiritual powers of eighth metal and sixth earth, it was enhanced by Yang Chen's absorption of the spiritual power of the blood demon vine. Although there was no such thing as the second wood true essence on hand as it was very rare. It was obviously the most appropriate to use it to breakthrough.

The second wood spirit power has already reached the peak foundation stage and only one foot was need to get it into the Jiedan stage. For Yang Chen, this required a period of intensive refinement, not too long, but not too short either.

There was no better place for seclusion than in the blue vault mountain Immortal's cave. When Yang Chen chose to go into seclusion, Gao Yue and Gongsun ling naturally entered the Immortal's cave with him. On the one hand, they would temper themselves, on the other hand, they could spend more time with Yang Chen.

There was no time for anything except for cultivation, so the time between Gao Yue, Gongsun Ling and Yang Chen was not very long, so it was especially cherished. Yang Chen also cherished such an opportunity. Every time he finished his cultivation, he would always discuss a lot of things with the two women.

Sometimes they talked about cultivation. Sometimes they talked about refining or arrays. Most of the time, they had a variety of insights and customs. Gongsun ling's recent craftsmanship has soared and she was always ready to make delicious food, so that the three could have a good time together.

Yang Chen has always believed that bitter cultivation was not the most efficient way. Sometimes, the combination of work and rest was the real way of cultivation, all kinds of ways must be tried.

Simply pursuing power was a manifestation of ignorance. It must be known that the great people of the heavenly court were always having a feast for three days, a feast for five days, and he has not seen how much their cultivation was ruined. Among the people, the worst was the great principle golden immortal.

Everything was carried out in an orderly manner according to Yang Chen's plan. The cultivation base was in the moment slowly reaching the limit, waiting for the breakthrough and in the outside world, because of Yang Chen's attitude, there was changes happening.

Yang Chen was not interested in the interpretation of the ancient script. The Greatest Heaven Sect who was behind the rogue cultivator had to modify their strategy again. Sometimes things were like this, once their performance was not so positive, the other party would instead be active.

Several high-level members of the Greatest Heaven Sect were now considering how to let Yang Chen help them interpret the contents of the secret key. They were holding the secret key, but they could only imagine the huge resource in there, in reality there was no way for them to get it, this was the embarrassment of the Greatest Heaven Sect.

"We could try to cooperate with him, maybe it can work." Their small trick could not lure Yang Chen, so finally someone proposed this way "Give a little benefit to the Pure Yang Palace, so that they would let one of their disciples help us to interpret a little something, presumably, the Pure Yang Palace should not refuse it?"

“The last time Elder Ming and Hall Master Mao went to the Pure Yang Palace, it was very unpleasant. It would not be easy to ask the Pure Yang Palace to help.” Immediately, the elders raised objections. The last time after going to the Pure Yang Palace, more than a dozen loss of the life source flying swords made the Greatest Heaven Sect almost a laughing stock, after a short time, even to cooperate with the Pure Yang Palace, some people of course had to oppose.

If the current Greatest Heaven Sect was asking for help from others, naturally their attitude must be changed. The person who raised the objection did not express much, but said that it was not easy to cooperate with them, but everyone understood what he meant.

The Dao sect leader the Greatest Heaven Sect, was it necessary for them to accompany the smile of the Pure Yang Palace? This was the reason for the genuine opposition to the attitude of the so-called Pure Yang Palace. It was the most uncomfortable feeling when you are used to being high and aloof and had absolute power over everyone, then you had turn to a low profile.

“The big picture is what matters!” At the crucial moment, the sect master could grasp the direction. When the overall situation was heavy, all the reasons for reluctance were blocked.

“When these things are done, you must have the small beast turned into small pieces!” The sect master said this and everyone no longer insists, everyone seems to have the same mind.

Yang Chen was not only a rising genius that may threaten the Greatest Heaven Sect, but has become an enemy of the Greatest Heaven Sect when he killed the six Yuanying stage ancestors, no matter how the six ancestors died, they would not let Yang Chen get away with it.

The next thing to discuss was the price to use to move the Pure Yang Palace, relative to the damage on their face, a little bit of material effort, but it seems so insignificant. At least in the hearts of everyone who was on the scene, it was considered this way.

Chapter 372.1: Incomparable Existence

The palace master was really excited nowadays! The people from the Greatest Heaven Sect came to their sect again. However, this time it was not like the last time that their momentum was arrogant, but now they had a very pleasant attitude to seek cooperation with the Pure Yang Palace.

Of course, the Greatest Heaven Sect was still the Greatest Heaven Sect. Even if they were looking for help from someone, they couldn't be making this kind of low-pitched gesture. However, the ability to make the Greatest Heaven Sect seek their help has already explained many issues. Especially this time compared to their arrogance previously, this attitude was undoubtedly pleasant.

The Greatest Heaven Sect, who were high and aloof, came to ask for their help. When the master of the palace got to know the purpose of the visit, he almost laughed a few times to show his pride and happiness.

Although Yang Chen did not deliberately arrange this matter, it was still due to Yang Chen. The palace master was a little surprised by the influence of Yang Chen and then he hid this surprise in my heart, posing a look of harmony, the details of the cooperation was carefully discussed with the people from the Greatest Heaven Sect.

Even when the head of the palace said that it was necessary to discuss with the elders of the sect first, the messenger of the Greatest Heaven Sect was very understanding.

They could let the people of the Greatest Heaven Sect wait and after consultation, decide that this was not the deliberate treatment of the sect. This alone was enough to make the head of the palace and all the elders feel a little more pleasant.

The Greatest Heaven Sect's request was not very complicated, they just wanted to ask Yang Chen to help them interpret some text. For Yang Chen, this was just a little effort, but the rewards were amazing. At least this time, the Greatest Heaven Sect expressed enough sincerity. Some of the things that were brought out were very tempting. There were two kinds of high-level refining system which the Dragon horn flying sword needed.

Wang Yong quietly agreed to this cooperation, and other elders did not object. It's not the time to break off all their relationship with the Greatest Heaven Sect, so some superficial relationships had to be maintained.

However, even if the cooperation could be agreed, the Greatest Heaven Sect needed Yang Chen to consent to it, but Yang Chen was now retreating, Therefore, the aloof Greatest Heaven Sect, could only wait for Yang Chen to go out.

The last time, their disciples who were tempering their life source magic weapons had to take out their weapons on the spot. Even if they destroyed a group of magic weapons and the disciples cultivation base was destroyed, they had to do it.

This cooperation could be completely different from the last time, but they had to wait, wait for Yang Chen to come back. And there was still a condition, that was, the manuals would be read in the Pure Yang Palace, not in the Greatest Heaven Sect.

The Pure Yang Palace would be responsible for helping to find a quiet place and let Yang Chen and the Greatest Heaven Sect people go in to interpret the text, but not in the Greatest Heaven Sect. This was obviously for Yang Chen's security considerations and the people of the Greatest Heaven Sect did hesitate and agreed to it. But there were also conditions, Yang Chen must make a heart oath not to tell anyone about the content of the manual.

The two sides reached an agreement and the head of the palace and the Greatest Heaven Sect made a smile at each other. It seemed that this means the beginning of the cooperation between the two sects if there was no other abnormality.

The Greatest Heaven Sect performance was very sincere. They even took out the promised rewards on the day of the cooperation with the intention of handing them over to the Pure Yang Palace. Everyone was waiting for Yang Chen to close the agreement.

Yang Chen's retreat this time took too long, Yang Chen did not spend as much time as he thought he would. Perhaps when the spirit powers of the Yang Five Elements condensed dan at the same time they have already raised the remaining three spiritual powers to their peak. The refinement of the second wood spirit power only took him more than four years and he entered the condensing dan process.

Yang Chen was already familiar with this kind of process to the extreme, he have had it at least seven times, this was the eighth time. Standing on the two spirit veins in the Immortal's cave, the spiritual power of the outside world was continuously absorbed by Yang Chen's body and then it was gathered into the newly formed small sesame-sized second wood Jiedan, all the processes appeared so smooth.

However, it was completely different when there was not something like the first wood true essence spiritual solution and the seventh metal true essence liquid involved. The influx of the two kinds of spiritual essence liquids, both in terms of quality and quantity, was much better than the spiritual power absorbed by Yang Chen. At least Yang Chen does not need to absorb it and then converts it into second wood spirit power, which increases the consumption of time.

The spiritual power absorbed by the spiritual veins must be transformed and purified before it could be adapted to the needs of the Jiedan. This process wasted at least 90% of Yang Chen's time.

It was better to wait for the growth of Jiedan in this way. It was better to cultivate in the huge and unmatched first wood true essence spiritual solution and the seventh metal true essence liquid. Therefore, Yang Chen was resistant to the temper and absorbed the spiritual power after conversion and conciseness. He grew the little Jiedan that had just formed.

This absorption and growth took almost a whole year and finally Yang Chen became satisfied, the dragon's eye sized Jiedan spontaneously absorbed the spirit power while spinning, the fast and already formed two yin five elements Jiedan went to one place.

Next, the condensing of the second wood spirit power also led the remaining two yin five elements spirit power also to condense, the eighth metal and sixth earth spirit power were condensing at a speed visible to the naked eye until they were in the dantian, it was reduced to two sesame-sized golden dans. Then, the spirit power between the heavens and the earth began to rush into the body of Yang Chen.

Whether it was the first wood true essence or the seventh metal true essence liquid, Yang Chen has a lot of spiritual liquid in his hand, which was actually among the five elements of Yang. In the five elements of Yin, although there were some of the tenth water true essence, but if they were compared to the other two, it's just a slap in the face.

When the three spirit powers of the Yang Five Elements were condensed at the same time, they had the huge spirit power support of the seventh metal true essence. The direct conversion was enough to meet the requirements of the three Jiedan absorbing spiritual power, and because it was the true essence spiritual power, the quality of the spiritual power was very high, Yang Chen spent only a short period of time from the beginning of the condensate to the end.

But now it was different. The spirit power absorbed entirely from the spiritual veins cannot be compared with the seventh metal true essence liquid. Therefore, Yang Chen had to endure the cumbersome process of absorbing and transforming and enriching the Jiedan. Fortunately, Yang Chen was prepared early, once again controlling the two veins on his side, it was enough for all the condensation needs.

Patiently controlling the spirit power and systematically enriching the newly condensed golden dan. This process was slow and orderly, but it was under the control of Yang Chen.

For a whole year, the last two Jiedan finally grew to the same level as the second wood spiritual power Jiedan. In Yang Chen's dantian, they were arranged in accordance with the five elements, the other three golden dans were perfectly composed.

Chapter 372.2: Incomparable Existence

At the moment when the yin five elements were formed, the five golden dans began to rotate at a rapid speed and each of them complemented each other and began to balance each other.

The five yang elements golden dans in his chest seemed to be affected by the formation of the Yin five elements golden dans, it synchronised and began to rotate together.

The upper and lower golden dans were moving at the same speed, the same direction, swiftly rotating, as if it converged into one respectively, in the body of Yang Chen, it constructed a three-dimensional Jiedan network.

Boom, Yang Chen's consciousness, instantly sneaked into his sea of consciousness. This time, the change of the sea of consciousness was absolutely not comparable to any previous one.

The whole sea of consciousness seems to have become a balloon that was being blown up, it was expanding wildly. Three hundred acres, three hundred and fifty acres, four hundred acres, four hundred and fifty acres ... it was expanded to a radius of six hundred acres, then it completely stopped.

The height has more than doubled again. The whole space was huge and even comparable to the original net bottle medicinal garden first layer. All existences in the sea of consciousness, except for the long river of blood, were all magnified in the same proportion.

This expansion was not just a volume expansion, but it had more solidification. The thick branches of the first wood was more dense and the supporting sky was more stable. The two pieces of land connected by the long ox horns bridge were more and more diverse. The surrounding oceans have almost doubled, and the two rivers distribution over the two lands have become wider, longer and deeper.

Yang Chen's spiritual awareness cultivation base has already stayed at the peak of the middle dacheng stage for some time, but at this moment, it finally broke through again,

the crazy promotion took it to the late dacheng stage.

When the promotion of the spiritual awareness finally stopped, Yang Chen was still unable to control the outbreak of the spiritual awareness at that moment. At this point an overwhelming aura was sent from Yang Chen's body and it instantly filled the entire space of the Jiedan stage portal.

From the moment when Yang Chen began to condense his golden dan, Gao Yue and Gongsun ling did not stop paying attention to Yang Chen. They watched as Yang Chen's aura become stronger and stronger, and the surrounding spiritual power became more and more dense. When Yang Chen was beaming with joy, suddenly his imposing momentum broke out and the two women almost fainted.

Fortunately, whether it was Gao Yue or Gongsun ling, they firmly believed that Yang Chen would never hurt them, so they could barely control their emotions. But even so, in the face of the pressure of Yang Chen, with the spiritual awareness that have already reached the Yuanying stage, they still couldn't compete.

As for the Jiedan stage disciples who were distributed throughout the portal or the monster cultivators who originally lived in the Immortal's cave, at this moment, almost all of them were shocked by the terrifying pressure of Yang Chen, at least over 90% of the creatures fainted directly and the rest of the creatures shivered heavily.

Yang Chen's spiritual awareness pressure came quickly and left quickly. With just a moment's effort, Yang Chen has easily controlled his own spiritual awareness and then converged it.

But then, the outbreak of his spirit power also started. The yin and yang five elements golden dans were spinning and they burst out with a circle of spiritual power, so that Yang Chen had an impulse to vent.

Unexpectedly, Yang Chen directly slammed a punch in the direction of no one with his eyes closed. In this space, even if there was something thousands of miles away, it was impossible to stop Yang Chen's spiritual awareness exploration. Wherever there was someone, Yang Chen does not have to open his eyes, but he would know it clearly.

Boom, the yin and yang five elements spirit power punch bombardment on a hill, there was a huge explosion of sound carrying a huge smoke, all lines of sight were blocked. After a while, the smoke and dust fell and the hill no longer existed. Only a huge pit with a trace of a fist was left in place.

“Master, apprentice sister!” Yang Chen opened his eyes and looked at them without looking at the destruction. He directly faced Gao Yue and Gongsun ling and said: “ it seems you were shocked!”

Gao Yue and Gongsun ling were indeed a little scared, not because Yang Chen’s spiritual awareness was too terrifying, but because of the punch just now. After all, the two women and Yang Chen have both had spiritual awareness double cultivation with each other and it was not surprising that Yang Chen’s spiritual awareness was strong enough to be temporarily incomprehensible.

But Yang Chen was just a disciple in the early Jiedan stage. Even if he was even more powerful, he was just at the early Jiedan stage. However, the level of that punch was clearly comparable to that of the Yuanying stage. This was simply challenging the common sense of the two women.

“You measure your spiritual power level!” Gao Yue was in so much shock that she brought out the heaven measuring ruler and handed it to Yang Chen, to let him measure his spirit power.

After Wang Yong was promoted to the dacheng stage, he temporarily handed over the heaven measuring ruler to Gao Yue. This was originally Yang Chen’s thing, naturally it was necessary to return it to Yang Chen, Yang Chen was not around so he gave it to Gao Yue, which was very normal. When other elders wanted to check their breakthrough, they could talk to Yang Chen.

Yang Chen hasn’t touched the ruler for a long time and he even almost forgot that he still had this thing. If you inject your spirit power into the ruler, soon the color would shows your spirit power level.

Both women have measured their own standards. Compared with the normal hundred degree celsius standard in the early Jiedan stage, the two women had three hundred degree celsius and two hundred and eighty degree celsius respectively, it could almost be said that they could look down on everyone at their level.

Three thousand one hundred degree celsius, this result made Gao Yue and Gongsun Ling face go blank. The two women were already considered cultivation geniuses. However, when they saw Yang Chen’s

3,100 degree celsius, they couldn't help but feel that they had cultivated for so many years, but they were still waste woods.

Others couldn't imagine the feeling of the yin and yang five elements golden dans gathering together. They could only use the simplest figures to understand that Yang Chen's spiritual power was simply ten times higher than Gao Yue and Gongsun Ling. Gong Sunling still doesn't know what to think about it, but at least Gao Yue has already felt that she was not a master but an apprentice.

"You don't have to worry about the measure of spiritual power. What really determines everything, is your state of mind!" Yang Chen knew the feelings of the two women. It was very general to give some hints: "The amount of the ruler is just to let you see your spirit power change, so that you have the confidence to grow every day, nothing more, it simply can not measure combat effectiveness."

Having said that, the two women were still somewhat discouraged. Ten times the gap was really a blow to people. Originally, the two women, one master and apprentice sister, all walked in front of Yang Chen, but now Yang Chen has surpassed them by so much.

More than three thousand degrees, if divided according to spirit power, this was already the level of the Yuanying stage. The realm of Yang Chen was still in the early Jiedan stage. It could be said that he was an incomprehensible existence.

If someone told the two women about this kind of thing, the two women would definitely think that the other party was joking. However, Yang Chen was actually standing in front of them, there was no fiction at all.

Chapter 373.1: Guarantee

With Yang Chen's entire attribute spirit power golden dans completed, he did not immediately withdraw from the seclusion. In fact, when the Greatest Heaven Sect people came to the sect, the head of the palace had already informed Yang Chen. You must know that Yang Chen's retreat was not the kind of retreat that couldn't be disturbed at all. Every day, he would chat with his master and apprentice sister and relax.

The Greatest Heaven Sect gave them so much face, the opportunity to come to the sect, how could Yang Chen let go of it, of course, through this opportunity, all the things were arranged and the arrangement was seamless.

Just by the opportunity of seclusion, Yang Chen did some preparatory work in advance, and by the way, he let the guys from the Greatest Heaven Sect taste the anxious wait.

In the Immortal's cave, Yang Chen began to refine a small object. In this regard, the two women were very interested, but what made the two women surprised was that they couldn't understand what Yang Chen was doing and the things that Yang Chen refined made people really speechless.

With Gao Yue's reputation as a grandmaster refiner, the apprentice who she taught was refining a jade card that was simple and unrecognizable. Not only that, but the poor carvings of the jade and the ugly patterns on the top, all show up, this was clearly a shoddy thing.

If such things had to be taken out. As the master of Yang Chen, Gao Yue would definitely be ashamed to go out for at least ten years, It was really too crude.

However, this kind of bad thing, Yang Chen actually spent almost two months to make, which was very unusual.

Of course, the two women also saw this, although it was ugly and it felt so embarrassing that it made them lose face, but no one doubted it's quality. Even the two women were very tacit and no one asked Yang Chen what he was going to do with it.

After completing the jade card, Yang Chen pretended to consolidate his cultivation base. Two months later, Yang Chen announced that he had completed his retreat and came to meet the head of the palace and the elders.

The movement of Yang Chen's condensing dan time has already alarmed the master of the palace. He was the person who controlled the blue vault mountain Immortal's cave. Whatever changes happened in Immortal's cave, he could almost immediately detect it. However, it was discovered that the palace master did not say anything about the turmoil caused by Yang Chen. He did not even do anything, but allowed the development of the situation.

"It seems that you have completed a miracle this time." When the palace master looked at Yang Chen, he saw that his vigor was completely different. He couldn't help but sigh again and then he tentatively asked " have you completed the five elements attribute golden dans?"

Yang Chen nodded and did not speak. But when they saw Yang Chen's reply, the head of the palace and the elders all took a breath of cold air. The five elements attribute foundation made people very speechless and now he has already completed their golden dans.

This matter was completely separated from the common sense of cultivation in the minds of the palace master and the elders, they couldn't imagine how this could happen. For the five elements attribute foundation stage, it could be said that the realm was low and it could be easily accepted, but the golden dan was not so easy. Making a golden dan for a kind of spirit power was difficult, let alone the full attributes of the five elements?

However, there have been an instance of Gao Yue having the double attribute golden dans before. This kind of thing has been accepted by the high-level officials of the Pure Yang Palace. It could only be said that Wang Yong's apprentice and grand disciple were indeed amazing, a pair of little monsters.

The representative of the Greatest Heaven Sect has waited so long that their eyes started to wear. It must be said that when the Pure Yang Palace promised to cooperate, the people in the Greatest Heaven Sect would have some eagerness to know the news of the secret land. They couldn't wait to open the secret land and find out what resources was inside. Who would have imagined that Yang Chen's retreat would last more than six years, they had to wait for six years.

When they saw Yang Chen, the representative of the Greatest Heaven Sect seemed to have a killing intent inadvertently, but it quickly disappeared without a trace. However, this wisp of killing intent was captured by Yang Chen. In the face of the late dacheng stage spiritual awareness, few people in the mortal world could hide their feelings from Yang Chen.

Yang Chen quietly followed the master of the palace, in the main hall of the sect, accompanied by the master of the palace and several elders, under the watch of the Greatest Heaven Sect's representative and the gaze of several entourages, he made a heart oath to help the Greatest Heaven Sect to interpret the contents of the secret key and never let it leak.

The grand ceremony completely dispelled the concerns of the Greatest Heaven Sect . In fact, if you do this in the first place, you don't need to go around so many circles and you don't have to spend so much time in vain and let the three Yuanying stage masters of the Greatest Heaven Sect wait for six years in the Pure Yang Palace.

Seeing that all this happened in front of them, it was impossible to say that the three Greatest Heaven Sect's Yuanying stage masters did not complain. For Yang Chen, they knew the attitude of the upper level members of the sect and they would not have any mercy. However, for the upper level members of the Pure Yang Palace, they have been wasting their time for so long because of wrong decisions. They were absolutely hateful.

Such a simple thing, was it necessary to turn so many bends, play tricks and tricks, and finally it was not as good as their upright statement, it was just an exchange to solve all problems.

Next, naturally, Yang Chen and the representatives of the Greatest Heaven Sect entered the quiet room prepared by the Pure Yang Palace to interpret the ancient characters on the secret key.

However, after entering the quiet room, the three Yuanying stage masters invariably checked the static room first, then arranged a series of at least ten restrictions per person and even took out a plate to launch, completely eliminating the possibility of eavesdropping in the Pure Yang Palace.

The plate was refined by a dacheng stage master in the Greatest Heaven Sect . It was specially used to isolate sound and all the snoops. There were dozens of restrictions in the array, plus the three patriarchs outside. The restrictions, even those who were the masters in the Greatest Heaven Sect, may not have the opportunity to eavesdrop, not to mention the little Pure Yang Palace.

After doing all this, one of the Yuanying stage ancestors took out the same kind of metal material from his own Qiankun bag. In Yang Chen's strange eyes, he broke the piece of metal material and took the key out of it. The secret key that was filled with the ancient inscriptions was handed over to Yang Chen.

Although the things have already been given to Yang Chen, the three people have always been vigilant. Once Yang Chen made any unusual moves, the three would definitely take the keys back first, they had absolute confidence in themselves.

Yang Chen did not intend to make any irrational move here, but picked up the secret key and began to frown after looming it up and down. After a continuous turn over ten times, there was a bitter smile on his face.

"What? You don't know these inscriptions?" The leading Yuanying stage ancestor was nervous and asked anxiously. If Yang Chen doesn't know, this would be a big joke.

Chapter 373.2: Guarantee

“That is not it.” Yang Chen shook his head and said with a smile: “I know the characters.”

Hushh, even the few Yuanying stage masters did not notice themselves that were holding their breath, so they took a breath. Fortunately, Yang Chen knew these words, Otherwise, their trip would become meaningless.

“I thought it was a key to a secret plane, but it doesn’t look like it.” Yang Chen followed his words and brought the three into a whirlpool of shock.

“This is not the secret plane’s key?” The Yuanying stage ancestor in the middle was shocked and stood up directly. This was not a secret key, then what have they been bustling about?

“Exactly, this is just a way to guide the opening of the secret plane.” Yang Chen smiled and replied slowly.

Their heart that hung in their throat, fell back into their chest and then hung to the throat, and fell back to the chest again. Even the three Yuanying stage ancestors would not feel so soul stirring in the most dangerous battles, but they were feeling like this after a few words by Yang Chen over and over again.

The method of opening the secret plane, even if it was not a secret key, it was not much different. The three people finally put their hearts back into their stomachs. The eyes of the three people were very badly staring at Yang Chen’s face and they were almost driven mad by Yang Chen.

“How do you open the secret plane?” asked the representative of the Yuanying stage ancestors in the middle. If Yang Chen was not required to interpret these words, maybe he couldn’t help but punch a fist on Yang Chen’s head or use a sword cut Yang Chen in half.

“I don’t know!” Yang Chen shook his head directly and replied very succinctly: “The inscription above is not recorded.”

The three Yuanying stage ancestors were almost driven mad. Having said all that, he didn't know, and what record was not there? Then where did Yang Chen's conclusion in the beginning come from?

"Then how do you know that this can guide the way to open the secret plane?" The screams of the ancestors were almost deafening. If they still did not want to get an explanation from Yang Chen, they might have already flew out a sword and took the head of Yang Chen from his body.

"The inscription on the surface records only a guiding array and the real content is still in this." Yang Chen raised the secret key in his hand and replied casually: "Just follow these inscriptions. , making a small formation, you can open the content inside."

After that, Yang Chen smiled and said something while relaxing "This is also good, at least I don't have to worry about you running me to reveal secrets and killing me. Anyway, I don't know, isn't it?"

Yang Chen's words made the three Yuanying stage ancestors somewhat speechless. In fact, the swearing of the heart oath was indeed the most solemn test, but it was not the most timely pledge. If Yang Chen revealed the secret, he would face the heart devil while he was crossing his tribulation. Maybe it would not happen for many years.

What really made people feel at ease was still the dead. The dead couldn't talk and was the most secretive.

"How is this formation made?" The Yuanying stage ancestor asked Yang Chen. He didn't want to talk to Yang Chen more than possible

. He just wanted to know all the content, then quickly leave the damn guy and never wanted to see his damned face again.

"Forget it, I will tire myself to help you make it!" Yang Chen sighed, pulled out a jade card from his body and then carved it on the top.

The three Yuanying stage ancestors stared at Yang Chen's technique without looking away. It seemed that they wanted to see it clearly and remember it. Yang Chen did not evade, just in front of the three of them he made it honestly and even explained along.

No one would have thought that this originally flat jade card was actually a jade card that was used by Yang Chen to make a camouflage. Three Yuanying stage ancestors, who would find this under the intervention of Yang Chen's powerful late dacheng stage spiritual awareness.

In fact, before Yang Chen, the three Yuanying stage ancestors emotions suddenly went up and down, completely conscious, in order to cover up Yang Chen's own actions at this moment. When the three people were filled with anger, it was also the time when their defenses were at the loosest, especially when they fully understand what Yang Chen could do.

In a breeze, in the face of the three Yuanying stage ancestors, Yang Chen completely completed the jade card with a trap that he had already refined, and then handed it to the representative in the middle.

"Just put this jade card on the key and enter a little spiritual power into it, you can release the contents sealed inside." When Yang Chen returned the key, he did not forget to tell them how to use it "If you If you don't feel secure with my jade card, I have explained the production method to you so just make a jade card in the same way."

"If you dare to lie to us, I will kill you personally!" The Yuanying stage master in the middle was obviously not so restrained. He took the jade card and the secret key, dropped a sentence and put up the restrictions and the plate turned around and left.

The two companions next to him, without saying a word, also stared at Yang Chen with a disgusting look, then they followed their partner who had already gotten up and left.

Out of the quiet room, the three Yuanying stage ancestors did not hide their serious faces, but only politely confessed to the head of the palace and several elders and then left with their flying swords directly in front of everyone, this time their attitude was very different.

Watching the three people leave, Yang Chen's face showed an inscrutable smile. When he just made the jade card, he had already printed the little trap on the jade card that had already been completed in an inscription stroke of the secret key. As long as the other party made a guiding method according to the method he said, it would lead to the trap.

It was conceivable that the people of the Greatest Heaven Sect would never believe in the jade card made by Yang Chen and would definitely make one. The arrangement on the secret key, under the influence of Yang Chenqiang's extreme spiritual awareness, even the most powerful elders of the dacheng stage would not detect anything.

Now Yang Chen has begun to look forward to the situation. Once the Greatest Heaven Sect opens the trap, it would be a situation where people couldn't wait to know the result.

The head of the palace made a cold face and walked into the quiet room. The attitude of the three guys was very irritating to the head of the palace. Seeing Yang Chen, the face of the head of the palace became a little better.

"How is it?" Asked the head of the palace.

"Let's wait and see the show!" Yang Chen showed a well-thought-out smile and gave the head of the palace the answer he wanted to hear.

"There would not be any trouble with the heart oath?" The palace master showed a smile, but he was somewhat worried.

"This disciple just promised not to reveal the secret on the secret key." Yang Chen replied with a smile "But this disciple can't guarantee it that i would not reveal the secret plane left by the consciousness clone."

Chapter 374.1: Top Secret News

Yang Chen's answer made the head of the palace stare for some time and then he laughed. With his wisdom, he immediately guessed that Yang Chen had played a clever trick and gave the secret message conveyed by the consciousness clone to the Greatest Heaven Sect and now the secret plane recorded on the secret key in the Greatest Heaven Sect's hand, was grasped by Yang Chen secretly.

"Ha ha ha!" The happy laughter has been going on for a long time then the palace master stopped, he watched Yang Chen for a while "Well, I won't ask, as long as you don't leave these things too the Greatest Heaven Sect then it will do."

The meeting this time around could be regarded as a very unexpected process. The Greatest Heaven Sect even condescended to lower their face and seek cooperation with the Pure Yang Palace. The palace master and the elders were able to enjoy the respect of the representatives of the Greatest Heaven Sect, the palace master would not dislike something like this happening more often.

Even if the palace master does not say this, Yang Chen would not leave these things to the Greatest Heaven Sect. The secret key brought by the Greatest Heaven Sect was actually not a real secret key. As Yang Chen said, the method of entering the secret plane was described above, the key itself does not have much effect.

Since the message of the secret plane of the Greatest Heaven Sect was given to him, Yang Chen naturally wanted to leave this secret plane as his own reward. Anyway, as long as it was a thing of the Greatest Heaven Sect, Yang Chen would not be soft.

However, it was not Yang Chen's style to completely give the sinister secret plane to the Greatest Heaven Sect. Therefore, it was necessary for Yang Chen to run to the Blue Cloud Sect and the Green Jade Immortal Island to clarify his intentions to sect master Lu and the island master.

The three representatives of the Greatest Heaven Sect, after getting the specific things, did not dare to neglect. They did not stop at all and flew straight back to the Greatest Heaven Sect.

The sect has been waiting for this secret plane for several decades, the things inside were enough to reinvigorate the power of the Greatest Heaven Sect. At least in terms of resources, it was absolutely possible to return them to the period in which the Greatest Heaven Sect was at their peak. The high-level officials had high hopes for this secret plane and they naturally knew how important it was.

The first thing they did when they returned to the sect was to see the sect master and hand over the explanation and the jade card produced by Yang Chen to the sovereign. Of course, the process of making the jade card was also recorded in detail on a bamboo slip and also handed in.

The high-level officials of the Greatest Heaven Sect immediately gathered to discuss. For the time being, for Yang Chen's explanation, everyone seemed to have some feeling of not trusting it. This was not a distrust of Yang Chen's ability, but because of his identity. You must know that Yang Chen was related to the death of six of their Yuanying stage masters.

This jade card made by Yang Chen also made some of the refining and formation masters of the Greatest Heaven Sect snort contemptuously, it had poor techniques, poor arrays and poor materials. It seemed that this Yang Chen was only talented in alchemy and in the other aspects, he was a slag.

This was in line with the common sense in everyone's minds. If a person's alchemy skills could reach Yang Chen's heaven defying level and then he was also skilled in refining and mastering arrays, it was something that people couldn't comprehend.

The formation method was very simple, it was a guiding array method, just at a glance, several elders who were good at formation have confirmed this. The key was to guide the content stored on the secret key. In this respect, the secret key was still a vital part.

"There is no problem with the array." An elder representative on behalf of several inspectors gave the conclusion: "It's not surprising that the kid's technique is too poor and can barely be launched."

As he said this, there was a jade card in the hands of the elder who spoke. It took just two short breaths and a well-formed guiding method appeared on the jade card. The neat lines did not look gorgeous, but the solid basic skills, made it so that the next few masters could not help but scream.

Even if the jade cards produced by Yang Chen could be used, they would not believe in it. Anyway, there was a production method, the other production was no problem and it seemed that the effect was much better than the one produced by Yang Chen.

Of course, the secret key must be taken back and checked again to ensure that Yang Chen did not do anything on it. The person in charge of the inspection was an elder of the dacheng stage. He looked at it carefully, he had to grope the surface of the secret key one by one.

The process of this inspection was very irritating to the three Yuanying stage representative. Under the eyes of the three of them, what kind of tricks could Yang Chen who was in the early Jiedan stage play? The more careful the elder in the dacheng stage checked, the more distrust they became. How could this make them have a good mood?

In the early Jiedan stage, in the short period of less than half an hour, under the close observation of the three Yuanying stage ancestors, could Yang Chen played tricks on the secret key? No matter who raised this question, it was a contempt for the three Yuanying stage ancestors.

But at the moment, the three Yuan Ying ancestors did not dare to show any anger, because the inspection of things has been replaced by another elder of the dacheng stage. These elders in the Greatest Heaven Sect could be said to be the cornerstone of the sect. If they had doubts, then there must be something to be doubtful about.

It was a matter of great importance to the Greatest Heaven Sect and they had to be careful.

When the secret key was checked by all the elders of the dacheng stage, even after several elders of the elders checked it, it was confirmed that the high-level officials had no problems to worry about.

The array on the jade card was made by the elder of their own sect, the principle of the array method was too simple. The only one that was a bit specific was the judgment principle in the array method, but this was definitely related to the secret key, otherwise wouldn't it be too bad to encounter a simple element of the array that would be guided out?

The formation has been studied by a group of people and there was no problem at all. Now, several elders of the dacheng stage have judged that the key was not having any problem and they have not been manipulated in the process of forming. Then, it seemed that they could start to launch the array on the jade card to guide the record in the key.

However, the cautious members still made arrangements first. They chose an open space and arranged a protective array. Who knew if there was any danger in this secret key?

This was not enough. In a more peripheral circle, a circle of restrictions was arranged, so that what appeared inside would not be heard by people who were irrelevant.

In short, everything was made very cautiously.

No one could do anything about this, this was not the answer given by the Greatest Heaven Sect, but Yang Chen, since the death of the six Yuanying stage master was related to him, then he probably knew the attitude of the Greatest Heaven Sect to him. Who knew if Yang Chen would also lay some traps inside for them.

After doing all this, the sect master nodded at the three dacheng stage elders inside and signaled them to start.

Chapter 374.2: Top Secret News

The three masters of the dacheng stage were in the middle and they are sure to be foolproof. In this world, there should be nothing that could kill the three masters of the dacheng stage at the same time.

Even if there was, it would definitely not be in a simple guiding formation and it was even less likely to be in a secret key that was kept by the Greatest Heaven Sect for a long time.

The jade card flashed and an elder entered his spirit power into it and started the guiding method. Then in the flashing light, the secret key was close to the jade card.

Boom, a boundless spiritual awareness violently erupted from the secret key. The sudden burst of the spiritual awareness directly penetrated the protective array and smashed all the restrictions.

The protective array was to prevent spirit power damage, but there was no way to prevent the penetration of the spiritual awareness. Moreover, this spiritual awareness suddenly broke out and did not hurt anyone, even if it destroyed the restrictions, but none of the people around it felt hurt.

In a flash, the scope of the shock wave of the spiritual awareness spread far and wide. Standing at the top of the Greatest Heaven Sect in the center, they only felt that this spiritual awareness was strong enough. According to their experience, it was at least in the late stage of the dacheng stage, it may even be close to the peak dacheng stage.

The spiritual awareness was only erupting, it was neither harming nor releasing pressure, so everyone became very relaxed. Even a few elders and the sect master were pondering, that only such a strong predecessor could put all the secrets in the small secret key and be guided to release.

Then, a very clear image was presented in the minds of the people. The picture was very clear and it was of a specific place.

Then there was a vicissitude of words. A predecessor of the ancient times, his sect was destroyed. He was also ascending and unable to change anything, so he left behind inheritances for future generations to revitalize the sect.

The location in the picture was where the secret plane was located and what kind of technique was needed to open it, but there was also a lot of warnings. The younger generations who were not strong enough should not think about opening the secret plane. There was a big danger in the secret plane, but there was also big chances left to future generations.

From beginning to end, the message of this predecessor did not mention anything about the Greatest Heaven Sect and did not mention what was inside. It was only clear that the method of opening the secret plane was very clear and the location of the secret place was very specific.

Do not say anything else, just such a powerful spiritual awareness remaining for tens of thousands of years to leave a message, it has already explained the strength of the predecessor. Although the predecessor's message did not mention anything in the secret plane, but it allowed him to warn them not to be greedy if their strength was not sufficient, but it was absolutely tempting for everyone.

There was no such fear for the Greatest Heaven Sect, their masters were numerous, how could their strength be insufficient? Was Yuanying stage master not enough? Was the dacheng stage master also not enough? It seems that this secret plane was in the bag for the Greatest Heaven Sect.

The spiritual awareness stayed for a while and said the words just now, and the picture has not changed much, It was the location of the secret place. After three consecutive times, the picture disappeared and there was no more aura.

The secret key that carried these things, under the watchful eyes of everyone, quietly turned into powder and as the wind faded, there was no trace of it.

Sure enough, it was a predecessor and the message was so earth-shattering that several elders were smiling at each other and discussed what would happen in the secret plane, then a master of the dacheng stage suddenly shouted "Not good!"

Everyone was stunned and their eyes were concentrated on the elder. After this reminder, the other two masters of the dacheng stage also instantly came to understand, almost immediately followed by the elder's words, the other two also exclaimed "not good!".

"In the coverage of the spiritual awareness, everyone can hear it!" The first dacheng stage elder who exclaimed quickly spoke a word, and then he had already flew in an instant "I will immediately block the gates, we must not let the news outside!"

This sentence almost collapsed the elders around the circle. Could everyone hear it within the coverage of the spiritual awareness? Doesn't that mean that at least a few tens of thousands of people heard the news of the secret plane?

In order to be safe, they also specially chose an open space, not the inner court of the sect, the place was protected. Two hundred miles away from this area was the inner hall of the sect. At least tens of thousands of disciples were gathered inside the inner sect. In the other direction, five hundred miles away, it was the largest square market in sect. There were countless merchants gathered there, at least one half of them, were not people in the Greatest Heaven Sect.

Just the power of the spiritual awareness, almost everyone was not aware, but by common sense, everyone could understand how much ground a late dacheng stage master's spiritual awareness could cover. At least within two thousand miles, there was absolutely no problem.

The market was two thousand miles away, although they were all in the territory of the Greatest Heaven Sect, but the people inside were not all Greatest Heaven Sect's disciples. Moreover, even if they were also disciples, they dare not say that everyone was loyal. The Greatest Heaven Sect could insert their own personnel into the Pure Yang Palace or other sects, other sects could also use this method to deal with the Greatest Heaven Sect also.

In this way, within a few thousand miles, at least 100,000 people knew the news of the secret plane. What the predecessor said was too detailed, not only did it have a clear picture, but also how to open it, in what position it was, it was too clear. It was also as if he was afraid that they couldn't remember it, so he also said it three times.

The sect master of the Greatest Heaven Sect eyes almost spit out fire, the hard work on which the sect has spent a lot of money on, even the news of asking for help and going to cooperate with the Pure Yang Palace, so that 100,000 people would know it?

At this moment, everyone present had a feeling of wanting to kill someone. But everyone knew that killing people couldn't solve any problems. The elder of the dacheng stage were right, the most urgent task was to seal the mountains. The news must not be easily leaked.

However, within two thousand miles, if they wanted to completely seal 100,000 people, even if it was the Greatest Heaven Sect, it would not be an easy task. The elder who flew out in the first time rushed to the front of the Mountain Protecting Great Formation Formation and started the Mountain Protecting Great Formation Formation, but still wasted some time.

At least two thousand people, just after hearing the news at the moment, they left the Greatest Heaven Sect with the fastest speed. Among them were visitors who come to visit the Greatest Heaven Sect, businessmen who come to the Greatest Heaven Sect to do business and even dozens of disciples of the Greatest Heaven Sect.

Even at this time, the Greatest Heaven Sect seal was like a railroad and the news was inevitably passed out.

Chapter 375.1: One Arrow Several Vultures

A secret plane passed down by the predecessors of the ancient times, among the people who suddenly heard the news, there were too many smart people. Of course, there were more people with their own aspirations.

Therefore, before the response of the Greatest Heaven Sect, some people even fled the Greatest Heaven Sect madly after just listening to it. At this time, most of the Greatest Heaven Sect disciples were still immersed in the news of the secret plane, for fear of missing a syllable.

No one would have thought of such an accident and no one would understand how such a large-scale message could be transmitted. Perhaps, as the old predecessor said, he was afraid of people who were not having sufficient cultivation base to try their luck, so they spread on a large scale.

Of course, the real opportunity was not only to people with sufficient cultivation base, but also to people with enough luck, the predecessor who left behind the secret plane said that there was a big danger, which has clearly explained everything.

The news came from the Greatest Heaven Sect, but this does not mean that this was the ancestral secret plane of the Greatest Heaven Sect. The predecessor was a master of a sect in ancient times, this was very clear. Even if the Greatest Heaven Sect wanted to, it was even more impossible to keep a lid over it. There were not one or two people who heard it, but tens of thousands.

The Greatest Heaven Sect was interested in the secret plane. The problem was that the same interest in the secret plane was never in the minority. Some people may not dare or have this enthusiasm to compete with the Greatest Heaven Sect for the affiliation of the secret plane. However, the Greatest Heaven Sect was not the only super martial art sect after all, those that could be compared with them, at least there were several.

Five Elements Sect, Blue Cloud Sect, Green Jade Immortal Island, Qiankun Sect, even some Demon Sect would not stand by. You must know that the location of the secret plane, was in the territory of the monster race, although not too far from the Dao Sects domain, but also close to the demonic sects domain.

A group of the Greatest Heaven Sect's high-level officials silently watched the reports of the sect disciples and the kind of unwillingness in their hearts was almost maximized. After spending so much time, they spent so much effort and even lost their face to ask a younger generation junior for help. They thought that the things they got were exclusive to their own sect, but they didn't think that they would be faced with such a result.

Not everyone doubted that Yang Chen was doing things, but everyone couldn't figure out the facts of both sides.

One was that Yang Chen has no such ability. The outburst of the spiritual awareness which broke out, everyone was sure that it was at least at the late dacheng stage or it might even be higher, the peak dacheng stage.

And Yang Chen's cultivation base was at the mid Jiedan stage, how could he have such a boundless spiritual awareness? Moreover, with the addition of the people of the Pure Yang Palace, there were two early dacheng stage masters, all were promoted in recent decades, where would they have the opportunity to contact the masters of the late dacheng stage?

The Blue Cloud Sect and the Green Jade Immortal Island had masters of the late dacheng stage, but how could they play such a trick? Was it in the quiet room? That was impossible, the masters of the late dacheng stage were almost all retreat in their sect, where would they have the leisure to play this trick.

Another thing that couldn't be figured out was how Yang Chen did it? When he got the key to the secret plane, it was just half an hour before it was taken back. Where did he find the time to do it? Unless everything was ready and it was implemented.

This was even more unreasonable. If Yang Chen was ready in advance, it means that Yang Chen knew the existence of this secret plane. Don't mention Yang Chen, if it was changed to someone in the room, who would expose the secret of the secret plane that they had? This does not make sense.

Therefore, if this was the case, Yang Chen's suspicion was the smallest. The only explanation was that it was the arrangement of the ancient predecessor.

There was still a doubt that couldn't be figured out. Was this secret key not left by their ancestral predecessors? How did it become an ancient predecessor and it had nothing to do with their sect? Wasn't it there in their sect records?

When someone raised this question, in a short while, the elders were embarrassed to answer the question.

This was indeed a thing recorded by the sect, but the original owner was not from the Greatest Heaven Sect, but it was still debatable. The Greatest Heaven Sect has a long history and their hegemonic style has not been cultivated in recent decades, but has been adhering to the development of the martial art sect.

The things that their sect disciples snatched from other people's hands were naturally their sect's things. It was this simple and rude logic, so this thing has become the legacy of the Greatest Heaven Sect's predecessors. As for how the remaining seniors got it, no one knew.

As soon as thousands of people were found to have left the market, the high ranking members of the Greatest Heaven Sect began to gather together to discuss countermeasures. No matter what, it was the Greatest Heaven Sect who has spent a lot of time to get the secret plane.

Immediately there would be a dacheng stage elder with a few Yuanying stage masters and a group of Jiedan stage disciples who would first go to the ground to occupy the site and then prevent others from going in.

Among the people who have gone out, there was no master of the dacheng stage, so even if other sects got the news, they would be later than the Greatest Heaven Sect. If there was a dacheng stage elder to oversee things, the idlers would not dare to offend easily.

Next, they would have a headache with the problems that would be caused by the big sects. The Greatest Heaven Sect originally had an excuse. After all, the secret key was in the hands of the Greatest Heaven Sect. However, the only key to the secret plane was now turned into powder, there was no way to provide even evidence now.

And the predecessor said clearly that it was an inheritance of an ancient ancestral sect. Since it was the ancient ancestral sect, it has nothing to do with the Greatest Heaven Sect. No matter what they did, there was no way to take all this resource for themselves.

The only way now was to race against time and grab the resources from the secret plane immediately before the other big sects reacted. They would sweep the things away and leave an empty space for the others, this was the right way. In the case of such a thing, the person who played the fast hand would be the winner, this was the default rule of everyone.

After the consultation, another elder of the dacheng stage took a few Yuanying stage ancestors to the secret plane. In the imagination of the people, the two masters of the dacheng stage were enough to deal with all the things.

This was exactly what Yang Chen wanted. Originally, the Greatest Heaven Sect got the guidance of the consciousness clone and their preparation was very full. Even so, it also damaged several masters of the dacheng stage. The consequences of the hasty action now would become self-evident. Not only couldn't they get anything, but they would also suffer serious losses.

And this kind of mistake would also give enough time to other large sects to gather. This was also the reason why Yang Chen was slowly taking a long walk along the way, just like the water in the mountains. After waiting for the news to reach the major sects, this was when he appeared in the Green Jade Immortal Island.

The two masters have to know these things before they could make further arrangements for this. Next, it must be seen whether Yang Chen could successfully convince the two sovereigns.

Chapter 375.2: One Arrow Several Vultures

Seeing Shi Shanshan again, Yang Chen's eyes lit up. The last time, Shi Shanshan was somewhat impaired by the heart devil and her spirit was very weary and the state was also very long. But this time, fairy Shi was more elegant and threatening, as if she was a sword with a scabbard, it was very heroic and also vigilant.

"This is the real fairy Shi!" Yang Chen couldn't help but sigh and exchanged a little bit of rare charming eyes with Shi Shanshan. Later, Yang Chen was taken to the island master.

Yang Chen helped the Greatest Heaven Sect interpret the secret key, this was no secret and many people knew it.

Especially after interpreting the secret key, the Greatest Heaven Sect also made such a big mistake, the cause and effect were more well known.

Although there seemed to be no direct relationship with Yang Chen, the island master hoped to know the specific situation.

"I know that you have made a heart oath, and you can't disclose it." When the island master talked with Yang Chen, there was no slight change and she was straightforward and straight to the point.

Yang Chen and the island master were already acquaintances. Secondly, as the sect master of the Green Jade Immortal Island, she did not want to play a small means for a later generation junior. With Yang Chen and her own disciple Shi Shanshan relationship, it was not too difficult to ask anything.

"I just want to know if my Green Jade Immortal Island decides to participate in it, is there a chance for us?" In the words of the island master, there was no need to mention anything inside, but only the result, It was impossible for Yang Chen to leak any news this way.

Moreover, the news has already flown all over and there was no need to ask Yang Chen any details.

The island master only asked this because Yang Chen was the one who had the most direct contact with the secret key at that time. She wanted to hear his judgment and nothing more.

This saved a lot of troubles for Yang Chen, without having to explain any intrigues and tricks, or to win the trust of the island master. He just had to give his own judgment and the rest would be determined by the island master.

“The younger generation can’t say too much.” Yang Chen first pleaded, this was a courtesy and an attitude of self-discipline. After all, it was a heart oath, although it has no effect on himself, but he cannot let outsiders think that they have no scruples, which would cause a lot of doubts.

“It’s fine!” The island master was also a refreshing person, there was no outsider here except Shi Shanshan and she wanted to come and arrange it early. It seemed that the Green Jade Immortal Island was also very covetous of the secret plane, otherwise there would be no such situation.

“There is a big danger, there is a big gain.” Yang Chen opened his mouth and said, which was the fact that everyone actually understands that this was what the predecessors have repeatedly said so it was not surprising.

“Only these?” The island master frowned slightly, this news had no meaning for her. It was all known information already.

“According to the judgment of this younger generation, at least five masters of the dacheng stage are needed.” Yang Chen finally said his judgment, followed by another sentence: “And not necessarily all will come back.”

Hearing up to here, the eyes of the island master illuminated like bright lights. Yang Chen said that it was a judgment. However, with the understanding of Yang Chen by the island master, Yang Chen was by no means a person who believed in talking irresponsibly. It must be said that Yang Chen certainly knew the reason.

But she would never ask Yang Chen for his reasons at this time. Yang Chen made a heart oath and he could not reveal any details. This judgment was inferred from the details, not included, but also illustrated a lot of things.

They needed five masters of the dacheng stage, which meant that they do not have to worry about the Greatest Heaven Sect's plan to take the advantage, it not necessarily all of them could come back, that was, there may be some dead. It was likely for some of the five dacheng masters to die, so if two masters of the dacheng stage were not able to do it automatically, they may all be killed.

If the Greatest Heaven Sect lost two masters of the dacheng stage, it would be good news for several other sects. If the master of their own sect appeared at the time and opens the secret land, isn't the resources inside it available for them?

However, some people would not be able to come back, so the sect master was reluctant! The thought of the island master turned fast, she immediately thought of another aspect, there were many masters in the sect, but there were also a few disobedient guys. What was the difference between a disobedient master and there being no master?

As the island master, she was also a decisive figure and there was a final decision formed in her mind. With nothing more to say, she just asked about Yang Chen "What are your plans next?"

"This younger generation junior is going to see Little Xue in the Blue Cloud Sect." Yang Chen did not hide his whereabouts and his words also made the island master think more deeply.

What was Yang Chen going to the Blue Cloud Sect for? Obviously, he also had to tell these words to the Blue Cloud Sect. At this point, the island master thought that the Pure Yang Palace does not want to discriminate between their own allies, which was how it should be.

Since even the Pure Yang Palace could be so thoughtful, then the island master of the Green Jade Immortal Island, an ally, couldn't fall behind. Since the Blue Cloud Sect was an ally, it was not unreasonable to take this secret plane together. On the other hand, the income of the 100,000 mountains, everyone was happy to cooperate, and it was no problem to cooperate more.

What made the island master more active was that the Blue Cloud Sect seems to have several masters who don't listen to sect master Lu. There were also five or six on both sides, which was enough to make a difference in the secret plane.

Yang Chen didn't say which one might not come back and he couldn't know where he couldn't come back. So, in this case, it's better to let these disobedient guys try, no matter which one couldn't come back, it would not be against themselves, for sect master Lu, it was not a bad thing.

As for the guys who don't listen to them, but the resources of the secret plane would be tempting, they would be willing to take such a trip. At that time, as long as the appropriate time to arrange a few masters, then most of the resources could still fall into the hands of the two sects.

Such a wonderful opportunity was simply a gift to the two masters. Not only could it weaken the strength of the Greatest Heaven Sect, but it could also clear the hidden dangers in their sects and also harvest resources.

The only thing to worry about was that the Five Elements Sect and Qiankun Sect would also intervene, but in any case, their preparations would not be as comprehensive as the Blue Cloud Sect and the Green Jade Immortal Island. Everyone was a competitor and the first step was to take the opportunity to move step by step.

The island master was now satisfied with Yang Chen. Yang Chen two sentences before and after, this was said about the risk of violating the vows of the heart oath. This made the island master more pleased.

"That's the case, Shanshan and you haven't seen each other for a long time. Young people have to get along with each other. It's better for you to go and see her together!" The island master suggested "By the way, I will need your help to convey something to sect master Lu."
