Chapter 386.1: Reality Is More Exaggerated Than Imagination

After a series of magical characters were displayed, Yang Chen had already thoroughly mastered the medicine nourishing gourd. Soon, Yang Chen appeared in the same place, and there was a little purple-red gourd in his hand.

The mountain peak that stretched hundreds of miles across the street disappeared in this moment without a trace, showing a huge valley, as if the mountain has never appeared here.

When Gongsun ling found that Yang Chen was missing.

She was worried about it for a while, but found that none of the five women around her had made any movements and she was a little relieved. After waiting for about half a day, Yang Chen finally appeared.

Although it has been guessed that Yang Chen was going to collect the medicine nourishing gourd, Gongsun ling still plunged into Yang Chen's arms after seeing Yang Chen. It seemed that only in the arms of Yang Chen, when she smelled the familiar flavour of Yang Chen and felt his warm hug would give her complete peace of mind.

Soon, Gongsun ling's attention went to the little purple-red gourd in Yang Chen's hand. After watching it for a while, she reached out and touched it. She curiously asked: "This is what you said, the medicine nourishing gourd? Is it very powerful?"

"Of course!" Yang Chen showed this with practical actions. The achievement ring was opened, all the medicinal pills flew out, and then it was sucked into the gourd at the speed of light.

There were dozens of medicinal pills wrapped in layers of talisman which looked familiar to Gongsun ling, it broke the talisman in front of her, and then flew into the gourd.

Gongsun ling was startled on the spot, it was clearly second grade questioning inner heart pills, she just took one before her retreat, naturally she recognized it clearly. However, although Yang Chen said that it was not a precious thing, but Gongsun ling still felt it was very precious in her mind, but when she saw this scene, it was still very shocking.

It turns out that Yang Chen had so many second grade questioning inner heart pills, no wonder he took these things for them like they were like ordinary things.

Just looking at the medicinal pills that flew into the medicine gourd, the value was already incalculable. Gongsun ling once again sighed. It seems that the feelings that she had received because of the big gourd were too small.

“These are the second grade questioning inner heart pills?” She still had to confirm it. It was too shocking, so Gongsun ling asked aloud.

“Yes.” Yang Chen smiled and said: “I said, it is not a precious thing. When you need it, you can open it and take some.” At the end, it seems that the meaning was still unfinished, Yang Chen added “There are still many raw materials, no need to save them. After using this batch of second grade questioning inner heart pills, we will refine the third grade in the future.”

These words made Gongsun Ling stunned. It seems that the boundary of her imagination was not enough, even without illusions, the facts have not reached the border.

“If you can come up with another heaven seizing pill, I believe that there is nothing impossible in this world.” Gongsun Ling looked at Yang Chen and said this sentence.

Gongsun ling words would make others sigh, but Yang Chen was very strange after hearing this, a question was revealed in his eyes, it seems to be “How do you know?” Gongsun ling was shocked.

“You don’t really have a heaven seizing pill right?” Gongsun ling was shocked and there was horror on her face when she asked this sentence.

“You can really can predict accurately senior apprentice sister!” Yang Chen shook his head with some helplessness and sighed. Then, in front of the two, there appeared a jade box.

On top of the jade box, it was engraved with the lines of an array. The above was shining with light. At first glance, it was the array that was working. With the eyesight of Gongsun ling, of course, it could be

seen at a glance that this array was a method that could seal up the effects of medicine and trap the things inside the box.

Yang Chen opened the jade box without thinking, and then there was a densely shining talisman and inside it was a small jade box. The same pattern was also engraved on the above and the effect was still the same.

The small jade box was opened again, and it was still wrapped in a talisman and the inside was a small jade box. At this time, Yang Chen said: "This is the heaven seizing pill that you said!"

"You! You! You!" Gongsun Ling reached out and covered her surprised cherry mouth. After the three consecutive words, almost no other words came out, she finally reacted after a while, she was shocked: "You refined two heaven seizing pills with elder Wu Xiong's materials?"

"One!" Yang Chen opened the jade box, and a blue-colored dragon medicinal pill appeared in front of Gongsun ling: "This is the one that was refined for elder Wu Xiong."

It seemed that it felt that the bondage of its whole body has been eliminated. The heaven seizing pill was shocked, then the medicinal pill suddenly turned into a blue dragon shadow, it planned to fly away.

But how could Yang Chen make this kind of mistake, before the jade box was opened, his spiritual awareness were already covering the surrounding and the space was firmly locked. The dragon shadow flashed, but it was still in place. It just kept moving and moving, just like living things.

Controlling the medicine nourishing gourd, Yang Chen took the heaven seizing pill slowly into the gourd. It seems that it felt good about itself in the gourd. The heaven seizing pill did not struggle and quickly disappeared into the mouth of the gourd.

"Elder Wu Xiong had experience and confidence in resisting the hurricane wind tribulation, so he did not use the heaven seizing pill when ascending." When Yang Chen took the heaven seizing pill into the gourd, he made a sigh of relief and continued to explain to Gongsun ling "It is useless for him to keep it, so he gave it to me as a reward for refining medicinal pills."

Gongsun ling who has seen the heaven seizing pill, but still has a feeling that she couldn't believe her eyes. How could this happen? How could it happen?

Yang Chen found ancestor Wang Yong before collecting the medicine nourishing gourd, and asked him to return to the heaven seizing pill. This was because of the congenital deficiency, so did not spend the hurricane robbery, or completed with the help of Elder Wu Xiong, and can not be regarded as a complete state of the capture of the heaven seizing pill.

The medicine nourishing gourd could maintain the medicinal qi and could nourish the medicinal pills. Because of this, Yang Chen decided to take the heaven seizing pill into the medicine nourishing gourd.

Maybe before Wang Yong ascends, the heaven seizing pill would also be able to take advantage of this and slowly improve the quality and restore to it most complete state.

Gongsun ling's comprehension was very good, but it limited by her experience. Even if the retreat was successful, it was always artificially set a border for herself. Even if the border was getting bigger and bigger, it was still within the limits.

This time, she saw Yang Chen's second grade questioning inner heart pills, and saw a heaven seizing pill appeared in front of her. Gongsun Ling suddenly realized a truth.

It turns out that in the world of cultivation, there was only one that cannot be imagined and cannot be done.

Chapter 386.2: Reality Is More Exaggerated Than Imagination

The understanding of a thought, suddenly let Gongsun ling's state of mind rise again, before she thought she had some insights and now she found out that she was still a frog at the bottom of the well.

Reality was more exaggerated than imagination. It can be said that going out and practicing was indeed a very reasonable thing. This time, Gongsun ling completely asked for the ambiguity of imagination. After the sea was wide, the sky was high and the birds were flying. Nothing could limit the imagination of Gongsun ling.

After all the medicinal pills of Yang Chen were collected into the medicine nourishing gourd, both of them had great gains. There was nothing to be had here, and soon the two set foot on the way back.

After three and a half years out, Yang Chen and Gongsun ling did not know that the master of the palace visit to the Blue Cloud Sect and the Green Jade Immortal Island had already caused an uproar in dao sects domain.

If placed in the past, if the Pure Yang Palace dared to make such requests, the Blue Cloud Sect and the Green Jade Immortal Island absolutely would have directly sent a few masters to the Pure Yang Palace, the roots of the Pure Yang Palace would be uprooted and there would be no grass left. Wasn't it a blatant insult?

However, the current Pure Yang Palace and Yang Chen were not the same as before, so that when they knew the purpose of the palace master for coming, the two sects had a grand reception ceremony, which only the treatment of the sect's honoured guests would receive.

The marriage seeking of the head of the palace was very formal. Not only did the master of the palace personally go to the two major sects, but also brought two elders with a generous gifts for them. When the news came out, everyone was in an uproar.

No matter whether it was the Blue Cloud Sect or the Green Jade Immortal Island , there was no answer from them on the spot. Both parties should discuss with their respective disciples and ask the two disciples their own meanings before giving an answer.

This was the proper attitude. Whether it was Shi Shanshan or Sun Qingxue, their status in the sect was not low. They were the most important disciple in their sect. There no elder or a sovereign who could order them on this lifelong event.

Moreover, these major events were absolutely related to the relationship between the sect. The Island Lord and Sect master could not judge it by themselves, they must also discuss it with the elders.

The dowry of the head of the palace was also very useful. There were several second grade questioning inner heart pills and second grade inner sensing pills, the two major sects had their own second grade questioning inner heart pills, but they were reluctant to use it. As for the second grade inner sensing pills, apart from the Pure Yang Palace, there were no other sects who owned it.

All of them were exclusively produced by the Pure Yang Palace and they must be carefully considered by the Blue Cloud Sect and the Green Jade Immortal Island. In the past, the two major sects forced the Pure Yang Palace to give a reply, but now it was reversed. The Pure Yang Palace was waiting for the two major sects to reply to them.

In fact, the matter of seeking marriage was also a clear indication of the attitude of the Pure Yang Palace. The next step was to look at the two major sects if they would accept it.

Others might think that this was the demonstration of the Pure Yang Palace, but the two sect masters were actually clear about it themselves. This was also a compromise made by the Pure Yang Palace in order not to damage the relationship between the three parties. Otherwise, Yang Chen could only marry his master and apprentice sister, the two major sects would have nothing to say.

Sun Qingxue attitude about it was easy to see. From the beginning, she was active to follow Yang Chen, even if she already knew about Shi Shanshan, she had never retreated.

Shi Shanshan and had a misunderstanding at the beginning, but at the beginning she was mistaken about Yang Chen's strength, but in her later contact with Yang Chen, they also had a tacit understanding and there was a breakthrough in feelings, Shi Shanshan also vowed that she would not marry anyone else, it seems that it was also the meaning of consent.

The attitude of the two women, their sects were basically clear about it, but if Yang Chen wanted the two beauties, then the two major sects couldn't accept it.

For Yang Chen, the elders of the two sects were hateful and admired him, and even regret it. Why such a disciple was not in their own sects? In recent years, from Yang Chen, the two major sects have also received a lot of benefits such as medicinal pills, eighth metal true secret art and medicinal herbs from the sea.

Not to mention the recent secret plane events, but these were enough to make the two top sects satisfied. What's more, the black tiger predecessors left a revelation after visiting the two major sects. Yang Chen seems to be able to treat the wounds of the dacheng stage masters in a targeted manner.

The dacheng stage masters would hardly care too much about any general injuries, their cultivation base was enough to heal themselves. However, if the injury was serious enough, the cultivation base won't be sufficient. The black tiger's predecessor suffering over the past few hundred years was evidence.

Yang Chen could treat the injury of the dacheng stage masters, although these injured masters were not very obedient masters, but they were also masters of the dacheng stage, were they not the best fighting power in the mortal world? Even if they were not obedient, won't it be sufficient if they don't betray the sect?

What's more, once this time, the island master and sect master Lu had to face up and ask people to help them treat the injury. In any case, they would change their attitude. Because there were several masters who had already perished, their overall strength was not enough to compete with their sect masters. After the cure, they would not look down on them.

The most important thing was that, in the dacheng realm, the thought of them eventually fighting for power and profit would become weaker unless there was no hope of them ascending. But the problem was that sect master Lu and the island master had questioning inner heart pill, and that was the second grade questioning inner heart pill. This was definitely a precious thing that could make people ascend. Under such circumstances, they would never have any second grade questioning inner heart pill again.

Therefore, the two major sects still needed Yang Chen to help with treatment. This has led to the fact that it was not appropriate to anger the Pure Yang Palace, no matter what the circumstances.

Their disciples were happy, the sects also wanted help from Yang Chen, so this matter was actually very easy to set. However, the two major sects naturally have their face to uphold. The two sides have a tacit agreement to make a decision of the sect, and also to complete the decision of Yang Chen and the two women.

The Blue Cloud Sect and the Green Jade Immortal Island formally responded to the Pure Yang Palace and each proposed two requirements. As long as Yang Chen could do it, then the two women would marry him. If Yang Chen couldn't do it, then when it would be done, that was when the two women would marry.

Of course, this requirement was made in the name of the cold plum fairy and snow fairy. He wanted the two beauties, won't the two fairy make a small request?

The request of Shi Shanshan was that Yang Chen must be able to defeat her personally, and she would commit to marry. Sun Qingxue demand was that Yang Chen must be able to refine a fifth grade pill.

Both sides had a common request, that was, after the marriage, whether it was Gao Yue Gongsun Ling, Shi Shanshan or Sun Qingxue, there would be no difference in their status. Everyone was a wife and there would be no concubine.

The reply was given very officially and did not conceal from anyone. When the reply of the two major sects came out, it suddenly caused a shock to the entire dao sects.

Chapter 387.1: A Toad Wanting To Eat Swan Meat

What made everyone shocked was that two super sects like the Blue Cloud Sect and the Green Jade Immortal Island actually allowed their own genius disciples to commit themselves at the same time, and this person was still only a second-rate sect's disciple. Although there was a slight achievement in alchemy, it should not be enough to make people pay attention to him.

Equally shocking was the request made by the two fairies. For there being no difference between them, it could be done easily. With the appearance of the two fairies and their background, it was impossible for someone to take the two women as a concubine. But the other request put forward by the two fairies were obviously impossible to attain.

Yang Chen must personally defeat the cold plum fairy Shi Shanshan, which was almost impossible in the eyes of many people. It must be known that when Yang Chen entered the Pure Yang Palace and began to cultivate, Shi Shanshan had to condensed her golden dan. After such a long period of cultivation, even if Yang Chen has entered the early Jiedan stage, Shi Shanshan has long entered the late Jiedan stage.

Let Yang Chen, a boy who just entered the early Jiedan stage, challenge the famous cold plum fairy who was famous for fighting in the mortal world. It was not known whether this was the Green Jade Immortal Island helping Yang Chen, or deliberately embarrassing Yang Chen.

Don't look at it that Shi Shanshan was only in the late Jiedan stage, but in the past 100 years, Shi Shanshan almost spent it in battle, and the masters of the Yuanying stage who died in her hands was more than one. With her rich experience of combat, she was second to none in people with the same age, Shi Shanshan's combat power, simply could not be judged by her realm.

Anyone who knew the character of Shi Shanshan knew that since Shi Shanshan has made such a request, it means that Shi Shanshan would never hold back during the battle and would definitely go all out.

In contrast, Yang Chen, the opponent of Shi Shanshan, he had a duel with a fellow in the qi refining stage on the heavenly stairs and then had a duel with Li Qingchen of the Greatest Heaven Sect. Although both duels ended in victory, everyone knew that Yang Chen was by no means a good fighter.

This point could be seen from Yang Chen's acceptance of the challenge every time he accepts the challenge. If it was not a guilty conscience, how could he admit defeat for the second time?

Saying that he was not suitable for people to challenge, only accept the life and death duel, this was even more slippery. Who does not know that the challenge of life and death could only be raised by the low-level party? And the challenge of life and death that was lower than oneself, who was not afraid of it!

If you don't mention this, just look at Yang Chen's body shape and you would know that it was very strong, and he was obviously winning by strength. Shi Shanshan, who was experienced in combat, if he relied on brute force, it was courting death.

Moreover, Yang Chen was famous for his reputation as an alchemist. In this regard, Yang Chen indeed was very good and no one could deny it. However, since the road to alchemy was so proficient, there was a slight lack of battle. This was not incomprehensible, no one could master all the paths of cultivation.

Don't look at it that Yang Chen has entered the Jiedan realm, but everyone absolutely guessed that Yang Chen promoted by his own refining medicinal pills, no one would doubt this. The people who promoted by medicinal pills had a low fighting power. This was already a common thing, if you ask someone else, you would be ridiculed.

Even some people in the Greatest Heaven Sect were aware of this. Although the Greatest Heaven Sect sent a lot of Yuanying stage masters to assassinate Yang Chen, so far no one was successful, but the people of the Greatest Heaven Sect felt that Yang Chen had bought a few peerless masters to protect himself with pills.

Although everyone heard that Yang Chen was once chased by a master of the late dacheng stage and he successfully escaped, that had nothing to do with Yang Chen's combat effectiveness.

The gap between the two sides was so huge that under the circumstances that Shi Shanshan does not hold back, if Yang Chen wanted to defeat Shi Shanshan, it would be absolutely impossible. Not to mention that now, even in the distant future, it was impossible. Even Yang Chen's combat power would grow in the future, would it true that the genius cold plum fairy Shi Shanshan would be in the same place? It was a joke!

On the other hand, the requirements of Sun Qingxue was even more amazing. It sounded very simple, any kind of medicinal pill could be refined. However, people who knew the difficulty of alchemy would not think so.

It was not necessary to mention how difficult it was to refine the fifth grade pill. It was only with one fact that it was very difficult to explain how difficult Yang Chen's problems were.

In the history of the mortal world, the fourth grade was the highest level of alchemy. The standard for the promotion of the fourth grade alchemist master was that a certain kind of fourth grade medicinal pill had to be refined.

A certain kind of medicinal pill was any medicinal pill. That is to say, as long as the simplest kind of medicinal pill was refined to fourth grade, he could become a fourth grade alchemist master.

Fifth grade refining system, as long as it succeeds, no matter what kind of medicinal pill it was, it means that the alchemist master has reached the realm of the fifth grade alchemist masters.

Since there were only fourth grade alchemist masters in the history of the highest level of alchemy in the mortal world, then Yang Chen who was not the most talented alchemist master, how could he become a fifth grade alchemist master?

It was not so much that Shi Shanshan and Sun Qingxue gave Yang Chen a chance. It was better to say that the Blue Cloud Sect and the Green Jade Immortal Island refused the marriage of the Pure Yang Palace in this way. In this way, everyone would not be hurt, it was also a comfortable situation, except that Yang Chen would be a little depressed.

Everyone thought this way, except for Gao Yue and Gongsun ling. Even the elders and the palace master who knew some of Yang Chen's secrets were of the same mind.

Fighting Shi Shanshan? Don't look at Yang Chen who once killed the second-city master a dacheng stage, don't look at Yang Chen who has killed six Yuanying stage masters from the Greatest Heaven Sect. Don't look at Yang Chen's killing of more than a dozen Yuanying stage and peak Jiedan stage killers. However, one-on-one personally defeating Shi Shanshan, it seems that everyone was not optimistic about Yang Chen's chances.

As for becoming a fifth grade alchemist master, it was already a difficult problem for those who have come before. The palace master and several elders who received the reply of the two major sects even thought that the euphemisms of the two major sects was refusal.

The elders and the palace master of the Pure Yang Palace were all having such thoughts, not to mention the onlookers who watched the events on the sidelines.

A toad wanted to eat swan meat. This was the idea of Yang Yang, which was unanimously thought of by other people, it was why Yang Chen came to seek for marriage. They were worried about the face of the two major sects so no one dared to speak out so blatantly.

A second-rate sect, a small alchemist master, dared to think about receiving these two beauties together. The two sects didn't directly attack them, it was already giving face to their cooperation. Did he really think that Shi Shanshan and Sun Qingxue would not be able to find other dao companion besides him?

After knowing this reply, many sects and rogue cultivators visited the Blue Cloud Sect and the Green Jade Immortal Island to immediately seek marriage with the two fairies.

Chapter 387.2: A Toad Wanting To Eat Swan Meat

These people's courtship was naturally a thousand times more sincere than that of the Pure Yang Palace. The children of their own family, with all their looks and loyalty, would definitely regard the two fairies as treasures. Of course, the most correct attitude was that they only ask for a fairy, never expecting a double harvest.

However, for these requests for marriage visits, the two major sects refused. This made many people look awkward on the face, but because of the two major sects, they dare not display their displeasure, they could only endure.

Someone soon realized their mistake was that they were too hasty. The two major sects have just given a formal reply to the Pure Yang Palace. There was also no reply from the Pure Yang Palace, so for them to entertain another group was a bit much.

Even if Yang Chen was not necessarily able to do the two things, at least other people have not done it yet. To defeat Shi Shanshan, you must first stand in front of the cold plum fairy to stand a chance. To refine the alchemy, you must also prepare for refining. The Pure Yang Palace did not do anything here, they thought that the two major sects had rejected the Pure Yang Palace, which was the error.

After all, the Pure Yang Palace was still an ally of the Blue Cloud Sect and the Green Jade Immortal Island. At this time, it was obvious that the relationship between the three should not be provoked. Smart people should not make such stupid things. After recognizing the mistakes they made, the refusal of the two major sects, those who came to the sect to seek for marriage did not have any complaints, they could wait for this matter to settle after they could come again.

When Yang Chen and Gongsun ling returned to the Pure Yang Palace three months later, this matter has passed for more than two years. The winds of the outside world have been worn a little bit.

“Yang Chen, things are a little troublesome!” When Yang Chen and Gongsun ling met Gao Yue, Gao Yue also had some frowns. Although Gao Yue has an absolute grasp of Yang Chen in her heart, this was related to the reputation of Yang Chen and Gao Yue was also worried.

After listening to Gao Yue finish all the passages, Gongsun ling finally understood why Gao Yue felt a little trouble. However, after Yang Chen went out this time, Gongsun ling suddenly felt that these two conditions did not seem to be completely impossible.

This was not because Gongsun ling wants to think about her own interests, but she understands it completely. When there were things that she doesn't even think about, she certainly can't do it. But once the shackles were released, the world does not seem to have so many absolute things.

“No matter, these are the little things.” Yang Chen smiled and comforted his master: “Just these two small requirements, it will not be more difficult than finding a few dragon horns and dragon skin scrolls?”

The words made Gao Yue a hundred times more confident. At least in her cognition, Yang Chen has already completed many things that have never been done before and it seemed that it was not a big deal.

When he went to meet with the head of the palace, the head of the palace appeared that he couldn't stand Yang Chen's appearance. It seemed that he couldn't help Yang Chen to get the two women, so he was absolutely ashamed to face Yang Chen.

“The decision of the two major sects, I can't understand it now.” The head of the palace said truthfully to Yang Chen, now that he was talking to Yang Chen, his tone was like they were from the same generation, if outsiders saw it, it would be a big surprise for them.

Both the Blue Cloud Sect and the Green Jade Immortal Island did not intend to sever their cooperation with the Pure Yang Palace, but gave such a problem to Yang Chen, even if he was in charge of the palace, he could not see the meaning of it, and did not understand how the two masters were considering the situation.

Yang Chen had already thought about this problem before, but in his view, the two major sects did not mean to fall under the Pure Yang Palace. In this case, these two so-called conditions must be debatable, or what was tricky in them.

“Look at it and change it!” Yang Chen did not understand for a moment, he certainly would not think that his own trump card has been seen through by the two major gates, so he couldn't guess this for the time being.

After receiving the medicine nourishing gourd, Yang Chen temporarily stayed in the sect. The jade slips and dregs left in the medicine nourishing gourd were simply what Yang Chen dreamed of. Yang Chen needed a period of time to completely digest and absorb these things, laying the foundation for his own impact on the peak of alchemy.

It was rare that Yang Chen did not directly retreat, but directly rushed to the medicinal hall and issued a task to sect disciples through the sect, and acquired a large number of common medicinal materials for his own experience.

With Yang Chen's ability to control fire and with as many as hundreds of flames in the profound spirit furnace, Yang Chen could completely invest a large amount of medicinal materials at one time, but each medicinal material could be dispersed in the profound spirit furnace. In different areas, refining with different flames, Yang Chen fully and thoroughly understand the changes in the medicinal properties under various conditions.

Without Yang Chen's metamorphosis of his spiritual awareness and the ability to control fire, if there was no such thing as the powerful function of the profound spirit furnace, this couldn't be done at all. Yang Chen needed to consume a lot of medicinal materials, which was based on this consideration.

At the beginning, Yang Chen of course first recorded the contents recorded in the jade slips. At the same time, when reading the jade slips, he carefully observed the corresponding dregs and record the changes in those herbs.

However, these were all things recorded on the jade slips. When he really wanted to get through, Yang Chen needed to do a lot of experiments himself to experience it himself. If he didn't personally experience these things, the more content he remembers was nothing more than a piece of paper.

It takes at least a few years to study this part carefully, and the next experiment could be calculated by the time spent in a hundred years.

Just before Yang Chen had just studied the jade slips in the Pure Yang Palace for more than a month, Shi Shanshan, a gentle plum fairy, and Sun Qingxue a snow fairy, came to the Pure Yang Palace to see Yang Chen.

Sun Qingxue had a faint sorrow on her face. When she saw Yang Chen, she seemed to be unable to restrain herself. She plunged into Yang Chen's arms and burst into tears. She did not have any style of the dancing snow fairy.

“I did not mention the request for a fifth grade medicinal pill, which was proposed by the sect master!” Sun Qingxue was crying while she said this, how could she not want to marry Yang Chen? Even if she shared Yang Chen with other women, Sun Qingxue was willing.

She just do not know why sect master Lu actually put forward such conditions, as a disciple of the Blue Cloud Sect, Sun Qingxue could not help but take care of the face of the sovereign, which made things difficult for Sun Qingxue.

The cold plum fairy Shi Shanshan was more composed than Sun Qingxue. When she saw Yang Chen, she still gave him a faint look, but there seems to be something more in her eyes. After Sun Qingxue finished, Shi Shanshan said to Yang Chen: “It is my own request to defeat me. I don’t want my dao companion’s cultivation base to be under me. If my dao heart is influenced by people’s gossip, it doesn’t help either of us.”

Chapter 388.1: Advantage

When Shi Shanshan spoke, she kept staring at Yang Chen and seemed to be watching Yang Chen’s reaction. However, what disappointed Shi Shanshan was that Yang Chen’s face was not surprised or sorrowful, as if all this was taken for granted.

Sun Qingxue’s feelings about Yang Chen were very clear. The estimation she said was also true. It’s just that it was not known why sect master Lu and the Blue Cloud Sect made such a request.

This request by Shi Shanshan was also in line with her original character. She has always been strong, if Yang Chen only has a double cultivation with her, he believed that Shi Shanshan would not have any problems and there would be no conditions. However, since Yang Chen wanted to bring Sun Qingxue with him, and has his own master and apprentice sister, Shi Shanshan’s character would not be so easy to accept it.

Sure enough, Shi Shanshan made this reason hard, Yang Chen also believed that she would not have a chance to soften her hand during the trial, and she would definitely give him a good lesson. .

“This time, but what’s the matter for coming here?” Yang Chen appeased the grieving Sun Qingxue and gave Shi Shanshan a kind, and after looking at Shi Shanshan, he asked with a smile.

The two women came to the sect, certainly not because of the explanation, there must be some other reasons.

“Master said, she would like to ask you to look at the two predecessors of the sect to see if their injuries can be treated.” Sun Qingxue did not hide it at all, and directly said the requirements of the sect “Sect master Lu said, If you can cure the two elders, the Blue Cloud Sect is willing to thank you!”

As she said this, Sun Qingxue took out a jade box from her Qiankun bag and put it in front of Yang Chen. Then she said: “As long as you are willing to help, even if you are not successful, the Blue Cloud Sect would be deeply appreciative. ”

Yang Chen has not done anything, but the Blue Cloud Sect has already let Sun Qingxue send the reward. Looking at this sealed, solid jade box, Yang Chen had a little other thought in his heart.

However, Yang Chen did not say his thoughts at this time, but turned to Shi Shanshan with some doubts and asked “ is the meaning of the Green Jade Immortal Island also the same?”

Shi Shanshan nodded with a serious face. In the secret plane, the Blue Cloud Sect had two masters of the dacheng stage injured and one from the Green Jade Immortal. These were no longer necessary to explain to Yang Chen. Shi Shanshan also took out a sealed jade box and put it in front of Yang Chen, but did not say anything.

The two major sects had such means of doing things. Yang Chen has not promised anything and they have already sent things to the sect. It seems that they knew that Yang Chen would comply.

Not long ago, because of Yang Chen’s request for marriage, the two major sects raised harsh conditions. On the surface, they agreed, but they refused Yang Chen’s request for marriage. Now they come again and they even sent Sun Qingxue and Shi Shanshan, the meaning implied here was very intriguing.

Yang Chen felt very strange and picked up the two jade boxes and looked at them carefully. Both jade boxes were sealed very tightly and even an array was printed on it. Even the spiritual awareness couldn’t pass through, so they didn’t know what was inside.

The two directly came to Yang Chen, and even did not send out the request through the sect. This seemed to be a very subtle movement.

Suddenly, Yang Chen laughed and smiled while shaking his head, so that Gao Yue and Gongsun ling who followed him were very surprised. Even Sun Qingxue and Shi Shanshan, who were visiting, did not seem to understand why Yang Chen laughed. Sun Qingxue's face was full of doubts and in Shi Shanshan's eyes, there was a little more confusion.

"It turned out like this!" After laughing for a while, Yang Chen stopped the laughter and sent out such a sigh. Then he suddenly said: "Sect master Lu and the island master, they still see me Yang Chen as too simple, isn't it?"

This was even more confusing for the girls, they didn't know what Yang Chen meant. Gao Yue couldn't help but open her mouth "Yang Chen, Sun Qingxue and Shi Shanshan had a hard time to come here, don't play such a mystery game."

When the four women met, Gao Yue and Gongsun ling did not show any hostile behavior. The things about Sun Qingxue and Shi Shanshan were originally fixed by Gao Yue, so she naturally would not have any resistance. And Gongsun ling, as long as Yang Chen was there, would not care much about this. On the contrary, Sun Qingxue and Shi Shanshan had such a slight hostility at first, but it soon disappeared in front of Yang Chen.

Now that Gao Yue asked, Yang Chen would no longer make circle with the ladies, he smiled at Sun Qingxue and Shi Shanshan. He asked: "Sect master Lu and the island master must have certainly given other orders?" "

Shi Shanshan and Sun Qingxue were really surprised this time. The instructions of the two sects, Yang Chen was not present. How could he know?

Looking at the surprise of the two women, Gao Yue and Gongsun ling also had some amazement at the time. Yang Chen has been with Gongsun ling. He has never been in contact with outsiders. How could he know that sect master Lu and the island master had other instructions?

"Don't say it, let me guess!" Yang Chen stopped the plan of Sun Qingxue to open her mouth, and gave Shi Shanshan an expression of a little smile, then he said.

The girls were quiet, they wanted to know what Yang Chen knew. They wanted to know if Yang Chen could guess it.

“The head of the palace went to seek for marriage. Although for the time being, sect master Lu and the island master did not directly agree, giving two conditions that seem impossible to complete.” Yang Chen blinked his eyes as if he had seen everything and said: “Everyone thinks that the Blue Cloud Sect and the Green Jade Immortal Island refused, but it is not, right?”

Gao Yue and Gongsun ling exclaimed and could not believe that this was true. Their testimony of sight, they immediately stared at the two women opposite, seems to be waiting for them to give an answer.

“Yang Da Ge is so powerful!” Sun Qingxue’s eyes were full of admiration, and with this sentence, it has been fully explained that Yang Chen did not make a mistake, at least in the attitude of the Blue Cloud Sect, he did not say anything wrong.

Yang Chen’s kind eyes looked at Shi Shanshan with a sly look, waiting for her reply. Shi Shanshan wanted to stretch, but looking at Yang Chen’s gaze, she could not keep calm, she snorted, but did not deny it.

Since there was no denial, it means that the attitude of the Green Jade Immortal Island was also the same. Gao Yue and Gongsun ling looked at each other and then turned to Yang Chen, their eyes were full of tenderness and admiration.

“If I didn’t guess wrong, these two conditions are actually time-limited, right?” Yang Chen smiled and looked at Sun Qingxue and Shi Shanshan and asked softly: “Is it waiting for me to get to the Yuanying stage? Dacheng stage?”

Chapter 388.2: Advantage

“The dacheng stage!” Sun Qingxue couldn’t hide any secret in front of Yang Chen, as long as Yang Chen wanted to know, and it was not the kind of secret that couldn’t be said, Sun Qingxue would tell Yang Chen. Therefore, when Yang Chen asked, Sun Qingxue said it.

“Little Xue!” Shi Shanshan looked at the side and was very annoyed. Sun Qingxue was always acting too simple, so that Yang Chen so easily got information out of her, it made Shi Shanshan very dissatisfied.

Up to now, Shi Shanshan still believed that Yang Chen did not fully guess it, but because of the attitude of Sun Qingxue it was exposed, so that Yang Chen discovered it, so he could just put the pieces together.

It seemed that the two women had unified their stands before coming. Now Sun Qingxue so easily turned to Yang Chen, even Sun Qingxue felt a little guilty. Under Shi Shanshan's contempt, she narrowed her neck, as if she didn't dare to look at Shi Shanshan's appearance and bowed her head.

"The Green Jade Immortal Island also want me to reach the dacheng stage?" Yang Chen smiled and looked at Shi Shanshan, still waiting for her answer.

"Snort, even if the island master agrees, if you can't complete the conditions I mentioned, don't think that I will admit that you are my husband!" Shi Shanshan's character was very unyielding, although she still refused to spill everything, but it was also considered answering the question of Yang Chen.

Gao Yue and Gongsun ling already had some problems, the Blue Cloud Sect and the Green Jade Immortal Island what do they want to do. They did not refuse, but they proposed two conditions that seemed impossible to complete. It was a refusal, but they have secretly set a deadline. As long as Yang Chen could get to the dacheng stage, they would let the two women marry him. What were they thinking about for this, the two of them couldn't understand.

"This is also a way, not hurting our relationship and can finally fulfill us, but the time will delay us somewhat." Yang Chen smiled and nodded: "The most important thing is to let the two main sects have a very reasonable reason for this, sect master Lu and the island master thought about it perfectly."

Sun Qingxue admired Yang Chen at the moment and did not say anything. Yang Chen actually guessed so many things. Big brother Yang Chen was really unpredictable. However, the better Yang Chen performed, the more fascinated Sun Qingxue seemed.

"Even if you have reached the dacheng stage, if you can't complete the two conditions, you can't let the sects agree easily!" Shi Shanshan looked at Sun Qingxue's fascinating expression and she was so angry. What was this good for Yang Chen? The heart of the radish, but also give him a good face. Up to now, Shi Shanshan has not given Yang Chen a smile, but she was cold to him.

Looking at Shi Shanshan, Yang Chen suddenly laughed, which made Shi Shanshan even more uncomfortable and gave Yang Chen a cold face again.

However, when this face was seen in the eyes of Gao Yue, she couldn't help but want to laugh. If she was really angry, why would Shi Shanshan be here, the famous cold plum fairy was not famous for her endurance of humiliation. After all, she still liked Yang Chen in her heart.

"If I said that I know what is in these two boxes, will you believe it or not?" Yang Chen took the two jade boxes in his hands and asked the two women.

"I will not believe it!" Sun Qingxue was straightforward and said it directly. She has seen this box and her spiritual awareness couldn't go in no matter how much she tried. It was closed and tight, and there was no sound when she shakes it. How could he know what was inside?

Shi Shanshan was coldly snorting in her heart, there was no way for Sun Qingxue to hide anything in front of Yang Chen. However, by this time, she also had some curiosity. The jade box she had seen, there was something inside, she was not clear what it was, she would like to know if Yang Chen could guess it or not.

"In this, it must be a medicinal pill." Yang Chen picked up the jade box of the Blue Cloud Sect from Sun Qingxue and said with a smile, "And it is a fifth grade medicinal pill."

After he said this, he did not wait for the public to have any surprises and directly opened the sealed talisman. After a flash of light, the seal on the box began to disappear and Yang Chen opened the jade box, revealing a layer of round medicinal pill wrapped in a talisman.

When he opened the seals of those talismans, a round red medicinal pill appeared in the hands of Yang Chen, the medicinal qi quickly entered their nose. For what kind of medicinal pill it was, everyone had no interest about it for the time being. The eyes of all the people were concentrated on the five obvious pill marks on the medicinal pill.

Five pill marks, it was obvious that this was a fifth grade medicinal pill. Looking at this medicinal pill that should not appear in the mortal world, except for Yang Chen, everyone was very sluggish.

The Blue Cloud Sect proposed that Yang Chen should refine a fifth grade medicinal pill and then gave Yang Chen a fifth grade medicinal pill. This really made people not to know what to say.

Yang Chen was thinking about other things. This medicinal pill was just the most common qi replenishing pill. However, after becoming a fifth grade pill, it has become a rare spirit pill. Yang Chen felt very strange, how did the Blue Cloud Sect get this fifth grade pill?

There was no fifth grade alchemist master in the history of the mortal world. This was recognized by everyone, so where was this fifth grade medicinal pill from? For a moment, Yang Chen thought of the descent of a conciseness clone. There was no fifth grade alchemist master in the mortal world, but there were like clouds in the heavenly court, if the Greatest Heaven Sect could afford to have a conciseness clone decent, the Blue Cloud Sect could also afford it.

Apart from this reason, Yang Chen couldn't figure out what else was possible. The Blue Cloud Sect's tactics of arrogance and deliberation were indeed capable of letting Yang Chen and the Pure Yang Palace be disappointed at first, and then become grateful to them, so that they were firmly tied to their chariots and the end was a good means.

Although this was only a qi replenishing pill, but it was a fifth grade medicinal pill, so Yang Yang could learn a lot of things from. After removing all the talisman, he kept it in the newly acquired medicine nourishing gourd

"In the box of the Green Jade Immortal Island, I think, it must be something that can make me defeat you after I cultivate it!" Yang Chen took the second jade box and said to Shi Shanshan.

Not waiting for the reaction of Shi Shanshan, Yang Chen opened the jade box directly. Unexpectedly, there were two things inside, one was a refined jade lamp that preserved a fire seed and the other was a piece of jade slip.

"Nine secluded heart flame, sixth grade fire seed! The Green Jade Immortal Island has played a big hand!" After seeing the fire seed, even Yang Chen could not help but be surprised.

Nine secluded heart flame, was the advanced upgrade version of the heart fire seed that Yang Chen currently has, the grade has reached sixth grade, his own was in the fourth grade. Apart from the

seventh grade pure yang true flame, which was now kept by Yang Chen, this was already the highest grade of fire seed he had.

As for the jade slip, it was a way of collecting the nine secluded heart flame. For Yang Chen, this piece of jade slip was actually dispensable.

“Even with this, you can’t beat me!” Seeing this, Shi Shanshan’s face still hasn’t changed, just coldly throwing a sentence to Yang Chen.

Chapter 389.1

The more Shi Shanshan said this, the more she was expecting Yang Chen to defeat herself in her heart, but she has never realized it.

Looking at Yang Chen who has been staring at her and laughing, Shi Shanshan was also a little annoyed, she could not help but speak angrily “If you intend to rely on this cheating method to achieve the two conditions, even if the sect agree, do not think about me agreeing to it!”

“You are right, even if I have absorbed a sixth grade fire seed, i will not necessarily be your opponent.” When Yang Chen talked, he still had a smile, so that Shi Shanshan always had an urge to fight him, but listening to what he said as if there was nothing he could do, she suppressed her anger and was waiting for Yang Chen to continue.

“But, don’t forget, the condition you mentioned is just me defeating you.” Yang Chen smiled again and slowly said: “But you never said, when will i have to defeat you!”

“No matter when, the result would be the same!” Shi Shanshan was very proud to lift her chin slightly, Shi Shanshan only had some heart demons when Yang Chen went to visit her the last time. After overcoming the heart demons, her strength has seen a promotion, vaguely reached the realm of the late Jiedan stage, and soon she would break through to the peak Jiedan stage. This was also the qualification that made her so proud.

“When i seriously hurt you, it’s the same?” Yang Chen’s eyebrows picked it up and looked at Shi Shanshan with a smile. “Don’t tell me, you have a sure grasp of any opponent, so you will never be injured.”

The senior cold plum fairy could have such a reputation, not by bullying the weak, but because she could always challenge the enemies who were more powerful than her and win in battle. As for the injuries, it was more commonplace, but every time there was an injury, Shi Shanshan would become even more powerful, learning from the battle has always been the strength of Shi Shanshan.

She did not think that Yang Chen would have proposed such a method. Even if Shi Shanshan wanted to argue, she would not be able to argue. She just never thought that Yang Chen would get along with such a way to deal with the conditions she proposed. In her eyes, one-on-one and face-to-face battles were fair and there would never be someone so rogue.

However, what Yang Chen said was not wrong at all, and did not even violate her own request. One-on-one, yes, face to face, it's not wrong, but it's true that Shi Shanshan, who was seriously injured, was probably not the opponent of Yang Chen.

Originally she thought that she could create obstacles for the marriage with Yang Chen, after Yang Chen's sentence, suddenly the condition became the most ridiculous joke, it was easily removed by Yang Chen.

In this case, it seemed that Yang Chen has already had a fifth grade medicinal pill on hand and he could also defeat Shi Shanshan. Shi Shanshan and Sun Qingxue seem to be Yang Chen's wife, which was not so far away.

"Yang Da Ge, the sect master said, if you want to use this medicinal pill to complete the conditions, you must wait until after the dacheng stage!" Sun Qingxue said these words like she was facing some injustice and there was such a trace of discomfort in her heart.

In fact, the Green Jade Immortal Island also has the same conditions. If he wanted to use the nine secluded heart flame to defeat Shi Shanshan, he must wait until after the dacheng stage to be able to marry Shi Shanshan.

However, Yang Chen proposed such a solution. With Shi Shanshan's habit of challenging experts, the chance of injury was very great. Yang Chen would soon be able to meet the conditions of Shi Shanshan, who would become his wife, but Sun Qingxue could only wait for Yang Chen to reach the dacheng stage before he could marry her. Even if Yang Chen's cultivation was extremely fast, it would take at least several hundred years.

In this case, Sun Qingxue certainly felt somewhat unbalanced and couldn't help but complain.

After Shi Shanshan was made speechless by Yang Chen, she heard Sun Qingxue again, her face sank again, and said to Yang Chen coldly "Yang Chen, if you use the method of disadvantages to reach the conditions, I will look down on you for the rest of my life. Little Xue will look down on you as well!"

When talking, she was looking at Sun Qingxue with a cold and unprecedented expression. These words were indeed the words of Shi Shanshan. Although Yang Chen's method does not violate her conditions, she would definitely mock him.

Sun Qingxue still wanted to say something, but when she heard Shi Shanshan's words, she saw the coldness shot in the eyes of Shi Shanshan. After all, she still didn't say it. She just turned to Yang Chen's side and looked at Yang Chen's face pitifully and nodded. The reluctance on her face seems to explain to Yang Chen that this was not her intention, but she must stand side by side with Shi Shanshan.

"Yang Chen, if you really use this method." Just after Shi Shanshan said this, Gao Chen near Yang Chen also opened her mouth: "I will be unhappy too."

"You should be a great hero, you shouldn't use this way." Gongsun ling watched Yang Chen kill the Yuanying stage devil, killing the Yuanying stage master, although she knew that Yang Chen was teasing Shanshan, but she still followed Gao Yue.

Four women, two have promised to marry him, one wanted to marry him but was blocked by the conditions of the sect, but the other was somewhat unwilling to agree easily to it, so he must defeat her. But the four people all have the same attitude at the moment, as if they have formed an alliance.

The sentences of the two women made Shi Shanshan look at the two women's eyes and her face changed a little, softening a lot. At this moment, the four women seem to be facing the same enemy, standing on the opposite side of their own family.

"Your husband is not a top-notch character, but he has never been a swindler and deceitful." Yang Chen, of course, must show his attitude, he must not be looked down upon by his own women.

“If i want to marry you, it must be open and overboard, and I will never let your heart feel dissatisfied.” Yang Chen’s chest was straight and out “The two conditions you mentioned, I will never use a method of cheating to achieve it.”

When these words were said, except for Sun Qingxue who was worrying, the other three women were all glazed in their eyes. They have never seen Yang Chen’s arrogance in order to marry them, and naturally they were happy.

“Little Xue, Shanshan, you can tell your sects now, I said that I promised. After three years, I will go to the Blue Cloud Sect and the Green Jade Immortal Island to take a trip to treat the several elders.” Yang Chen said quickly “Tomorrow, you are to come back here.”

“Why?” Sun Qingxue asked anxiously.

“To accompany me in alchemy.” After Yang Chen gave Sun Qingxue a smile, he turned to Shi Shanshan and smiled and said “Shanshan, I will give you three years to converse your strength, impact your realm boundary, three years later. I want to challenge you, I want you to marry me willingly!”

Chapter 389.2

Yang Chen’s remarks made the four women somewhat surprised. Yang Chen wanted to refine the fifth grade medicinal pill and he has given Shi Shanshan three years to recharge her batteries, and then challenge her to ten games, what was this?

If he say that he wanted to defeat Shi Shanshan, one was enough. Why did he still need ten games? And for three years, what kind of medicinal pill was to be refined?

No one knew Yang Chen’s plan, Yang Chen promised to heal the several elders, but it was as a favour. This was to repay the sect masters, the two women did not dare to neglect. They did not come alone, they immediately arranged their own rewards. The two women came to Yang Chen’s pill room after a day of rest.

Gao Yue and Gongsun ling have been accompanying Yang Chen several times so Yang Chen alchemy was not surprising for them, but it was the first time for Sun Qingxue and Shi Shanshan to see Yang Chen’s alchemy, the two seemed to feel very fresh.

Gongsun ling's mountain river geographical map needed for her to travel around but Yang Chen wanted to retreat. She has to go out, at least to visit all the sites of the dao sects domain, and to map the mountains and rivers of the dao sects.

Anyway, Gong Sunling had a praying mantis puppet with her and there was also the ship protection, plus the spirit pill that Yang Chen gave her, which was enough to cope with the danger of most dao sects domain. Before Yang Chen refined the pill, Gongsun ling bid farewell to Yang Chen, bid farewell to Sun Qingxue and Shi Shanshan, and with several core Jiedan stage disciples of the Pure Yang Palace, set foot on the road of going out and practicing.

When Gong Sunling came back this time, she also had to collect a few potential apprentices. She was already a mid Jiedan stage master, which was enough to satisfy the conditions of the apprenticeship.

Gao Yue wanted to refine the dragon's horn flying sword. Although it has always been within the sect, it has to be tempered with her master at all times, and the design of the dragon's horn flying sword must be perfected. Therefore, the matter of accompanying Yang Chen in his alchemy would be handed over to Sun Qingxue and Shi Shanshan.

The two women saw Yang Chen alchemy for the first time and felt curious. However, Yang Chen did not start alchemy at the beginning, but gave each of the two women a first grade inner sensing pill and second grade inner sensing pill and let them take it in turns.

Everyone knew that the second grade inner sensing pill was Yang Chen's unique medicinal pill. They knew that there were still many pills in his hand so the two women were not polite. After Yang Chen said to Shi Shanshan that he wanted to marry her in an open and overboard manner, she also had a lot of good expressions for Yang Chen. Although she still had the face of frost, she did not have that kind of target.

After the two inner sensing pills were taken, the two women quickly realized that there was something wrong with the spiritual power in their bodies. Whether it was Sun Qingxue or Shi Shanshan, they were all geniuses with great talents in cultivation. After discovering the problem, they naturally made targeted adjustments.

Just two medicinal pills were enough to save the two women at least twenty years of hard work. After all, adjusting the previous cultivation deviations was by no means an easy task and it was even harder to

find out. With the inner sensing pills, the sooner the two women discovered it, the easier it was to correct the deviation, the higher their future achievements would become.

Shi Shanshan seemed to have some understanding of why Yang Chen asked her to recharge herself. This three-year period was just enough for Shi Shanshan to adjust her whole body's spiritual power to the best conditions. She was very much looking forward to what kind of combat power Yang Chen would use at that time.

Next, Yang Chen did not immediately start alchemy, but asked in detail about the two women, how the injured elders in their sects were injured.

Because this time the two women came to ask Yang Chen to help, so before they set off, they also specially went to see the injured elders. Everyone was injured and their feelings were told to the two women. When Yang Chen asked, they naturally relayed them in detail.

"The injury of the elders, or you want to see it with your own eyes and judge it better?" Although Shi Shanshan said this, but she still had some doubts. It was difficult to make a correct judgment without seeing it with his own eyes and even diagnosing it.

"I just need to know if a certain kind of medicinal pill can be used to treat it." Yang Chen replied with a smile, and then after thinking about it, took out the profound spirit furnace.

Even if Shi Shanshan and Sun Qingxue were not good at alchemy, but when they saw Yang Chen's profound spirit furnace, they still couldn't help but become dazed. Yang Chen's profound spirit furnace level was so high that the two women could not believe it, in any case they could not believe that Yang Chen, a cultivator in the early Jiedan stage, how could he refine an alchemy furnace to such a high level.

In this respect, Yang Chen certainly would not explain it, but he picked up the medicinal ingredients he needed from the medicine garden. Lingzhi Mushroom, which has been maturing for more than a thousand years, has directly produced more than 20 strains. Other fresh herbs, which were more than a thousand years old, were also fresh and incomparably appearing in front of the two women.

They have already seen the ten thousand years medicinal ingredients for refining the questioning inner heart pill. These things, which were less than two thousand years old, were very precious, but they were

still not in the eyes of the two women. Seeing that Yang Chen had prepared a lot of medicinal herbs, he then threw them into the profound spirit furnace as if he had thrown a pile of rags.

Sun Qingxue and Shi Shanshan both raised their eyes and stared carefully. Yang Chen was a senior alchemist master. It was not an illusion, but the real thing. So the two women really wanted to see if Yang Chen's alchemy technique was as magical as the outside world guesses.

Yang Chen wanted to refine the medicinal pill, which was the lingzhi mushroom jade pill. This kind of medicinal pill was the best medicinal pill for healing. For injuries in cultivators below the Yuanying stage, as long as there was still a breath in them, it could pull people back from the edge of the netherworld. When Gao Yue was in the 100,000 mountains and was in danger, he relied on the lingzhi mushroom jade pill to save her life.

The more high-level cultivators were injured, the less likely they were to recover. Generally speaking, the masters of the dacheng stage were highly skilled and would not be easily injured, but once injured, it was definitely a big problem.

This lingzhi mushroom jade pill was only used for the injury under the Yuanying stage. If the cultivation base was higher, it would be less effective. It was of no use to the master of the dacheng stage.

However, it was relative, a first grade lingzhi mushroom jade pill was of no use, but this does not mean that a fifth grade lingzhi mushroom jade pill would be useless.

Yes, Yang Chen was going to refine the fifth grade lingzhi mushroom jade pill in front of the two women, to heal the three dacheng stage elders who were injured in the two big sects.

Asking the situation of the three elders' injuries was to judge whether the fifth grade Lingzhi Mushroom jade pill could cure their injuries. Fortunately, in Yang Chen's view, the fifth grade Lingzhi Mushroom jade pill was enough.

No one knew this but Yang Chen was already a sixth grade alchemist master before his rebirth. In addition to the fact that the sixth grade alchemist master in the heavenly court was far worse than the great principle golden immortal, the experience and techniques of alchemy was no problem at all, plus the basic knowledge of the elderly lord pill scripture and recent jade slips. Not mentioning the fifth

grade lingzhi mushroom jade pill of the mortal world, even if it was a sixth grade pill, it was not a problem for Yang Chen.

Chapter 390.1: Fifth Grade Medicinal Pill

In the eyes of Shi Shanshan and Sun Qingxue, Yang Chen's alchemy was absolutely dazzling. A large pile of medicinal materials was thrown into the pill furnace and they were separated to an area under the control of Yang Chen, and then different flames emerged and certain medicinal material was refined separately.

If this process occurs in sequence, it was not surprising that each medicinal material was refined and then added to the pill furnace at the appropriate time. This was the common fact of all cultivators in the alchemy process.

However, Yang Chen's practice has subverted the common sense of the two women. All the medicinal materials were refined at the same time. The most ridiculous thing was that the flames used in the refining of each medicinal material were still different.

There were many kinds of fire seeds in Yang Chen's hands. The two women were clear about this, after refining the questioning inner heart pills, the two major sects give Yang Chen no more than 100 kinds of fire seeds.

Different medicinal ingredients were refined with different fire seeds, this was common sense and undoubtedly. Some herbs were suitable for smoldering fires, some were suitable for slow fires, while others require yin fires, and so on.

However, controlling several different flames at the same time and refining dozens of medicinal materials at the same time has exceeded the imagination of the two women. What type of concentration would be needed in order to accurately grasp all the medicinal materials refined?

Not only control different flames, but also the different flames have different maturity. Different fire seeds need to correspond to different herbs, and even a kind of medicinal ingredients needs different flames and different heats.

Just this alone was enough to make the two women marvel at Yang Chen's alchemy technique. The two women themselves were masters of cultivation, naturally they understood what such subtle control means, even Shi Shanshan, seems to have a new evaluation of Yang Chen's combat effectiveness.

The refining of medicinal materials has no difficulty for Yang Chen and even just verified the things recorded on the jade in the medicine nourishing gourd. Of course, Yang Chen used the correct method of conciseness this time, instead of deliberately making mistakes in order to know what the consequences of the mistakes would be.

The next refining, the two women could not understand. But the principle was very clear, nothing more than to add the right medicinal herbs to the pill furnace at the right time, but Yang Chen's approach was slightly different.

In fact, there was not much difference. The strangeness of the profound spirit furnace and the exquisiteness of Yang Chen's control of fire seeds was that Yang Chen could use the flame to temporarily store the medicinal materials in a certain corner without being damaged by the medicinal materials. When the medicinal material was added, the refined liquid was controlled to be added.

Under the gaze of the two women, Yang Chen soon completed the refining of the first grade lingzhi mushroom jade pill. Because of the improvement of the quality of the profound spirit furnace, each refining of the medicinal pills could automatically increase a grade. If Yang Chen took out the medicinal pills at this time, Yang Chen could easily get the second grade lingzhi mushroom jade pill.

However, this was not the purpose of Yang Chen. Yang Chen has quietly started the refining of the second grade.

The two women only knew that Yang Chen was refining a kind of pill that could alleviate the injury of the injured elders. No one would think that Yang Chen was directly attacking the fifth grade refining system.

It's not that the two women couldn't think of it, but it's more than the imagination of the two women. In the past, there has never been a fifth grade alchemist master in the mortal world. Yang Chen was only a small Jiedan stage descendant. Even if he was extremely strong, the fourth grade was the limit. How could it be carried out?

Even those senior alchemists who were famous in history, when they attacked the fourth grade alchemist master realm, they only chose the simplest refining to carry out the fourth grade refining. Even the Blue Cloud Sect's predecessor, whose consciousness clone descended, did he not only refine the fifth grade qi replenishing pill?

Who could think that Yang Chen was using so many millennial elixir, to refine a high-grade healing holy medicine, even thinking about impacting the fifth grade?

The two women only thought that Yang Chen's alchemy was an ordinary alchemy. Anyway, they never accompanied Yang Chen in refining medicinal pills. In addition, they had just taken the inner sensing pills, and they could just look at Yang Chen's alchemy and try to solve some deviations in their cultivation.

The second grade inner sensing pill was indeed a shock to both women. After personally experiencing the effect, they finally understood why Qiao Ming and Xu Chengxin were able to face their tribulation by relying on a pill. At that critical moment, the help provided by this medicinal pill was definitely a qualitative change in the cultivation of people.

In a blink of an eye, a year has passed. Yang Chen has completed the refining of the second grade, and turned to the third grade refining system. Outside the pill furnace, the situation in the pill furnace was not seen at all. The two women still thought that Yang Chen had not finished refining, and no one had reminded him, just quietly accompanying him.

The alchemy was very calm, there seems to be no waves, only Yang Chen's look was more and more focused, and his expression was more and more cautious. With the third grade refining, Yang Chen was able to control it relatively normally, but when it came to the fourth grade refining system, there was some trouble.

After all, Yang Chen's cultivation base was too low. In the past, Yang Chen was a sixth grade alchemist master. He could easily refine the mortal medicinal pills to the sixth grade. However, it was based on his great principle golden immortal cultivation base.

The current Yang Chen was only in the early Jiedan stage, even if the cultivation of the Yin-Yang five elements secret art made it so that Yang Chen's spiritual power was at the level of a master of the Yuanying stage, but compared with the great principle golden immortal, it was almost heaven and earth. The difference was that he couldn't be compared with one finger of the great principle golden immortal.

In this case, it was still difficult to control the fourth grade refining system perfectly. Fortunately, Yang Chen's spiritual awareness has reached the level of the middle dacheng stage, and he could barely control the situation.

Yang Chen showed prudence and concentration, so that both women understood that this pill was at a crucial moment for the refining. The two women no longer cared about their own affairs, but carefully guarded Yang Chen, trying not to let Yang Chen be disturbed.

Although this was the site of the Pure Yang Palace, there was no theory that anyone would rush in, but the two women were extremely careful. At the same time, Yang Chen also had a layer of worry. It was not afraid of the dangers of Yang Chen, but he was afraid that his refining would fail.

It was also the most attractive time to focus on one thing. Sun Qingxue and Shi Shanshan had enough good feelings for Yang Chen. At this moment, they were attracted by Yang Chen's kind of concentration.

Sun Qingxue already belonged to Yang Chen. If it was not the request of her sect, she might have promised to become Yang Chen's wife. And Shi Shanshan, while watching Yang Chen so dedicated to the refining of medicinal pills, seems to have more understanding of Yang Chen's efforts.

The success has never been accidental. Yang Chen could become such an outstanding alchemist master, he must have his extraordinary place. Looking at Yang Chen's face that has been faintly visible, Shi Shanshan's heart began to soften.

Chapter 390.2: Fifth Grade Medicinal Pill

Time flies, especially when Yang Chen was focused on alchemy, he would not notice the passage of time. The current fourth grade refining process has been completed, but Yang Chen was still continuing.

Although the profound spirit furnace could automatically improve the refining effect, Yang Chen still needed a little insurance, at least half of the fifth grade refining had to be completed, so that the pill success had a higher grasp.

In the two years and eight months, Yang Chen already felt that the medicinal pills in the pill furnace have been faintly showing signs of the fifth grade and then he stopped.

Coupled with the efficacy of the profound spirit furnace, this lingzhi mushroom jade pill already had the standards of a fifth grade medicinal pill. If it was necessary to strengthen again, Yang Chen was afraid that once the sixth grade medicinal pill was released, it may trigger the stormy waves of the entire dao sects.

The fifth grade medicinal pill was enough to make people feel shocked. Yang Chen was not a person who was willing to make a big splash. As long as he maintained enough alchemy advantages, there was no need to alarm to the point where he would feel threatened.

In addition, even if Yang Chen wanted to complete a higher-level refining, he was also powerless. With his current cultivation base, it was impossible. Now it was upgraded to fifth grade by the profound spirit Furnace. In fact, the essence was still of a fourth grade medicinal pill, but the pill itself was the lingzhi mushroom jade pill, which was much higher than the qi replenishing pill.

Fourth grade was the current true level of Yang Chen. If he wanted to carry out a higher-level refining, Yang Chen probably estimates that at least he had to reach the later stage of the Yuanying stage or even higher. The gap between fourth grade and fifth grade was by no means a big gap, just like the overwhelming effect of medicine.

To the fifth grade medicinal pill, it could almost be called “the true spirit pill”, the medicinal pill that would appear in the spiritual world, the wounds of the three dacheng stage elders and the fifth grade lingzhi mushroom jade pill have only one effect – – medicine to cure disease.

In the eyes of Shi Shanshan and Sun Qingxue, after Yang Chen’s dazzling collection of pill recipe techniques, five golden medicinal pills instantly became successfully made and then a flash of light that could not be overlooked flew to Yang Chen’s hand.

Yang Chen himself carefully explored it first, and even after taking the medicinal pill into his sea of consciousness to observe it, he nodded with satisfaction and handed it to Sun Qingxue.

“Yang Da Ge, have done with refining the pill?” Sun Qingxue subconsciously asked without hesitation. After seeing Yang Chen nod, she looked down and carefully observed the pill in her hand.

“Ah” a long screams came directly from the mouth of Sun Qingxue and Shi Shanshan who was waiting to ask what was the medicinal pills, was shocked and asked “What happened? What happened?”

Sun Qingxue was somewhat sluggish and handed the medicinal pill in her hand to Shi Shanshan and her mouth was still slightly open. She couldn't believe what she saw. On the golden medicinal pills, how could there be five pill marks?

Shi Shanshan thought that Sun Qingxue had seen something wrong. After taking the medicinal pills, she only carefully scanned the circle and suddenly fell into horror.

This was actually a fifth grade medicinal pill. How was this possible? Shi Shanshan almost screamed like Sun Qingxue, but still forcibly resisted. She was afraid that she was wrong, and after seeing it over and over again, she was sure that this was not Yang Chen casually making a few pill marks on the medicinal pills, nor was it a fake pill mark, but it was really five solid pill marks.

“I said, I will be marrying you in a grand manner.” Yang Chen's incomparable words came out from his mouth. Facing Sun Qingxue, Yang Chen extended his right hand “Fifth grade lingzhi mushroom jade pill, Little Xue, marry me. “

Sun Qingxue was immersed in a huge surprise. Yang Chen's words made her wake up from the surprise, and then she heard her dream of Yang Chen's marriage proposal. Once again, she fell into ecstasy and no longer cared about others and put herself in the hands of Yang Chen.

Yang Chen was only gently picking up the situation. Sun Qingxue's delicate body was thrown into the arms of Yang Chen and Yang Chen hugged her tightly and the tears of joy flowed involuntarily.

With a big hand out, Yang Chen gently picked up the pretty face of Sun Qingxue. His big finger gently crossed the cheek of Sun Qingxue, gently wiping away the tears she shed, and then Sun Qingxue became very shy. In front of others eyes, a kiss was made on the red lips of Sun Qingxue.

Sun Qingxue instantly fell into a huge happiness. She only felt that she was already in paradise and the wonderful taste made it almost impossible to support herself. Without the slightest struggle, Sun Qingxue obeyed and closed her eyes and enjoyed the kiss from her beloved.

Shi Shanshan was watching it all by the side, but there was no thought in her heart that she wanted to stop it. According to the conditions set by the Blue Cloud Sect, Sun Qingxue was already the wife of Yang Chen. It was just a lack of a ceremony remaining. What reason does she have to stop the affection between Yang Chen and Sun Qingxue?

However, this kind of scene made Shi Shanshan feel a little shy, but Shi Shanshan didn't retreat. She was still immersed in the fact that Yang Chen refined a fifth grade medicinal pill in front of their eyes.

How could this be? How was this possible? How did he refine the fifth grade medicinal pill? But everything happened under her own eyes, everything was a fact.

Now Shi Shanshan finally understood why Yang Chen would let her and Sun Qingxue accompany him to alchemy, so that they could witness this moment with their own eyes.

If it wasn't for Shi Shanshan's own eyes being there, even if Yang Chen took out the fifth grade medicinal pill, Shi Shanshan might have suspected that Yang Chen was cheating and used the medicinal pill given by the Blue Cloud Sect. Everything happened now under her own eyes, Shi Shanshan just wanted to disbelieve it, but she couldn't.

Looking at the happy expression of Sun Qingxue being kissed in Yang Chen's arms, Shi Shanshan was somewhat envious. If she was kissing in Yang Chen's arms at the moment, what kind of feeling would it be?

At the thought of this, Shi Shanshan suddenly woke up and hurriedly expelled this thought from her mind. How could she think of this, Yang Chen has not fulfilled the conditions she has proposed, he has not defeated herself in an upright manner. Even if he has solved the conditions of Sun Qingxue, but if he wanted her, Shi Shanshan would never let the matter drop easily.

The thought flashed and Shi Shanshan suddenly had another problem. Yang Chen let her recharge her batteries for three years, and then challenge her to ten games. What does that mean?

Could it be that Yang Chen wanted to find a chance to beat her in the ten challenges? Yes, it must be like this. As long as he could beat her, he would reach her own conditions and marry Yang Chen as his wife.

Looking at Sun Qingxue's surprise to the ultimate happy expression, Shi Shanshan suddenly hesitated, was it that she should hold back a little Yang Chen's challenge, just little bit, maybe others couldn't see it?.
