### Chapter 401.1: Unexpected Precious Materials

Although these flying swords were good, they still couldn't enter Yang Chen's eyes. Actually, the Pure Yang Palace has a number of good swords, which could make many disciples dilute.

Of course, the viewers have a share, plus these cypress monster family, of course, must first enjoy this advantage. In terms of loyalty, these monsters were more trustworthy.

Everyone needs a good medicine, but a simple elixir could have no good effect, so it was best to refine it. There was Yang Chen, the best alchemist master in the mortal world, so they did not need to bother with the medicinal herbs.

For the old patriarch, Yang Chen gave him a promise directly. As long as his family reached the bottleneck and needed a pill to breakthrough, Yang Chen would prepare a suitable pill for them.

Everyone liked this situation with great joy. Yang Chen released A'Zhu and A'Bi, he let them put the medicinal herbs in the Immortal's cave into the medicine garden and they also sorted it out.

This Immortal's cave looked like a good space, auxiliary medicine grew here and with a little modification it would be the best medicinal garden, just to keep the female apprentice who was good at planting medicine.

There were still large palaces that have not been explored. Yang Chen took the Gongsun ling and they explored them one by one. She Kui and Xie Sha have already found a satisfactory flying sword and they were happy to follow him.

The two monster cultivators actually have their own body parts they were refining as their life source magic weapons, the fangs of She Kui, the tongs and the poisonous thorns of Xie Sha were powerful weapons, but now they were still in the process of quenching of the magic weapons. It was not easy to use, so these two flying swords just let them use it temporarily.

Walking along the way, they could see that this small Immortal's cave was very well crafted by the original owner. The materials used in it were also one-of-a-kind. It was not known how much resources

that he embezzled from the Greatest Heaven Sect in the past, that he was able to concoct such a delicate Immortal's cave.

In addition to the swords court, there was also a material room. There were a lot of materials in it, even if it was placed in the present, they were also all rare and precious materials. There were several materials in it. It was what Gao Yue refining of the dragon horn flying sword needed. Yang Chen was of course welcomed of it.

Further inside, it was an alchemy room, but there are not so many herbs in the alchemy room, it was empty, only a huge medicinal cauldron was in the middle. But there was no medicinal qi in the cauldron, obviously it has never been used.

The quality of this medicinal cauldron was also very good, but the method of it refining was the same as those flying swords. It should be the owner of the Immortal's cave who refined it. This medicinal cauldron, in the future, could be prepared for some sect talents who were good at alchemy.

The innermost room was a study room, and the bookshelf made of gold jade has not been rotted for thousands of years. There were hundreds of jade sheets placed neatly here.

Yang Chen's eyes flashed with rays of light. The things recorded in this jade slip were usually passed down. In particular, this kind of arrangement was definitely a good thing, it was beyond Yang Chen control for being tempted.

He picked up hundreds of jade slips and looked through them one by one. The first hundred ones were almost all cultivation methods. Moreover, they were also some of the high-quality cultivation methods that the Greatest Heaven Sect has collected. It was not known how it was carefully copied by the people of this cave and stored here.

Perhaps it was the extra inheritance left by the Greatest Heaven Sect for their younger generation, but it was now obvious that Yang Chen has gotten everything cheaply.

There were also dozens of jade slips, which record some of the medicinal materials and alchemy and naturally all of them become the property of Yang Chen.

The most unexpected thing for Yang Chen was that there were more than a hundred pieces of jade slips that recorded various refining materials and refining techniques. Some of these were lost in the current Greatest Heaven Sect and they were placed here. In particular, there were ten pieces of jade slips recorded on the refining experience of the owner of the Immortal's cave, which was simply invaluable.

The owner of the Immortal's cave left a very detailed record. All the flying swords, refining processes and techniques here have detailed descriptions. Even where there were mistakes and where he felt proud, they were specifically marked. Together with the medicinal cauldron, and even the entire Immortal's cave refining process, the records were very clear.

Compared with the things that were obtained in this cave, these jade slips were the most valued by Yang Chen. Especially in the last ten slips, it was simply the complete experience of the owner of this Immortal's cave. Yang Chen looked through them and some of them were even more detailed than some of the ones in the spiritual world.

It could be imagined how happy his master Gao Yue and his master ancestor Wang Yong would be when they see these things. Of course, one of his future little apprentices who was good at refining the equipment would be very happy.

After reading through it again and again, it seems that there was no good thing worthy of Yang Chen. He was going to use this method to collect the Immortal's cave and he suddenly thought of a problem.

The atmosphere inside was warm and full of spirit power, but there was no shadow of the spiritual pulse. When Yang Chen's heart moved, his spiritual awareness opened wide and he began to look around.

After a while, Yang Chen discovered the clue and went straight to the alchemy room.

On the ground under the alchemy room medicinal cauldron, there was a small circular gap and there was an earth fire in the ground. It was also this piece of earth fire that made the whole Immortal's cave warm as spring.

The average person would habitually think that this was just the source of fire for alchemy, but in the eyes of Yang Chen, the fire was completely different.

“You wait here, I will go down and see!” He moved away the medicinal cauldron, Yang Chen looked at the earth fire outlet in the ground snorted and then jumped directly inside.

Yang Chen’s spiritual root was the fire attribute, which was very clear to everyone. In this kind of earth fire, there would be nothing too big for him to handle, so everyone was very relieved.

After he jumped into the entrance, Yang Chen found that the following was not a simple fire pulse. This piece of earth fire has covered almost a hundred miles, which was exactly the size of this Immortal’s cave.

This was just the size of the fire pulse on the surface, the root of the fire pulse, it was not known how deep it was. For a time, Yang Chen’s spiritual awareness still could not find the end of it.

What surprised Yang Chen was that there was no trace of burning in this place, but it was filled with the underground hot and flowing magma. There was a trace of a different fire aura in the flames, which made Yang Chen catch up.

This was actually a fourth fire true essence. Yang Chen never imagined that there was such a large piece of earth fire under the ice sea of this extremely northern ice sheet, and from time to time there would be a fourth fire true essence which would condense here.

Why was this Immortal’s cave here? It was simply to cover the earth fire of this place and cover up the appearance of the fourth fire true essence. Otherwise, it would have long been occupied by the formidable monsters around.

#### Chapter 401.2: Unexpected Precious Materials

Although it was found that there was a fourth fire true essence in the earth fire, it was obvious that the original Immortal’s cave master did not have the ability to take the fourth fire true essence. It was only by this Immortal’s cave that he was hiding the place, presumably to be reserved for future generations.

For Yang Chen, this was not a big difficulty. He had several methods of collecting the fourth fire true essence in his mind. He was a fire cultivator, in his past life has reached the point of a Great Principle Golden Immortal, the trivial fourth fire true essence, really was not something that he could not handle.

However, this glimpse of fourth fire true essence does not appear frequently. Yang Chen wanted to collect enough quantity to cultivate the Fourth Fire True Secret Art, but it was not so easy.

Even if he was now to arrange the array, with Yang Chen's estimate, at least after a hundred years before he would be able to have enough amount to cultivate the Fourth Fire True Secret Art.

For Yang Chen, since he had discovered the fourth fire true essence, it was always better than not finding anything. In the next 100 years, as long as he was careful as to not to let people discover in it advance, it was the best way to take away the Immortal's cave.

Fortunately, this time he was followed by his own people, Yang Chen pulled out from the earth fire and then said nothing, he went directly to the material room over there and took some materials and jumped into the earth fire again.

After discovering the fourth fire true essence, Yang Chen looked at the materials in these materials rooms and it was immediately clear. Most of the materials left were fire attributes. He wanted to make preparations for this fourth fire true essence. He just didn't know how to get started, now everything was within reach.

Not coming here was the bad luck of the Greatest Heaven Sect's expert. He didn't know that his own ancestors have left such good things behind for him. If he didn't find the troubles with the cypresses. Not only did he get stuck in the mountain river geographical map, but also these things that were left for him was obtained by Yang Chen.

It took a whole month to arrange a mile-square formation, even if it was Yang Chen. Fortunately, with enough materials, Yang Chen could drain the fourth fire true essence produced in this earth fire spiritual pulse to a position to slowly gather it together and wait for the time to slowly pass, it would accumulate more and more.

Satisfied, he departed from the earth fire spiritual pulse, Yang Chen's happy face was not hidden at all. Seeing this, Gongsun ling was overcome with curiosity, she couldn't help but ask "What good thing is there?"

"Good things, good things that are hard to see in a millennium!" Yang Chen laughed, holding Gongsun ling he gave her a kiss and gave Gongsun ling an ambiguous answer: "I can use it."

Yang Chen was happy, so Gongsun ling was also naturally happy, she would not care what was below, as long as Yang Chen could use it, it was really a good thing.

Putting everyone together, Yang Chen just warned everyone, that this Immortal's cave, within a hundred years, they shouldn't talk about it to anyone. Including She Kui and Xie Sha, of course, it was a big point, which one would violate the rules?

Taking all kinds of materials from the Immortal's cave from flying swords and jade slips, the Immortal's cave stayed in the same place intact and everyone still followed the rules of the coming time, riding Yang Chen's shuttle, changing road and heading straight back to the Pure Yang Palace.

Of course, the route change was for the sake of Gongsun ling's mountain river geographical map. Yang Chen was not arguing with others along the way. As long as there was any monster in their encounter, he would immediately change their direction and leave at high speed. This was different from going to Immortal's cave. The white bear monster was on the road that they must pass and so they couldn't avoid him. It doesn't matter when they were going home, he could avoid it.

Even with the shuttle's high speed, because of the detours and avoidance, it took a full two years to return to the Pure Yang Palace. Along the way, Yang Chen certainly did not forget to instruct out his own apprentice. Similarly, the cypress monster family also cultivated with all their efforts.

As for Yang Chen himself, he was taking time on the road and absorbing two kinds of third grade fire seeds, making the Yin-Yang Burning Heavenly Fire more integrated and more powerful. Now it was only at the fusion of third grade fire seeds, when it could be integrated with the fourth grade fire seeds, it was estimated that it would be the time for Yang Chen to attack the Yuanying stage.

The group returned to the Pure Yang Palace. Yang Chen, of course, followed the old rules and went to see his master first. Of course, Mu Bai had to pay his respect to his master ancestor and meet his master's wife, but the master ancestor and his master's wife were the same person.

After that, he went to see the master of the palace with the cypress monster family. The cypress monster family joined the Pure Yang Palace. This morning, Yang Chen had already greeted Palace Master Zhang Jiao, and brought them back. Of course, there must also be a ceremony.

“So very good, I am taking this opportunity, I will hold a ceremony for this new apprentices in the Pure Yang Palace!” Palace Master Zhang Jiao looked at the hundred cypresses that Yang Chen brought back and he was overjoyed. The strength of the tree monsters, Gui Shanyou have fully demonstrated it. With so many cypress monsters, with good training, later they would become a non-negligible combat power of the Pure Yang Palace, how could it not make Palace Master Zhang Jiao happy?

However, Yang Chen still miscalculated the intention of Palace Master Zhang Jiao, thinking that it was only a simple ceremony inside the sect, but did not expect that Palace Master Zhang Jiao would make it known to the whole cultivation world.

This time, the Pure Yang Palace celebrated on a grand scale, they recruited two or three hundred disciples of the hall of eccentrics with all kinds of cultivation bases. Among them, there were many Yuanying stage masters, plus dozens Jiedan stage monster cultivators, obviously the disciples who have been confiscated in the Blue Vault Mountain Immortal’s Cave were also counted among them.

Nowadays, in all the major sects of various dao sects, it was common practice to recruit the disciples of the monster race. Everyone was attacking everywhere and recruiting the monster race members everywhere. On the contrary, the Pure Yang Palace that first made the hall of eccentrics has been laying low and it was not moving. It was very strange.

The original Pure Yang Palace of the at this time in the eyes of other sect, turned into a conservative element, it could not help but make people feel a sense of ridicule.

But this also showed the power of the Greatest Heaven Sect. It could not be helped but said that the dead camel was still bigger than the horse, even if the Greatest Heaven Sect suffered heavy losses, but with the implementation of the hall of eccentrics to recruit monster race disciples, they still has a power that the Pure Yang Palace could not match.

If the Pure Yang Palace began to recruit the monster race, it would definitely be besieged by countless sects and it might not be known if their sect would have been destroyed. However, with the Greatest Heaven Sect’s methods, even if there was some opposition voices, they quickly disappeared in silence.

Every sect was now pursuing it and now it was normal for the Pure Yang Palace to recruit the disciples for the hall of eccentrics. Just because each sect recruited disciples from different places, many sects could regard it as a great increase in strength. The ceremony was held by the head of the palace. It was also intended to be seen by others, so that they would not underestimated the Pure Yang Palace.

When he settled the cypress monster family in a good place, Palace Master Zhang Jiao would naturally talk to Yang Chen about the ongoing. The result was naturally not surprising, the master of the palace also had an unprecedented satisfaction. After the narrative has been said, he looked at Yang Chen happily and asked “When do you think the wedding is appropriate, when should we hold it?”

#### Chapter 402.1: Miserable Yang Li

It was beyond the control of Palace Master Zhang Jiao for being overjoyed, this period was the most comfortable period of time in the memory of the palace master in the Pure Yang Palace.

When Yang Chen was not there, those who came to ask for pills would naturally seek out the head of the Pure Yang Palace. In the past, the Pure Yang Palace must be sincere and fearful to receive the masters of the dacheng stage. Now if some people were not on their list, they couldn't see Palace Master Zhang Jiao, but they still have to look at the mood at that time. How could this huge change not allow the Pure Yang Palace to be boisterous?

In particular, the hundreds of heads that were slid out at the gates of the mountain have made many people smell discolored. At the same time, it was also the best gift for many masters to come to offer their respect to the mountain.

Now there were no people who dared to discuss the killing business of Yang Chen. When they heard the name of Yang Chen, not to mention the the powerful killers, they would directly go into seclusion and refuse visitors. Who would want to find trouble, and have experts turn their head into gifts for the Pure Yang Palace? If some of the killer groups pressed down from top to bottom said that they couldn't do anything about him, would those who ran a single gang dared to touch his name, they were really not impatient to die.

Yang Chen still didn't know about these things. Now he was just listening to Palace Master Zhang Jiao saying that he had already completed the marriage arrangements and naturally he was happy. However, Yang Chen also knew that his marriage was a matter of great importance and it was also necessary to look at the arrangement of the sect. Therefore, he was very cool to hand over the right to decide to the head of the palace: “When the head of the palace think it is appropriate, That is when it will be done?”

Even if he became a fifth grade alchemist master, Yang Chen never lost his bearing in front of the head of the palace, as always, he was respectful. This kind of outstanding disciple with both ability and political integrity, the master of the palace was simply more and more overjoyed.

“Okay, then wait a few decades, let the sect give you the most grand wedding!” Palace Master Zhang Jiao laughed and said, the disciple was so good, the sect naturally could not lose his face, it must be a grand occasion.

Next, the master of the palace would only introduce the experts who came to request for pills when Yang Chen was absent to him. In short, apart from the Greatest Heaven Sect, the other major gates, including the Blue Cloud Sect and the Green Jade Immortal, plus the Five Elements Sect and Qiankun Sect, all have made high-level appearances and hope that Yang Chen could help to refine their medicinal pills.

Several large overseas rogue cultivators alliances have also met the requirements. As for some small sects, as long as there were masters of the dacheng stage, they basically go to the sect to ask for pills, there was an endless stream of rogue cultivators coming to seek for pills.

All the sects were respectful to the Pure Yang Palace. The sudden changes in status even made many Pure Yang Palace disciples extremely uncomfortable. From being neglected or even oppressed, to slowly taking someone to treat them equally, it would take at least a few hundred years to become accustomed to it. But from the equal treatment of everyone to the enthusiasm, it seems that in just a few days, people were simply at a loss.

“It’s all because of you, Yang Chen!” Palace Master Zhang Jiao was heaping praises on him “You are the best disciple of the Pure Yang Palace and the Pure Yang Palace is proud of you!”

“This is the duty that disciples should do!” Yang Chen did not take the merits, he still had the same humility.

“I am waiting for the day when the Greatest Heaven Sect also bows!” The Greatest Heaven Sect’s conspiracy to annex the Pure Yang Palace and bombing of the mountain gate of the Pure Yang Palace, this shameful events, although Yang Chen also bombed the gate of the Greatest Heaven Sect, but it was not easy to let the head of the palace to extinguish his hatred.

Yang Chen could also feel the change of mood in the palace master. However, for Yang Chen, the elimination of the Greatest Heaven Sect was also his wish. At this point, there was no conflict between him and the head of the palace about it.

After saying goodbye to the head of the palace, Yang Chen with the old patriarch of the cypress monsters came to the residence of Gui Shanyou. This trip was to introduce the patriarch to Gui Shanyou, to see if the old tree demon would take him as an apprentice.

Sure enough, after seeing the old patriarch, the old tree demon agreed immediately and the old patriarch was honored to be the first disciple of the Pure Yang Palace's hall of eccentrics hall master.

Yang Chen brought back the Immortal's cave owner's refining experience and as expected by Yang Chen, Gao Yue and Wang Yong treated it as treasures, they have not let go of it and have been concentrating on it.

He thought that the days in the sect would be very calm, but what Yang Chen didn't expect was that his wishful thinking was obviously only a luxury.

From the second day after Yang Chen's return, there were people coming to visit him. For Yang Chen, these people who he has not met, they would have to meet each other. They were all famous. With Yang Chen's current status, he really had to go through it, so as not to give people a sense of arrogance.

These people came one after another, apparently knowing the news that Yang Chen returned to the Pure Yang Palace. It was estimated that there has always been people staring at the movement in the Pure Yang Palace. Everyone was thinking of being able to meet Yang Chen. Even if Yang Chen couldn't immediately start the alchemy, at least he should be familiar with it. In the face of this enthusiasm, Yang Chen could only meet them with a smile.

All of them were predecessors, all of whom were relatives and none of them were of the younger generations. Everyone who came was not empty-handed. They knew that Yang Chen liked to collect fire seeds. Almost everyone came with more or less different kinds of fire seeds. They didn't say anything and they left it to Yang Chen.

In less than a month, Yang Chen received at least five or six hundred kinds of fire seeds in the third grade, these were just their gifts for the visits. It was not something that was too precious. It could be imagined what kind of gift would be received when Yang Chen started to refine the medicinal pills.

Even the alchemist masters in the Immortal world has always been given such golden treasures, Yang Chen understood this, so after the resignation, the gifts that each person left behind were politely accepted with a smile, as for the requirements of these predecessors in alchemy, they would have to discuss the time with the head of the palace. Whoever was first and foremost, they could even communicate in private, Yang Chen would not make decisions for them.

The masters who came to visit also knew that Yang Chen was not rejecting them, but letting them decide the order on their own. Everyone asks for the sect at the same time, either to complete a task or to pay enough price to let the other party retreat. However, the most fundamental thing, was that they still had to please Yang Chen, no matter what, as long as they were on good terms with Yang Chen, there would be no harm.

Many people began to dig into the hobby of Yang Chen. Some people even knew that Yang Chen wanted to marry with four people at the same time and vaguely felt that Yang Chen liked beauty and began to search for some for him. After hearing these news, Yang Chen himself felt a little bit like crying and laughing. When did he become a pervert in peoples eyes?

The people who sent the fire seeds was a small vein of Yang Chen, but some people dig into the other way to get a more secretive thing closer to Yang Chen's mind.

Some disciple of the Greatest Heaven Sect, it seems that Yang Chen has not been getting along with him and he has even placed spiritual stones for his pursuit and there was still no result.

Chapter 402.2: Miserable Yang Li

Yang Xi's days were like hell. Although people who were in the Greatest Heaven Sect should be safe in theory, but he does not feel any sense of security.

Someone used spirit stones as a reward for Yang Xi's life. Yang Xi knew that this must be Yang Chen. Apart from his blatant expression of killing intent in front of Yang Chen, he has always been overcautious in the Greatest Heaven Sect. Who in the division had he offended to the point of wanting to kill him, except Yang Chen, there was no one else.

At the beginning, Yang Xi did not put this kind of thing in his heart. As long as it was not a fool, they would not take such a reward. Just for a few pounds of spirit stones, the one who would come to the Greatest Heaven Sect to kill the disciples of the Greatest Heaven Sect was purely a fool.

However, the development of things has changed very quickly. With the improvement of the rewards, Yang Xi also began to panic. When he didn't care about it before, he could go out and cultivate around the Greatest Heaven Sect and there was no danger. However, after the rewards were improved, Yang Xi had to start to be careful.

Yang Chen's reward was at least three times his value at this level. The money was tempting, even if it was among the cultivators, this was also the unbreakable truth, the spirit stones could also be a big help for their cultivation.

From that time on, Yang Xi easily did not leave the domain of the Greatest Heaven Sect. Even if it was done, he was cautious, always ready to be attacked by people, he was so cautious and careful.

Fortunately, his worry has not happened. Even though the Greatest Heaven Sect was unfortunate these days, it was still a big sect of the majestic dao sects. No one dared to play with the idea of killing a disciple of the Greatest Heaven Sect in broad daylight.

When Yang Xi was worried, he could not help but start looking for a solid backing for himself. Li Liheng, the young sect master, became the mountain of Yang Xi. It was said that the young sect master was the illegitimate son of the current sect master and would inherit the Greatest Heaven Sect's ethics in the future. His future was boundless, it was definitely not wrong to follow the young sect master.

However, it was not so easy to hold the thick thighs of the young sect master. After a long time of research, Yang Xi made a decision to sacrifice his sister Yang Lan.

His brother Yang Xi was the hope of the Yang family. Yang Lan naturally cannot watch his brother in a dangerous situation, although he was in violation of her heart. However, she also had to accept Yang Xi's arrangement. They waited for the opportunity to approach the young sect master. Under the guidance of Yang Xi, several small undertakings came down and they were slightly favored in front of the young sect master, now they had a certain status.

At this moment, Yang Xi was thinking that he had fallen on the back of the mountain. When he thought that he could rely on it and no longer fear any killer, the bad news of the young sect master's cultivation deviation suddenly came. The little sect lord actually went into cultivation deviation when he was cultivating.

Although he didn't know what the main cultivation method of the young sect master was, it would definitely be very troublesome after the cultivation deviation. If you don't move, you would have no signs of fainting. When you are idle, you would be okay. Sometimes you would suddenly lose consciousness during the practice. Suddenly, the spirit power would be out of control, the spiritual awareness would be divergent and they would always be seriously injured. If someone was staring at the moment, maybe someday he would not know when he would die.

In this regard, Yang Xi was almost angered by the heavens, he had already paid the price of his younger sister's innocence and she became a dao companion of the young sect master. How could the young sect master suffer this dramatic change? Could it be because of the double cultivation with his sister?

Yang Xi thought so, even some elders who value the young sect master thought so. Poor Yang Lan, went directly into the bottom of the Greatest Heaven Sect and his brother, Yang Xi, was also implicated.

Originally, Yang Xi was asked to come forward to convince Yang Chen to join them. However, Yang Xi forced Yang Chen to the opposite side without demur. This was not a good thing. In addition, the top management had to bow to Yang Chen on the secret key, which made the high-level unhappy. With the introduction of Yang Lan to the young sect master, the top executives were more unhappy with Yang Xi.

Among the high-level members of the Greatest Heaven Sect, who was not good at playing with their means, Yang Xi making Yang Lan close to the young sect master was seen through by a few elders at a glance. If it was not that the cultivation method of the young sect master has never been successfully cultivated by anyone, so it couldn't be completely blamed on Yang Lan's head. Maybe the elders would have taken a good look at Yang Xi.

The house leaked to the night rain, and the boat arrived to make up the leak. At this time, Yang Chen once again raised his reward. This time, let alone the killers outside, even some of the sect members were tempted.

The hearts of people were unpredictable and Yang Xi felt that he had no one to trust. Even if it was people in the Greatest Heaven Sect, it seems that everyone was going to deal with him to collect the reward, the huge fear made him all the time even afraid to close his eyes.

Even when cultivating, Yang Xi only dared to cultivate in the most obvious way. He didn't even try the deep level of meditation, for fear that someone would pick up his head unconsciously while he was cultivating.

He was restless when eating and his nights were very awkward. This was the current state of life of Yang Xi. If his foundation has not already been built, he may have become a madman under this tremendous pressure.

But Yang Xi wishes that he was already a madman. At least the madman would not have any worries, there would be no fear and no one would try to deal with him.

As the fact that Yang Chen became a fifth grade alchemist master slowly spread from the top, gradually passed to the ears of ordinary cultivators, Yang Xi could no longer support the fear of despair, his whole person seems to become an empty shell in general.

At this time, not to mention that Yang Chen used the spirit stones as a reward. If he even said one sentence, one meaning for others to understand. Naturally, there would be countless people who would be able to get rid of Yang Xi to win Yang Chen's favor.

There was a person who was paying close attention to Yang Xi. This person was Senior Wine Immortal of the wine Immortal house who has been cooperating with Yang Chen.

Many of Yang Chen's previous rewards were issued through the Wine Immortal House. Therefore, Wine Immortal was very clear about who the promoter of this reward was. However, by his status as Wine Immortal, it was not enough to find trouble for a junior in the foundation stage for a few pounds of spirit stones. Since Yang Chen gave a high reward, naturally someone would be willing to pay attention to it.

At the beginning, senior Wine Immortal did not put this matter in his heart. However, after the news that Yang Chen became a fifth grade alchemist master spread, all the information related to Yang Chen became the focus of the senior Wine Immortal.

Soon his attention was focused on Yang Xi's body. This guy actually let Yang Chen use his rewards more than ten times the price to ask for his life. He was obviously hated by Yang Chen.

At this time, the Wine Immortal certainly hoped to have better contact with Yang Chen. Naturally, a weighty meeting gift was essential. He would be a very good gift for Yang Chen.

#### Chapter 403.1: The Consideration Of The Wine Immortal

Of course, Yang Xi does not know that there was such a person who was tempted to stare at himself. However, he was now screaming at the wind and the grass and even in the Greatest Heaven Sect, he was in fear of his daily life.

Who would have thought that a small Jiedan stage disciple of a second-class martial art sect could suddenly become a fifth grade alchemist master in less than a few decades? If he knew this early, why would he have bothered him previously?

Yang Xi and Yang Chen were fellow villagers. Yang Xi remembered that when he saw Yang Chen, he felt that he wanted to take a few slaps. At that time, Yang Chen had already demonstrated the strength that the Greatest Heaven Sect's top management wanted to recruit. How did he get blinded with greed and wanted to put him to death?

If he was careful to recruit Yang Chen at the time, he would also be a man of great merits. Yang Chen would be a fifth grade alchemist master, but he would also likely reap the benefits of his recommendation. Such a big piece of meat, how could he not get more benefits from him than the young sect master?

Being natives of the same village, at that time, if he sent his sister Yang Lan to Yang Chen, don't mention the Greatest Heaven Sect, he could walk across the entire dao sects domain arrogantly!

Unlimited regret made Yang Xi wants to bury himself in a pit, after a series of happenings, leading to him now having to face the possibility of assassination at any time made him want to cry without tears.

But in remorse, Yang Xi had an anger that couldn't be vented. Who was Yang Chen? When he was in the Yang Family village, he was just a small fish who was a tenant of old master Yang. At the gate of the Greatest Heaven Sect, he was thrown out because he was a country bumpkin with no experience.

Such a despicable thing turned out to be a Pure Yang Palace disciple. If he was still mediocre, he would be able to do so. Why could he be so great in a second-rate sect? Even the top of the Greatest Heaven Sect was tempted?

He was carefully cultivated by old master Yang from a young age and he was literate since childhood. When he was a disciple of the outer sect, he had a little more advantages than those who were of the same rank. He became a foundation stage cultivator and became a disciple of the inner sect smoothly. Could a descendant of a servant be better than himself?

The inner guilt made Yang Xi more and more hateful of Yang Chen and he wished he could break Yang Chen's body into shreds. However, he was only in the foundation stage, there was only one dead road for him against Yang Chen.

It could not be helped but said that the wine Immortal was also good at trying to figure out people's minds. Yang Chen would rather use spirit stones as reward for Yang Xi's head instead of directly speaking it himself, he knew that Yang Chen did not want Yang Xi to die too quickly.

The wine Immortal predecessor was now at the peak Yuanying stage and naturally he also had a hot eye for the questioning inner heart pills. Although his cooperation with the Pure Yang Palace was good, but the news of some happenings could not be exchanged with the questioning inner heart pills. With how valuable the questioning inner heart pills were, he was afraid that even if Yang Chen refining it, it would not be so easy.

With the information system of Wine Immortal House, they knew that the Blue Cloud Sect and the Green Jade Immortal Island got the questioning inner heart pills from the Pure Yang Palace. Naturally, it was not hidden from the wine Immortal. However, with the financial resources and friendship of the Wine Immortal House, it was impossible to ask for pills from the Pure Yang Palace for the time being. They were unable to provide rewards that Yang Chen would be satisfied with and could not come up with those medicinal materials with thousands of years maturity.

Now there was a big opportunity placed in front of the wine Immortal. As long as he could make Yang Xi give him his head, he could naturally attract the attention of Yang Chen. As for the questioning inner heart pills, in fact, the wine Immortal only needed one. Yang Chen could refine about ten or so in one refining. That was still in the past. Now, Yang Chen was a fifth grade alchemist master and it was estimated that the pill success would become more and more.

From the hands of the big sects, one could be deducted for him.

In Greatest Heaven Sect, the wine Immortal also had some connections there. The Wine Immortal House could mediate in the major sects by relying on these connections. If the wine Immortal sent a message that it was necessary to move an unpopular junior of the Greatest Heaven Sect. Naturally, many people would be willing to help.

Yang Xi's days were even more inferior to hell. Even in the Greatest Heaven Sect, there were many people who come from time to time to "take care of" him. Everyone's status was higher than his own and the things he had to do were very reasonable. He does not dare not do anything that they told him.

However, the things that these people told him to do looked simple, but each one needed him to go out, to collect any material, or to send a letter, everything they gave him to do was calculated with the sects contribution, which was a formal mission.

However Yang Xi did not want to go out, but he had to go out. On the one hand, being rebellious to the sect was a capital crime. On the other hand, if he went out and there were killers following him, it was also a death sentence. Under the boundless fear, Yang Xi could only go out with care and courage.

It was a pity that no matter how careful Yang Xi was, under the care of the Wine Immortal House, where could his whereabouts be kept a secret? A few so-called killers arranged by the wine Immortal quickly found him.

A junior who was in the foundation stage, a few killers could easily take out Yang Xi ten times, but the wine Immortal just let them start to scare him, they made Yang Xi become hurt and then every time things were getting dangerous, they would allow him to escape.

After a few times in succession, Yang Xi heard the instructions to let him go out in the sect, and he would almost immediately reflect the embarrassment. The feeling of life and death hanging in the hair, he no longer wanted to try.

Waiting until the above instructions, Yang Xi would rather violate the rules of the sect and would not take another step. After several consecutive times, the law enforcement hall of the Greatest Heaven Sect found Yang Xi.

Judging from the information held by the law enforcement hall, Yang Xi was a foundation stage disciple who could not even complete some of the simplest sect missions and later he was not able to complete

the task at all and even became a disciple who did not accept the sect mission. What was the use of such a disciple?

The sect Law Enforcement Hall certainly listened to Yang Yu's distinction. However, no matter how he checked, it was impossible to say that the simplest task of collecting materials from the disciples outside to the sect was to deliberately frame him. As for the fact that someone has put a high amount of rewards for his head, it was even more nonsensical.

How could the wine Immortal not take care of all the details? At the time of the plan, all the rewards for Yang Xi had been withdrawn. This was issued by the Wine Immortal House. It was of course an easy matter to withdraw it.

After the inspection, the Law Enforcement Hall did confirm that there had been a high reward for Yang Xi in the past, but it has now been removed. If Yang Xi refused to complete the sect mission within two years after the withdrawal of the reward, he would be punished by the sect Law Enforcement Hall.

Let the law enforcement hall of the Greatest Heaven Sect punish Yang Xi, this process would continue for a long time. This was more difficult for Yang Chen to use the high amount of spirit stones as a reward for Yang Xi's life. Especially being hurt by the knife from the inside, the knife from the people around him, the feeling of swearing was even more painful than that from the enemy.

Yang Lan was trapped in such pain.

Chapter 403.2: The Consideration Of The Wine Immortal

When the wine immortal met Yang Chen, he did not say anything more. He only gave Yang Chen a piece of jade slip, which recorded the days that Yang Xi had been having these years and the punishment of the Greatest Heaven Sect Law Enforcement Hall on him.

Yang Chen was very surprised, but immediately he became stunned, the wine immortal predecessor showed up to him in good will without asking for anything, but they were better than his own means.

The wine immortal was old and spicy, and Yang Chen couldn't help but admire him. The procedure of the wine immortal was indeed more resentful than killing Yang Xi. In his previous life, Yang Xi bullied Yang Chen with the sect forces of the Greatest Heaven Sect. Now he used the hand of the Greatest Heaven Sect to punish Yang Xi. This was really a true payback and it made people happy.

What the wine immortal wanted, Yang Chen understood it clearly, nothing more than the same, the same was with the jade dragon wine, the same was the refining of the medicinal pills. From the cultivation base of the wine immortal which was now at the peak Yuanying stage, he wanted the questioning inner heart pills.

The relationship between Yang Chen and the wine immortal was not too deep, but they also had a lot of dealing. A lot of information needed by the Pure Yang Palace and Yang Chen could be obtained from the Wine Immortal House.

Since the wine immortal predecessor did this thing that made Yang Chen feel comfortable and satisfied, Yang Chen naturally didn't mind bringing the relationship with the wine immortal predecessor closer. There was a friend who has no harm to himself.

At the moment, Yang Chen didn't hold back and he took out the jade dragon brewing liquid directly and put it in several large jars. So many jade dragon wine liquids were enough for the wine immortal predecessor to not worry about his wine breaks in the next few decades.

"This is some of the auxiliary wines brewed by this younger generation junior. Which one is most suitable for the Jade Dragon Wine, it needs the seniors to comment on it." To the jade dragon wine liquid, Yang Chen did not have some new wines. It was said to be newly brewed, but in fact there have been there for decades.

For the wine immortal, this was simply the best gift. Not to mention that the value of these jade dragon wine that Yang Chen gave him has far exceeded the cost of using his manpower, the wine brewed by Yang Chen was simply a surprise.

Who was Yang Chen? A fifth grade alchemy grandmaste, would he make a mistake in the wine he brews? How many people could enjoy the wine brewed by Yang Chen? What's more, Yang Chen said in the early decades when he met the wine immortal that those ordinary auxiliary wines were not enough to stimulate the delicious taste of the jade dragon wine. He wanted to brew a special auxiliary wine for the jade dragon wine.

Yang Chen giving him these good things definitely made the wine immortal the happiest. In the name of wine immortal, it was naturally known that he was addicted to alcohol. When he heard Yang Chen's words, he couldn't help but want to open it and try it.

Fortunately, the predecessor wine immortal was also handling the affair of Wine Immortal House. After so many years, he has already been able to exercise control and he happily accepted the wine of Yang Chen and was not rude to open it on the spot.

The wine immortal also knew that this was the reward that Yang Chen gave him, indicating that he did a good job in Yang Xi's case. This was better news for the wine immortal. Yang Chen accepted his kindness and even gave him his favorite wine in return.

For Yang Chen's medicinal pills, the wine immortal never thought that he would get it because of such a small matter. His purpose was to further his relationship with Yang Chen so that he could seek help from Yang Chen in the future. Now that the goal was fully achieved, how could he not become delighted?

However, Yang Chen had another thought, looking at the happy appearance of the wine immortal, his heart suddenly moved. The wine immortal predecessor was born in a rogue cultivators family and they had a lot of rogue cultivators. The wine immortal house was now a force that cannot be neglected by the cultivation world.

If this force could be turned to the Pure Yang Palace, it would be more grasped for the future dealings with the Greatest Heaven Sect. When he thought about it, Yang Chen still felt that it was an opportunity, perhaps it should be said to the wine immortal.

"Predecessor, this younger generation junior has some words to say, I don't know if it is appropriate to say it." Yang Chen took a moment and thought about it and he slowly said.

While talking, Yang Chen took out some jade cups from his Qiankun bag and took out a good jade dragon wine that had been blended and filled one cup each for himself and the wine immortal.

"If there is something you would like to say, feel free to speak your mind." With the appearance of the wine, the wine immortal was happier. For Yang Chen's politeness, he didn't care, he would let him just say it.

After Yang Chen laid down several restrictions, he carefully asked: "Predecessor, this younger generation junior is very curious, with senior's achievement, no matter which big sect you choose to join, there are people who would welcome you with open arms, how come senior never considered it?"

The experience of the wine fairy was pure and Yang Chen was clear about this from his previous life, so he would have this question. To draw the wine immortal, of course, he must know what he wanted.

“He He, do you think that if this old man has entered a big sect, those people will treat this old man as a treasure?” The wine immortal smiled a little bit unwillingly.

Yang Chen stared and immediately became stunned. With the cultivation base of the wine immortal, he could be accepted, but it was impossible to become a high-ranking member in a big sect at this point.

By relying on the Wine Immortal House, the wine immortal predecessor could give himself a place to rule, but no big sect would be willing to have such an intelligence system in the hands of a half-way cultivated cultivator, naturally they would try their best to penetrate in the organisation and then have the sect gain complete control of it.

As a result, the status of the wine immortal predecessor would not be so high. If you look at the wine, he would rather throw it outside, and you know that he was not a person under the candid. It was natural to understand this choice.

And the small sect words would inevitably be unable to confront those big gates. If such an intelligence system was in the hands of a small sect, they would be courting disaster. It was better to be independent as it was now. No one was close to anyone. Who was more secure? The Wine Immortal House was among the cultivators, but it was also very difficult to survive.

“I don’t know what Senior think of my Pure Yang Palace?” Yang Chen hesitated and finally said the words.

The wine immortal was startled, then began to consider immediately. Compared with the big sects, the Pure Yang Palace would not naturally be strong. If he joins, he would definitely be entrusted with heavy responsibilities. This was in line with his requirements.

Moreover, the Pure Yang Palace was now enjoying a pleasant cooperation with the Blue Cloud Sect and the Green Jade Immortal Island and its strength has begun to swell. Even if it was a large sect, it does not dare to easily take on the Pure Yang Palace. In particular, after Yang Chen became a fifth grade

alchemy master, countless people would pay close attention to him. Their status was naturally more and more stable and their future was boundless.

If he joins the Pure Yang Palace, it seemed to meet the requirements of the wine immortal and there would be no other sect to concern him, it seems to be a good choice.

Soon the eyes of the wine immortal lit up!

Chapter 404.1: Fine Deeds

Joining the Pure Yang Palace? The wine immortal was seriously considering this issue.

Obviously, joining them would be good, especially for him personally, it would come with great benefits. If you don't mention anything else, just the questioning inner heart pills were enough to make him tempted, not to mention that if he succeeds in his promotion into the dacheng stage, he would only be more valued in the Pure Yang Palace, instead of being marginalized like in other big sects.

For the Wine Immortal House, it was also a great opportunity. The present resources of the Pure Yang Palace were so abundant that others would envy if they knew, the Wine Immortal House, who specializes in selling intelligence for a living, wouldn't they know about it? If he joins the Pure Yang Palace, at least those rogue cultivators could also have many opportunities.

In particular, after joining the Pure Yang Palace, the juniors of the Wine Immortal House would have long-term interests protection. They would not have the backbone of the wine immortal once he has passed away. From then on, they would become poor and struggling rogue cultivators again.

These juniors of Wine Immortal House were absolutely willing to join the Pure Yang Palace at this time. It would not be taken lightly and now the status of the Pure Yang Palace disciple outside was absolutely enviable.

The Pure Yang Palace was rising, but it has not yet fully emerged. It was necessary to absorb all aspects of power. If they could absorb the Wine Immortal House, it would also be a great opportunity for the Pure Yang Palace to improve.

Moreover, with Yang Chen, the fifth grade alchemy master, even if the wine immortal joined the Pure Yang Palace, there were also very legitimate reasons. Because of the lack of self-confidence, the Pure Yang Palace could provide questioning inner heart pills, so it was impossible to resist the temptation.

As for the Blue Cloud Sect and Green Jade Immortal Island, they have already cooperated with the Pure Yang Palace and they were happy with it. Secondly, even if they have a questioning inner heart pill, at most they could only give the wine immortal only one. The sect had their own dacheng stage and Yuanying stage masters and they couldn't focus on one person. It's like the Pure Yang Palace had the most generous offer.

This reason was given to the sect master of the small sect in the past, not to mention a small Wine Immortal House. At this moment, the wine immortal almost wanted to agree directly. But in the end, there was still some restraint in him and he was forced to hold back.

After all, the reason why the Wine Immortal House could become an intelligence dealer was because of its relatively independent position. If they became part of the Pure Yang Palace, then other sects would have concerns when dealing with them, which would affect the business of the Wine Immortal House. If the Wine Immortal House does not have such a convenient identity for obtaining information, then its status would definitely be weakened.

"If the predecessor does not want to join the Pure Yang Palace, we can establish a closer cooperative relationship between us." Yang Chen saw the hesitation of the wine immortal and said again.

"Closer cooperation?" The wine immortal was obviously more interested in Yang Chen's statement. After all, there was a temptation to acquire the questioning inner heart pills, the wine immortal was still very happy to cooperate with the Pure Yang Palace.

"For example, all the information obtained by the Wine Immortal House can be sent to the Pure Yang Palace in advance." Yang Chen said with a smile, "When necessary, the Pure Yang Palace will also provide certain protection for the Wine Immortal House."

Listening to Yang Chen's words, the wine immortal's eyes narrowed. All the information was to be sent to the Pure Yang Palace. Wouldn't the Pure Yang Palace be the Wine Immortal House and the Wine Immortal House be the Pure Yang Palace?

“Of course, our two sides are only cooperating.” Yang Chen said with a smile, “I will pay the necessary remuneration, and will never destroy the rules of Wine Immortal House.”

Paying for information and getting information was originally the business of the Wine Immortal House. This was certainly not a violation of their rules. However, what kind of reward could make the wine immortal make such a decision? Even the wine immortal was a little nervous.

In the hands of Yang Chen, there appeared a jade box, which was slowly pushed to the front of the wine immortal. Looking at this jade box, the wine immortal’s breathing also became rushed. Even if he was in the Yuanying stage, after guessing what was possibly in this jade box, he still couldn’t help but feel nervous.

“This is a questioning inner heart pill.” Yang Chen directly exposed the content of the jade box “As a deposit, it is just a first grade pill, not a good thing, the seniors can accept it first.”

“This younger generation junior will refine many second grade questioning inner heart pills in the future, I will give Wine Immortal House two.” Yang Chen released his hand and left the jade box in front of the wine immortal, and he slowly asked “Three questioning inner heart pills, I don’t know if I can make a deal with them?”

The heart of the wine immortal has already leapt into his throat. In this jade box, it was the fulfilment of his dream. Perhaps he could breakthrough his present bottleneck and enter the dacheng stage with this medicinal pill.

However, listening to the following statement of Yang Chen, the wine immortal was even more shocked. Not a good thing? The wine immortal almost wanted to ask Yang Chen loudly, If the questioning inner heart pill was not a good thing, what could be considered a good thing?

In these days, how many masters have been in contact with the Pure Yang Palace before and after, what were they doing, isn’t it just a matter of acquiring the questioning inner heart pill? Previously, because Yang Chen and the Pure Yang Palace had never announced their willingness to make alchemy for outsiders, now that they have announced, everyone would certainly want to ask for a few.

Wasn't the questioning inner heart pill regarded as important by so many experts, hundreds of people in the dacheng stage, thousands of Yuanying stage experts needed the questioning inner heart pills, in Yang Chen's eyes, it was not really a good thing?

However, this was said by Yang Chen and it was normal. As Yang Chen said it was only a first grade pill, he could also refine the second grade questioning inner heart pill.

According to what the wine immortal knew, Yang Chen was the one refined so many second grade questioning inner heart pills for the Blue Cloud Sect and the Green Jade Immortal Island. It was still a matter of decades ago. Yang Chen has now become a fifth grade alchemy master. The level of his natural alchemy was even higher. It was not impossible to refine more second grade questioning inner heart pills.

Second grade questioning inner heart pill, if a single first grade questioning inner heart pill was not enough to let him break through, then the second grade pill could absolutely guarantee it. What's more, there were still two, he hoped he could use it to fulfil his wish of ascending.

The heart of the wine immortal predecessor has been provoked and the sound made him feel big. However, the wine immortal did not feel that there was anything shameful. Not mentioning that he was a guy with a peak Yuanying stage cultivation base, whoever it was changed to, even if it was the sect master of the Greatest Heaven Sect, he may not be able to overcome such a temptation.

Which cultivator did not want to ascend one day? If it was not that there was no hope, who would be willing to be trapped in the Yuanying or even the dacheng stage for a lifetime? The price code given by Yang Chen was really exciting!

"Predecessor, one first grade questioning inner heart pill, two second grade questioning inner heart pills, if the senior still felt that something is wrong, make a proposal." Yang Chen said immediately "However, if the price is too high, then the deal could only be forgotten."

Chapter 404.2: Fine Deeds

It was a sudden business, so the wine immortal could not make a direct decision, but he was reluctant to let go of this opportunity.

You must know that this was the moment when he was the closest to a questioning inner heart pill, and there were three questioning inner heart pills, the reward for the wine immortal house was actually given to the wine immortal. This the wine immortal knew.

He has benefited from it, but there was not much input in the wine immortal house. This was naturally not easy to explain. Even if the wine immortal was the founder of the wine immortal house, it couldn't be said easily.

In the previous transaction, the Jade Dragon Wine was converted into spirit stones to let the wine immortal buy it with spirit stones, that is to say, it was like the Pure Yang Palace bought the information using spirit stones.

If this time, the questioning inner heart pills were also settled in this way, the wine immortal himself does not know how much spirit stones he had to pay for the pills.

You should know that the wine immortal has a lot of spirit stones, but the questioning inner heart pills could only be refined by Yang Chen and he would need a rare and astronomical figure to pay for the pills.

There were even a lot of masters of the dacheng stage who had planned to unite and were willing to jointly collect the medicinal herbs that was needed for the questioning inner heart pill and then refine the pill together.

In this case, if he wanted to get a questioning inner heart pill, you could imagine the difficulty, let alone three and two of them were second grade pills.

After hesitating for a long time, the wine immortal finally made a decision after biting his teeth, he looked at Yang Chen and asked a general question "If the wine immortal house secretly joins the Pure Yang Palace, will you be ok with it?"

"How in secret?" Yang Chen brow frowned and he asked.

"This old man and several core masters will have joined the Pure Yang Palace, but we will all be secretive. Others in the wine immortal house will not know that all the information, of course, all of

them are to be copied to the Pure Yang Palace. It is a business to be negotiated, what do you think?  
“The wine immortal said his own opinion, watching Yang Chen, waiting for Yang Chen to decide.

In the end, the wine immortal also added “I will join the Pure Yang Palace, I can swear by a heart oath to be loyal to the Pure Yang Palace. We will follow what the sect master decides and I can also get the support of the Pure Yang Palace.”

“There is no problem?” Yang Chen was overjoyed by the idea of merging with the wine immortal house. Originally, he wanted them to be a perfect intelligence system. Now that the goal was achieved and the business of the wine immortal house was not affected, it was naturally a happy situation “So, senior and I can go to see the master of the palace.”

Soon the two appeared in front of the head of the palace. After listening to Yang Chen’s narrative, about adding the wine immortal, the shock on the face of the palace master could not be described with words.

The wine immortal house, this could almost be said to be the number one intelligence system among the cultivators, it was an organization which covered monsters, demons and daoists, now they were becoming the subordinate to Pure Yang Palace?

Although it was impossible to explain it to the outside world, all the information was copied to the Pure Yang Palace. For the Pure Yang Palace, they would have countless pairs of eyes outside, they would stare at everything that happens in the mortal world.

Was there something more shocking and more illusory than this? For a time, the head of the palace was stunned and could not say a word.

If it wasn’t for Yang Chen’s rudeness in interrupting the head of the palace, it would have been a bit unreasonable. Coughing a few times he called back the attention of the head of the palace.

“Sorry, I am sorry that this happy event is too sudden and it is a surprise!” The head of the palace immediately apologized to the wine immortal. However, such surprises were also reflecting the importance of the wine immortal to the head of the palace, so that the wine immortal could not help but raise his feeling of being valued.

Soon, the head of the palace called to gather all the elders to come to the proceedings. When they heard the news that the wine immortal house was to be merged into the Pure Yang Palace, almost all of the elders were having different kinds of surprise and excited expressions, which was almost the same as the head of the palace.

“Of course, welcome!” Several elders directly stated that with the wine immortal house, the Pure Yang Palace would simply be a tiger, and if this kind of good thing was pushed away, then they would be fools. What’s more, the core members of the wine immortal house and the wine immortal would make a heart oath, which was more reassuring!

“The wine immortal is now an elder of the Pure Yang Palace, and can participate in the Pure Yang Palace’s meetings and business at any time.” The palace master immediately gave the highest treatment to the wine immortal. Now he could attend any discussion with the palace master and the elders. The status was definitely the core position of the Pure Yang Palace.

As for the operation of wine immortal house, it was natural to beat lanterns outside, as usual, no one would change anything. Only the information originally given to the wine immortal house would be copied by the wine immortal himself and sent to the Pure Yang Palace.

Those who joined the Pure Yang Palace were naturally the core disciples. The Palace master made a direct decision that as long as their cultivation base was promoted, whatever medicinal pills they needed would be provided by the Pure Yang Palace.

Under this circumstance, it was also a solution to the worries of these core members of the wine immortal house. They only need to manage the wine immortal house with care and they could grow and develop. Their future cultivation would have the secret support of the Pure Yang Palace. Now there was no need to mention the Yuanying and the dacheng stage, even if it’s ascending one day, it would not be a problem.

Naturally, the wine immortal went to settle everything in the wine immortal house and the Pure Yang Palace also arranged everything for the wine immortal. Later, everyone’s eyes were once again concentrated on Yang Chen’s body.

Only when he came back a few days from outside, Yang Chen actually brought such a surprise to the sect. The elders looked at Yang Chen with sparkling gaze. Was there anyone who made them more speechless than this disciple? Even if everyone else tried in their lifetime, it was estimated that there were not many major things that Yang Chen has done in the past 100 years that they could accomplish.

Next, the wine immortal predecessor gave the people some insights about the sensitive information in the near future, especially for the things about Yang Chen and the Pure Yang Palace, but also with detailed explanations.

Some of the dacheng stage masters wanted to unite and ask for questioning inner heart pills, this was normal, not worth making a fuss about. Several large sects were also looking to cooperate with the Pure Yang Palace, these were not news. The most noticeable thing were two other news.

One was the attitude of the Greatest Heaven Sect. It seemed that the top level members of the Greatest Heaven Sect were divided. Some people wanted Yang Chen to help treat the injured dacheng stage elders and the young sect master. By the way, they also liked to ask for some questioning inner heart pills. The other part of the hard-line faction wanted to destroy the Pure Yang Palace with their thunderous might and capture Yang Chen. The two sides were arguing so there was no conclusion yet.

Another news that he didn't know where it came from was that as Yang Chen was able to become a fifth grade alchemy master at this age. Some people speculated that Yang Chen had obtained the secret inheritance of a master of alchemy. Many people wanted to get this inheritance from Yang Chen's hands, and even some people have the idea of killing him to get it.

In particular, some people even clamored for ruining Yang Chen. They could not let him stand out in the mortal world and step on other alchemy masters.

#### Chapter 405.1: Secluded Cultivation

It was normal to have differences within the Greatest Heaven Sect. After all, the Greatest Heaven Sect used to dominate the dao sects. Why would they want a lay low with such a low profile? Even if Yang Chen helped to interpret the secret key last time, he was still arrogant, but it was only the price to pay for some financial resources.

And this time to save their people, they must use Yang Chen's fifth grade medicinal pills. Everyone knew how difficult it was to become a fifth grade alchemy master. There was also no guarantee that Yang Chen could successfully refine the medicinal pills after they provided the medicinal herbs.

To request the help of a fifth grade alchemy master, the financial resources needed would definitely not be low, even if it was superficial, the sect master of the Greatest Heaven Sect or the elders would also have to come to Yang Chen personally.

To make the high-level officials of the Greatest Heaven Sect come to a young generation junior to seek for help, this was a shameful matter for them, how could the overbearing people in the Greatest Heaven Sect bear it?

Originally, the Greatest Heaven Sect was very dissatisfied with the rise of the second-class sect like the Pure Yang Palace, especially when the arrangement of the Greatest Heaven Sect in the Pure Yang Palace was uprooted, although they did not know whether the Pure Yang Palace already knew it was the layout of the Greatest Heaven Sect. But it was always a loss for them in the Pure Yang Palace.

Now they have to put on a low profile in the Pure Yang Palace and ask one of their descendants to rescue the injured elders and the young sect master of their own ancestral sect. How could this torture be tolerated? Was it the Greatest Heaven Sect or the Pure Yang Palace who was the leader of the dao sects? The Pure Yang Palace should be the one to take the initiative to flatter them.

There were many people who wanted to destroy the Pure Yang Palace and kill Yang Chen. They originally planned to kill Yang Chen, and even sacrificed the lives of six Yuanying stage elders, but they only endured for the secret key. Could it be because of the injured elders and the younger sect master, they had to endure again?

Speaking of it, the three dacheng stage elders and the young sect master were indeed very important, but would they have to throw away the face of the Greatest Heaven Sect for them?.

They should simply kill Yang Chen once and for all. As for the injury of the three masters of the dacheng stage, it was only a matter of enduring for hundreds of years. After a few hundred years, it could still be cured. There was also the young sect master, those who don't know the inside story would certainly not think how important he was. How could a possible illegitimate child be worthy of throwing away the face of sect for?

The Greatest Heaven Sect has not officially approached the Pure Yang Palace and it was precisely because of the quarrel between the two sides. There was a dispute within the Greatest Heaven Sect. This was a good thing for the Pure Yang Palace and several other large sects. Everyone wanted to watch the Greatest Heaven Sect split.

The second news was a bit strange. Obviously this was the news that some unwilling alchemists have released. It may be related to several sects of alchemy. For the time being, there was no further news from the wine immortal house.

However, many people were very curious about Yang Chen's age as a fifth grade alchemy master. It was said that he has received a secret inheritance, which sounded highly credible.

The guilty of acquittal was the same in the world of cultivators. When most people thought that this was the case, some people would have to think about it. It was normal to get Yang Chen with this idea. Inevitably, there were some alchemy masters in the Yuanying stage or the dacheng stage who would plan against him.

Yang Chen was now the best treasure of the Pure Yang Palace so the sect would not want to see Yang Chen have an accident in anyway. Since the wine immortal house got news in this regard, the head of the palace was suddenly tense.

"You should not go out for a while in recent years. You should stay in the sect." At this time, the palace master did not care about Yang Chen's wishes and gave him an order directly: "The wine immortal is best to collect some exact information, wait until you have a clear idea of this matter."

This was for Yang Chen's security considerations. Yang Chen hesitated a little and accepted the order of the head of the palace. These years he has also gone out for a long time, so he could stay in the sect for sometime and cultivate.

Since he decided to stay in the sect, Yang Chen began to determine the direction he wanted to cultivate. After his full attribute has been condensed, the next step was the improvement of his spiritual power. This was an urgent matter. Yang Chen's Yin and Yang Five Elements Secret Art was now balanced and it was time to hit the middle Jiedan stage.

The body refining technique has to be continued and the realm of the Mountain Picking Strength has been completely consolidated. It was moving toward the next realm and it was believed that it would be achieved in a decade or two.

Speaking of the body refining technique, Yang Chen could not help but sigh at his good luck. In his previous life, he did not put this kind of stupid sculpt that was only a martial arts practice in his eyes, but only after he got the cultivation method of the body refining technique, he found that he still looked down on this body refining technique.

Because of the harsh conditions of cultivating it, many cultivators couldn't reach the standard of 1000 jin physical strength unless they reach the immortal world. At that point, because of the rise from the mortal to the spiritual world and the spiritual world has ascended to the immortal world, the body has become immortal. It was naturally difficult to practice such a refining technique to transform the immortal body. Even if it takes thousands of years, people who could practice to the fourth layer were very rare.

On the contrary, Yang Chen's body from the fetus was the easiest to transform and Yang Chen's body, which has been transformed by the essence of the immortal life of the immortals, so it took him only several decades to cultivate to the second layer.

10,000 jin Strength, Mountain Picking Strength, River Turning Strength, Sea Pouring Strength, Earth Pulling Strength, Heaven Raising Strength, corresponds the Yellow Turban Strongman Body Refining Technique six boundaries separately, but even in the heavenly court, the strongest cultivator of the body refining technique has only reached the peak fourth layer and he has never heard of someone who has cultivated it to the realm of the Heaven Raising Strength, And these Yellow Turban Strongman could only serve on the lowest chores in heavenly court.

Yang Chen now has hope that within the millennium, he would cultivate the sixth layer to perfection, this was simply a gift from the Heavens to Yang Chen. When it reached the Sea Pouring Strength, those powerful Yellow Turban Strongman could resist the masters of the demon race with their flesh. He really doesn't know how powerful it would be.

The remaining was the Three Elements Secret Art, Yang Chen has never interrupted it's cultivation by one day. Because of the double cultivation between Gao Yue and Gongsun ling's spiritual awareness, Yang Chen does not have to worry about the splitting of his spiritual awareness for now. However, he believed that with the deepening of his cultivation base, he still has to face this problem.

If Yang Chen does not want to split his spiritual awareness in his own realm, he has to consider having another spiritual awareness double cultivation with his two other wives, Sun Qingxue and Shi Shanshan.

Chapter 405.2: Secluded Cultivation

As always, Yang Chen chose to go into seclusion for his cultivation. Gao Yue got the inheritance of the immortal cave master and studied tirelessly. At the same time, she was also sacrificially refining her own dragon horn sword and did not retreat with Yang Chen.

Gongsun ling still has to go out and cultivate. She now has three more Yuanying stage masters to sacrificially refine the mountain river geographical map. Naturally, the more complete the mountain river geographical map was, the better it would become. She must go through at least all the domain of the dao sects, and if possible, go out to sea and go around the domain of rogue cultivators.

There were sharp swords formations on her, plus the high speed of her ship, not to mention the praying mantis puppet, for the time being, Gongsun ling's safety was not to be worried about. Unless someone was targeting Yang Chen, even if it was a stupid fool, they would know that moving against Gongsun ling was equivalent to completely offending Yang Chen, for Yang Chen, it was not known how many dacheng stage masters were willing to use some people's heads to please him.

Yang Chen was having his seclusion on a spiritual vein in the immortal's cave. Xiao Tian has now cultivated to the sixth picture. It was estimated that after the completion of all the cultivation methods of the eight pictures, the second layer of the Dragon Tower can be opened to cultivate more advanced cultivation methods.

Now the body shape of Xiao Tian seems to be slightly larger and the dragon qi was more and more intense. All the flying swords in the hands of Yang Chen were digested once in it abdomen and they were wiped clean and there was no sword spirit in them.

Perhaps after the second layer of the dragon tower was opened, Yang Chen could try to let Xiao Tian go to collect the dragon ball in the Dragon Palace treasure house, which was the real Dragon Palace treasure.

It was said to be a closed-door cultivation but in fact, Yang Chen wanted to refine his own yin yang five elements flying sword. The discovery of the Fourth Fire True Essence made Yang Chen very happy and some of the fire attribute materials found in immortal cave were the best for the refining of fire attribute flying swords.

Yang Chen refused to take these materials out. This would be used to refine the Fourth Fire flying sword among Yang Chen's yin yang five elements flying swords.

The jade slips left by the owner of the immortal cave, Yang Chen had read all of it and remembered it on the way back. Some things were worthy of Yang Chen using as reference.

Before refining the sword embryo, Yang Chen chose to fuse all the third grade fire seeds that was brought to him as gifts into the Yin-Yang Heaven burning fire.

With the absorption of enough third grade fire seeds, the speed of absorbing and fusing first grade and second grade fire seeds were now extremely fast and one could be completed in a few days. After removing the hundreds of fire seeds to fuse, it took Yang Chen two years. And as more fire seeds were absorbed, the Yin-Yang Heaven Burning burning fire was increasingly evolving in the perfect direction.

The powerful Yin-Yang Heaven Burning fire, blended these materials to form the sword embryo and laying the imprint of Yang Chen. This process was completed by Yang Chen, and it was many times easier than the refining of the First Wood and Second Wood flying swords previously.

It took only a short two years and a Fourth Fire flying sword embryo that looked very beautiful was freshly refined. The perfect fourth fire attribute, coupled with the carefully selected materials of the Greatest Heaven Sect, has made this flying sword the perfect sword embryo.

The reason why it was still a sword embryo was because the flying sword has not been tempered by Yang Chen for a long time. A series of follow-up work has not yet been completed, but it could now be used for combat. If it was bitten in the mouth of the Xiao Tian, Fourth Fire flying sword could also cut off any opponent.

It's rare to calm down and retreat for a long time. Yang Chen simply did not go out, but began to carefully study and practice the experience left in the medicinal gourd.

Yang Chen, who has already collected enough common medicinal materials, has tried to use all kinds of medicinal materials, various kinds of fires, various fusions, various techniques, and his distracting efforts, with the profound spirit furnace, within a short period of ten years, the jade slips in the medicinal gourd was thoroughly studied and even the combination of single and two kinds of pills was tested once.

Among the squares in the medicinal gourd, there were tens of thousands of medicinal residues. This was the most basic drug residue of Yang Chen's own refining and it was also the result of Yang Chen's re-

solidification of his basic knowledge of alchemy. At this point, Yang Chen's short cut on the path of alchemy has been filled and it's no longer based on the experience of his past lives.

With these solid basic knowledge, when Yang Chen tried to refine the second grade inner sensing pill, he felt more comfortable. Everything was under control and any changes that occurred in the furnace was within his own expectations. Even if Yang Chen wanted to control which one was of high quality and which one was of low quality, it could be easily controlled.

This kind of change, compared to Yang Chen's simple use of his knowledge of fire control to refine the medicinal pills, he did not know how many times higher than it was. This was the realm of alchemy master that Yang Chen wanted, rather than relying on the memories of previous life alchemy. When the old man of the previous life was always used up, he was now a complete alchemy master.

The quality of the second grade pills refined were even more impressive. Yang Chen even has the feeling that if he started to refine the second grade questioning inner heart pill, it would be even more perfect. Of course, the second grade questioning inner heart pill would also be promoted to third grade under the role of the profound spirit furnace.

Third grade questioning inner heart pill, if he was to pass it out, it would definitely make people crazy. This kind of medicinal pill, if he just took out one, it was worthy of making people do anything to obtain it. Now, Yang Chen was truly relying on his own alchemy strength to stand on the highest peak of alchemy in the mortal world.

After more than ten years of retreat, Yang Chen's spiritual power has been fully upgraded to the level of middle Jiedan stage. It took a long time to promote all his spiritual power, otherwise he would reach it sooner.

However, now his full spiritual power was condensed, his cultivation was faster. Yang Chen has a hunch, even if there was no external force and it was only through his own cultivation, he could enter the late Jiedan stage in 30 years, then after a hundred years, it would be enough for him to cross his tribulations and form his nascent soul.

Now Yang Chen also has to consider the incident of him forming his nascent soul in advance. For his entire spiritual power, at least six kinds of spiritual powers were needed, and the three spirit power of the positive and negative five elements could be done. If it was the forming of a nascent soul, more demanding conditions were needed to be met.

It's just that Yang Chen doesn't know what the concept of all his spiritual power forming nascent souls was and what would happen if he did it . Although the yin yang five elements secret art was powerful, but after all, it was only the legendary perfect cultivation method. Before Yang Chen, no one has ever successfully cultivated it. Yang Chen himself was the pioneer.

What would happen, Yang Chen could only explore it by himself, everything was still unknown. However, one thing was certain, that was, once Yang Chen entire attributes was successful in forming the nascent souls, then Yang Chen would definitely be the number one cultivator in the Yuanying stage, even if it was the masters in the peak Yuanying stage, they would not necessarily be able to compete with Yang Chen.
