Chapter 396.1: Heaven Defying News

It was exactly the same as the expression of the Blue Cloud Sect. When the fifth grade lingzhi mushroom jade pill was in her hand, the face of the Green Jade Immortal Island's sect master was also shocked.

In this world, there was actually a fifth grade medicinal pill and a fifth grade master of alchemy. The most shocking part was that, it was Yang Chen, a younger generation junior actually became such a miraculous figure.

In addition to the shock, the Island master suddenly thought of another problem. Since Yang Chen has already refined the fifth grade medicinal pill, doesn't that mean that Sun Qingxue was already Yang Chen's wife? If this was the case, then the condition of Shi Shanshan must be stuck. Wasn't the Green Jade Immortal Island alienated from Yang Chen?

When the gaze of inquiry turned to the face of Shi Shanshan, the clever Shi Shanshan did not wait for the island master to ask and she took the initiative to admit the result " Reporting to the island master, this disciple was also defeated by Yang Chen." After saying this, she added a sentence: "I was defeated ten times, using different methods."

This time, the island master was even more shocked. To say that Yang Chen was very talented in alchemy so he became a fifth grade alchemist master, at least there was still a possibility for that to happen. After all, Yang Chen has refined the heaven seizing pill and the questioning inner heart pills these heaven defying pills and he became a grandmaster alchemist. That's what it deserves, but it's just a little earlier.

However, as the island master, the island master of the Green Jade Immortal Island knew how many of the female disciples of her own sect were trained and how strong they were. Not to mention that it was a junior in the early Jiedan stage, even if it was now a few new masters in the sect, they would not necessarily be the opponent of Shi Shanshan.

However, Shi Shanshan actually said that she was defeated by Yang Chen. How could this not surprise the island master? It was normal to say that Shi Shanshan would hold back a little bit . However, after ten times, Shi Shanshan was defeated by ten different methods. This was not her holding back, with the character of Shi Shanshan, it was impossible to make her hold back and lose ten times.

Moreover, looking at Shi Shanshan's expression, it was completely convincing and oral and with a little shyness, how could the island master not understand, this was the appearance of Shi Shanshan who has been convinced by Yang Chen.

This was what the Island Lord did not think of in any way. In her mind, she thought that if Yang Chen at least relied on the sixth grade fire seed that she sent to him and he cultivated to the late Yuanying stage, perhaps by one or two times when Shi Shanshan was injured he could gain a victory.

Unexpectedly, the arrangement of the Blue Cloud Sect and the Green Jade Immortal Island were just raised by Yang Chen and Yang Chen had directly satisfied it with the most powerful method. It seemed that they still imagined Yang Chen as a simple person, a person who could survive the pursuit of a master in the late dacheng stage, how could he become so simple.

Fortunately, after asking for the request, she immediately sent Shi Shanshan to contact him and gave Yang Chen the solution, indicating that she was not martyrdom. Otherwise, the island master did not know how to alleviate this unintentional contradiction.

As for the palace master seeking for an engagement, the island master naturally gave her promise and no words such as conditions were mentioned.

The fifth grade lingzhi mushroom jade pill has passed the test of two dacheng stage masters of the Blue Cloud Sect and there was no problem, so it was directly sent to the injured elder.

The high ranking members were also concentrated on the side of the injured elder, nervously watching the changes after the elder took the medicinal pill. Although the two elders of the Blue Cloud Sect have proved that the medicinal pills were effective, no one has ever seen the fifth grade medicinal pill and they have never seen the appearance of the fifth grade medicinal pill, so they had to be cautious.

In the same month or so, the injured elder changed from an old woman to a middle aged woman. However, the only regret was that her original black hair became white and it could not be changed for a while. But it also added up to the style of the elder, white haired people had quite a charm that made the people shine.

Perhaps it was the credit of the island master for getting her the medicinal pills. Perhaps it was the shock brought by the fifth grade medicinal pill. After the wounded elder was cured, she also expressed her loyalty to the island master.

Perhaps the main reason was the questioning inner heart pills! She was not sure of her chances of crossing the tribulation to ascend, so she was hoping to rely on the questioning inner heart pills and the refiner of the questioning inner heart pill has become the only fifth grade alchemist master in the mortal world. It could only explain that he could provide better medicinal pills in the future. The relationship between the island master and Yang Chen was good, this was naturally also a key.

Shi Shanshan's status in the Green Jade Immortal Island was not low. This time, it has become even more impressive. No one could have imagined that Shi Shanshan would have strongly predicted that the man she was looking for would have such a good future, only to show her unique vision come to pass.

Now Shi Shanshan has passed the first responsibility of the island master and Yang Chen has given her a status, everyone knew that Yang Chen was willing to take up alchemy once every twenty five years. This kind of opportunity of course needed to be grasped. Naturally, Shi Shanshan, who has a close relationship with Yang Chen, has become highly valued in the eyes of everyone.

In this situation, the palace master has seen it once before, but this was the chores of others. It was natural that the palace master would not say anything more. Moreover, the wife of his own disciple was valued in her own sect. Of course, it was a good thing and the palace master was happy to see it.

On his visit to the Green Jade Immortal Island, the head of the palace also received the highest standard of reception, once again bringing the relationship between the two sides closer, the palace master was satisfied when he returned to the Pure Yang Palace.

Yang Chen was already a fifth grade alchemist master and was willing to refine medicinal pills for everyone. It was also spread among the two major sects, however, this was a secret. At least the Pure Yang Palace has not announced it publicly. Everyone was happy that the news had not spread, so that they could dominate resources.

However, some things were doomed to be unstoppable. The three masters of the major sects, they had serious injuries but all recovered to normal within a short period of three months and everyone was having very strange white hair, how could it not be rumored?

Under the entanglement of several experts, the two major sects couldn't completely block the news. Because of saving face, they could only tell each other that this was the effect of a medicinal pill refined by Yang Chen of the Pure Yang Palace. At the same time, the news of Yang Chen becoming a fifth grade alchemist master has begun to spread among those big people.

In the circle of experts that the little people couldn't imagine, there was a storm of turmoil. A fifth grade alchemist master was enough for everyone to pay attention. At this time, it was no longer a question of unbelief or not. The recovery of the three seriously injured dacheng masters has already explained everything. Did they not see the three dacheng stage masters of the Greatest Heaven Sect still lying down and waiting to die?

There were pre-existing rumors in the circle, but everyone has also learned the good news that Yang Chen was willing to refine for others. In the rest of the day, the Foreign Affairs Hall of the Pure Yang Palace was like the most popular market. In recent days, people have started to come to the sect.

Chapter 396.2: Heaven Defying News

A fifth grade alchemist master, almost everyone who heard it was shocked, which could be described as a miracle. Was there anything more enchanting than a fifth grade alchemist master in the mortal world?

Then, the first reaction after everyone was awoken, was how to set up a good relationship with the fifth grade alchemist master with no exceptions.

What was Yang Chen like? what kind of medicinal pills was he willing to refine and what grades, were things they needed to know. Some people have been trapped in certain realms for a long time. The most important thing was to ask for the kind of medicinal pills such as the questioning inner heart pills and they really understand what they need. They couldn't immediately fly into the Pure Yang Palace to see Yang Chen.

In the past, if they had been in contact with the Pure Yang Palace, naturally they were very happy. Those who didn't have any contact with them, they all began to tell their younger generations that in the future, they should be very polite to the people of the Pure Yang Palace. In short, in just a few months, the disciples who went out from the Pure Yang Palace seem to have noticed this difference.

The big guys and masters began to rush to the direction of the Pure Yang Palace intentionally or unintentionally, but in any case, they should leave a good impression on the side of the Pure Yang Palace.

Even if it was the high-level executives of the Greatest Heaven Sect, even if they hated Yang Chen to the core, they couldn't help but be shocked by this news. The person who they wanted to deal with in secret has become a fifth grade alchemist master and moreover he was willing to refine medicinal pills for other sects. This made them feel like being slapped with a thunderbolt.

If it was only a fourth grade alchemist master, then the Greatest Heaven Sect themselves has such an alchemy master, and they would not care. But now Yang Chen has reached the fifth grade, the first person who has reached such a level in the mortal world and has the complete pill recipe for the questioning inner heart pill and the heaven seizing pill, and he also had the second grade inner sensing pill as his ultimate weapon. It has already established his lofty position in the minds of the cultivators.

At this time, let alone killing Yang Chen, even if they revealed their intentions of killing Yang Chen, they would absolutely be against all the masters who were trapped in a certain realm and cannot be promoted.

The Greatest Heaven Sect could suppress several small sects with their own ancestral strength, suppressing some rogue cultivators, but they would never dare to be so brazen and become enemies with the cultivation world. And sending people to kill Yang Chen would make them the enemy of the cultivation world.

More importantly, when they learned that the three seriously injured masters of the Blue Cloud Sect and the Green Jade Immortal Island had already recovered under Yang Chen's medicinal pills, they were even more moved. Yang Chen absolutely needed to be killed. If they don't get it, they still need to ask Yang Chen to cure the wounds for their three elders.

Now was not the time to get carried away, the three masters of the dacheng stage, which sect could afford to lose such a force. Because of the shackles of the little Pure Yang Palace, because of one of the troubled disciples of their own sect and Yang Chen's personal grievances, they gave up the three masters of the dacheng stage and really made this decision. The sect master of the Greatest Heaven Sect immediately crashed into a group of angry masters off the stage.

To put it bluntly, the Greatest Heaven Sect couldn't understand Yang Chen, the cause was Li Qingchen's business. But now Li Qingchen has died and Li Qingchen was clearly jealous of Yang Chen. At that time, he was oppressing Yang Chen as an outer sect disciple at the late stage of the foundation stage.

Then there was the arrangement of the Greatest Heaven Sect in the Pure Yang Palace and the conspiracy to seize the Pure Yang Palace. The Greatest Heaven Sect was also feeling very hateful. However, if this was strictly speaking, it was because their sects actions were not right.

The Blue Cloud Sect and the Green Jade Immortal Island had three more masters of the dacheng stage, while the Greatest Heaven Sect has three fewer. How could this account not be worthwhile. The Greatest Heaven Sect could only find the Pure Yang Palace with a hard scalp and seek cooperation again.

From the very beginning, when the arrogant people, Ming Guangruo with the hall master Mao Tang went to the Pure Yang Palace to interpret the secret key, they were very overbearing but now they needed to accompany them with a smile, the Greatest Heaven Sect changes made everyone speechless. Even the high ranking members of the Greatest Heaven Sect had some unpleasant faces.

Yang Chen has gone to the extreme north of the land to pick up Mu Bai family so he was not in the sect. Many people can't find the Lord in the past, they could only find the palace master.

If they dared to find the sect in this kind of situation, everyone was an expert, the person with the lowest cultivation base was at the late Yuanying stage. The purpose of coming to the sect was naturally to seek for a pill.

Of course, above this realm, what everyone wanted to ask for was the questioning inner heart pill. Since Yang Chen was willing to make alchemy for everyone, naturally he would not refuse. The head of the palace has long been ready to ask for a list of medicinal herbs that was needed for the questioning inner heart pill. As long as someone asks for a questioning inner heart pill, he would send a list to them.

Yang Chen has given his word in the first place, that they should prepare their own medicinal herbs, Yang Chen would not post his own medicinal herbs to make alchemy for others. Everyone got a list of medicinal herbs that was required for the questioning inner heart pill. Naturally, they were all very happy. They quickly prepared for it. At the same time, they also hang a number on the side of the Pure Yang Palace. When it was their turn, when they could get together the medicinal materials, but also to see if Yang Chen was free.

Everyone was not empty-handed when they came. The visitors were not familiar with each other, but it was like everyone agreed to prepare some gifts when coming.

These meeting gifts were also very similar, most of them were a few heads. It made hall master Xu Chengxin become amazed and he couldn't help wondering.

Fortunately, the explanations of the people were very fast coming and immediately Xu Chengxin knew the origins of these people. These were some killers. It was said that the next assassination against Yang Chen, regardless of whether things have been done, as long as they took the assassination of Yang Chen, it was a crime punishable by death, these experts, on their way took care of several killers and they brought the heads just to show it.

Originally the Pure Yang Palace was only a sect at the bottom of the second-rate sects. It was not known whether the Pure Yang Palace would be swallowed by a large sect one day, but now it has become the leader of the second-rate sect. Although it was not comparable to the super sects like the Blue Cloud Sect, Greatest Heaven Sect and the Green Jade Immortal Island, they were not so far behind at this time.

At this time, no one dared to have any other thoughts on the Pure Yang Palace. Who knew how many masters were secretly waiting for such an opportunity and then use these human heads to please the Pure Yang Palace.

The head of the hundreds of killers placed at the gate of the Pure Yang Palace was the testaments of all this.

Chapter 397.1: Trouble

Yang Chen and Gongsun ling did not know what happened in these days. They were on their way to the north. In the territory of the monster race, Yang Chen directly increased the speed of the shuttle to the fastest speed possible.

It has been a few years since the 30 years of agreement with the cypress and Yang Chen was afraid that the cypress would be worried about the authenticity of his own words, so his speed was fast.

Fortunately, for Gongsun ling's mountain river geographical map, their speed was not important. The places they pass by were still recorded in detail. This was the reason for Gongsun ling to follow him.

The waves in the central plains dao sects has nothing to do with the monster race side and there was no news to pass here. It seemed that everything was normal.

With the high speed of the shuttle, there was no such thing as an ordinary demon that could catch up with them. Yang Chen and Gongsun ling were very relieved. Of course, this was not one of the biggest reasons. It was that She Kui and Xie Sha have recently felt that there were some bottlenecks in their cultivation so they also followed the two out to the monster's domain.

The two powerful guys didn't have any systematic cultivation methods to cultivate before. They relied on instinct to support their Yuanying stage realm and then they followed it with the transformation secret art and became more powerful. After Yang Chen brought back the cultivation methods of the monster race, the two talents were truly having their own cultivation methods and they began to cultivate step by step.

Incorporating the fifth earth true essence, plus their cultivation to this period, both of them have reached the level of the late Yuanying stage. It was just stuck on the threshold of the peak Yuanying stage and it's not possible for them to enter it for a while, but this realm was entirely because of their state of mind, not any other reason. For the time being, they were not willing to waste a questioning inner heart pill, so they came out with Yang Chen to take a closer look at the monster race world, it was good for their cultivation.

Whether it was the dao sects or the demonic sects or even the monster race, after the Yuanying level or above, it was not simply a matter of hard work to advance. Reading thousands of books was not as good as traveling thousands of miles, it was so for scholars and the same was true for cultivators.

The development of Mu Bai family was indeed good. With the cultivation method provided by Yang Chen and with the spirits gathering formation of Yang Chen, even in the bitter cold of the extreme north, the members of their family were still very lively and moisturizing.

The cypress family had the foundations that had been polished in the northernmost places for thousands of years. The cultivation of Yang Chen's cultivation method was simply smooth and it was easy to restore their original cultivation base and even began to hit higher realms.

As a young master, Mu Bai was convinced that not only was Yang Chen giving them the direction of cultivation, but also let them see the hope of their family's brilliant rise.

In the past 30 years, the cypress family has undergone a small form of cultivation and at least everyone could turn into a person and walk on the ground. Although they could still see the appearance of the big tree, it was already a lot of changes from before.

Seeing that Yang Chen and their agreed date have passed, but Yang Chen did not come as scheduled in 30 years. However, after talking about it for thirty years, everyone was not in a hurry. For those who were cypress, the time of ten or eight years was just a leisure time.

As for Mu Bai himself, because he got Yang Chen's personal instructions, he also absorbed a lot of Penglai divine wood branches and leaves. His superior qualifications seemed to be more powerful and his cultivation went soaring. In just 30 years, he directly rushed to the middle Jiedan stage.

Not to mention the realm, on his single-handed combat power, at least the same level of partners has long not been the opponent of Mu Bai. In this aspect of combat, Mu Bai seemed to have a genius-like comprehension. With Yang Chen giving him his personal guidance, even the patriarch, the master who was infinitely close to the Yuanying stage, was not the opponent of Mu Bai.

Originally, the life of the cypress family was very good, but these days they had to face a big trouble. A dao cultivator rushed to this side and took a fancy to their family.

The newcomer was a master of the Yuanying stage. The person amazingly did not immediately kill them after coming, but released his power to show his strength and asked them to serve him.

This kind of thing, Yang Chen once did it once, but even Yang Chen at that time still spent a lot of time and effort, even uprooting the patriarch and the cypress, which made them fearful of him. As for the conviction, they still waited for Yang Chen to take out those cultivation methods and give them some guidance before he could achieve results.

The person who came here came up and wanted them to serve him without any clamour, how could the cypress family agree. Not to mention that they have already agreed with Yang Chen to join Yang Chen's sect the Pure Yang Palace, even if there was no such thing, the monster race cultivated freely, how could it be so inexplicable to put a layer of shackles on them?

The other party asked for a reply within a few days. Now that the answer has been made, the other person's figure also appeared in front of the mountain, his sword was hanging in the air, staring at the crowd.

"Have you thought about it? If you join my Greatest Heaven Sect, if you want to have a status, you will have a status, if you want resources, you can have resources, if you want cultivation methods, you can have cultivation methods and you can have a thousand times more better cultivation place than the bitter cultivation haha in this extremely northern place." The master was a middle-aged man who looked kind and eye-catching, he looked like a good man and seemed to have a lureful element in his words.

The trees have become monsters and they have always gotten strong bodies and this has already been shown in the body of the Gui Shanyou, the hall master of the Pure Yang Palace. Not to mention his performance in the great calamity of the demonic art, overseeing the 100,000 mountains, even with dozens of Yuanying stage masters trying to mess up, he was able to suppress everything.

It was discovered that there was such a cypress demon family in this extremely northern land and even the expert of the Greatest Heaven Sect was extremely excited. He was originally a Greatest Heaven Sect expert who specially recruited disciples from the monster race. If he could bring this cypress nest to the sect, they would be an extremely powerful force in the future.

This kind of great merits, he would not let it go, especially here in the bitter cold, presumably these cypress monsters qualifications must be very outstanding, but he could not easily let it go.

Of course, recruiting the monster race to join the Greatest Heaven Sect, but he also had to treat each other with courtesy, good words and persuasion, after all, at the same time, they would be people of the same sect, they could not have a bad relationship.

Therefore, at the beginning, he still used a lot of temptations. Cultivators, whether they were dao cultivators or monster cultivators, would they not need resources for cultivation?

Unexpectedly, the tried and tested tricks in this group of cypresses didn't have the desired effect.

The other party refused to accept, which made the Greatest Heaven Sect expert have an ugly face. Since they wouldn't accept his kindness, he had to give them some lessons and let them know that the Greatest Heaven Sect was powerful.

Chapter 397.2: Trouble

To be a master of the Yuanying stage and to fight a hundred and ten tree monsters that were only in the Jiedan stage, it was simply bullying.

In the view of the Greatest Heaven Sect's expert, this group of cypresses in this bitter and cold land, he did not know where they got a spirit gathering formation, it was arranged in such a sinister array, thinking that this was a paradise was really stupid.

How could they know how wide the world was outside, how many powerful masters there was, killing them was just a matter of raising their hands.

Waiting for this hundred and ten tree monsters and to bring them back to the sect was naturally a great achievement.

Moreover, the Yuanying master himself was in this extremely northern place, there were still some things he had to do, after these cypresses submit to him, as they were not afraid of the cold, they could help him a lot.

After waiting patiently for a few days, it was time for the cypresses to give him their answer. Today, he was here to wait for the reply of the cypresses. In his opinion, when he told them the font size of the Greatest Heaven Sect, plus those temptations, even if they disagreed at first, they would consider it now!

What the Yuanying stage master never thought of was that when he thought they had condescended to succumb to the posture and gave him a face, these cypresses monsters once again gave him a good slap in the face.

"We will not join the the Greatest Heaven Sect!" As a patriarch, he has seen Yang Chen's strength and then he has looked at this master's, naturally there would be a comparison. Moreover, there has been an agreement with Yang Chen and he would not be rude and break it. In some cases, the monster race was indeed more honest than dao cultivators.

“Do you not want to give me face!” The guy from the Greatest Heaven Sect was furious. These guys dared not put him in their eyes. He should give them a big lesson today ” If you won’t accept my goodwill then prepare to taste defeat!”

In the screaming voice, the flying sword of the Yuanying stage master has already flown out, he was going for the patriarch with the highest cultivation base. As long as he subdue this stubborn old guy, the others would naturally not talk.

Dang dang, a sound of crisp and loud sound was heard, the flying sword solidly stabbed the body of the old patriarch. However, the body of the old patriarch, this sturdy cedar and in this bitter cold, it has been growing for almost a thousand years, the flying sword of the Yuanying stage master couldn’t through it at once.

Not only that, the flying sword that pierced the body of the old patriarch was actually caught in the body by the old patriarch and the arm and big hand of a large trunk incarnation had firmly grasped the other end of the flying sword.

The flying sword of a master of the Yuanying stage was completely controlled by the old patriarch with his body and arms. Even if the Yuanying stage master used his spiritual awareness to control the flying sword, it couldn’t move a little under the body of the old patriarch.

He wanted to penetrate deeper into the body of the old patriarch, but the body of the old patriarch was becoming harder and harder. The quality of his flying sword cannot be deepened. He wanted to retreat, but was blocked by the old patriarch’s big hand, so he was in a dilemma.

Under this circumstance, unless the Yuanying stage master’s spiritual awareness was powerful and it could bring the old patriarch and his own flying sword together. Otherwise, even if the flying sword could still fly, there would be no lethality. Moreover a ten thousand years cypress monster, it was not known how deep his roots were, could a trivial Yuanying stage master uproot him?

Even Yang Chen, in their face off, used the mountain picking strength of his body refining technique, only then was he able to uproot the old patriarch, this guy wanted to do this kind of thing in the air, it was simply a fool’s wish.

The flying sword was controlled between the tricks, but Yuanying stage master did not think of it. He thought that he was a Yuanying stage master so teaching a lesson to these ignorant tree monsters would be easy, but did not think of things being this difficult.

However, after all, he was a Yuanying stage master, he immediately released his pressure, once again and at the same time, there appeared another magic weapon in his hand. The Greatest Heaven Sect was a big sect and almost every master who has reached the Yuanying stage has a life source flying sword. So far, even if an ordinary flying sword was made, he has not used the idea of using his life source flying sword.

The rebellion of the old tree monster made him look at each other and strengthened his determination to suppress this cypresses. If he has this kind of powerful monster race under him. It would be a great help for him in a few years of training. In the sect, he would certainly be able to improve his position.

This time, the Yuanying stage master took out a bracelet and looked at the air and threw it into a huge circle it turned to the head of the old patriarch.

However, while the circle was still in the air, it was stopped by a flying sword that suddenly appeared. The Yuanying stage master found that the flying sword turned out to be released by a young cypress monster.

It was naturally Mu Bai that released the flying sword. Yang Chen's separate guidance made him know how to sacrificially refine his own life source flying sword. The flying sword of the previous life Mu Bai was made by refining his own heart. In this case, Yang Chen's guidance was also proportional, as it was still refining.

However, after the leaves and branches of the Penglai divine wood were absorbed, the quality of Mu Bai flying sword was higher than that of his previous life. Just because the time of refining was still short, the grade was not high, it was now just the prototype of the flying sword, but there was still a certain distance from it becoming the real flying sword.

But even so, it has been able to fly out to fight. Under the control of Mu Bai, the flying sword embryo actually stopped the bracelet of the Yuanying stage master in the air and it could not continue to fall.

At first, the Yuanying stage master was still somewhat careless, but after a while, his face could not help but be surprised. This young tree monster was at best in the middle Jiedan stage. He even used an unformed sword embryo and the magic weapon he controlled to become a tie. Although he has not used his own life source flying sword, this was enough for him to be surprised.

After discovering this, the Yuanying stage master couldn't help but feel a joy in the heart. This tree monster belongs to it and it was really strong. This was the middle Jiedan stage, if it reached the Yuanying stage, couldn't it kill him easily?

This kind of enchanting monster must be in his own hands and in the future, there would be a place in the high ranking members of the Greatest Heaven Sect for him. With this idea in mind, the Yuanying stage master was even more prosperous and has made a variety of means, must be completely convinced.

However, it was counterproductive. After the old patriarch took control of the flying sword, he began to vacate a hand and held a large branch. Just like holding a huge stick, he would hit it in his pocket and did not give the Yuanying stage master a little bit of face.

Chapter 398.1: Ask Him What To Do

In the face of the huge sticks of the old patriarch, the Yuanying stage master sneered and there appeared a flashing golden helmet on the top of his head, emitting a burst of golden light and welcoming it.

There was a loud bang, the huge sound was accompanied by a pile of leaves, everyone's sights were covered in pieces of fine cedar leaves and they were no longer able to see the other person.

"Can the ability of such insects hurt me?" The voice of the Yuanying stage master rang in the ears of everyone, it seemed to sound very calm. However, anyone familiar with the Yuanying stage master knew that the more calm he became, the more angry he was.

Two Jiedan stage tree monsters refused to give him face, how could he let this kind of thing continues to happen? The Yuanying stage master also moved with real anger, he really had to give some painful lessons to these cypresses.

With the Yuanying stage master's shout, a huge transparent giant hand appeared in the sky and it grabbed at the cypress monster on the ground. This was a blow with about 80 percent of the Yuanying stage master's cultivation base behind it. He was confident that under this attack, these tree monsters who does not know the emergency of heaven and earth would be seized by him.

Boom, the dust on the ground covered the entire sky like smoke, with small pieces of snow and ice, flying in the sky. The spirit gathering formation arranged by Yang Chen was crushed by this blow and the surrounding ground even shattered by a few feet. The power of this attack was simply staggering.

But what was even more frightening was that under this attack, even ordinary trees and even earth and stone within the scope of the attack have been broken, but the hundred and ten cypresses were not damaged, nobody would believe it unless they witness it themselves.

One hundred and eight were only the cypresses who have cultivated to the peak foundation stage. They even rely on a strange array to block the qi of the Yuanying stage master. Looking at this quantity, it should be a heavenly spirit earthly fiend formation. However, the Yuanying stage master has seen a lot of arrays, but he has never seen such a magical array and it was able to block his own attack.

This was not the most embarrassing aspect of the situation. While he was shocked by the defense of these cypresses, a shadowless and invisible sword light has penetrated the smoke and appeared at his feet.

The person who controlled the flying sword was very dexterous. Under his control of the flying sword, the flying sword was almost silent. Plus this was refined from the wooden heart, no matter from the appearance or the inside, it was common with the ordinary branches and it was difficult to distinguish. The traces of the flight was almost the same as some of the branches that were flying around, making it hard to guard against.

The other party was thinking about sneak attacking on a Yuanying stage master by borrowing the heavily sloppy camouflage. Faced with the spiritual awareness of the Yuanying stage master in the battle, this kind of sneak attack was meaningless. The Yuanying stage master even intended to directly ruin this flying sword, giving the flying sword master a lifelong unforgettable lesson.

The Yuanying stage master sneered with a cold face, standing in the air and being motionless. His whole body's spiritual power was exhausted and condensed under his feet, he was just waiting for the flying sword to come and he would use one foot to smash it.

The master of the flying sword really counted everything, he directly cut into the abdomen of the Yuanying stage master and the flying sword was kicked by the Yuanying stage master with an extremely rapid kick. At the moment of kicking, the Yuanying stage master knew that his kick was strong and the flying sword was kicked into pieces of irregular wood chips.

At the time of glory, the Yuanying stage master suddenly had a pain in his chest and abdomen and he fixed his eyes on it, it was a few pieces of finely divided cedar leaves, like a dagger, pierced between his chest and abdomen.

The leaves of cypress trees were very irregular and they were in all directions. This thorn was a large piece of skin, blood was flowing out none stop.

Whatever the branches before, it was simply a cover made by these cedar leaves. Not enough of these so-called daggers, it was simply a leaf, and there was no spiritual fluctuation on them, which was simply undetectable.

The Yuanying stage master was furious, he has suffered such injuries in front of a group of Jiedan stage tree monsters. Was it tolerable? Under his wrath, he did not care about anything. When he reached out, he pulled out the cypress leaves that pierced his chest and abdomen.

This action was a very natural movement when he was injured. The next step was to immediately heal the wound with his spirit power and quickly recover. However, under his wrath, he completely forgot the shape of the cypress leaves. Several daggers piercing his chest and abdomen were violently pulled out and even a few pieces of fist-sized pieces of meat were directly pulled out.

The violent pain almost made the Yuanying stage master faint immediately and finally he used his amazing cultivation base to resist. But even so he could not attend to one thing without losing track of another thing, so he could no longer fly in the air and he fell heavily.

As soon as he fell, he fell into the array of one hundred and eight cypresses. These guys were also really good. After Yang Chen's teaching, in addition to their own cultivation in the past 30 years, they have been practicing this array. They were already extremely familiar with it. They have just been able to take the attack of the Yuanying stage master and they could attack now, it was even more unscrupulous.

The heavenly spirit earthly fiend great formation that Yang Chen passed down was different from the ordinary one. The tree monsters in the formation cultivation base were equal and at the same time, they made a move to defend. Even if the other party wanted to break the formation, in addition to knowing how to break the formation, there would be violent attack used.

Violent hacking requires a strong cultivation base, especially the one hundred and eight monsters seriously needed to be injured in a single move. However, under the influence of the formation method, no matter how strong the attack was, there were always one hundred and eight tree demons scattered at the same time and the tree monsters were strong in defense, plus being rooted here, they could always draw support from the earth, the Yuanying stage master was not a fire attribute cultivator, naturally he could not succeed.

Bang bang, after a series of attacks, almost never falling, all hit the master of the Greatest Heaven Sect. The attack power of the 108 tree monsters combined, although not able to put the other side to death, it was not so easy to deal with.

In addition, the Yuanying stage master also has an injury, after a series of attacks, so that he was even more indifferent to the injury, his defense was stretched and uncomfortable.

Finally, he survived the first wave of attack. The Yuanying stage master was a Yuanying stage master. Immediately afterwards, as the tree monsters cultivation base was insufficient the attack was disengaged. He stopped the wound between his chest and abdomen and then decisively called out his own life source flying sword.

“A group of things that don’t appreciate good will, you want to kill me, do you think that this grandpa has a good temper?” As a disciple of the Greatest Heaven Sect, he has always been used to arrogance, when he suffered such grievances, injuries and shame, it made the Yuanying stage master’s anger rise to the highest point.

“Today, if I do not ruin your corpse, I will not have been born!” The Yuanying stage master violently shouted.

As soon as the voice came out, the old patriarch and Mu Ba heart were all sinking.

Chapter 398.2: Ask Him What To Do

To launch his life source flying sword, it meant that he plans to kill. How powerful was the Yuanying stage master's life source flying sword, not to mention whether the old patriarch could lock the flying sword with its body, even if it was locked, it was estimated that it would be driven by the other party's life source flying sword, he would be unable to help himself.

It was naturally Mu Bai who plotted against the Yuanying stage master with the leaf dagger. He not only refined the wooden heart sword embryo, but also carried a few botanical leaf daggers. Under one blow, he really got to the Yuanying stage master. However, the other party's strength was too strong, no blows were fatal, this was the most misplaced aspect.

Now, the Yuanying stage master has already called out his own life source flying sword, saying that some people in the family must also be sacrificed. Of course, Mu Bai would never look at his own people get killed, even if they were dying, they must also get enough payback.

The other side's life source flying sword has been lunched. Within a few breaths, a gap has been found in the heaven-only spirit earthly fiend great formation and a few whispers were heard. Three cypresses in the foundation stage have already been pierced.

Fortunately, the key to the cypress was not in one part of the body, even if they were injured, but they could continue to stimulate the formation.

Mu Bai was in a hurry and hurriedly attacked the flying sword. The dozens of cypress leaf daggers also spun out and attacked the opponent from each direction.

A sneak attack could be successful, but it does not mean that the second time could also make the other party lose guard. The Yuanying stage just simply spin the life source flying sword in front of his eyes, the leaf daggers flying to his side was smashed into pieces.

These daggers were just refined by Mu Bai on the side so the quality was not high. When they met the opposite party's life source flying sword, there was almost no effort on it.

As for the rest of the tree monsters, apart from the old patriarch, there were almost no one having a flying sword, all of them were still cultivating the cultivation method and formation of Yang Chen. Depending on the formation, they may be able to withstand a while, but it would never last long.

But whether it was the old patriarch or Mu Bai, even the young tree monsters, they did not give up resistance. For them, since they had promised Yang Chen in the past, they were now the people of the Pure Yang Palace. Even if they were dead, they cannot side with another faction.

“Even if we wait for a violent death today, we also have the Pure Yang Palace to avenge us!” The old patriarch also showed his flying sword and shouted, the flying sword smashed towards the Yuanying stage master. Even if he was not his opponent, he must fight to the end.

“Pure Yang Palace?” The Yuanying stage master became infuriated “It turned out that the Pure Yang Palace took the first step, just today, I will send you to see the ancestors of the Pure Yang Palace!”

After determining that they were his enemies, the Yuanying stage master completely began to attack crazily. The life source flying sword, after cutting off the old patriarch and Mu Bai’s sword embryo, left a deep wound in each of them and then flew into the heav—only spirit earthly fiend great for—ma—tion.

With every attack, the flying sword could cause several wounds, in a few moments, when the injured tree monsters were more than half, they could no longer maintain a complete battle formation.

They were like sitting ducks to the Yuanying stage master, there was no decent resistance. Even the tree monsters including 45 foundation stage was instantly smashed into a few paragraphs and there was no more half-scent.

“Put up with him!” The rest of the formation could no longer be maintained, but the bloodness of each tree monster was not reduced and they rushed forward without fear of death.

“Today, I will kill the remnants of the pure Yang Palace and see who dares to fight against my Greatest Heaven Sect!” The Yuanying stage master listened to the shouts of the tree monsters and he saw their unyielding faces. He has already changed hands and targeted the old patriarch and Mu Bai who threatened himself the most.

It’s not that he doesn’t want to stop the two monsters. It was really hard for him to do anything to the old patriarch and Mu Bai. Even if it was his life source flying sword, the sharpest part still couldn’t have much effect.

But now matter who it was, if there are a lot of holes in your head, you couldn't live any more. The Yuanying stage master was playing with this idea. After cutting the waist of two foundation stage tree monsters, his flying sword pierced the patriarch's chest.

"When I kill you, I will send your body to the Pure Yang Palace!" The Yuanying stage master has completely gained the upper hand at this moment, but his tone was still the same "I have to look at the old tree monster of the Pure Yang Palace and see what kind of face he will make!"

"Who is saying such big words?" The voice of the Yuanying stage master was not allowed to land and the sound of two screaming thunder sounded from a distance. From the sound to the ears of everyone, it seemed that the person who made the sound has already arrived.

Two incomparable figures appeared in the air on the left and right side to the Yuanying stage master. The Yuanying stage master was shocked. He just received the flying sword in front of him, and his foot was in a fog.

He didn't know what the origin of this fog was, the Yuanying stage master's body quickly flew away, but after a while, the original cypress monsters, has been lost to his sight, he did not know where they disappeared to.

"She Kui Xie Sha??" Seeing the faces of the two figures, the Yuanying stage master's face could not help but reveal great shock and his voice also shivered. There were a total of three people in the Pure Yang Palace hall of eccentrics, except for the old tree monster Gui Shanyou, there were two others in the Yuanying stage. The two were still the first to join the hall of eccentrics and many experts of the other sects knew their names.

As monster cultivators, She Kui and Xie Sha were also extremely powerful in some of their later battles. The master of the Greatest Heaven Sect dared to play in front of the cypresses, facing She Kui and Xie Sha, he really did not dare to speak loudly.

"Is hall master Gui someone who you can talk about so casually?" She Kui had a gloomy smile and had eye that emit-~~ted~~ an omi-~~nous~~ light. The opposite of Xie Sha was the same.

In the Pure Yang Palace for these two, in addition to Yang Chen, the one they were most obedient to was the old tree monster Gui Shanyou, now this guy dared to talk about hall master Gui like this, if he was seeking his own death, he could not blame others.

Whiz, the Yuanying stage master ac-tu-ally with-out demur turned around and flee. Not to mention that he was alone, even if he was ten, he does not dare to face the two fierce guys.

“Two predecessors, he killed several of us, don’t let him go!” It was the voice of Mu Bai. It was estimated that the other party was going to flee and he reminded She Kui and Xie Sha.

“Want to run?” She Kui sneered and showed it original form directly. A huge python of thousands of feet, with just a twist, it stopped in front of the Yuanying stage master, two huge eyes, shot cold light, staring at the opponent who had already become scared without any courage.

“Keep his life, ask him what he is doing here?” This time the voice was very soft, it made people who heard feel like listening to the spring breeze, it was Yang Chen.

“Master, you are finally here!” Mu Bai suddenly heard Yang Chen’s voice and shouted loudly.

Chapter 399.1

“Good, Mu Bai, you dare to make a move on a Yuanying stage master, you are worthy of being my disciple, you have not lost my face!” Yang Chen’s figure appeared in front of the seriously injured Mu Bai and then a medicinal pill was directly thrown into the mouth of Mu Bai.

The burst of fog was actually Gongsun ling’s doing, she directly used an array to hide the injured cypress monsters. After She Kui and Xie Sha shocked the Yuanying stage master, Yang Chen immediately appeared in front of everyone.

A series of lingzhi mushroom jade pills was given out, of course, it was first grade pills and the injury below the Yuanying stage was almost relieved immediately. Even if the injury was as heavy as the old patriarch’s, there were three or four holes in his body, it was restored instantly.

However, Yang Chen and the others still came a little later, at least eight of the foundation stage cypress monsters were killed by the Yuanying stage master. The cypress that recovered a little bit, looked at the bodies of their family members and their eyes turned red.

Nowadays, the cypress demon family has not yet cultivated Yang Chen's transformation secret art. It was only the low-grade transformation secret art from the banyan tree Immortal's cave. It could only be said that they were temporarily maintaining the shape of a person. In most places, their original form could still be seen. The bark branches and so on, you could see at a glance that they were tree monsters.

But even then, the anger of Mu Bai was very clear. Of course, he would not blame Yang Chen for coming late. What he hated was that his cultivation base was too low to be able to stop the attack of the guy and save his own people.

The Yuanying stage master who escaped, facing the thousands of feet snake, had almost no resistance. The fierce reputation of the She Kui and Xie Sha was shown, they just used two poisonous mists to turn the master of the Greatest Heaven Sect, who has just been incomprehensible, into a soft mud and thrown him in front of Yang Chen.

At this time, the Yuanying stage master, he was no longer having a master's temperament, fainting on the ground just like a piece of rotten wood. Yang Chen looked at the face of Mu Bai. So far, although Mu Bai has been glaring at the other, but he has not done anything, he was obviously waiting for Yang Chen's instructions.

All the Qiankun bags were searched and Yang Chen gave this guy a mouthful of medicinal pills. The blue jade vine was placed around him and the poisonous mist of She Kui and Xie Sha was lifted.

Soon, the master woke up from a coma and found an abnormality in himself. He found that the other party did not abolish his own cultivation base, but also left his own life source flying sword on him, which was a good opportunity.

Yang Chen's identity, he immediately recognized it, naturally he knew Yang Chen's status in the Pure Yang Palace. In his mind, as long as he could take Yang Chen hostage, She Kui and Xie Sha would not to attack for fear of hurting Yang Chen.

In a split second, the Yuanying stage master made a judgment and his body flashed and appeared on the side of Yang Chen. The flying sword was instantly held in his hand and it went to Yang Chen's neck.

Unexpectedly, the moment the flying sword just appeared, his wrist was in pain, then a bloody mouth appeared and swallowed his own life source flying sword.

The master was shocked and wanted to use his own flying sword. However, he found that the flying sword, which has always been connected with his own flesh and blood, did not have a slight reaction at the moment. No matter how he urged with his spiritual awareness, he could not use his life source flying sword.

Being in fear, suddenly there was a sharp pain in his sea of consciousness, the connection between the life source flying sword and him was suddenly cut off, there was no connection with the life source flying sword anymore.

This time, the life source flying sword was lost and suddenly the master felt his sea of consciousness shaking severely, his internal organs were seriously injured and he spurt out blood crazily. His figure was also wilting, he was almost no longer able to stand.

"Mu Bai, take care of him!" Yang Chen did not look at the guy around him who had almost become a waste. He turned to Mu Bai and gestured to him "Don't kill, leave him with a breath, after you cure him you can beat him again!.

Mu Bai would not be polite, he grabbed the master who had just been hit hard, lifted him up high and then slammed him on the ground. Going up was a punch and kick, without the slightest mercy.

As a tree monster he had a huge force, his hateful fists continued to attack, suddenly the sound of a broken fracture was heard, it was mixed with the screams of the pain of the master, it made the people who listen heard it color change.

The Yuanying stage master was a Yuanying stage master after all, even if it was such a painful beat down, almost after a fragrant time, he stopped screaming and fainted. However, at this moment, he has already breathed a sigh of relief, seeing more gas and less air intake.

“Rest for a while.” Yang Chen stopped Mu Bai, and then gave the Yuanying stage master another medicinal pill and it quickly connected the broken bones of the master.

For this kind of skin trauma, Yang Chen’s medicinal effect was surprisingly good. When it was less than an hour, it could not be seen that he was even hurt before. However, it was only for the injury to the flesh, it had no effect on the serious injury to his spiritual awareness.

“You continue!” Yang Chen saw that the Yuanying stage master has recovered almost completely and he instructed Mu Bai again “Don’t kill him!”

Mu Bai sneaked up again and attacked with rounds of fist punches. Then there was another pig-like scream and a broken bone sound. It took a while to stop after the Yuanying stage master fainted.

Yang Chen treated him again. After the cure, Mu Bai rushed up and was crazy and vented his anger. After a dozen or so consecutive times, the Yuanying stage master almost did not dare to look at the eyes of Mu Bai. As for Yang Chen, even the voice of his speech could make the Yuanying stage master tremble.

“Change people!” Yang Chen’s voice once again made the Yuanying stage master tremble, it was the last decision he wanted to hear. Mu Bai was tired and has cooled down, but other cypresses, including the old patriarch, had not yet moved.

This guy killed eight members of the cypress monster family and almost everyone else was wounded. Which one did not hate him? If Yang Chen had already not convinced them, and the strength of She Kui and Xie Sha also not made them fearful, they would have already attacked him.

Now when they heard the meaning of Yang Chen. It seems that he intended to let them take turns. It suddenly caused a burst of cheers. The old patriarch took the lead and took over the position of Mu Bai. He began to madly use his fists to bombard the other side.

How could this kind of boxing to the flesh feel more comfortable? After the old patriarch had cooled off a dozen times, he was replaced by another tribe member. The cypress monster group behind him had already started to guess their queuing and waited for the moment when they had a chance.

For more than three months, everyone did not do anything else. In addition to recuperating, they were taking turns to play with their fists. In Yang Chen's words, there was not much chance of being able to flatten a Yuanying stage master. If they wanted to be cool down, they could be cool. As long as he didn't die, Yang Chen could always heal him and let everyone vent their anger.

It takes at least a day for everyone to stun the guy who killed their people for dozens of times before they could change hands.

The Greatest Heaven Sect's Yuanying stage master directly fell into the pain and humiliation of hell.

Chapter 399.2

The ancestors of the Yuanying stage, even if they were not in the Greatest Heaven Sect, but walking outside, at least nine people in ten would stop to give them face, respectfully calling them old ancestor.

Such a big master, he has never endured this crazy torture, he has never endured the humiliation of being beaten by several country bumpkin tree monsters. Up to now, the Yuanying stage ancestor has not collapsed, and it was because of a good habit he has cultivated under the long-term residence of the Greatest Heaven Sect.

The master never thought that the combination of fists and feet would be so painful. Plus with Yang Chen treatment, he was not so dedicated, as long as he was not dead, the broken bones would just be connected back him with the big bones, but those little bones were left in his flesh, once a punch came down, he could feel pain from the inside.

It's okay once or twice, but dozens of times a day, it was severely unbearable. This was not counting the pain from his spiritual awareness after his life source flying sword was cut off.

Even his little spiritual power would be dispelled by a little struggle, so he was without any struggle. Not to mention that he could protect his body, even killing himself was a luxury.

As for running away? Under the eyes of She Kui and Xie Sha, that was almost impossible. When he first met the two people, he fled and he was brought back. Now his whole body was hurt and it was even more impossible to escape. Sometimes, he hated that he couldn't die immediately under the fists of those cypresses and he was also suffering from this kind of torture.

But Yang Chen could pull him back from the gate of the underworld every time. The medicinal pills used were very powerful. Even if he has been beaten half-dead and only half a life was left, after taking the medicinal pill, at most half an hour later, his body would be able to recover.

In just three months, the precious healing pill that Yang Chen spent on him was more than a hundred times more valuable than the medicinal pills he had received from his sect in his life. You Yang Chen was the most talented alchemist master in the mortal world, couldn't he waste such a pill?

He almost counted the number of seconds passed through these three months, he has never wanted to experience such a nightmare again, when the last cypress monster thought him the lesson, the first sentence that the master wakes up to hear was actually from Yang Chen. He was asking Mu Bai whether or not his family would like to start from the beginning again, he could no longer calm down and yelled at Yang Chen.

"What do you want to know, I will tell you everything!" He never thought of himself as a Yuanying stage ancestor, would have said such a discourse to a junior in the early Jiedan stage. He himself felt incredible, but if he didn't say it, it meant that he would have to live through this hell again "Please, don't hit me again!"

In the process of the cypresses beating the Yuanying stage master, the Yuanying stage master wanted to confess more than once and not be tortured anymore, but they were all rejected by Yang Chen. He also understood that before these people took turns to vent their anger, they would not stop. Now that everyone has beaten him for a while, this was his chance. If he didn't catch it, he would not be able to bear the pain from these tree monsters again.

"What are you doing here?" Yang Chen sat in a very comfortable chair, sitting next to a table and there were a few fine dishes on the table. He was drinking with She Kui and Xie Sha, who were listening too. When the Greatest Heaven Sect's guy asked for mercy, he asked casually "Don't tell me it was to recruit the monster race. This is the northernmost land, there are only a few monsters here."

In one sentence, the guy who wanted to use this excuse to smother the past was completely blocked. The northern part of the land was not without monsters, but it was indeed very rare. If the Greatest Heaven Sect wanted to expand its strength, the most important thing to look for was a place like the banyan tree Immortal's cave where a lot of monster cultivators lived, not the snowfield where the bird does not lay eggs.

“The sect let me come to investigate the monster race situation.” This guy from the Greatest Heaven Sect knew that there was no way to lie, he could only sigh and replied.

However, once his voice fell, Yang Chen had already beckoned with his hand to the side and shouted “Mu Bai, go and repair him!”

Mu Bai coldly snorted and went straight to the front. The master of the Greatest Heaven Sect was punched and kicked. He ignored his arguments. Just like the beginning, he used his anger to beat him, and soon, the poor Yuanying stage ancestor was once again stunned.

Gongsun ling just gave Yang Chen and She Kui and Xie Sha another dish. These days, she just looked at Mu Bai and they did not say anything. She would never object to things decided by her husband.

She sent Mu Bai a small pot of jade dragon wine. Mu Bai received it with respect and hurriedly thanked her “Thank you, Ms. Gongsun!”

Mu Bai thought that she was Yang Chen’s wife, but he never expected that there were as many as four, so he could only use the surname to call them separately, so he called Gongsun Ling, Ms Gongsun.

After a break, the Yuanying stage ancestor recovered from the suffocation. But when Yang Chen asked again, he still had no change in his original excuse.

Yang Chen was also very patient. After three months, he still have more time. The people of Mu Bai took turns to go rounds. The other party actually stuck with this reason and even wanted to die.

“It seems to be true!” She Kui and Xie Sha mind were clear, this guy has persisted for so many days and actually said so, it was presumably true.

“Oh, you won’t shed tears without seeing the coffin.” Yang Chen shook his head and took out two medicinal pills. Gongsun Ling has seen it before, it was the first grade inner sensing pills, but the others didn’t know what kind of pill it was. Reaching out to the person, the two medicinal pills quickly poured into the mouth of the Yuanying stage ancestor.

“That medicinal pill can make people feel itchy.” Yang Chen smiled and explained to Gongsun ling “inner sensing pill can make his senses ten times better. Presumably he must be very comfortable now.”

During the speech, the Yuanying stage ancestor who had taken the medicinal pill had already raised his eyes. Then his whole body’s skin seemed to start to tremble, but when he wanted to move, he couldn’t move, and the voice in his mouth made a sound, it was not a complete sentence as he was unable to speak.

“Mu Bai you can slowly pick up your belongings, we are not in a hurry, anyway, going back is also a practice, and here is the same.” Yang Chen slowly told Mu Bai, but in fact he said it to the Yuanying stage ancestor who was suffering.

“This medicinal pill can have three days of efficacy, but fortunately I have been refining a lot and there are dozens of them. I will give him one every three days to see how long he can hold!” After saying this, Yang Chen looked at the poor guy and suddenly asked She Kui and Xie Sha “The Greatest Heaven Sect’s Yuanying stage ancestors are not good enough, they must even use Yuanying stage ancestors for scouting?”

When he heard this, the Yuanying stage ancestor on the ground no longer had the courage to persist and his eyes began to have a lot of pleadings. He was just suffering from the medicinal pill and he couldn’t say a word, making people looking at feel very pitiful.

Chapter 400.1: Immortal’s Cave

Yang Chen did not let him go because of his pitiful eyes, but let him suffer from the three days of suffering and then he released his tongue from the restrictions when the effect died down so that he could speak.

“I am here to direct my disciple in cultivation, you can take your time to think about it.” After saying this, Yang Chen took out two more pills again and he was sent it to the mouth of this guy from the Greatest Heaven Sect.

“Don’t! I will speak! I will speak!” The poor Yuanying stage ancestor almost cried out and hurriedly yelled.

At this moment, Yang Chen suddenly launched his hypnosis. Originally, this guy has been tortured with almost no resistance. Now he was still suffering from the damage to his spiritual awareness and it was also difficult for him in these three days. It was at this time that the body and the spirit was the most exhausted, Yang Chen's hypnosis started and it worked.

Even the Yin-Yang Demon Sect's Madam Fanghua who was good at confusing people, have suffered losses in Yang Chen's hands, not to mention the Yuanying stage ancestor from the Greatest Heaven Sect. Compared with Madam Fanghua, his will could be said to be weak enough to be compared to only one piece of paper.

However, Yang Chen still used various means to launch the hypnosis. It was purely to let the cypresses vent their anger. Secondly, they destroyed most of his will and he used hypnosis to save more trouble.

Soon, the hypnotized guy said the purpose of him coming here. He was very speechless to hear that this guy's really came here to monitor the monster race situation and recruit some potential monster cultivators to join their sect's hall of eccentrics.

All the recruitment before the cypress monsters here was to serve the sect. If this guy didn't have the thought of recruiting them for his sect, he would have slaughtered them the first minute he got here. When Yang Chen arrived, he could only see a pile of dead bodies.

But this guy came here in addition to the task of the sect, he still had some selfishness. He was in the sect, however he was an ordinary Yuanying stage master. Although the Greatest Heaven Sect has given him enough status, he has not yet reached the core of the sect.

After all, the Greatest Heaven Sect was a big sect and there were hundreds of people in the Yuanying stage. There were also many masters in the dacheng stage. It was impossible for every Yuanying stage ancestor to become a top member of the sect. It was also a normal phenomenon that he was not valued in the Greatest Heaven Sect.

When a sect was such a big one, there would be more things inside. Some things like competing for power and profit would inevitably happen. Even if their talents were as good as Sun Qingxue's, they were initially plotted against by several masters. The Blue Cloud Sect was the same, how much more so would the Greatest Heaven Sect be.

The master of this guy, got a secret from his master's ancestors, in this polar icefield, there was a small Immortal's cave left by the ancestors, after thousands of years of accumulation, it was estimated that there would be some good things inside. In the past, it was not easy to blatantly come to the monster race territory. Now he had the task of the sect as a pretence, he would take the opportunity to take care of this Immortal's cave.

Everything about the Immortal's cave, they were all stored in this guy's mind. This was the word from the mouth of the masters to their apprentices. Even the sect didn't know.

After listening to everything, even She Kui and Xie Sha began emitting greedy lights from their eyes, there was such a good thing. After coming to the north, there was a chance for them to inherit this Immortal's cave. Although the Immortal's cave was not big, it was conceivable that there would be good things inside.

Seeing that the person has shared his purpose, in Yang Chen's current vision, this small Immortal's cave didn't mean much to him, he simply asked the cypress family to hurry.

The cypress monster family has been set to go. In fact, for them, there was still nothing left here, it has already been stored in a Qiankun bag. The reason why they have been staying was to completely vent their anger.

He got a confession and naturally everyone would be on the road together. The body of the cypress monster family. All of them went into a medicine garden space that Yang Chen had already prepared. The spirit power were abundant there and they could just cultivate. As for the old patriarch and Mu Bai, they followed Yang Chen and stayed in the shuttle.

The Immortal's cave was deeper in the icefield, farther north than here. It was natural for them not to fear the cold, but it was not necessarily that there would be no danger in this extreme north.

Although there were very few monster cultivators here, it does not mean that there was none here. And as long as there were so few, they were all strong guys. They were all wild monster cultivators who have been honed in the natural environment. The strong monsters would not be worse than She Kui and Xie Sha, Yang Chen does not want to find any trouble, so they tried not to provoke anything.

However, it was not that Yang Chen wanted to avoid trouble so it would also avoid them. The shuttle was only flying to the north for a few days and it was stopped by others.

“Snort, a few months ago, you were sneaking around here, what is your intention?” A stuffy thunderous voice directly spoke out, even before Yang Chen and others replied him, it immediately moved his hand to attack the shuttle.

A huge white giant bear of several thousand feet in size, two claws like two huge steel hammers, shot down to the shuttle.

This was the only way to go, even if he knew that there was a big monster here, Yang Chen must also go through here. He thought it would be a bit of a luxury to rely on the secret of the shuttle. This white bear simply turned the snow around him into his eyes and ears. Without the use of spiritual awareness, he could also find the traces of the shuttle. Even if the shuttle was fast, it would eventually need to break through the flying snow.

The guy who wanted to come and sneak up was the poor worm of the Greatest Heaven Sect. After conquering the cypresses, he would have let the cypress monster family to block the attack of this white bear. He just didn't know how he provoked the bear monster. When he met it, he was attacked without any mercy.

Since the other party has already made a move, Yang Chen would naturally not be timid. She Kui and Xie Sha were almost excited and shouted at the same time and went out of the shuttle. These days have been boring on the shuttle for them, someone was sent to their door to let them vent, was there something better than this?

In the face of the cypress monster family, She Kui and Xie Sha once again showed their fierceness. The two flew out in the moment of hearing the sound and they rushed to the sound of the guy.

The huge hand slapped the face of the two almost without any influence, even their speed did not weaken by even half. However, the two powerful masters have all appeared in their original form, a tens of thousands of feet python, a thousand feet sand scorpion, suddenly entangled together.

Under the stunned gaze of the old patriarch and Mu Bai, the three-figure-level monsters battle lasted only less than half an incense time.

Yang Chen pointed out that She Kui and Xie Sha had more strength than the white bear. It was only by brute force that the huge white bear monster was thrown in front of Yang Chen and Gongsun ling.

Chapter 400.2: Immortal's Cave

Even if the huge body of She Kui has entangled it's movement, but the white bear monster was still active and even attempted to attack Yang Chen.

Although this white bear also has the cultivation base of the Yuanying stage, but seeing that it's wilderness was not extinguished, even if Yang Chen tried to communicate with it several times, every time he felt the anger and killing intent of the white bear, the acceptance of the white bear was estimated to be a long time away.

No way, Yang Chen could only let Gongsun ling throw the white bear monster into the mountain river geographical map.

It wasn't that Yang Chen had a change of heart and he was no longer interested in killing, but Gongsun ling suddenly discovered that even if she was in the process of sacrificial refining her life source magic weapon, she could still take people into the mountain river geographical map.

Of course, this was not the income in the battle, but the other party was thrown in without rebellion, the difficulty was naturally very different. In the mountain river geographical map, every one of the masters of the Yuanying stage was equivalent to the master of the Yuanying stage. When he was cultivating, he was also sacrificially refining this piece of the magic weapon for Gongsun ling. For Gongsun ling, there were many advantages.

The master of the Greatest Heaven Sect was fed a medicinal pill for his wounds when he came out of his coma and then thrown into the mountain river geographical map. He was tortured by the cypress monster family, and Yang Chen's hypnosis. He believed that after he woke up, he would only remember that he was lucky. He was thrown by Yang Chen in this extremely wild wasteland.

As for what he would do after his injury improves, it was not what Yang Chen knew. Anyway, he would cultivate, as long as he cultivated, it would help Gongsun ling to sacrificially refine the mountain river geographical map. Even if he returned to the Greatest Heaven Sect in the mountain river geographical

map, he would not know what happened, only knowing that everyone disappeared, leaving himself alone.

The white bear monster was the same. After being caught, he was thrown into the mountain river geographical map. In addition to Li Junyu at the beginning, Gongsun ling's mountain river geographical map already has three Yuanying stage masters. It was a sure thing that the sacrificial refining would be faster and more powerful.

The cypress monster family was naturally scattered in the white bear territory to search for valuables. Yang Chen has already said that whoever finds these things was their own and later it would be their own private property. All the cypress monsters were very excited, they were searching everywhere and they put in extra effort.

Only the old patriarch and Mu Bai did not move, but stayed by Yang Chen's side. From the memories of his past lives, Yang Chen knew that Mu Bai has always been obsessed with cultivation, he never indulge in foreign objects, even if it was his own life source flying swords, it was also his own wooden heart, but he did not value these things. So it was normal for him not to move.

However, the old patriarch made Yang Chen surprised, his performance was not a fake. Plus with his cultivation these days, he was not worse than Mu Bai that absorbed the leaves of the Penglai divine wood, he qualifications was extremely outstanding. He just doesn't know why, in his past life he did not have any memory of him. Maybe he was already dead at the time.

If this kind of talent was to be handed over to the old tree demon Gui Shanyou carefully, he believed that Gui Shanyou would not reject such a talented disciple.

The group continued to move forward. Without the white bear monster, the road ahead was smooth and soon they arrived at the small Immortal's cave that the guy from the Greatest Heaven Sect mentioned.

The position of the people at this time was not on the land, but in a huge frozen sea. The place where they settled was a whole pieces of huge ice that was connected into one. It was not known how many years this cold winter had lasted. Even knowing that this was a sea of ice, it was no different from land.

The Immortal's cave was not on the ice sheet, but on the bottom of the sea. There was Yang Chen's shuttle so it was almost effortless to reach the bottom of the sea. Soon, Yang Chen found the location of the Immortal's cave, and according to the correct method, he performed the secret technique and entered the Immortal's cave.

As soon as he entered the Immortal's cave, he felt a thick warmth, even under the ice sea, it could not stop this warm current. For the time being, Yang Chen did not know whether there was any danger in it so he did not release the cypress wood monster family, only the old patriarch and Mu Bai, plus Yang Chen Gongsun Ling, She Kui and Xie Sha, a total of six people, carefully started to visit this cave.

This was a small Immortal's cave. The space inside was a small piece compared to the Blue Vault Mountain Immortal's Cave, it added up to just a hundred miles.

However, the planning of this Immortal's cave was quite good and many cherished herbs have been planted here. Although no one cared for it, but for thousands of years, there have been many long-term growth. Moreover, the medicinal herbs were widely planted, and with thousands of years of reproduction, they have covered most of the scope of the Immortal's cave, there was medicinal herbs everywhere.

In addition, in a huge room called the Depository Sword Court, there were still hundreds of flying swords that have been formed. It had the attributes of the five elements and the quality was extremely good.

The original owner of this Immortal's cave was a grandmaster of refining and had received much attention in the Greatest Heaven Sect. However, he was not taken seriously. Every day, he was only used for the refining of swords for sect, but he cannot enter the core of the high level members. This was one of the most basic reasons why he left this Immortal's cave for his disciples.

Hundreds of excellent flying swords were left here, apparently the small vault that the owner of the Immortal's cave used to use the resources of Greatest Heaven Sect. Originally intended to benefit future generations, but now all were cheaply gotten by Yang Chen and others.

"Go by yourself to choose the flying sword of your choice, one person and one sword, don't be greedy!" At this moment, Yang Chen directly put all the people of the cypress monster family out and let them choose.

Everyone was overjoyed and quickly entered the Depository sword court. Even She Kui and Xie Sha were no exception. Staying beside Yang Chen was only Gongsun ling and Mu Bai.

Gongsun ling was not a sword cultivator so it was normal to not select a flying sword. But Mu Bai was a pure sword cultivator so not going to select made Yang Chen surprised. He couldn't help but ask "Mu Bai, your flying sword has just been damaged, why not pick one?"

"This disciple still likes his own refined flying sword!" Mu Bai stared at the excited people selecting in the sword court and replied respectfully.

"Even if you don't need it, you can use it for something else after you take it." Yang Chen smiled and pointed out "If you don't want to use it, it's okay to give to your disciples a good sword!"

His master's kindness, of course, could not be rejected. Moreover, Yang Chen also said that Mu Bai had to give his disciples a good sword. At the moment, there was no violation of Yang Chen's kindness. He walked into the sword court and carefully selected them.

"You are not going?" When Mu Bai entered the sword court, Yang Chen turned to Gongsun ling and asked with a smile.

"If you have it, I am afraid that my disciple will not have a flying sword in the future?" Gongsun ling covered her mouth and replied with a slight smile. Her eyes were full of sweetness.
