Chapter 376.1: The Greatest Heaven Sect's Loses

Making Shi Shanshan and Yang Chen go together, the decision of the island master seemed to be quite interesting.

If it was said that Yang Chen went to the Blue Cloud Sect and he took Shi Shanshan, it was nothing more than showing others that the relationship between Shi Shanshan and him was closer, slightly showing it to Sun Qingxue. Of course, the roots were still the means of attracting Yang Chen by the Green Jade Immortal Island and the Blue Cloud Sect.

But when Shi Shanshan accompanied Yang Chen this time, it seems that there was some different meaning, especially the last sentence, giving her regards to sect master Lu, it was more mysterious.

Yang Chen could almost conclude that the island master already had some thoughts. It was estimated that this opportunity was used to show her attitude through Shi Shanshan.

After recovering from the heart devil's, when Shi Shanshan and Yang Chen were alone, they were no longer having expressions of coldness, it was much softer.

In Yang Chen's shuttle, Shi Shanshan still made the tea. Just like a wife serving her husband, she carefully prepared the tea for Yang Chen.

"When I was traveling around outside these years, I also collected a few spirit springs and found a few tea trees. You can help me to appraise it." When Shi Shanshan said this, she handed the first cup to Yang Chen.

"I remember you like this taste."

It was rare that Shi Shanshan would care about what kind of tea Yang Chen liked, this was a big improvement. At least in the memory of Yang Chen's past life, no lucky guy had been so concerned for by Shi Shanshan. Usually the man who Shi Shanshan paid attention to would become a dead person soon.

Yang Chen enjoyed the service of Shi Shanshan and gave a judgement. Speaking of it, with Yang Chen's insights and reading of various miscellaneous books, the things that have been said in this respect were still very much inexplicable, pointing to the key points and letting Shi Shanshan listen to it with frequent nods.

No matter how good the taste was, if you only enjoy one kind of thing, you could get bored. Shi Shanshan's approach was very correct. A variety of tea leaves and spirit springs were collected and with a variety of flavors, each time they could change, it was also the best enjoyment.

Sun Qingxue didn't like the tea ceremony very much. She took a sip of it, and then she was delighted to see that Yang Chen had just arrived. "I have people who have collected a few special "distillery" in various places. You want to drink. What kind of wine is OK. Every year I will help you to leave a few hundred tea. After a few years, you can enjoy it."

Shi Shanshan had good tea, but under the influence of Yang Chen, Sun Qingxue liked wine. She was from a big family so her alcohol capacity was good and she could accompany Yang Chen to drink. However, Sun Qingxue has always been aware of the amount she could control, the beauty who drunk could increase the taste, but alcoholism could be difficult to read.

In the vagueness, the two women had some tit-for-tat meanings. In the past, whether it was Shi Shanshan or Sun Qingxue, Yang Chen provided tea for them, but this time, both women had their own preparations.

However, this tit-for-tat did not last too long. The news that Yang Chen came to the Blue Cloud Sect had already reached the ears of sect Master Lu. Soon, Elder Hua Wanting personally appeared and brought Yang Chen to face sect Master Lu.

When he faced Sect Master Lu, Yang Chen did not panic. After Elder Hua brought Yang Chen over, it was not known where she went. There were only two people, Yang Chen and Sect Master Lu. Yang Chen clearly found that there were at least a dozen restrictions around them.

"What did you say to the island master of the Green Jade Immortal Island, you can also tell me again." Sect Master Lu seemed to have long heard that the island master and Yang Chen had some exchanges so she was straightforward and said this to Yang Chen.

In his past life, Yang Chen never expected that one day he would be able to communicate with the Blue Cloud Sect's sect master or the island master of the Green Jade Immortal Island, this was only treatment for powerful experts. In this life, there had been several such incidents and Yang Chen was somewhat accustomed to it.

The same short words, the same judgmental tone, once again was told by Yang Chen. Yang Chen did not say a word more, nor did he use any certain affirmative tone.

It could be said that people who could be in high positions often thought the same way and their starting point was the same. Soon Sect Master Lu also realized the opportunity, and also understood the intention of the island master to let Shi Shanshan come to meet and bring her greetings.

The specific arrangement of Yang Chen would definitely not be wasted. Anyway, there was the excuse of the heart oath, many of the reasons that were needed to convince the two major sects would not need to be said, he just needed to say his judgment. This saved Yang Chen from a lot of problems, he had a headache about this, but now it was solved.

His goal was accomplished, so Yang Chen relaxed with Shi Shanshan and Sun Qingxue as they had a tasteful taste of tea drinking, it was a pleasant situation. Recently, the Blue Cloud Sect seemed to have an auction, Yang Chen also intended to stay and participate.

Although the secret message left on the key of the Greatest Heaven Sect was very attractive, it was obvious that this time was not the best time for Yang Chen to take action. There must be a lot of people staring at his whereabouts, expecting him to go out and find a legendary treasure, and then fight him for it.

Although Yang Chen had already made a heart oath, there were definitely people who didn't believe it. This was human nature and the heart oath would only appear when he was facing tribulation. Many people had not even thought that they would face tribulation one day, so even if they made a heart oath, some people didn't care about it too much.

Perhaps they thought that Yang Chen and their thoughts were the same, so after Yang Chen left the Green Jade Immortal Island, many people followed him. Yang Chen's shuttle did not fly, at least dozens of people were careful to follow behind, they wanted to catch a bargain.

If they didn't look at Yang Chen and Shi Shanshan, the cold plum fairy maiden being together, maybe someone would do it. Since Yang Chen was familiar with ancient scripts and has read a lot of books, it was said that he also found several secrets in the records, so there may be similar places. As long as they could catch Yang Chen, they could get this news from his mouth.

Fortunately, Yang Chen's goal was the Blue Cloud Sect and no one dared to do it. In the Blue Cloud Sect, Yang Chen and Shi Shanshan started, it was not a treasure hunt, but directly called the two major sects.

Yang Chen discovered this early, so he carefully planned for it. This wind tide was actually very easy to stop. As long as the secret plane of the Greatest Heaven Sect was opened, there would naturally be many people who would no longer be concerned about Yang Chen.

However, if he really wanted everyone to go, then he needed another means. Everyone knew that Yang Chen was not a soft persimmon, nor was he a good one. If they wanted to move Yang Chen, they must consider whether they could afford the price.

Chapter 376.2: The Greatest Heaven Sect's Loses

The Blue Cloud Sect and the Green Jade Immortal Island planned in accordance with Yang Chen's thoughts, each of them sent three masters of the dacheng stage to join hands in the secret plane. Before their departure, the two sect masters also quickly reached out, clarifying the ardent hopes of their sects and the intention of cooperation between the two sides to their respective masters.

The temptation of the resources in the secret plane and the possible breakthrough opportunities made the six masters have some expectations. They thought that this kind of good thing would not fall into their laps. After all, they did not deal with their respective sect masters with respect, but they did not expect that this piece of meat would fall from the sky for them.

"Other people are busy with things, as there is no manpower, we can only the hard work for you." Sect master Lu said this, it was not known how the island master expressed her decision, but it was estimated to be similar.

The two sects masters have repeatedly stressed that the secret plane was dangerous and they must be united to cope. No one would doubt that there was anything wrong with this. The six masters themselves would never believe that the sect masters would give up their masters of the dacheng stage.

One by one they seemed to be full of enthusiasm, and even very loyal to the table, this was the starting point.

Regardless of the development of these situations, Yang Chen was now trapped in another gentle courtship.

It seemed that when Yang Chen went to see Sect Master Lu, Shi Shanshan and Sun Qingxue had two faint confrontations, one for him to taste tea and one for him to drink wine. Although Shi Shanshan and Sun Qingxue did not show the posture of the secular world concubines struggling for attention, but there were also a few signs.

After returning from Sect Master Lu to the residence of Sun Qingxue, Yang Chen became dumbfounded. The two girls seemed to have suddenly recovered their intimate relationship long ago, they were like sisters, it seemed that there was no gap between them.

For Yang Chen, the two girls still maintained their respective attitudes, but it was obviously more of a cooperative atmosphere. Yang Chen didn't know what happened during this time. The only doubt was Elder Hua, it must be that in the time he talked with Sect Master Lu, she must have said something to the two girls which lead to this.

This feeling made Yang Chen 'fascinated', Yang Chen certainly did not want the two girls to fight because he was close to them. Now, it's good, Yang Chen planned to take the two girls to travel the sea after the auction, while collecting some sea spirit medicine, they could also gain experience.

After just three months, the news of the secret plane was finally beginning to spread.

Sure enough as Yang Chen expected, when the two masters of the dacheng stage with about ten Yuanying stage ancestors dispatched by the Greatest Heaven Sect first arrived at the secret plane. In order to dominate the resources of the secret plane, when the other big sects have not reacted, they wanted to force open the secret plane.

There was no mistake in the method of opening the secret plane provided by Yang Chen. Similarly, there was no big mistake and danger, and even if you need a big chance to get it, there was no mistake. The only mistake was that these sinister descriptions were too simple. The danger warning was really not to make everyone cautious.

The secret plane was opened, but a protective array method triggered by the opening moment directly caused one dacheng stage master to turn to ashes and the other was seriously wounded and became unconscious. And among the ten Yuanying stage ancestors, at least six disappeared on the spot and the remaining four were all wounded.

Fortunately, there was a group of Jiedan masters who had also arrived at the scene, and when they opened the secret plane, in order to prevent some people from being disturbed, these Jiedan stage masters were scattered around and were not gathered together. It was precisely because of this that these people could save several injured people in times of crisis.

The loss of a dacheng stage master and six Yuanying stage ancestors, made the Greatest Heaven Sect want to cry without tears. But since it has already paid such a large price, it was absolutely necessary for them to grab the resources in the secret plane. Under the pressure, the Greatest Heaven Sect sent another three dacheng stage masters who rushed to the secret plane.

However, at this time, it was already too late. The five elements sect, the Qiankun Sect, including the Blue Cloud Sect and the Green Jade Immortal Island also began to arrive. However, after all, the news was somewhat unequal. The Five Elements Sect and Qiankun Sect only sent a master of the dacheng stage each. On the contrary, the alliance of Blue Cloud Sect and the Green Jade Immortal Island was the strongest, they had six dacheng stage masters added with a bunch of Yuanying stage masters. They almost directly dominated the exploration of the secret plane.

It would take a few months to go back and forth, so it was too late to mobilize people from their sects. Under the strong leadership of the six masters of the dacheng stage, the Greatest Heaven Sect, the Five elements sect and Qiankun sect also had to lower their heads and they agreed to jointly explore the secret plane and share the benefits.

In fact, the five elements sect and the Qiankun Sect knew that this secret plane message was leaked from the Greatest Heaven Sect, but they did not think that it would be so dangerous. If they were able to share a piece of the cake, they would be very satisfied. The ones who were seriously frustrated was only the Greatest Heaven Sect, the things that they fought hard to get became even cheaper for others, this situation, it was really impossible for people to swallow.

However, the situation was stronger than the people, and the Greatest Heaven Sect had just lost one and a half of their dacheng stage masters. Even if they wanted to fight, they would not have enough strength. In particular, looking at the appearance of several other sect masters, it seems that as long as

they do not agree, they would be overwhelmed. Under this situation, there was no other way than to quiet down.

Between the big sects, everyone's competition was also very fierce, especially at this time, everyone knew that the other party would definitely seize every opportunity to eliminate possible opponents. Even if a simple agreement was reached, they still had to be careful.

Eleven masters of the dacheng stage joined forces to open the secret plane again. This time, there was a foresight of the situation. Under careful precautions, the protective array of the secret plane entrance did not bring any casualties.

After entering the secret plane, the masters found that the secret plane was large and the resources were indeed rich. So they split their actions and each went in separate directions to collect resources. Subsequently, the tragedy reappeared, no matter which direction, there was a strong protective array method, the two dacheng masters of the Five Elements sect and the Qiankun sect were directly destroyed by the array.

The Greatest Heaven Sect, the Blue Cloud Sect and the Green Jade Immortal Island were not much better. The Greatest Heaven Sect once again damaged a dacheng stage, while the Blue Cloud Sect and the Green Jade Immortal Island lost three, and the remaining three were all wounded and desperately escaped the secret plane.

The Blue Cloud Sect and the Green Jade Immortal Island were prepared, and the follow-up reinforcements appeared only ten days later. They were also six masters of the dacheng stage. This time, they took over the secret plane directly. According to the number of remaining masters, the secret resources were divided into eleven. Two for the Greatest Heaven Sect, five for the Blue Cloud Sect, and four for the Green Jade Immortal Island.

The masters united, all in one direction, and finally all the resources were divided.

It's just this embarrassment made the Greatest Heaven Sect almost vomit blood. They lost two and half dacheng stage masters, but only got less than one-fifth of the resources, the Greatest Heaven Sect had never eaten such a big loss.

Chapter 377.1: Satisfaction

When the third batch of reinforcements from the Greatest Heaven Sect rushed over, they could only pick up the two injured dacheng stage elders. The people of the Blue Cloud Sect and the Green Jade Immortal Island had already carried a large number of harvests and gone back to their respective sects.

This time, the Greatest Heaven Sect could be said to have lost their wife and soldiers, two masters of the dacheng stage directly died and the other was still unconscious. Even if he could wake up, his realm would plummet. It could be said that the three masters of the dacheng stage have been lost.

The two remaining masters were also seriously injured and without a recovery period of one or two hundred years, it would be impossible to reach their peak state. The Greatest Heaven Sect suddenly lost five masters of the dacheng stage.

In the entire Greatest Heaven Sect, the number of masters in the dacheng stage was also six or seven, this was equivalent to directly removing the most high-end power of the Greatest Heaven Sect. But in exchange, they only got a part of the secret plane resource that was less than one-fifth of the total.

The sect master and the elders almost cried out. The leaders of the dao sects sent a party to retrieve resources, not only did they redraw but they also suffered heavy losses. Not only the young disciples have been hit hard, but now their strength has declined sharply. One day, if their current masters of the dacheng stage were to cross their tribulation and ascend, what was the Greatest Heaven Sect going to look like then?

However for this kind of thing, it was impossible for the Greatest Heaven Sect to find the Blue Cloud Sect and the Green Jade Immortal Island for an explanation. Yes, the news of the secret plane was obtained from the Greatest Heaven Sect. However, if they have not blocked the good news and vented it, they couldn't wonder if everyone wanted to embrace it.

If they could confirm that this was the secret plane left by the predecessors of the Greatest Heaven Sect, the Greatest Heaven Sect could of course be justified if they demand that all the sects could not get involved, but unfortunately, almost everyone who got the news could prove that this secret plane had nothing to do with their sect. What relationship did the ancient sect have with the Greatest Heaven Sect?

If they have to say something, it was that the Greatest Heaven Sect got the key to the secret plane and interpreted it, nothing more. However, since it was an object belonging to no one, it would belong to whoever got it.

Other sects would not give the opportunity to the Greatest Heaven Sect. In fact, at the beginning, if the Greatest Heaven Sect concentrated on breaking into the secret plane entrance with their full strength, then they may only take a small loss and get all the resources.

In fact, in the memory of Yang Chen's previous life, the Greatest Heaven Sect did it exactly like this, by probably deducting one or two masters, but the harvest was amazing, otherwise the Greatest Heaven Sect would not be so triumphant. However, everyone had neglected the big dangers in the warning, so it would lead to such a bitter outcome.

The unluckiest ones were not the Greatest Heaven Sect, strictly speaking, the most unfortunate were the Five Elements sect and the Qiankun sect, each lost a master of the dacheng stage, but nothing was obtained.

Even for the Blue Cloud Sect and the Green Jade Immortal Island, they also damaged two dacheng masters, while losing one, and of the previous six, all of them were seriously injured. They were basically the same as the Greatest Heaven Sect, the loss was heavy. Within a hundred or two years, the three seriously injured dacheng masters could not recover.

However, the two major sects were lucky and they paid more attention to the dangers in the news. They paid more attention to the masters. So they got the majority of the secret resources, and they barely made a small supplement.

The key was still at the last moment or from the beginning, the Blue Cloud Sect and the Green Jade Immortal Island joined forces to solve the problems. The combined power occupied an absolute dominant position and this was why they got the harvest.

Except for the two major sects themselves, no one knew what resources they received, but each one went back with a gloomy appearance, it seemed that almost all of them had lost something.

Under the circumstances, the Greatest Heaven Sect had to unite with the Five elements sect and Qiankun sect to talk with the Blue Cloud Sect and the Green Jade Immortal Island about the redistribution of the secret plane's resources. In this respect, the Five elements sect and Qiankun sect were standing on the side of the Greatest Heaven Sect. After all, their experts died without gaining any gains.

But soon the alliance became loose and then broke. The Greatest Heaven Sect has always been aloof and the Five Elements sect and the Qiankun sect were also secretly competitive. In the event of the desolate valley, the attitude of the Greatest Heaven Sect had been fully explained.

In addition, the Greatest Heaven Sect, Five Elements Sect and Qiankun Sect all required redistribution of the income, but the distribution plan could not be recognized by everyone.

Equal distribution? One-fifth for each of the five sects? The Greatest Heaven Sect had almost gotten one-fifth of the resources now so it would benefit only the Five Elements sect and the Qiankun Sect, how could the Greatest Heaven Sect agree?

Yes, the Blue Cloud Sect and the Green Jade Immortal Island would grow stronger, but they get one-fifth of the resources. The Greatest Heaven Sect also knew what this pile of sects means. If the Blue Cloud Sect and the Green Jade Immortal Island would be able to develop these resources and could compete with the Greatest Heaven Sect, then the Five Elements sect and the Qiankun sect could absolutely do the same thing.

The Five Elements Sect and Qiankun Sect only lost one of their masters of the dacheng stage. This was not the case for the Greatest Heaven Sect, they would have brought two more competitors to themselves. Therefore, the average distribution naturally couldn't satisfy everyone. The Greatest Heaven Sect would not propose it, and the Blue Cloud Sect and the Green Jade Immortal Island would not agree at all.

Only the Five Elements sect and the Qiankun sect proposed it, but they were rejected by the three sects. Most of them disagreed and naturally could not accept it.

According to the distribution of the experts allocated? Before and after, the Greatest Heaven Sect used five masters of the dacheng stage, while the Blue Cloud Sect and the Green Jade Immortal Island had six of them, the Five Elements sect and the Qiankun sect had two, by the average distribution, the Five Elements sect and Qiankun sect could get one-twentieth and the Greatest Heaven Sect could get more, one-fourth, it would still leave the big piece to the Blue Cloud Sect and the Green Jade Immortal Island.

According to the loss of the experts allocation? The Five Elements sect and the Qiankun sect each lost a dacheng stage master, the Greatest Heaven Sect lost two, the Blue Cloud Sect lost two and the Green Jade Immortal Island lost one. This process was good, but the Greatest Heaven Sect, Blue Cloud Sect and

the Green Jade Immortal Island were not doing it, the loss was not only the dead, but also those seriously injured, the Greatest Heaven Sect had six Yuanying stage ancestors who were injured, how should this be calculated?

In short, everyone was about the same strength, and no one wanted to let it go. This redistribution was naturally endless. In fact, everyone knew how it was possible to spit out something that has arrived. Even if the Greatest Heaven Sect has always wanted to redistribute, but making them take everything out, they were not willing.

Chapter 377.2: Satisfaction

Everyone had their own misgivings, so this discussion would naturally be lost. Whether it was the Greatest Heaven Sect, Blue Cloud Sect or the Green Jade Immortal Island, they were constantly complaining that they lost their manpower, but they did not get anything in return.

At that time, when they were splitting the resources in the secret plane, they didn't see the things, they just chose a direction. At that time, there were almost a dozen portals in the secret plane. Everything was divided according to the number of portals. As for what was inside, apart from the people who entered, others were not clear about it.

In this way, there would be rhetoric. The Blue Cloud Sect and the Green Jade Immortal Island said that several portals were empty and that there were only one or two portals with something inside and most of them were on the side of the Greatest Heaven Sect. The Greatest Heaven Sect also said that they did not get anything and the good things were in the portals controlled by the Blue Cloud Sect and the Green Jade Immortal Island.

Anyway, they didn't know what the other got, so everyone was arguing and quarreling. Even if they didn't know what to do in the end, they guessed it was good to have more. Soon a few major sects stopped this meaningless quarrel and dispersed.

As a result, apart from the relationship between the Blue Cloud Sect and the Green Jade Immortal Island, the five major sects were still somewhat tacit, and the other three were somewhat scattered and confrontational. In fact, this has always been the case, but now it was just a plus.

On the surface, it was the unfortunate luck of the Five Elements Sect and the Qiankun sect. The luck of the Greatest Heaven Sect, Blue Cloud Sect and the Green Jade Immortal Island was somewhat ok. Although they lost some masters, they were compensated.

But the one who was really happy was Yang Chen, who had directed all of this, the palace master and the elders of the Pure Yang Palace.

These last few months could be described as turbulent. Last time, the Pure Yang Palace invited nine masters of the dacheng stage to deal with the 100,000 mountains, it was already a big scene. This time, there were 19 masters of the dacheng stage, seven dead and six seriously injured. Only the second group of masters from the Blue Cloud Sect and the Green Jade Immortal Island went back intact.

There were also more than ten Yuanying stage masters who were lost and there were more than a dozen in the Jiedan stage. The result was terrifying, even if it was in the great calamity of the de-monic art, such a situation did not appear. This was the real big scene.

The people of the Pure Yang Palace deserved to be happy because everything was directed by their own disciples. The Greatest Heaven Sect lost their troops, their harvest was limited and their strength dropped again. Their allies seemed to have lost a few masters, but they were all guys who did not obey their sect masters and they had been greatly compensated by the resources and their strength would be improved.

In the inside and outside, the Pure Yang Palace had no reason to be unhappy. Yang Chen said clearly at the beginning, if they couldn't get the resources in the secret plane, it would be better to leave it to their own allies than the Greatest Heaven Sect. Now that all the goals were almost all achieved, was there anything more perfect than this?

Yang Chen was very comfortable these days. Accompanied by Shi Shanshan and Sun Qingxue, they traveled as they wanted to collect some sea medicine. But most of the time, Yang Chen and the two women traveled along the coastline near the sea.

While looking for some spirit springs and tea trees, or looking for some wine-making products, while freely collecting some of the lesser-known sea elixir, while still hearing the news about the secret plane, the days were not too leisurely. You should know that whether it was Yang Chen or the Blue Cloud Sect and the Green Jade Immortal Island, their cooperation with the Wine Im-mortal House was very good and this news could be sent to them at any time.

It was not that no one was tracking them, but the three of them didn't care. If the three people were alone, there might be someone looking for trouble, but the three people were together so there was nothing to worry about, for someone to risk the anger of the three major sects at the same time was unlikely.

Although the two women were still having their previous attitudes, they were always able to put up with each other. Yang Chen was surrounded by beautiful women and he was carrying two beauties to travel, he has already let countless young masters of various families bite their teeth in anger.

After the news from all over the place confirmed that the secret plane event was almost complete, it was already half a year later. In the first half of the year, Yang Chen and the two women accompanied each other and traveled around the world to visit some mountains and rivers.

But now everyone was finally going to separate, the two women had to go back to their sects to see the situation. After all, such a big thing happened and the masters of the dacheng stage died so it was necessary to go back to see. After reluctantly bidding farewell to Yang Chen, the two women set foot on their way home and Yang Chen became a lonely figure again.

"This time, the Blue Cloud Sect and the Green Jade Immortal Island got a lot of things and it would not be difficult for them to provide the medicinal ingredients of the questioning inner heart pill!" In the Greatest Heaven Sect, the sect master was serious and directed at several elders "You can no longer give them a chance to get the questioning inner heart pill, find Yang Chen and kill him!"

"Do it cleanly!" When an elder was ordered to arrange, the sect master suddenly gave a command. The elder nodded silently and went out.

Although dacheng stage masters of the Blue Cloud Sect and the Green Jade Immortal Island have also received damaged on this trip, if they had questioning inner heart pills in their hands, they might be able to create more masters of the dacheng stage. Under the circumstances, the dilemma of the Greatest Heaven Sect could be imagined. This time, the Greatest Heaven Sect was planning to kill Yang Chen at all costs.

In addition to this reason, there was still a bit of a bad feeling in everyone's mind, that was, the secret key was interpreted by Yang Chen. Although the guiding array was stimulated in the Greatest Heaven Sect, the result was that the Greatest Heaven Sect was not able to control it.

When they closed their mountain, they offended a lot of cultivators who came to the Greatest Heaven Sect to do business. In the end, they did not achieve the required effect, but it became the current situation.

All of this seemed to be because of Yang Chen. If Yang Chen did not know the ancient scriptures, would they be in this current situation? At this time, as long as it was related to this matter, they would almost be angered. And Yang Chen was a thorn in the eyes of the Greatest Heaven Sect and he was taken as the first object to vent their anger.

Yang Chen was controlling the shuttle, he was planning to return to the Pure Yang Palace. Suddenly, the group of spiritual awareness imprints that were surrounded by his spiritual awareness in his sea of consciousness, once again shook, reminding Yang Chen that someone began to pay attention to his whereabouts again.

All along, Yang Chen was very curious about who this spiritual awareness imprint belonged to, it could even ignore his spiritual awareness that he cultivated from the Three Pu-ri-ties Se-cret Art . So he kept this spiritual awareness imprint, he wanted to find the owner of it, and see what kind of skill he had and how he had such a strange spiritual awareness.

However, the investigation of his whereabouts in succession made Yang Chen feel a little angry.

Someone was looking for him and Yang Chen was not afraid at all. After all the attributes were congested, he needed to vent. But he couldn't let the other party find it so easily. Yang Chen made a fuss and threw the spiritual awareness imprint directly into the bloody river.

Chapter 378.1

At the same time as Yang Chen was doing this, in the Greatest Heaven Sect, a seemingly young Jiedan stage disciple who was sitting cross legged on a futon screamed, and then without warning his whole body fainted.

A group of people around him panicked and helped the youth to the luxurious jade couch. Then several people began to check spiritual examinations almost indiscriminately, while others tried to wake up the young man.

Among the few people around him, there was even a Yuanying stage ancestor. Usually, if it was just a simple coma, as long as they use spirit power to stimulate him, they could easily wake him up.

However, what was surprising was that the young man who was in a coma could not wake up with the people using this means.

The group of people waited for a long time and they all showed different facial expressions of dismay. Some of them even had sweat on their faces, as for the guys who were the servants, they all had horrified expressions on their faces.

In the end, the Yuanying stage ancestor made a decision for the people. After frowning for a while, he rushed to tell a slave “report to the sect master, tell him that the young master suddenly fainted and could not wake up!”

If Yang Chen was there, he would certainly recognize this young man who was in the small audience. He oppressed others with his authority in the past, but he was finally killed by Yang Lan and the blame was shifted onto Yang Chen for killing the young master of the Greatest Heaven Sect.

Li Liheng, the young master of the Greatest Heaven Sect, was not a cultivation genius, but he had a special physique, so he could practice a unique skill in the cultivation of spiritual awareness in the Greatest Heaven Sect.

This kind of cultivation method could make spiritual awareness grow faster than the cultivation speed of spirit power, the cultivated spiritual awareness would be very strange and the directivity was very obvious. The person who was marked by Li Liheng’s spiritual awareness was almost imperceptible. And through a unique array, it was easy to find the position of the spiritual awareness imprint.

Li Liheng’s spiritual awareness cultivation base has already reached the middle Yuanying stage and was quite similar to the sect master’s. With this unique directional feature, the Greatest Heaven Sect has secretly tracked and killed dozens of opponents, none of which was discovered.

This kind of spiritual awareness cultivation method was really special. If the person does not have a unique and rare physique like Li Liheng, it was almost impossible to successfully cultivate it.

According to the experience of the predecessor who created this cultivation method, this cultivation method could be practiced to the end of the Yuanying stage and the spiritual awareness could be raised above the peak dacheng stage, it could even be used for an extremely short period under certain conditions in the spiritual world. If someone in the spiritual world responds, you could even communicate with the masters of the spiritual world through this short-lived opportunity to enter the spiritual world.

Even if it was only for a moment, the communication could bring enough important news, which was even more convenient than the consciousness clone descending in the lower realms. A long time ago, the reason why the Greatest Heaven Sect could rise, this cultivation method was also very important and a key factor. With the support of the upper realm, it was much easier to rise than anything else.

This was one of the reasons why Li Liheng was established as a young master at a young age. With this unique method, when Li Liheng grew to the middle of Yuanying stage and even higher, it would definitely bring more earth-shaking changes to the Greatest Heaven Sect.

However, the practice conditions of this cultivation method were too harsh, so that in addition to the ancient ancestor, until now that they were able to find a suitable disciple.

In this case, Li Liheng's position in the Greatest Heaven Sect was just like a meteorite. No one could shake it. All the resources should be tilted to Li Liheng. In the Greatest Heaven Sect, Li Liheng could be said to be able to make it shine and rain.

It was precisely because of Li Liheng's importance that the former Li Liheng was killed by Yang Lan and blamed on Yang Chen, which would cause the Greatest Heaven Sect to become infuriated and destroy the Pure Yang Palace. Of course, the qualifications and stunning beauty of Gao Yue at that time really caused the hunger of the sect master.

As for the Ten Thousand Years Vermillion Fruit, it was entirely the handiwork of Yang Lan. In order to rely on Li Liheng, he did not hesitate to send his sister to Li Liheng to let Li Liheng play with her and he made a lot of evil ideas. The Ten Thousand Years Vermillion Fruit was something that Yang Lan wanted, but he told Li Liheng that it was a kind of lotus fruit that could increase his spiritual awareness cultivation base. After the incident was revealed, Li Liheng was killed and then Yang Chen was blamed.

Of course, Yang Chen would not know the inside story. The special cultivation method of Li Liheng was something that only the sect master and the two elders who were protecting him knew, other people

simply did not know that there was such a cultivation method. So in order to protect Li Liheng, Li Liheng was also rumored to be the illegitimate son of the sect master.

However at the moment, Li Liheng who was the young master of the Greatest Heaven Sect and who was very incomparable was in a coma and could not wake up. The sect master who received the news was shocked.

A dacheng stage elder checked Li Liheng's situation, but he had no way to wake him up. Several elders who heard the news and the sect master have seen it again, but there was nothing they could do.

"How could this be? How could this be?" the sect master muttered and the anxiety in his expression could not be hidden.

Several people who didn't know the truth when they saw this, in their hearts they thought that the rumors about the sect master's illegitimate child were true. Otherwise, how could the sect master be so anxious? Of course, no one could say anything, but they were all thinking about how to flatter the young sect master in the future.

"How do you serve the young sect master?" After a check and there was no result, the sect master became angry. There was nothing going well for them these days. The troubles of the secret plane have not yet passed and Li Liheng has inexplicably fainted. Was it because the heavens want to make it too hard for them to survive?

A few of the few guys who served on the young master side were all scared to the ground and their bodies shook uncontrollably. Everyone knew that recently the sect master has been in a foul mood, now as they were the servants of the young master, they became terrified.

"Sect master, the younger master fainting is not necessarily related to them." The first Yuanying stage ancestor, who was the one who told them to report to the sect master, spoke to help the servants at this time. He was also present at the time, plus with the identity of a Yuanying stage ancestor, he had a certain weight in speaking "I am afraid there are other reasons for this."

No one would have thought that the spiritual awareness imprint left by the young master on Yang Chen was being soaked in the blood river by Yang Chen. If Yang Chen didn't take it out for a moment, the younger master couldn't wake up in a moment.

When he felt that this guy has suffered enough, Yang Chen finally took out the spiritual awareness imprint and threw it to the side. At this time, he still doesn't want the person to die and he still hoped to use this thing to catch more fish.

.....

Chapter 378.2

Among the dozen figures, there were men and women, it looked like a group of rogue cultivators, following an old man who was holding a compass, flying on their respective flying swords.

Among these people, the weakest one had a peak Jiedan stage cultivation base. Seven or eight peak Jiedan stage masters, plus seven or eight Yuanying stage masters, each holding a golden ball in their left hand and in their right hand was a variety of magic weapons.

"He is flying in this direction. When we meet him, use the twisted gold net to trap him and immediately kill him!" The old man in front looked at the compass, and seemed to be estimating their distance with Yang Chen.

"Everyone spread out, this guy's flying magic weapon is very fast, I am afraid that one or two twisted gold nets can't trap him." The old man paid great attention to this action and kept yelling: "He may have a unique trump card at sea so this time we switched to the ground. Once any of the twisted gold nets work, immediately trap him with the array and kill! Show no mercy!"

The men and women behind him seem to have gotten used to this kind of situation so no one said anything, they only showed their agreement and very tacitly dispersed, basically covering all directions.

"Come on, hide!" After a while, the old man looked at the compass and suddenly ordered.

The group of men and women flashed with brilliance and then disappeared into the air one by one, as if they had never appeared before. The robes on each of them were specially refined, which could inspire a stealth array and hide the cultivator.

Yang Chen's shuttle quickly appeared on the horizon, and a thin line with almost no traces was drawn in the air and came to the front. Then, under the guise of a group of people in the dark, they suddenly stopped. As soon as the shuttle slammed into it, Yang Chen's figure appeared in the air, holding the bloody demon vine flying sword in his hand, looking coldly at the front.

"Begin!" Yang Chen's way of doing this was obviously what he found. The old man did not go to investigate how he was exposed and decisively ordered the others to begin.

Fluffy, a series of sounds resounded and a golden net bust open from several directions around Yang Chen. With unparalleled speed, the big net wrapped up quickly toward Yang Chen's body.

Yang Chen just glanced at it. In the face of more than a dozen golden nets, his body did not move at all, letting the dozen or so large nets wrap him from all directions.

They did not expect such a result. After the male and female cultivators threw out the golden ball of the twisted gold net, they all thought that Yang Chen would dodge and each responded to dodge. However, after the group of people finished, they suddenly found out that Yang Chen did not move at all, which seemed to be very funny and ridiculous.

But in any case, the people who were there were still happy in their hearts. No one knew better than them the power of these twisted gold nets. As long as they were entangled in the twisted gold net, even if they were flying a sword at high speed, if the sword didn't have the sharpness of a divine sword, it was impossible to get rid of it. It would become tighter, eventually they would lose the ability to act.

If it was only one or two, they might also be concerned about some divine weapons, but if more than a dozen of them were entangled, even if they faced a master of the dacheng stage, they would be shackled. The twisted gold net was not just a solid big net, but it contained poison which was enough to send a master of the dacheng stage to the netherworld.

With one hit, everyone was happy in their heart. Although they didn't know why Yang Chen would suddenly come out of the shuttle at this time, they just needed to kill Yang Chen with this opportunity.

Even if more than a dozen twisted gold nets were enough to kill Yang Chen by itself, none of these people hesitated, all the magic weapons in their hands flew out, they went for Yang Chen's head. As long as the person died, everything else would be worth it!

However, as everyone was prepared to strike with their respective magic weapons, they suddenly heard the voice of Yang Chen.

“I am very upset now, but I still thank you for coming for me to vent my anger!” Yang Chen’s voice was full of killing intent, followed by another sentence “There’s some-one re-spon-si-ble for every griev-ance, For every debt there is a debtor!”

In the latter words, Yang Chen has not finished it completely and a series of magic weapons have already collapsed on the net, on Yang Chen’s body surface, a golden light flashed slightly, everyone did not seem to see the difference between this golden light and the golden light of the twisted gold net, but they heard a dull bell sound.

Buzz, the long and low bell sound carried a power that could penetrate the soul and it penetrated into the sea of consciousness of all the people. Everyone seemed to hear the sound of thunder in their ear, and then a few weak guys directly fainted and fell from the air.

Originally, Yang Chen thought that everyone would be stunned by the golden bell, but the old man was miraculously kept awake. But even so, his eyes were shining. Then, it became a kind of sharpness and his whole body turned into a streamer. The tip of the streamer shimmered with a glimmer of silver and flew toward Yang Chen’s heart.

Scoffs, a slight sound like a sharp edge across the tofu was heard, Yang Chen’s arm lifted easily, the net which was wrapped up in Yang Chen’s body and the people thought that it was incomparably tough, under the blade of the blood demon vine flying sword, it was as fragile like a few sheets of paper, it was easily broken.

Yang Chen’s right hand raised the blood demon vine flying sword and rushed to the old man who flew toward him.

Bang, the sound of a metal collision was heard, the streamer first hit the chest of Yang Chen, but only brought such a crisp sound, without any other effect. The flying sword that Yang Chen cut down directly divided the figure of the old man into two pieces. The two pieces of corpse have not yet landed and it has already become dried.

As for the dozen of guys who fainted, Yang Chen took care of it like in the past, he sealed their five senses and threw them into the dome hall. These people were definitely from the outer perimeter of the Greatest Heaven Sect. Through them, Yang Chen could also find more hidden hands of the Greatest Heaven Sect.

After cleaning up these killers, Yang Chen threw the seized things into the mouth of Xiao Tian, letting it clean up the spiritual awareness imprints that might be left behind.

He only killed one person, so Yang Chen could not satisfy his cravings, he knew that he would use the golden bell to stun them. The more he thought about it, the more uncomfortable he felt, he couldn't help but feel angry that because of the spiritual awareness imprint in his sea of consciousness he was discovered, so he threw it into the blood river again.

Li Liheng, the young sect master who was awake, had just sent away the sect master and several elders. He was taking a break from the servants' services and was about to get up and do something. Suddenly, the feeling of horror came again. Li Liheng only had time to scream and once again softly squatted on the ground.

...

Chapter 379.1: Skill

The Greatest Heaven Sect did not know what was going on. Here, because of the heavy casualties in the secret plane, they still didn't know how to resettle it for a while. The young sect master continued to be unconscious for a few days and it almost made all the high level members die from worry.

Li Liheng, the young sect master, for the people who knew his importance to the sect, for him to fall into such an unreasonable coma and he could not be awakened was unbearable. If there was a problem, for the Greatest Heaven Sect, it would simply be like losing a future pillar.

Even those who were unaware of the circumstance and were guessing that he was the illegitimate child of the sect master were troubled. If something was to happen to him, it would mean that all their flattering was wasted.

Li Liheng's coma was indeed very troubling for everyone, they couldn't find any reason at all for it. As for Li Liheng himself, how could he know that because of the spiritual awareness imprint that he once threw out, he would have to endure such consequences?

It's not that Li Liheng couldn't think of it, it was really just that his cultivation method was special. So far, he has thrown out thousands of spiritual awareness imprints, each imprint could make a unique compass for tracking and it was not easy for people to find out that they were marked.

This was originally the secret weapon of the Greatest Heaven Sect. Who could think of someone like Yang Chen, he not only found his spiritual awareness imprint, but also used this imprint to deal with him.

Even if everyone asked about Li Liheng's feelings, Li Liheng could only describe his horror at the moment. If he was in the bloody sea, then he would be in a coma, even if he woke up, Li Liheng would tremble with involuntary fear. The horror of the moment before the coma made him almost have an instinctive fear. It seemed that as long as others mention it, he would involuntarily begin trembling.

A young sect master with a good future suddenly became like this. Several informed elders could not help but want to replace Li Liheng to endure such pain.

No one could understand the reason for this. It could only be attributed to the insanity of the cultivation method. After all, only two people practiced before and after in this cultivation method, the first one was the ancestor who created this cultivation method and practiced it with success, there might be unexpected places ignored, leading to deviations in the cultivation of the younger generation.

This was the only possible explanation. For them to believe that the imprint on a person which was left a few years ago could be a tool to deal with oneself, it was simply impossible. Therefore, Li Liheng must have encountered a heart devil during the cultivation, otherwise why would he feel fear?

However, the sect master was worried about Li Liheng, but he could only look at him. After he had taken care of himself, he rushed to deal with the secret plane issues.

One couldn't do anything about it, the matters in the secret plane were too big, just in the Greatest Heaven Sect two masters of the dacheng stage died and three were disabled. No one thought that the big danger that was warned of in the key of the secret land would be so dangerous. They thought that

the two masters of the dacheng stage would be enough to handle the situation and the result was that such a big mistake was made and the Green Jade Immortal Island and the Blue Cloud Sect gained from it.

At the thought of this, the Greatest Heaven Sect developed another layer onto Yang Chen's hatred. Others might not know, but the sect master and the top executives were very clear about it. After reading the secret key, Yang Chen visited the Blue Cloud Sect and the Green Jade Immortal Island respectively. Although they did not know what he said, but the Blue Cloud Sect's almost identical performance with the Green Jade Immortal Island seems to have explained many issues.

There was a heart oath which was made, so the high-level members of the Greatest Heaven Sect believed that Yang Chen would not reveal information about the secret key. Moreover, this information was only inspired by the array in the Greatest Heaven Sect, Yang Chen simply did not know and could not know about it.

But in any case, the loss of so many resources has made the two major sects get a big bargain, and this account would still be counted after all. The Blue Cloud Sect and the Green Jade Immortal Island should be considered from a long-term perspective, but Yang Chen had to be removed. Otherwise, if they were to let him develop, a young fourth grade alchemist master was absolutely a nightmare for any hostile sect.

They have sent a group of professional killers to take care of Yang Chen. The sect master didn't want to care too much about the rest, he had to worry about what would happen to the Greatest Heaven Sect after the Blue Cloud Sect and the Green Jade Immortal Island got the secret plane resources.

It could be said that the Blue Cloud Sect and the Green Jade Immortal Island were still on the road when dealing with certain things. Although they were very tough to refute the requirements of the Five Elements Sect and the Qiankun sect at the scene of the secret plane, after moving things back to the sect, they immediately sent people to contact the Five Elements Sect and the Qiankun sect.

After picking from the things from the secret plane, the two masters each took out half of them and sent them to the five elements sect and the Qiankun sect. After all, the other side also lost a master of the dacheng stage, if they got nothing, it would not be justified.

At the level of the Blue Cloud Sect and the Green Jade Immortal Island, a small resource wouldn't allow them to completely let go of their morality. After the resources were sent to the Five Elements sect and

Qiankun sect, there were also unexpected surprises. For the two major sects, this was the same thing, now they were more closely related.

The loss of the two dacheng stage masters were not related to the Blue Cloud Sect and the Green Jade Immortal Island. If they had to blame someone, they could only blame the Greatest Heaven Sect who let the news about the secret plane leak. With this batch of calculations as a resource for compensation, the Five Elements sect and Qiankun sect had nothing to say.

The Green Jade Immortal Island and the Blue Cloud Sect each received more than two-fifths of the resources and they were divided into half, but they were only one-twentieth of the things. They generously took it out and appeased the Five Elements sect and the Qiankun sect, there was not much loss.

Not only that, but they also got more friendships between them and the Five Elements sect and the Qiankun sect. At least in some cases, there were two more joint supports of the big sects. The Greatest Heaven Sect had always been overbearing and they also became the leader of the dao sects, the other four big sects had formed a resistance in a vague way.

On the contrary, for the Greatest Heaven Sect, they also got something, but only one-fifth, and it suffered heavy casualties. If they were also to learn from the two major sects to come up with half of the things, they Greatest Heaven Sect themselves could not save much. At this point, it was impossible to kill them and share their life with others.

Even if they have already seen the hidden purpose of the sharing of the resources by the Blue Cloud Sect and the Green Jade Immortal Island, there was no way to do anything about it. If they took these resources to win over the Five Elements Sect and the Qiankun sect, they don't have to wait for the enemy to deal with the Greatest Heaven Sect. Those dacheng stage elders who come back alive would never allow this to happen. Maybe the Greatest Heaven Sect would soon know when the sect master was ousted by the supreme elder.

The sect master and the elders could only watch as things were moving in the direction that was not conducive to the Greatest Heaven Sect, there was nothing they could do.

Chapter 379.2: Skill

Pulling over the Five Elements sect and the Qiankun sect, they couldn't do it without taking advantage of the actual benefits. But after taking it out, not only would there be chaos in the sect, but if they were to take less, not only would it not play the role of pulling them over, but it would also be underestimated.

With such a trade-off, they could only watch the four major sects become a small group. Originally, they all had some dissatisfaction with the Greatest Heaven Sect. Now there were more allies who were advancing and retreating together.

Yang Chen did not expect that the Blue Cloud Sect and the Green Jade Immortal Island would have such a large undertaking. Half of the benefits didn't sound like much, but what needed to be captured by the lives of several dacheng stage masters, where was that simple? Apart from the attitude of the Five Elements sect and the Qiankun sect, but they were almost comparable to the Greatest Heaven Sect.

This was also good, the greater the power of their allies, the greater the chance of dealing with the enemy. It seemed that the Greatest Heaven Sect has become a target of public criticism. Now they had to expand wildly, otherwise they would be pushed off the position of the leader of the dao sects by the four united sects.

The more they rushed to expand their strength, the more likely there would be a mixed situation and naturally there would be some uncontrollable situations, which was what Yang Chen and many people wanted to see.

After a series of tossing Li Liheng in the bloody river ten times in a row, Yang Chen finally reached the scope of Meiqing Mountain. However, he did not go straight back to the mountain, but found a secluded place, he pulled out the captives and threw them on the ground.

Closing the five senses, without any feeling, but still retaining consciousness, this was an extremely cruel punishment. No one could support it for too long. The last time he caught a few foundation stage guys, within just a few days, they collapsed and asked what he wanted to know.

The mind of a cultivator was firm and resolute and now the weakest of these assassins was at the peak Jiedan stage. No more than the previous group, Yang Chen certainly had to spend more time.

The guy who was thrown out was a man in the peak Jiedan stage. Because he closed the five senses, he did not react when he was slammed on the ground until Yang Chen removed the restrictions did he find out his situation.

After all, it was a master of peak Jiedan stage, who could practice to this point. It was not known how many years of lonely seclusion he has been through. Although there has been some exhaustion, he still has not lost his mind.

“It is good for people, loyal to people, to kill and to listen to respect!” It seemed that the other party was also a very hoodlum-like killer. In the face of such a situation, there was no slight confusion, he just made a cold statement, Then he closed his eyes and said nothing more.

Seeing this situation, Yang Chen did not say anything more and directly threw the killer back into the dome. Seeing that these were professional killers, they have undergone rigorous training and were very determined. The time of ten days was not enough to make their spirits collapse.

From this situation, even if the time was longer, it seemed that it would not have much effect. Some people could endure loneliness by nature. Even Yang Chen knew some extreme guys, they could even hide in a very small area, not eating for decades or even longer.

It's not that easy to get news from these killers. Yang Chen simply let go of any hope of that happening. The guy said that he was benefited by people and loyal people. Maybe he was really the killer because of the reward. Anyway, behind the scenes, the real culprit was nothing more than the Greatest Heaven Sect. Yang Chen does not have to have any real evidence.

Moreover, even if there was real evidence, how could it be used? It was impossible for the Pure Yang Palace to take the evidence to look for an explanation from the Greatest Heaven Sect. Yang Chen would not expect to be able to judge the Greatest Heaven Sect fairly. Between the two sides, apart from the death of one side, there was no other possibility, but it has not been officially turned over on the table.

Back to the Pure Yang Palace, Yang Chen was of course going to visit his master.

Yang Chen was now going out every time, Gao Yue was a bit worried, watching Yang Chen returning safely, she was also happy. After asking about Yang Chen's travel, after hearing the performances of Shi

Shanshan and Sun Qingxue, it seemed that her face also became somewhat weird. It was just that Yang Chen was immersed in seeing his master's happiness and didn't pay much attention to it.

When he met his master, it was natural to see the master of the palace. The consequences of Yang Chen's departure from this sect were simply to make the high-level of the Pure Yang Palace laugh. Was there anything more fun than watching your own enemy suffer from their mistakes?

Originally it was the secret of the Greatest Heaven Sect. Suddenly, it became known to the world. Then it was easy for them to have a chance to rush to the secret plane, but they lost their soldiers. In the end, they had to be forced to work with several large sects to go through the secret plane and they got less than one-fifth of the benefits.

The five dacheng stage masters of the Greatest Heaven Sect were wasted. The elders of the Pure Yang Palace also took a breath of cold air after hearing the news. There was a total of thirteen dacheng stage masters who were dead or wounded.

When they decided to give up this secret plane, everyone still had some distress. It's just that Yang Chen said that it's too terrifying and that they had to pay the price of two or three masters of the dacheng stage and this was to be as a last resort. But now it seemed that Yang Chen was still conservative at the time. How was it only two or three masters of the dacheng stage, it was distinctly 13!

Yang Chen's calculations were indeed somewhat conservative. After the former Greatest Heaven Sect got the secret plane, they were not eager to open it, but carefully prepared for a long time, concentrated their power, and then opened it. In the end, it was just the price of two or three masters of the dacheng stage that had to be paid, this was the fact.

But it was completely different this time, because there were strong competitors and the Greatest Heaven Sect couldn't produce evidence that it was a property of the Greatest Heaven Sect. Naturally, it could only be a strong action. Everyone was motivated by the same reason. The lack of preparation and the loss were far beyond the expectations of Yang Chen.

When the head of the palace saw Yang Chen, he asked what occurred when he was outside with the elders the same as Gao Yue. There was really not much thrilling events this time. The results of the secret plane have long been known. It was only to confirm that Yang Chen was fine and everyone soon had nothing to discuss so they dissipated.

Yang Chen did not go directly to his master, but went straight to the law enforcement hall. Elder Meng Xian had just seen Yang Chen and seeing that Yang Chen actually came to the law enforcement hall, it was a bit puzzling.

“Is there anything you need?” Meng Xian asked very strangely.

“The disciple encountered more than a dozen killers on the road.” Yang Chen replied with a slight smile: “Their minds are very determined and hard to give in. The disciple feels that it is suitable for the uncle master and the law enforcement hall to practice, so I brought them.”

After saying this, he waved his hands, a dozen figures were like dumplings, fell on the ground of the law enforcement hall.

Chapter 380.1

From these guys, Yang Chen didn't get any news, but it was a bit of a fuss to deal with a few killers. Since these people have been caught, it was better to leave them to the disciples of the Pure Yang Palace.

Among the killers, there were several Yuanying stage masters, the rest were peak Jiedan stage masters. Letting the law enforcement hall practice with them, he believed that in the history of the Pure Yang Palace Law Enforcement Hall, the opportunity to target Yuanying stage masters, there were only a few.

Meng Xian took a breath of cold air on the spot, such a big undertaking, it was really unbelievable. In the face of the head of the palace and the elders, Yang Chen said that he was attacked by assassins and then killed one, and arrested a few. Everyone thought that it was only masters of the Jiedan stage. Who could have imagined that there were so many Yuanying stage masters among them?

Originally listening to Yang Chen saying that he had killed six Yuanying stage masters from the Greatest Heaven Sect. Everyone had an unreal feeling. Now, there was such a Yuanying stage master in front of him, it was very shocking.

With Meng Xian's eyesight, of course, it could be seen that these masters were the cultivators who have been tested for a long time, otherwise they would not act as killers. It's just that this time he didn't know what the cost of the Greatest Heaven Sect was, for them to make this high of a level of experts move. But this also showed that Yang Chen's situation was getting more and more dangerous.

“Uncle master, the things on them, this disciple has already searched and taken them.” Yang Chen seemed to have no awareness of the danger at all. He smiled and said, “As for what can be obtained from their mouths, I will leave it to the law enforcement hall.”

Meng Xian has been in charge of the law enforcement hall for many years and naturally he had his pride. Yang Chen could catch so many masters. If they couldn't even dig out some news from these people, wasn't that a big slap on his face?

Yang Chen said so, but it was a little bit of a spurt. It was time to let Meng Xian's heroic spirit rush and Yang Chen laughed and said loudly, “Whatever you get, the rest will be handed over to the law enforcement hall!”

“Try not to hurt their lives. If possible, let these guys be the target of the core disciples training.” Yang Chen finally reminded him and then smiled and left.

These people were in the hands of the law enforcement hall and he did not know how they would be treated. However, this had nothing to do with Yang Chen. Since it was their plan to kill Yang Chen, there must be an awareness of also being killed by Yang Chen. If they didn't die, it's already their luck.

On the contrary, Meng Xian listened to Yang Chen's words and his heart moved, staring at the dozen people on the ground, he thought about it. After a long time, he moved, directly rolled up more than a dozen people and then went directly to the head of the palace. What Yang Chen said was indeed a way. With these people as training targets, the actual level of the core disciples would be greatly improved and the strength of the sect would be similarly improved.

This Yang Chen, even the captives were not let go, it seems that there was already a young sect master posture in him, Meng Xian had a smile on the way. With such a disciple, it was the greatest blessing of the sect.

During Yang Chen's entire attributes condensing dan, at the moment was in the balance of the yin and yang five elements, in the short-term, Yang Chen did not think about a breakthrough, solidifying his current cultivation base was the right way to go. During this time, he could also solve the problem that Yang Chen has been trying to solve for a long time.

Gao Yue was now constantly nourishing the dragon's horns, she was using her own spirit power and spiritual awareness to wash it over and over again. This kind of process could make Gao Yue and the dragon horn more and more coincident and increase the dragon horns refining success.

However, as a Jiedan stage master, during the time when Yang Chen went out, Gao Yue received another female disciple. It was not any apprentice sister in the memories of Yang Chen's previous life.

Yang Chen was very surprised. Gao Yue had made a decision, she would only accept female disciples in the future and would not accept male disciples. The look when she spoke, made Yang Chen feel warmth in his heart.

Of course, he knew why Gao Yue would do this, just to prevent Yang Chen from feeling uncomfortable. Although Gao Yue knew that Yang Chen would not care about this, she did it on her own initiative.

With his master's thoughtfulness, Yang Chen was very grateful. At the scene, there was only Yang Chen and his master, Yang Chen also couldn't help but sway his master's waist and put Gao Yue in his arms.

"Are you finally planning to accept Ling'er as a concubine?" Gao Yue did not resist, but just enjoyed being in Yang Chen's arms. She smiled and asked "This time that Ling'er came back, she has been very happy."

Gongsun Ling was now with Gao Yue and they were almost like sisters. During the time when Yang Chen went out, Gongsun Ling had already told Gao Yue about everything that happened in the demonic sect domain. Even when she pretended to be Yang Chen's concubine and even watched Madam Fanghua's Heav-enly Demon's Al-lur-ing Dance was not hidden.

Yang Chen said that after returning, he would ask his master, so that his master and his senior apprentice sister would be married to him. This made Gongsun Ling very happy and she did not conceal it from Gao Yue. This was the intimate action of Yang Chen, Gao Yue did not resist.

The relationship between Gao Yue, Gongsun Ling and Yang Chen, whether it was inside the sect or outside the sect, there were many people who understood it. What Yang Chen didn't know was that the reason why Sun Qingxue and Shi Shanshan united was precisely because Elder Hua pointed out to the two women that Gao Yue and Gongsun Ling have joined forces.

If Sun Qingxue and Shi Shanshan still wanted to fight with each other, they could only make things cheaper for the two women, which was not good for them. On the contrary, if they united they would be able to sneak past Gao Yue and Gongsun Ling and come in front of Yang Chen.

“Master, are you willing to marry me?” Yang Chen said this sentence of marriage proposal with a very weird tone.

“Sweetheart!” Gao Yue made a low sigh, but her face also flashed with a blush: “If you don’t want to, how can I be as light as you are?”

Although it was already known that Gao Yue was unlikely to refuse, but when faced with this moment, there was still some tension.

Listening to the voice of Gao Yue, Yang Chen was overjoyed, suddenly was overcome with happiness so that he did not know what to say, under the ecstasy, Yang Chen’s arms became tight and then he noticed the slight pain of Gao Yue.

Yang Chen suddenly became shocked, he knew that he had cultivated a body refining technique and reinforced his body. After his strength increased, he was able to pull a mountain and he had the power of 300,000 jin. Once he injured his master, then he would be consigned to eternal damnation.

Fortunately, even though Yang Chen subconsciously tightened his arm, although Gao Yue’s delicate body was somewhat unbearable, after all, the body still has some flexibility, and it has not caused any irreparable consequences.

“You can’t disappoint Ling’er.” Just after Yang Chen’s long breath, Gao Yue’s faintly whispered: “Ling’er is also ready to die with you. She has a deep affection for you, you have to marry her.”

Chapter 380.2

“Sorry for the inconvenience master!” Yang Chen this time, carefully took Gao Yue into his own arms again, he put his face on the back of Gao Yue, smelled the aroma of Gao Yue’s hair and apologetically said.

Gao Yue took the opportunity to lean back and completely leaned on Yang Chen's arms, as if enjoying this intimate hug and whispered after a while: "We don't need to say this between us!"

Although Yang Chen and Gao Yue had become a master and disciple for only a hundred years, but Gao Yue seemed to have lived with Yang Chen for a lifetime. Not to mention that Yang Chen was desperately trying to save her in the 100,000 mountains. It was only those guys who were arrogant to Gao Yue who were smothered by Yang Chen and this had already made Gao Yue very happy.

Between the two, with the beginning of the cultivation of the High-est Mys-tery Yin-Yang Heart Sutra, the feeling of having the same mind and heart, has allowed them to have unreserved trust between each other. Yang Chen already had love for her in his heart and Gao Yue has already proclaimed herself as a person of Yang Chen's, nothing else mattered.

In this way, the two people naturally entered the cultivation of High-est Mys-tery Yin-Yang Heart Sutra. This time, perhaps because Yang Chen proposed marriage, the relationship between the two was completely clear and they no longer had the same concerns as before, so the effect of the cultivation was surprisingly effective.

Yang Chen's spiritual awareness seemed to be condensed again. At this point, the spiritual awareness with the cultivation base in the middle dacheng stage, if he had the desire to condense it, it was not something that a two-time cultivation could solve.

But for Gao Yue, this time the cultivation was not inconsistent with a change in general. Because of the strength of Yang Chen's spiritual awareness, it directly led to the great conciseness of Gao Yue's spiritual awareness.

The spiritual awareness that had already entered the early Yuanying stage has actually leaped forward after this double cultivation with Yang Chen, it went straight to the peak Yuanying stage.

The stronger Gao Yue's spiritual awareness was, the more she could grasp the refining of her own dragon sword. Moreover, the strength of Yang Chen's spiritual awareness was so dazzling that even Gao Yue was skeptical, her master Wang Yong's spiritual awareness at the moment, was not as formidable as Yang Chen's.

Naturally. Gao Yue would never think that Yang Chen's words on the spiritual awareness at this moment were far beyond the standards of Wang Yong. Between the middle dacheng stage and the early dacheng stage, it seemed that there was only a small realm difference, but the gap between these two small realms was enough to surpass the early dacheng stage itself. The more you cultivate, the more the gaps at each level would be like reaching for the sky.

Out of the state of practice, Yang Chen gently pulled Gao Yue's body to face him, looking at the same beautiful mouth, he slowly kissed his lips to the red lips that had already begun to tremble.

Gao Yue snorted and her eyes were closed, she became lost in the joy of mutual affection. She didn't want to wake up anymore. It was not until a long time later that Yang Chen gently released her, looking down at the loving master who had a red face.

"You still have not looked for Ling'er, she should be waiting anxiously for you!" Gao Yue couldn't bear the burning gaze of Yang Chen so she gently kicked his chest, then reached out and pushed herself from Yang Chen out of his arms and she got out of it.

Knowing that his master's face was tender, Yang Chen would naturally not be too tight. Anyway, his master has agreed to marry him, and in the process of cultivating, there were enough long-term years for the two to slowly taste the sweetness of being a couple.

On the side of his apprentice sister Gongsun Ling, naturally, there was no problem. When she was on the site of the demonic sects, Gongsun Ling had already recognized herself as Yang Chen's woman. Otherwise, there would be no affection between the two.

Even so, when Gongsun Ling really heard Yang Chen's proposal and also saw Gao Yue around Yang Chen, confirming that she was not dreaming, she still showed ecstasy. Regardless of Gao Yue, she looked at him with a smile, regardless of anything she dropped into Yang Chen's arms, she had been waiting for Yang Chen to ask this question for a very long time.

Yang Chen had a hand and it was easy to take Gongsun ling in his arms. He looked down at the smiling and sobbing Gongsun Ling. The corner of his eyes squinted and smiled at Gao Yue. The other hand was empty and suddenly it pulled Gao Yue to his side and he hugged both in his arms.

Gao Yue was struggling to free herself, but Yang Chen's arm seemed to have become a steel hoop for a moment, it was extremely strong. Gao Yue knew that she could not afford to break free and she sighed in her heart. She made a slight laughter and called "Sweet-heart!" Then she gave up the struggle and also put her body on Yang Chen's chest.

Looking from far away, Yang Chen became a huge body after practicing the yellow turban body refining technique, just like a powerful gorilla, he was holding two petite beautiful women in his arms. If the two women struggled a little bit, it would be a real version of beauty and the beast.

Under Yang Chen's slightly overbearing embrace, Gao Yue and Gongsun ling also glanced at each other and saw the joy in the other's eyes. They also saw the helplessness in the other's eyes. It seemed that after confirming their relationship at this moment, Yang Chen was no longer treating them like when they were his master and appreciate sister, but like they were married and he was their husband.

Looking at the two women in his arms, feeling the flexibility of the two women's petite bodies, Yang Chen's heart had mixed feelings. In his eyes, he saw his past life again.

Gongsun Ling was dying in the moment of her tribulation and Gao Yue was urging him to run away after he fled, everything seemed to happen. Two talented women have died in this way. In this world, Yang Chen would never let these tragedies repeat again.

Yang Chen wanted to marry his master and apprentice sister, he had to tell the master of the palace that they have already agreed. For the arrival of this day, whether it was the master of the palace or other elders, it seems that as early as expected, everyone gave their blessings with laughter, no one objected.

As for ancestor Wang Yong, this was what he supported Yang Chen to do, so there was no disagreement.

This was a major event in the Pure Yang Palace. Even if it was not known to the world, at least in the sect it was wide spread. The arrangements of the elders made Gao Yue and Gongsun Ling always embarrassed, but Yang Chen was thick skinned and full of smiles.

"However, how are you going to arrange for Shi Shanshan and Sun Qingxue?" After a busy period, the palace master seemed to think of this, facing Yang Chen he asked this question.

The other elders were also quiet, waiting for Yang Chen's answer. Shi Shanshan and Sun Qingxue were related to the relationship between the Pure Yang Palace, Blue Cloud Sect and the Green Jade Immortal Island. It was not a small matter, it was not known how Yang Chen considered this aspect.

When this problem came out, Yang Chen suddenly became silent. To be honest, he really didn't think about how to deal with the relationship between the two women.

"I am the master of Yang Chen, I will take responsibility, Shi Shanshan and Sun Qingxue, all can marry into the sect." Yang Chen has not answered yet and his master Gao Yue over there has replaced Yang Chen and gave the answer.
