Chapter 411.1: Stay Behind

Hou Yun attacked with a stick, but there was still a living person? Yang Chen was stunned, but immediately understood that this was Hou Yun's deliberately holding back after hearing what Gongsun Ling had just said.

It was very easy for Yang Chen and Gongsun Ling to distinguish which pit people were alive and in which pit they were dead. Yang Chen just lightly stomped his feet, and three moans were popping out of a dozen human-shaped pits.

Under Hou Yun's stick, although these three guys have not died, they had broken muscles and had no struggling strength. Had it not been for their toughness, they would have passed out at this moment.

The three guys alive were all masters of the Yuanying stage. In Yang Chen's memory, there was no impression of these people. However, this was not a problem for Yang Chen. Since they were coming to the Hidden Dragon Cave or returning assistance, then they were also related to the Hidden Dragon Cave. At present, Yang Chen's attitude towards the Hidden Dragon Cave was that he would make no mistakes and not let anyone go.

He took out three pills and stuffed them into the mouths of the three guys to make sure they didn't die because of the injuries. Gongsun Ling, who was next to him, was well prepared, and the three of them had been skillfully received in the geographical map.

Gongsun Ling's face was filled with a happy smile and she said to Hou Yun in the air, "Thank you Uncle Master ancestor!" According to generations, Hou Yun and the old tree monster were peers, so Gongsun Ling also called Hou Yun as her uncle master ancestor.

In response to Gongsun Ling, it was the cries of the arrogant weapon in the hand of Hou Yun whistling in the air. It's just that one or two efforts, the dozens of silhouettes that just flew back, had no idea where they disappeared to.

Apart from the three Yuanying live slaves left to Gongsun Ling, the rest of the guys, when they met Hou Yun's stick, were directly smashed into flesh, and then disappeared without a trace. Except for Hou Yun's fierce figure in the sky, they could no longer see anyone's shadow.

After looking around for a few laps, Hou Yun greeted the three on the ground, and then rushed into the inner island impatiently. He has been sullen for tens of thousands of years in the Blue Vault Mountain Immortal Cave. The dozens of small lives just now were not enough for him to plug his teeth. Those guys on the inner island were his appetizers.

On the road to the inner island, Gongsun Ling was very happy along the way. Just after a while, there were three more slaves in the mountain river geographical map. In the future, the refining would become more and more relaxed. How could this not make her happy?

The old tree demon did not seem anxious to attack, but just followed Yang Chen and Gongsun Ling slowly. Perhaps the nature of the trees were not killing. After swallowing the Penglai divine wood, the old tree demon's cultivation has been upgraded to a higher level and he was a little more stable.

And Yang Chen's slow and leisurely atmosphere was incompatible with the surrounding environment. Along the way, She Kui and Xie Sha have killed many small flies and it was almost bloody along the way. The island of the hidden Dragon cave, which was originally elegant, was now like a slaughterhouse.

After the three of them slowly walked to the inner island, they saw the fighting taking place.

It must be said that the Hidden Dragon Cave, as a dark horse placed in the South China Sea by the Greatest Heaven Sect, still has a very powerful fighting force. At least She Kui and Xie Sha have two Yuanying stage masters as opponents respectively, and they were in an entanglement in the air.

Hou Yun was surrounded by seven masters. At first glance, they set up a Big Dipper Seven Star Array and surrounded Hou Yun. However, Hou Yun's mighty strength was unexpected by everyone. Just the power of the peak Yuanying stage now erupted, leaving him in the sword array.

The shining big stick has recovered to be larger than the ordinary stick, but it was not too exaggerated, but the power contained in it has made the seven masters of the Yuanying stage dare not touch it easily. The flexible method of attacking by Hou Yun managed to maintain the operation of the attack.

At the end of these masters who were attacking, stood two guys with very ugly faces. Yang Chen saw clearly that the two were Yu Wenyi, the owner of the Hidden Dragon Cave, and an elder. Yang Chen had been chased and killed by the two in his previous life and he would never mistake them.

However, Yang Chen does not remember such a seven-star sword formation. The arrangement of the array turned out to need seven identical masters of the Yuanyin stage. The seven faces did not have the slightest difference and their cultivation base was almost equivalent. The clothes they wore and the styles were the same, but they were different in color.

Yuanying stage seven births was an incredible thing. Yang Chen's previous memories have never seen such a situation, and he doesn't know where the seven dragons were found in the Hidden Dragon Cave, but they still have such a powerful array.

It was estimated that this was the power left by the Greatest Heaven Sect to be the hidden power of the Hidden Dragon Cave. Otherwise, in his previous life it would not be hidden and Yang Chen would not know it.

Yang Chen has always overestimated the power of the Greatest Heaven Sect, but he still did not expect that there was no less than a dozen Yuanying stage masters in a small hidden dragon cave in the South China Sea Alliance. It could be seen that their hidden power elsewhere was still unknown.

Sure enough, it was indeed the No. 1 sect of the dao sects. After tens of thousands of young disciples were destroyed by Yang Chen, there was still such a heritage, and in a situation where not showing the mountain and not revealing the water, even Yang Chen cannot help but want to cry out loudly.

The seven twins were born in the same way, and even connected to each other. The actions of the seven people were like one person. With the help of the Big Dipper Seven Star Sword Formation, even though their realm was just in the early Yuanying stage, they were quite equal to Hou Yun.

Fortunately, Hou Yun's posture was invincible. It was only through this seven-star sword formation that he would be familiar with the fighting methods of the cultivators in the world. He bluntly suppressed his strength at the peak of the Yuanying stage.

Even so, Hou Yun's formidable power suppressed the masters of the seven births. It may be that there was a magic weapon contact before. One of the flying swords of the seven twins was obviously different from the other six swords. It was estimated that it had been destroyed by Hou Yun.

Because of this little regret, it seemed that the Sword Formation has a slight flaw in its cooperation. Hou Yun, of course, found this flaw sensitively and was chasing this flaw desperately, attacking wildly.

The main character of the Hidden Dragon Cave, Yu Wenyi, swept the array behind him, looking at him in shock and anger. Where this group of masters came from, without injustice or resentment, they actually killed his people. The alarm was frequently reported on several islands, but he dared not leave the support in the slightest while the disciples were slaughtered.

When he saw Yang Chen's three people coming slowly, it seemed as if they were traveling to enjoy nature. Yu Wenyi could see that Yang Chen was the leader among the crowd, he screamed and flew over.

Chapter 411.2: Stay Behind

"My Hidden Dragon Cave and you does not have an enmity. Why are you poisoning my Hidden Dragon Cave with your evil scheme?" The person was still in the air, Yu Wenyi asked Yang Chen sharply, the voice of anger almost spread throughout the entire Hidden Dragon Cave island.

"So what injustice does my Ten Thousand Treasure Tower have with your Hidden Dragon Cave?" Yang Chen snorted and responded immediately. At this time, he remembered that they had to make sense. They couldn't attack without injustice and enmity.

Yu Wenyi listened to Yang Chen's words and almost planted himself in the air. How could he think of a small Ten Thousand Treasure Tower, from the shopkeeper to the buddy, all of them were small businessmen who were only in the foundation stage, so they had such a great heritage? If he knew this before, he wouldn't agree with his cubs to provoke the Ten Thousand Treasure Tower even if he was killed.

As a matter of fact, in many of the sects of the Central Plains dao sects, everyone knew that the Ten Thousand Treasure Tower was a business owned by Yang Chen himself. From the moment Yang Chen became a fifth grade alchemy master, those Ten Thousand Treasure Tower branches opened in various cities around the city have been taken as the focus of care. Who would have the idea of daring to fight the Ten Thousand Treasure Tower?

It was here in the South China Sea, where the rogue cultivators alliance was located, it was almost a million miles away from the Central Plains dao sects and the news transmission between each other was not so smooth. The news that Yang Chen was a fifth grade alchemy master has not yet reached here.

In the eyes of these rogue cultivators, even if they were fifth grade alchemy masters, the disciples of the central plains dao sects have nothing to do with them. In this life, it was estimated that many people would not leave this archipelago. Why would they care about what was happening a million miles away? Even the Greatest Heaven Sect master who was also known as the dao sects leader, it was estimated that nine out of ten people here in the southern Sea don't know what his surname was.

In this case, the people in the hidden dragon cave dealt with the branch of a small company, and there was nothing to worry about. Who made the things in Ten Thousand Treasure Tower scarce here in the South China Sea? So the Hidden Dragon Cave made the move to grab it, even if it was not the Hidden Dragon Cave, there would be other organizations to do it.

This was where Yu Wenyi felt depressed. If he knew that the background of the Ten Thousand Treasure Tower was so powerful, it was only necessary to conduct business in an orderly manner. How could he have such a terrifying enemy?

The Hidden Dragon Cave foundation business, to be honest, Yu Wenyi didn't put much emphasis on it, but the task that Great-est Heaven Sect explained, after this one, has been extremely difficult.

Yu Wenyi has been deployed on this southern deserted sea for almost a hundred years. Seeing that as long as he could endure hundreds of years more, he could control the South China Sea Alliance in one hand, so that he could make great contributions to the Great-est Heaven Sect, and he would also become the largest power in the South China Sea.

Unexpectedly, because a small business branch was dealt with, so many masters came to attack them, the Hidden Dragon Cave was almost wiped out, and now the masters on the islands were starting to face the opposing masters. There were more than a dozen masters of the Yuanying stage. Today, he was afraid that they would be fierce fighting.

Even the strength of the seven twins has been held back by that powerful enemy, leaving Yu Wenyi himself and another elder, who could never be the opponents of the seven or eight Yuanying stage masters.

"It was a misunderstanding. I am willing to compensate you for the losses of your firm, and hand over all the murderers in your hands and apologize." When the service was soft, Yu Wenyi could not stand still,

and immediately lowered his head to Yang Chen and begged "As long as you put forward the conditions, my Hidden Dragon Cave would agree to it".

Staying in the green mountains, not afraid of no firewood, Yu Wenyi could be regarded as someone who could afford to bow down, and instantly made this low profile. As long as these Yuanying stage masters were not lost, the power of the Hidden Dragon Cave would not be lost too much, and there would be opportunities in the future to grow.

Anyway, as long as they endured for another hundred years, the South China Sea Alliance could be held firmly in their hands. At that time, with the reward of the Greatest Heaven Sect and the resources of the South China Sea Alliance, Yu Wenyi would definitely become a dacheng stage master. Everything was aimed at ascending, so why would it bother him bowing down? Moreover, when the time comes, he would use the power of the Greatest Heaven Sect and the South China Sea Alliance to deal with this Ten Thousand Treasure Tower. The gentleman would take revenge no matter how long it took.

"You don't shed tears until you see the coffins. You knew it already, why bother about it now?" Yang Chen just snorted slightly and said scornfully.

"Yes, yes, my humble self has not been strict, I am extremely sorry!" Yu Wenyi seemed as if he had not heard Yang Chen's contemptuous tone, and said with a smile: "I am willing to pay 100 times for the loss, what is your intention?" At that time, he didn't even realize that he was a shameful Yuanying stage master who was begging a junior.

When this was said, several figures had flown around, it was the few Pure Yang Palace masters who killed on other islands.

As soon as their figures appeared, She Kui and Xie Sha couldn't help but yelled in unison: "Don't grab our opponents!" And they attacked fiercely, their four opponents immediately felt pressure.

The eight masters gathered together with Yang Chen, Gongsun Ling and an old tree demon who's depth could not be seen, Yu Wenyi and the remaining elder of the Hidden Dragon Cave, their faces also changed in succession. If they join the war group, all these hidden family members of the Hidden Dragon Cave would be reimbursed in this battle.

At this moment, even regretting 10,000 times was useless. They could only beg Yang Chen to leave the Hidden Dragon Cave with a little vitality. Yu Wenyi's tone had even more pleading: "This time my Hidden Dragon Cave was wrong. Please look at the face of the South China Sea Alliance and let go of my Hidden Dragon Cave. There will be a thick report in the future!"

"South China Sea Alliance?" Yang Chen mentioned it with a hint of playfulness, and asked a little jokingly "There is so much movement here, it is impossible for them to not know right? But do you see a person from the South China Sea Alliance here?"

Yu Wenyi was also anxious to get rid of his troubles that he didn't notice at first. When Yang Chen reminded him, that was when he only reacted and his face suddenly changed. For so long, the South China Sea Alliance has not even sent a lively person here. What happened could be imagined.

"Have you been so hard-pressed, do you really think that my Hidden Dragon Cave has reached the end of the mountain?" When Yu Wenyi realized that Yang Chen wanted to kill them all, he no longer whispered, and fluttered back to the previous location and smiled: "If so, then don't blame the old man for his ruthlessness, leave it all to me!"

It was not known when Yu Wenyi moved, the area where everyone fought, hundreds of square feet of flat ground, a red light flashed instantly under the ground, accompanied by Yu Wenyi's crazy grin, suddenly Yu Wenyi and everyone except the elders around him was shrouded in it.

Chapter 412.1: You Forced Me

As soon as the red light came out, the bloody smell suddenly became nastier and the corpse fragments on the ground and the blood flowing across the ground suddenly seemed to start to change at this moment.

It's as if there was an invisible mouth that was devouring everything, the flesh and blood that was swallowing quickly disappeared without a trace. It only took a while, except for the smell of blood, no trace of flesh could be seen.

The eleven Yuanying masters who were fighting against She Kui, Xie Sha and Hou Yun, however, changed their faces greatly, and did not care about others. Everyone took a red elixir from their Qiankun bag and quickly took it.

In the Central Plains dao sects, basically every sect gate has a mountain protecting great formation. Once there was an invasion by an external enemy, it would be launched immediately to prevent the external enemy from the formation.

However, in the South China Sea, it was difficult to have such a large array. As the islands were distributed in different places, it was difficult for the Mountain Protecting Great Formation to accurately protect the required islands, and the islands were either too small or large. The large array method cannot be arranged, and the small array method was not powerful enough to resist the masters, so basically, the rogue cultivators alliances on the South China Sea side have no Mountain Protecting Great Formation.

But this does not prevent some alliances from setting up some small formations on their main island. The formation of the Hidden Dragon Cave was one of them.

However, this red formation seems to be very evil, full of blood, and once the formation was launched, everyone had a feeling of losing blood.

Yang Chen's spiritual awareness was almost the most powerful, and he immediately noticed that this formation was absorbing the blood of everyone. In this formation the enemy and friend were not distinguished. Even the masters of the Hidden Dragon Cave, their blood was also absorbed.

But soon Yang Chen discovered that when those guys in the Hidden Dragon Cave took the red elixir, the speed of qi and blood absorption suddenly decreased a lot. Compared with the people on Yang Chen's side, it was basically compared to ten times the speed.

This congregation has already discovered the physical anomaly and wanted to break away from this array, but soon found that everyone's body seems to be connected with this blood red light to a red invisible channel, no matter how far away the people were, they could not get rid of this red channel like the iliac crest, their whole bodies qi and blood was continuously absorbed by the red light along this red channel.

The old tree demon clone with half-closed eyes hasn't been moving at all. At this moment, the eyes opened wide suddenly, and he struck the ground suddenly. Boom, almost the whole main island seems to shake.

The old tree demon thought that this foot could shatter the formation, but he did not expect that the formation even absorbed most of the spiritual power contained in his foot, which in turn enriched the formation and it became stronger.

After a while, everyone had felt that they could not control their own blood and they had to lose their blood and vitality while fighting.

The eight Yuanying stage masters joined the attack without thinking. For the present, only by quickly killing the enemies in these formations, could they free up their hands to deal with this weird formation.

Not to mention the Hidden Dragon Cave, even if it was the Greatest Heaven Sect, the array method arranged in such a small area could not trap two dacheng masters. This was the idea of everyone, so they would show no mercy.

“Snort, you want to kill, the more you kill, the more blood you add to the formation, the stronger the formation would become, I want to see how fast you can kill. Hahaha!” Outside of the formation, Yu Wenyi’s somber voice accompanied by his laughing passed into everyone’s ears and everyone who was about to start attacking couldn’t help but stop.

At first glance, it could be seen that this was the demonic path formation. There was really something like the more it absorbs the master’s blood, the more powerful it became. In the past, these masters of the monster race would never believe it, but after learning for a long time in the Pure Yang Palace, they also learned a lot of common sense about the demonic race and no longer relied on instinct to fight like the other ignorant monster race.

For a while, everyone fell into an embarrassing situation of whether to fight or not. Everyone knew that the longer the time drags on, the more unfavorable it was to the other side, but for a short while, no one could break this weird formation.

“Such insignificant ability!” After studying it for a while, Yang Chen suddenly sneered: “ it is only mediocre!”

As soon as the words fell, Yang Chen’s feet suddenly burst out a bloody red vine, and the vines began growing rapidly. After a while, the area that was flashing red light was completely covered.

The Blood Phantom Vine flying sword screamed out, it cut off towards the red channel at the foot of Gongsun Ling. Strange to say, the red invisible channel that has been raving Gongsun Ling constantly. When it met the blood demon vine flying sword, it broke easily, and the end connected to the array method became connected to the blood demon vine sword.

The flying sword didn't stop, each of the red channels under the feet of the people from the Pure Yang Palace were cut by the sword in order. After flying back to Yang Chen and cutting off the one under Yang Chen's feet, the blood demon sword had fourteen red channels connected to it.

After all, the blood-sucking array was laid out recently and then fed a little bit with flesh and blood to increase its power, compared to the blood demon sword, which was a natural plant that sucks blood. The blood demon vine sword has absorbed the flesh and blood of several masters in the dacheng stage and its power was better than the entire formation.

The channel connecting everyone was cut off by the Blood Demon Vine Sword, and the blood absorbed in the original formation was absorbed by the Blood Demon Vine Sword in turn. Not only that, the bloody demon vine that suppressed the red light all over the ground also began to crazily absorb the blood in the formation.

In a short period of time, the bloody red color has faded a lot. And everyone had no sense of their blood loss anymore, everything seems to be back to normal.

After a while of work, everyone could perceive that the blood in their body has been absorbed by about 10%. Fortunately, everyone was an expert. This loss of blood would not be put in their eyes.

However, in the eyes of Yu Wenyi, this scene became another kind of fear. The Blood Sucking Demonic Array, which has always been favorable, has no effect. Even their hidden experts, such as the seven-children Yuanying stage masters and the seven-star sword array, have been sent. There was no other thing to stop Yang Chen and others from killing his people.

The eleven Yuanying stage masters in the Hidden Dragon Cave group have completely lost their confidence at this moment. The three people on the other side were on a par with theirs, and now there were eight more masters in the Yuanying stage. Their fate could be imagined.

On Yu Wenyi's face, there was a sudden increase in determination, and he suddenly became stubborn, staring at Yang Chen, he suddenly screamed fiercely: "This is what you forced me to do, this is what you forced me to do! All of you go die! "

Chapter 412.2: You Forced Me

An egg-sized yellow elixir suddenly appeared in Yu Wenyi's hands. Yu Wenyi no longer had any scruples and he swallowed this elixir into his belly.

Ah, ah, Yu Wenyi's mouth began to scream. Yu Wenyi's screams echoed from She Kui and Xie Sha's four opponents.

Without the interference of the Blood Sucking Demonic array for the eight ancestors in the Pure Yang Palace worried about, they rushed at the four people. For Hou Yun's opponents, they did not dare to grab, but She Kui and Xie Sha's opponents were not so lucky.

Originally when it was two to four, She Kui and Xie Sha still had the upper hand. Now it was ten to four, the outcome was almost instantaneous. The four Yuanying masters just turned into four slabs of meat in just one face-to-face and were quickly absorbed by the formation method, leaving no trace.

Hou Yun certainly saw the situation here, and he no longer showed mercy. With a big swipe, his power suddenly increased. With just one blow, the Seven Star Sword Formation could no longer be maintained and dispersed. The formation of the seven twins in the Yuanying stage, was involuntarily taken by Hou Yun's stick and gathered in one place.

Hou Yun, who jumped high, fell down with a huge stick in his hand, and the seven were helpless and could only sacrifice their sword. With a bang, the seven flying swords shattered, and the seven were fainted by the powerful pressure shock.

When he fell to the ground, Hou Yun didn't look at the seven people in the ground, but only slightly picked up the stick, and the seven masters of Yuanying were picked up in front of Gongsun Ling.

Gongsun Ling received the unconscious seven-born twins in the Yuanying stage into the geographical map and together with Yang Chen, he looked at Yu Wenyi who was screaming wildly there.

“This is what you forced me! This is what you forced me!” In the mouth of Yu Wenyi, in addition to screaming, there was only this sentence. As he said, Yu Wenyi’s body also began to change dramatically, his whole body became red and his muscles began to swell.

After a while, Yu Wenyi, who was originally small, turned into a big man comparable to Yang Chen and Hou Yun and his momentum was also crazily increased.

The elder standing next to Yu Wenyi, from the beginning, stood beside him like a wooden post, not moving or speaking. If it weren’t for his breath, everyone would have thought he was a dead man.

But now, Yu Wenyi grabbed the elder suddenly, and the elder didn’t have any struggle, so he was helplessly caught by Yu Wenyi.

Next, Yu Wenyi made an action that the people could not tolerate. He grabbed the elder and took him to his mouth. Opening his mouth wide, he bit his elder’s neck and began to suck up the blood.

Yang Chen and others have loomed into a circle, and Yu Wenyi cannot escape in any direction. There was Hou Yun in the sky, and the roots of the old tree demon have quietly covered the entire island and so there was no way to go underground also.

But Yu Wenyi didn’t have any plans to escape, he was just staring with blood-red eyes, watching the people around him, and constantly sucking the elder’s blood in his mouth. The elder caught by Yu Wenyi’s aura has gradually weakened, finally getting weaker and finally disappearing.

Abandoning the elder who had lost any vitality, Yu Wenyi’s aura soared again, and his body swelled a bit. There was still the blood of the elder in his mouth and he looked at them with a strange look.

“Ah!” Yu Wenyi yelled at the sky suddenly, shaking a hundred miles. Clouds began to pile up frantically in the sky. The sky was clear and after a while, it became dark clouds.

“Interesting!” There was a playful smile on Yang Chen’s face.

How familiar this situation was, it was simply a sign of achieving the Great Ascension stage. However, Yu Wenyi did not reach this realm through normal cultivation, but reluctantly spurred the tribulation by relying on an unknown elixir and devouring the blood essence of another elder's body.

The ten Yuanying stage monster cultivators, just approached the old tree demon clone. The old tree demon was not indifferent, directly holding up a shield, covering everyone including Yang Chen and Gonsun Ling. There was only Hou Yun left outside, still standing in the air watching Yu Wenyi coldly.

Such a close observation of the Yin Fire Tribulation was the first time for everyone except Yang Chen and the old tree demon. Hou Yun has passed the Yin Fire Tribulation, but has not seen others complete it. Although others have been fortunate to have seen Wang Yong, the distance was not so close.

For everyone, this was a rare experience, even for Hou Yun and the old tree demon. At least they could understand what different methods were used by people with different attributes of the five elements to cross tribulations.

Yin Fire started to burn on Yu Wenyi's body. Yu Wenyi with water properties seemed to be very easy to deal with the first Yin Fire. Originally it was water to overcome fire, and natural to overcome, which made Yu Wenyi's crossing the tribulation look easy at first.

However, everyone knew that this hidden danger of forcibly elevating the realm by medicinal pills was easy at first, and more difficult later. This was the first Yin Fire, and there were eight more behind it. It's not that simple.

Beginning with Yang Chen and others, hundreds of miles away, a group of experts from the South China Sea Alliance, led by Bian Xuren and Shu Lanqiu, had already surrounded the sea around the Hidden Dragon Cave.

There were three masters beside the Bian Xuren couple, two men and one woman, whose depth cannot be seen through, but the Bian Xuren couple were very respectful to them. Needless to say, these were the three dacheng stage masters of the South China Sea Alliance.

At the beginning of the battle, there were no waves. Needless to say, the three dacheng stage masters, even the Bian Xuren couple could easily detect the movement over there with their spiritual awareness.

Seeing that Yang Chen had brought twelve Yuanying stage masters, even Bian Xuren couldn't help but be surprised. This Ten Thousand Treasure Tower was not exposed to mountains and water, but it still has such a heritage.

When everyone gathered on the main island, Yu Wenyi launched the formation, and Bian Xuren didn't worry about it. What he meant was that he wanted to win over Yang Chen by sending charcoal in the snow under the circumstances that Yang Chen and others were lost. They would never show up until the last minute.

However, the next situation surprised Bian Xuren, who couldn't help Yang Chen and others. By relying on a strange flying sword, Yang Chen broke the Blood Sucking Demonic Array and made Bian Xuren curious about the flying sword.

When Yu Wenyi started to cause the Yin Fire tribulation to appear and Yang Chen and the others stood by to watch, Bian Xuren finally changed his face: "Oops, how could Yu Wenyi be so easy and free of interference? Success is Yang Chen's death! Elder, you must rescue that Yang Chen, or the poison cannot be relieved. "

Chapter 413.1: Emotions

"Wait a minute!" The female of the three dacheng stage elders next to her stopped Bian Xuren's restlessness: "He will be fine."

"What do you mean?" Bian Xuren was startled. Yu Wenyi was promoting to the dacheng stage and Yang Chen would be fine. What does this mean?

Yang Chen was a Jeidan stage younger generation junior. This was undoubted. Bian Xuren has seen it closely with his own eyes. There should be no fakes. It was by no means impossible for a Jeidan stage junior to face a dacheng stage elder. The elder said that Yang Chen would be okay, that would only show one possibility. There was a dacheng stage master around Yang Chen.

Then thinking of Yu Wenyi's yin fire, and Yang Chen and others even watched so close, Bian Xuren immediately became more certain that there must be a master of the dacheng stage sheltering them.

Bian Xuren and Shu Lanqiu were surprised by this. A small Ten Thousand Treasure Tower, even had dacheng stage masters, it was simply incredible.

Of course, the most incredible thing was that Yang Chen actually became a proprietor of the Ten Thousand Treasure Tower with the middle Jaidan stage cultivation base, which was really incredible!

At this moment, there have been countless experts around the South China Sea area. There was a master crossing his Yin Fire Tribulation, and naturally everyone wanted to watch the ceremony in order to increase their experience. Fortunately, the South China Sea Alliance has already blocked this area first. Those who want to rush in were all stopped by the South China Alliance.

The South China Sea Alliance was the overlord here. Since the people of the South China Sea Alliance did not let everyone in, no one dares to go in. People who thought they have face could only come to Bian Xuren first, and try to see if they could move the alliance leader to let them enter to observe the ceremony.

The idea was good, but it turned out that even the confederate couple waited far away and didn't go in. Looking, there were three dacheng stage elders from the alliance next to each other, and no one dared to speak again. Who has a bigger face than the three elders of the South China Sea Alliance?

He passed seven the Yin Fire tribulation in a row, Yu Wenyi's performance has not looked very bearable. After all, the realm of forced ascension through medicinal means was not so stable.

Now Yu Wenyi's hope was that Yang Chen and the others attacked him while he was facing the tribulation. In this case, the power of Yin Fire Tribulation would also be borne by the attacking person. In this way, maybe he could still ride the chaos and pass it safely.

Yang Chen also saw Yu Wenyi's reluctance. Suddenly a sudden whimsy occurred in his mind. The old tree demon was able to suppress the Yin Fire Tribulation by ten times. Maybe there was a way to disperse the power of Yin Fire Tribulation. Some, if this was the case, could give these Yuanying stage masters who followed them some benefits.

"Old Gui, can you direct some of his yin fire and let them feel it too?" Yang Chen had a sudden whimsy and immediately asked the old tree demon for verification.

"Maybe." The old tree demon thought for a moment, and immediately gave the answer. For more than ten consecutive years of Yin Fire Tribulation calamity, no one in this world knew more about Yin Fire

Tribulation than the old tree demon. Even if Yang Chen has the memory of the Great Principle Golden Immortal, he was not his opponent.

As soon as this was said, Yu Wenyi's eighth yin fire had begun to burn, and a horrible look appeared on his face. In this case, there were no chances that Yu Wenyi could overcome it.

Just when Yu Wenyi thought he was going to die, a branch that he didn't know where it came from directly struck his body. This time, the yin fire tribulation riot that raged on Yu Wenyi's body seemed to suddenly find an outlet for venting. At least half of the yin fire flew along this branch immediately.

The pressure on Yu Wenyi was much smaller. With great joy, Yu Wenyi immediately forcibly lifted his spirit and suppressed the eighth yin fire tribulation.

In the shield of the old tree demon, the ten Yuanying stage masters, such as She Kui and Xie Sha, flashed with a little yin fire on everyone's body. Compared with the real Yin Fire Tribulation, the power of this little yin fire was so small and pitiful, even if it was faced with their Yuanying stage cultivation base, it could be completely suppressed.

The small group of yin fires suffered by everyone was proportional to everyone's cultivation base. Just now what Yang Chen and the old tree demon said, everyone heard in their ears, and they all understood how enviable the opportunity was. No one had any words to improve their cultivation to the extreme, and they began to feel the power of the yin fire.

They could try the taste of the yin fire tribulation before facing their yin fire tribulation. This was an opportunity that many people have dreamed of but couldn't hope for, and now it came to them.

As long as they gain experience of fighting against the yin fire tribulation this time, then in the future, when there were real tribulations, there would be more methods for the other party to use. After all, these yin fire tribulation was the same as the yin fire tribulation, but the power was different. It could be said that this time, the ten Yuanying stage masters who came out with Yang Chen were extremely lucky.

Everyone knows how rare a master who has crossed his yin fire tribulation was, so who would allow others to interfere during their tribulation? Even if someone else wanted to interfere, who could easily handle it without a thorough understanding of it like the old tree demon who understood the yin fire tribulation? There was only one consequence of hastily intervening, that was, the person who was

facing the tribulation would directly fail and the person who interfered with it would also be trapped by the yin fire tribulation.

Even if the masters of the dacheng stage were to intervene, it was impossible without the level of the old tree demon. At best, they could only ensure that they were okay.

When idle people cross their yin fire tribulation, they would always be on guard. Where they are now, there was no need to worry about whether the other party could afford it, as long as they take care of themselves, they could be relaxed.

When the crowd tried their best to suppress the yin fire, the ninth yin fire tribulation began to come at the same time. Yu Wenyi didn't know what was happening. He only knew one thing. When he was most desperate, it seemed that someone on Yang Chen shared his affliction very stupidly, allowing him to survive the eighth yin fire tribulation.

Even in the madness, Yu Wenyi still hoped that the ninth yin fire tribulation would be shared by the same people. As long as he passed the yin fire tribulation, he would become a dacheng stage master. All these guys in front of him were going to die, and it was going to be an extremely painful death.

In answer to Yu Wenyi's sincere prayer, the ninth yin fire tribulation came and at the same time, the life-saving branch appeared again. This time, the power of yin fire tribulation was directly shared by a large part, and the remaining point was enough for Yu Wenyi to rely on his current cultivation base to support it.

The ninth yin fire tribulation passed smoothly, and the clouds in the sky also began to quickly disperse, exposing a clear sky.

In the air, Yu Wenyi looked like a new person, staring coldly at Yang Chen and his party as if he was staring at a group of dead people.

Chapter 413.2: Emotions

Yu Wenyi's feeling has never been so good. Even if the layout of the Hidden Dragon Cave which has been built for hundreds of years was in flames, even if strictly speaking, only he was left in the Hidden Dragon Cave.

So what? Yu Wenyi himself has gone through the yin fire tribulation and has become a master of the dacheng stage. All the sacrifices were worth it. Even if the Greatest Heaven Sect knew it, they would only question Yu Wenyi and not blame him.

What the dacheng stage master meant was now more clear than ever. The kind of power, the feeling of increasing momentum, and the mood that could almost be said to follow the law, made him become completely absorbed in it.

This feeling was really wonderful. Yu Wenyi looked at Yang Chen and the others without rushing. He even hoped to see their fear and the despair in the eyes of Yang Chen and the others. Making the enemy completely lose all confidence, that was the real way to crush the enemy, that was the real enjoyment.

In Yu Wenyi's mind, he has even drawn a beautiful picture. Fear and despair accounted for all the emotions of Yang Chen and the others. In his eyes it was as if they were begging for pilgrimage, everyone collectively knelt to him for mercy and begged hard, but he mercilessly obliterated them.

He had achieved the dacheng stage, what about the South China Sea Alliance? Even if there was only one person left in the Hidden Dragon Cave, it would not be a waste of effort to restore the former grand occasion. Even the Hidden Dragon Cave would be stronger than before.

The plan against the South China Sea Alliance could even be advanced. Although this time he didn't know what benefits these guys in the Ten Thousand Treasure Tower have given the South China Sea Alliance, but as long as he brings the heads of these people to see Bian Xuren, he was afraid that the leader would have to explain and compensate him on this matter.

In the Greatest Heaven Sect, his status would also skyrocket. It was really overkill to use a dacheng stage master to conquer a rogue cultivators union. After returning to the Greatest Heaven Sect, he could have a high weight as the dacheng stage elders and his future would be infinite.

Thinking of the pride, Yu Wenyi couldn't help laughing. His laughter was not deliberately suppressed. Instead, he intentionally let the sound spread. Within a few hundred miles, everyone heard Yu Wenyi's proud laugh.

“You ants, the last thing you should do is attack me when I am facing tribulation. This is the most serious mistake you have ever made.” Yu Wenyi laughed wildly at the group of people sheltered by the old tree demon: “it is also your last mistake. “

“Oops!” Bian Xuren, who was far away observing, couldn’t help sighing secretly. Such a good opportunity actually made Yu Wenyi’s achieve the dacheng stage majestically.

Even if there was a dacheng stage master over with Yang Chen, but in the same dacheng stage realm, once Yu Wenyi found out and he was unwilling to fight and wanted to run away, it was impossible for Yang Chen to follow. Although there were three dacheng stage masters on their side, it was impossible to stop Yu Wenyi who wanted to run away.

Today, Yu Wenyi would leave and the South China Sea Alliance would suffer in the future. You have to know that it was a dacheng stage master. Once he puts down any embarrassment and starts using harassment, even the South China Sea Alliance could not help matters. Could the three dacheng stage elders monitor Yu Wenyi at all times?

A mistake was made and all the benefits were lost. Even if there was a dacheng stage master around Yang Chen, if Yu Wenyi was determined to kill Yang Chen, the master cannot always guard him.

Even if Yu Wenyi was tolerated without any interference, Yang Chen’s move was definitely wrong. At that time, he should be cut quickly, he should have let the dacheng stage master attack, to kill Yu Wenyi completely, why was this embarrassing situation now happening?

“Hurry up, go and surround Yu Wenyi!” Bian Xuren could only repair the dead sheep, and he ordered the three dacheng stage elders of the South China Sea Alliance “You must not let him escape today!”

The three masters also realized the seriousness of the problem. No one said anything, and flew in three directions quickly. Nothing else was needed, they only needed the people of Yang Chen to hold there for a while, so that they could shrink the encirclement.

Yu Wenyi’s laughter continued. The hahahaha’s voice was completely in the air, staring at the figures of Yang Chen and the others, with a mocking smile on his face.

“Have you ever seen such a stupid guy?” In Yu Wenyi’s frantic laughter, Yang Chen suddenly turned his head and asked Gongsun Ling next to him.

“No!” Gongsun Ling shook her head in cooperation, looking at Yu Wenyi with the same sarcasm, and even a touch of pity on her face: “Poor guy, he must be too happy that he has gone insane.”

As soon as Gongsun Ling’s words fell, the ten masters in the Yuanying stage nodded at the same time. With their equally pitying eyes, the scene was speechless.

“Well, great joy and sorrow are the taboos of those in the cultivation world. He will learn a lesson in the future!” The old tree demon behind him also said seriously. The old man’s insistence on the words suddenly resonated with the people and they nodded in unison.

The performance of Yu Wenyi by Yang Chen and others was almost as if the first Buddha was born and the second Buddha was ascended to the sky. Nowadays, regardless of the scenes of begging for mercy, he yells at Yang Chen and others: “You ants, come here!”

As soon as he shouted, Yang Chen raised his hand and pointed behind Yu Wenyi. Immediately, Yu Wenyi heard a whistle from behind and then Hou Yun’s voice fell into his ear: “Hey you ant, your opponent is me, I’ve been waiting for you for a long time.”

Hou Yun did wait for Yu Wenyi for a long time. Hou Yun’s enemies in the Yuanying stage were not satisfying for him at all. He waited until Yu Wenyi achieved the dacheng stage before going to do anything. He did not expect that there was so much nonsense in Yu Wenyi and he didn’t notice his existence for a long time.

“I’ll kill you first!” Yu Wenyi was furious and screamed, and flung at Hou Yun. A flying sword also appeared on top of his head with his body shape, he waited for the sword to pierce his heart and completely defeat Hou Yun.

Hou Yun’s eyes brightened, and the big stick in his hand was fully raised, with a whistling wind sound, it appeared instantly on the top of Yu Wenyi’s head.

Yu Wenyi's flying sword made a thunderous sound and Yu Wenyi's flying sword was directly smashed into pieces by Hou Yun's stick. The stick that had fallen from high still remained and fell directly on Yu Wenyi's head.

Bang, the head of the new dacheng stage master Yu Wenyi was like a ripe watermelon that had been smashed. It burst out and blood splattered all over.

Hou Yun just wanted one thing and it was Yu Wenyi's life. The body of Yu Wenyi the dacheng stage master fell directly into the blood demon vine spreading underground and became the best flower fertilizer.

The South China Sea Alliance was watching everyone here. At this moment, all of them had ghost-like expressions, staring at each other, and they couldn't say any more words.

Chapter 414.1: Long Term Cooperation

The tall guy who looked unusually strong actually smashed Yu Wenyi's head with the flying sword into a rotten watermelon with one stick? Was everyone dreaming about the scene just now?

No matter how unbearable Yu Wenyi was, he was a dacheng stage master who was promoted under the eyes of everyone but he couldn't stop one attack from the stick? What was the cultivation base of the guy with the stick?

Hou Yun was a master of concealing his aura when he was in the blue vault mountain immortal cave. If it weren't for the dacheng stage, there could be no masters below the dacheng stage, even for the old tree demon, at first glance, there was no way to know that Hou Yun was a master of the dacheng stage.

Even in the battle with the seven Yuanying stage masters in the Hidden Dragon Cave, except for the people in the Pure Yang Palace, everyone initially thought that Hou Yun was just a master of the peak Yuanying stage. Even so far, Hou Yun has not released the aura of the dacheng stage, others still thought that Hou Yun was just at the peak Yuanying stage.

In this world, there were many geniuses, and the people that could overcome levels to fight opponents were like countless stars. However, the people who were in the peak foundation stage defeating the early Jiedan stage, or the people in the peak Jiedan stage defeating the early Yuanying stage, that was

still something everyone could imagine. The problem was that Hou Yun who was now at the peak Yuanying stage gaining victory over an early dacheng stage master.

The gap between each realm was no clearer than for the masters of the dacheng stage. They thought that Yu Wenyi might escape, and he would become a big problem for everyone, but they didn't expect the shock to come so suddenly.

The people in the Ten Thousand Treasure Tower, whether they needed them to make the antidote or not, they couldn't provoke them casually now. These people were really too fierce. A big hidden dragon cave in the south China sea, in less than three hours, fifteen Yuanying masters were all killed, even Yu Wenyi who was promoted to the dacheng stage was no exception and only eleven people did it.

These people's fighting power was unparalleled. This was the scene where everyone didn't know that the old tree demon interfered with the tribulation to increase the experience of everyone, otherwise, their chin would fall down.

Not to mention the crowd being stunned, there was no slightest surprise from the people in the Pure Yang Palace. This was the natural outcome. If Hou Yun couldn't even handle a guy who could only survive the yin fire tribulation by cheating, his combat effectiveness would be too average.

Yu Wenyi's body became a fertilizer for the Blood Demon Vine and Blood Demon Vine Sword. The blood demon vine flying sword once again absorbed the blood of a dacheng stage master, the quality seems a little better. The blood demon vine was nourished by the masters of the dacheng stage and its vitality was restored a lot.

From the moment Yu Wenyi was smashed into a rotten watermelon by the stick, Yang Chen completely dealt with the Hidden Dragon Cave. The upper ranking members of the Hidden Dragon Cave were annihilated as much as possible. Even if there were a few fish that leaked through the net, they were just small fish and shrimps. They were not qualified to draw the attention of the Greatest Heaven Sect. This was the gathering place for rogue cultivators and soon these small fish and shrimps would become disciples of other rogue cultivators alliances.

From this moment on, the Hidden Dragon Cave was removed from the South China Sea. He believed that after the news of the collapse of the Hidden Dragon Cave spread, there were two things everyone would keep in mind.

One was that in the future, if someone would form a rogue cultivators alliance, it must not be called the Hidden Dragon Cave. Another thing was that when encountering the company of Ten Thousand Treasure Tower in the future, it was best to be disciplined, and never think of stealing, playing tricks, or even killing for their money. That's not the murder of others' money. In the end, it's the man himself who loses his wealth.

The next thing to do was to harvest the loot. The assassinated disciple belongings in the Hidden Dragon Cave must all be found and collected as much as possible. In addition, the Hidden Dragon Cave has been entrenched on these islands for hundreds of years and there would definitely be warehouses to store their resources. Now, all these things belong to the Ten Thousand Treasure Tower.

At least in the eyes of outsiders, after the people in the Hidden Dragon Cave destroyed the branch of the Ten Thousand Treasure Tower and took all their belongings. Now the people in the Ten Thousand Treasure Tower came to destroy the Hidden Dragon Cave in turn, it was absolutely doing the same thing.

Some people from the South China Sea Alliance blockade outside, so no one could come in and plunder. Even if the South China Sea Alliance's blockade was weak, no one dared to rush in. The new dacheng stage master Yu Wenyi met his end. If anyone was impatient for death, let him try it.

After waiting until Yang Chen and the others packed up, all the spoils were searched and taken by them, Bian Xuren and his wife came together to Yang Chen hand in hand.

The three dacheng stage masters and the others who blocked the Hidden Dragon Cave did not come forward, for fear of causing misunderstandings for Yang Chen and the others. At this juncture, there was no need for extra complications.

"Congratulations to Mr. Yang for taking his revenge, to get justice for your branch treasurer and his fellows!" Of course, after congratulations on meeting, Bian Xuren and Shu Lanqiu came with another purpose.

"Thank you for your support!" Yang Chen responded with a smile, and then immediately said the issues that the Bian Xuren and his wife were most concerned about: "In the Qiankun bags of those in the Hidden Dragon Cave, the appropriate medicinal materials have been found. Confederate leader should wait for a few days and I will immediately refine the medicinal pills for you. "

Hearing Yang Chen's words, Bian Xuren's hanging heart finally fell back into his stomach. They were afraid that Yang Chen would say that no suitable medicinal materials were found here and that they could only solve the problem by going back to the Central Plains.

Although the poisoning was not deep now, after all, all the high-level members were poisoned. Who knows whether these slight toxicity would have any hidden dangers, it would be a lot of relief to detoxify it immediately. Once Yang Chen said that he would have to return to the Central Plains, who knows how things would develop in the future, there would be many nightmares, now this result was just right.

"Alliance leader, I don't know if the South China Sea Alliance is interested in these islands?" Yang Chen looked at the islands of the Hidden Dragon Cave where there were no more living people, and thought for a moment, then began to ask Bian Xuren's intentions "If the side of the leader is interested, this junior would be willing to sell at a suitable price. "

Yang Chen's words brightened the eyes of the Bian Xuren couple. Although the several islands occupied by the Hidden Dragon Cave were not the best islands, this main island was full of spiritual power. In addition, with the operation of the Hidden Dragon Cave for hundreds of years, it was basically a ready-made cultivation ground.

Previously occupied by the Hidden Dragon Cave, even if the South China Sea Alliance wanted these islands, it was not available, after all, everyone had not reached the stage of throwing away their faces. Now these islands were without any owner, Yang Chen and the others have killed them, and so they belong to Yang Chen and others. Since Yang Chen was willing to sell, it could be obtained at the cost of some spiritual resources, which was very cost-effective.

Chapter 414.2: Long Term Cooperation

"We are interested!" Bian Xuren said in a hurry "If Mr. Yang offers the price, I wouldn't make a counter-offer." Yang Chen would detoxify them, which was a life-saving grace, plus a complete cultivation place, as long as it was Bian Xuren, he would never let go of the demands of the South China Sea Alliance.

"That being the case, this junior will be rude." Yang Chen also knew that if Bian Xuren was not allowed to bleed some blood, Bian Xuren would feel sorry for himself, and might even doubt the authenticity of the antidote Yang Chen gave them and then further doubt Yang Chen's purpose.

“Well on this site, the confederate leader can exchange some special products of the South China Sea for it.” Yang Chen said with a smile. The island itself was useless, just for some special products from the South China Sea. However, after thinking about it, he added the following sentence: “If there are some special kind of fire seeds and miscellaneous books here, this younger generation will also accept it.”

Just as the things from the Central Plains became valuables after coming over here, the goods produced in the deep sea on the South China Sea side were a good deal to get to the Central Plains dao sects, the Ten Thousand Treasure Tower could also make a lot of money.

Hearing that the specialty of the South China Sea could be used to trade for the island of the Hidden Dragon Cave, why would Bian Xuren still disagree. As for the quantity, it was not necessary for Yang Chen to mention, as long as the South China Sea Alliance could find it, they would definitely conduct the transactions fairly and would never let the Ten Thousand Treasure Tower suffer a loss. The end of the Hidden Dragon Cave was right in front of them, how would they also go looking for trouble.

As for talking about the fire seeds, it was even more important. They were on the vast sea, and most people were water attributes. Some high-level and low-level fire seeds were almost unattended to here and Yang Chen even accepted these. Even if it was the market here, fire seeds could sell for a good price.

“Perhaps we can build a long-term cooperation with your alliance in the future.” After the deal was negotiated. Yang Chen talked to the alliance leader about another thing: “I will use the output of the Central Plains in the Ten Thousand Treasure Tower to trade for specialties in the South China Sea from your alliance.”

This was a long-term cooperation. This time the Ten Thousand Treasure Tower faced an accident, this was a disadvantage. In the South China Sea, the distance was far away. If you set up a branch here, it would be difficult to guarantee their security. The South China Sea was not as good as the Central Plains, but the South China Sea products could not be exchanged for Central Plains output without a branch, but it could also earn huge profits, and it also has one more partner. For Yang Chen, it was killing two birds with one stone.

In this way, the Ten Thousand Treasure Tower earns high profits from the South China Sea specialty products in the Central Plains and the South China Sea Alliance earns high profits from the Central Plains output in the South China Sea. Everyone makes a fortune together and this cooperative relationship would last longer.

The two sides immediately agreed on this matter. The South China Sea Alliance has no channel in the Central Plains, but has a lot of resources for South China Sea specialty products. The situation was the same for the Ten Thousand Treasure Tower. The two parties would exchange with each other, but the risk of their own ultra-long distance operation was eliminated. At most, it only adds a risk to transportation and both sides were satisfied with it.

The only one dissatisfied was Hou Yun. He followed Yang Chen to come out to kill, but it ended up in the end that he only killed one. Although killing the most powerful master of the dacheng stage, Hou Yun was not very satisfied.

When Yang Chen was helping the alliance to refine the elixir, the alliance was raising enough resources around to pay for the purchase of the Hidden Dragon Cave's islands.

No one dared to say more about the foundation of the South China Sea's largest rogue cultivators alliance to annex the foundation of the Hidden Dragon Cave. In addition, the people of the Hidden Dragon Cave discovered from other people that they were attacked by a group of masters whose background was unknown. Even the man who was promoted to the dacheng stage was killed. The people who knew about it were naturally trembling.

It only took four or five days. Yang Chen has already completed the refining of the pills. In Gongsun Ling's words, a fifth grade alchemist master refining this simple antidote was really overkill.

If Bian Xuren knew Yang Chen's identity later, they would definitely feel honored, and it was estimated that they would also feel abnormal regret. Yang Chen personally made elixir for outsiders, which was a good thing that even the Greatest Heaven Sect couldn't ask for now, but their alliance encountered it. But the fifth grade alchemy master only refined this simple detoxification pill, it's simply a waste of nature's resources.

If anyone in the Central Plains knew it, they would definitely beat their breast and stamp their feet. The opportunity for Yang Chen to help refine a pill was wasted on this and the South China Sea Alliance would definitely regret what they missed.

However, Yang Chen and others waited here for a full month. Within the month, the South China Sea Alliance almost cleared the market and the South China Sea Alliance's own inventory and the masters exhausted themselves, they searched and collected wildly in the surrounding waters and finally collected what they thought was sufficient to come and trade with Yang Chen.

Originally, Yang Chen would give up these islands even without these things. Now that there were so many benefits, Yang Chen was naturally happy.

After the transaction was completed, a senior executive of the South China Sea Alliance and Bian Yong each took the antidote made by Yang Chen. Two days later, his sickness was eliminated, his whole body was relaxed, and he had no worries. The two sides could be regarded as happy, and at the same time, the long-term cooperation has begun.

From the killings of the Hidden Dragon Cave, Yang Chen and the others have been divided up. In this regard, Yang Chen has never treated his own.

Even the harvest this time, Yang Chen meant to give it to everyone. However, everyone didn't accept it, they just picked a batch of things that were of interest to them and all the rest was given to Yang Chen.

Several types of fourth fire fire seeds, which were unique to the deep sea were collected from the underwater volcanoes and other places. Among them, there were many third-grade and fourth-grade fire seeds that Yang Chen could not obtain in the Central Plains and they were now also included in the bag.

Miscellaneous books were also collected by almost tens of thousands of volumes, which made people in the South China Sea Alliance feel very strange. They didn't know what Yang Chen wanted these things which were useless unless to have fun to do. Yang Chen didn't explain, he just accepted it by herself.

Knowing that Yang Chen likes alchemy, the South China Sea Alliance even gave Yang Chen a copy of the alchemy information of the rogue cultivation alliance, allowing Yang Chen to learn more systematically.

Yang Chen also carefully studied some of these deep-sea specialties, especially some of the medicinal herbs. In this aspect of reusing deep-sea medicinal materials, the rogue cultivators alliance that has been in the South China Sea was obviously more adequate than the Central Plains, which has also given Yang Chen a lot of learning opportunities.

Among the massive amount of medicinal materials obtained, one of them caught Yang Chen's attention. Rather, it was Xiao Tian's attention.

This reddish-brown herb was not very conspicuous in a dried medicinal material. It had an interesting name, it was called Dragon Tongue Orchid, which was named after the shape of a biological tongue.

However, Xiao Tian obviously felt a very weak dragon qi from this medicinal material called Dragon Tongue Orchid.

Chapter 415.1: Vigorous Ape King Body Refining Technique

The dragon qi was only found by Yang Chen in the treasure house of the Dragon Palace. Now Xiao Tian actually found that the Dragon Tongue Orchid has extremely weak dragon qi, What does this mean?

There was only one explanation. Where the Dragon Tongue Orchid grew, there was something that released the qi, which would cause the Dragon Tongue Orchid to absorb some weak qi.

In the face of such a thing, Yang Chen had to go and see it. Even if it wasn't for himself, Yang Chen had to go by himself in order to wrestle for it.

However, now he was unable to bring his force. On the one hand, the Hidden Dragon Cave has been eliminated and basically there was no place for them to use force. On the other hand, She Kui and Xie Sha have just received two baptisms of the yin fire tribulations and were in need of retreat and digestion, so he couldn't justify putting them to hard work and disturbing their cultivation.

The old tree demon was gone from the hundred thousand mountain for a few years, and now it was time to go back. Only Hou Yun who was free and interested had not yet followed. As for Gongsun Ling, she would follow Yang Chen anywhere, this was beyond doubt.

With a very good distribution plan, the old tree demon led everyone back to the Pure Yang Palace. Gongsun Lin directly lent the ship to the old tree demon. The ten masters of the Yuanying stage could retreat directly on the ship. There was the old tree demon sitting guide so no one could disturb them.

All the things in the Hidden Dragon Cave were brought back by the old tree demon, and when they were handed over to Shangguan Feng, they would definitely make a lot of money. The cooperation between the two parties also requires the old tree demon to tell the news to Shangguan Feng.

Yang Chen and Gong Sunling asked Bian Xuren to ask where the Dragon Tongue Orchid was planted so that they could have a look and find clues.

According to Bian Xuren, there was not much medicinal material like the Dragon Tongue Orchid and the place it grew was very remote, but it was dangerous. Compared to the value of the Dragon Tongue Orchid, it was not worthwhile to go to pick it. This was the only one that some masters brought back when they went there.

This was only reasonable. At least Yang Chen thought it was reasonable. Where there was a dragon qi, it was impossible for it to be very close to the archipelago of the South China Sea Alliance, otherwise someone would have discovered the secret of the dragon qi.

However, what surprised Yang Chen was that the place where the Dragon Tongue Orchid grew turned out to be a fierce place where everyone feared in the South China Sea Alliance. That area of the sea, people told him it was called the Sea of No Return.

In Sea of No Return, there were not only countless fierce monsters, but also a powerful current. When a cultivator entered, before the monsters begin to do anything, they would be swept apart by the powerful current.

So far, the information that people knew about the Sea of No Return was only limited to the periphery of the Sea of No Return. As for what was inside, no one understood it. In other words, no one knows, and none of the people who have gone deep into the Sea of No Return has returned.

In his previous life, Yang Chen also knew this dangerous place, but he has not been there. Now Bian Xuren told him this, making Yang Chen hesitant about whether he should take Gongsun Ling to take such risks.

Hou Yun seemed very excited when he heard the name Sea of No Return. In the Blue Vault Immortal Cave, he has taken step by step to improve his realm, but he has not experienced many battles.

Originally expecting this time to come out to enable Hou Yun to fight a few wild people, but he only killed Yu Wenyi, who had just been promoted to the dacheng stage, he was only able to promote by the old tree demon cheating method, so he was very unhappy. Hearing that there were countless powerful monsters in the Sea of No Return, Hou Yun's eyes immediately glowed.

On one hand, the dragon qi that was discovered by Xiao Tian and on the other hand Hou Yun's desire to fight, Yang Chen considered it and finally decided to go. However, Yang Chen has already calculated that Hou Yun and Gong Sunling would go to fight the fierce sea beasts on the periphery of the Sea of No Return. On one hand, Hou Yun could satisfy his urge, on the other hand, Gong Sunling would be able to capture more masters to fill the mountain river geographical map.

So far, this time out in the South China Sea, Gongsun Ling's mountain river geographical map has added ten masters, all of whom were captured by Hou Yun. The two cooperated very well.

It was not known why but Hou Yun was getting along very well with Gongsun Ling, he seemed to be doing everything to meet Gongsun Ling's requirements. Perhaps this has nothing to do with Yang Chen.

Anyway, the three of them entered the shuttle together and set off on the way to the Sea of No Return. The distance from here to the Sea of No Return was almost the distance from the Central Plains to the South China Sea Islands, it would take several months on the road.

Hou Yun has always been puzzled about Yang Chen's strength. After starting on the road, Hou Yun challenged Yang Chen.

"Boy, how about we compare strengths?" Hou Yun has never had much contact with others, even if he joined the Pure Yang Palace and has good communication with outsiders. He never felt like there was anything wrong with a dacheng stage master challenging Yang Chen who was a Jeidan stage master.

"It's just physical strength, you can't use spiritual power, you can't rely on your realm to oppress people." Hearing the challenge from Hou Yun, Yang Chen's eyes brightened and suddenly he became spirited.

Yang Chen was also interested in Hou Yun's strength. The strength of Hou Yun who was the King of the Great Apes was not clear to Yang Chen, but the huge stick made by Hou Yun with his own tail was full of power. You couldn't pick it up, let alone wield it.

One was the King of the Great Apes and the other was a human who has cultivated the Yellow turban body refining technique and has reached the state of Mountain Picking Strength. At the same time, they

wanted to understand the strength of the other party. As soon as Hou Yun challenged him, Yang Chen immediately agreed.

“Okay!” Hou Yun patted Yang Chen’s shoulder with the slightest strength. “Refreshing, you are more refreshing than Old Gui, I challenged him a few times and he ignored me, he is afraid of losing. You boy are to my taste. “

As he said, Hou Yun stretched his arm and put it on the table, and said to Yang Chen: “Simple, arm wrestle! Lil’ Ling, you judge!”

Yang Chen also put his hand on the table and held it with Hou Yun. Just so, each felt the strength from the opponent’s hand and each had a kind of excitement like when the opponent would meet in a chess game.

Gongsun Ling was also afraid that he would make everything chaotic, holding their two hands together and putting them in the middle, Lil’ Ling screamed and gave the command “Ready! Start!”

With the order of Gongsun Ling, the muscles of the arms of the two burly men suddenly began to bulge and their muscles burst into the air. There was a faint grid noise as they held their hands, it seemed that the bones of both sides began to make a sound.

Fortunately, the table under the arm was part of the shuttle. It was hard and abnormal, and could withstand the huge force of the two without any shake.

In Gongsun Ling’s eyes, Yang Chen’s arm slowly began to press down Hou Yun’s arm.

Chapter 415.2: Vigorous Ape King Body Refining Technique

There was still a gap between the two,

Yang Chen took a little advantage and then this advantage became larger and bigger. Finally, Yang Chen yelled loudly and pressed Hou Yun’s arm to the table.

His husband won against a predecessor, so Gongsun Ling smiled proudly. Although her face did not open up to celebrate, but happiness from the heart could not be concealed.

Hou Yun's face was incredible, he was looking at Yang Chen like he was looking at a monster. He was a mighty ape king, born with powerful strength. In addition to the physical improvement of his realm in these years, he thought that his power of the flesh had reached an incredible level, but he did not expect that his most proud aspect would be defeated by Yang Chen.

Although it's just a simple little game like arm wrestling, it reflected the strengths and weaknesses between the two without any compromise. Hou Yun actually lost to Yang Chen in physical strength, the Great Ape King lost in strength to a human cultivator and he was just a mid Jiedan stage cultivator.

Yang Chen has now reached the pinnacle of the Mountain Picking Strength and would soon enter the realm of River Turning Strength. Compared with Hou Yun's refining of his body when he was only relying only on instinct and ascension, this kind of Immortal World Body Refining Technique, it was not known how many times greater it was. Just to take care of Hou Yun's face, he didn't press his wrist down instantly, otherwise Hou Yun would have an ugly face.

"How is that possible?" Hou Yun almost screamed, his unprecedented frustration suddenly made him feel that his cultivation was meaningless. Even a human cultivator could overpower him with pure physical strength. What future does this cultivation have?

"The refining technique of this younger generation is not an ordinary refining technique." Yang Chen explained with a smile: "In this world those that can surpass the power of this junior, maybe only those Majestic Colossus in the late dacheng stage will be able to do it. Don't be surprised. "

"What kind of refining technique is so powerful? Can I practice it?" Hou Yun didn't care about any etiquette and he never felt that a predecessor asking something from a junior was any shame, so he immediately asked.

"Of course you can." Yang Chen didn't mean to be evasive. The Yellow Turban Body Refining Technique was originally a cultivation method with extremely harsh conditions. It was not easy for a person to have such conditions. Of course, he must practice and strengthen his own strength.

“However, in order to cultivate it, ancestor you have to promise me a condition.” Before taking out the cultivation method, Yang Chen offered a condition.

“What condition?” Hou Yun asked about the content of the condition.

“Uncle master must absolutely protect the safety of A’Ling.” Yang Chen pulled Gongsun ling and stood her in front of Hou Yun: “This time, when we go to the sea of no return, uncle master must ensure the safety of A’Ling.”

“You don’t need to say this.” Hou Yun rolled his eyes directly at Yang Chen “No one can hurt her unless I am dead.”

With Hou Yun’s assurance, Yang Chen would be relieved when they go to the sea of no return this time. Holding the copied jade slip of the body refining technique, Yang Chen gave it to Hou Yun.

According to Yang Chen’s estimation, Hou Yun’s physical strength was already equivalent to about half of Yang Chen strength and it absolutely meets the requirements of the body refining technique. However, Hou Yun was now in the dacheng stage and his body has been tempered by two tribulations. Compared with Yang Chen, it may be more difficult to cultivate it.

But even so, Hou Yun still started to cultivate the body refining technique in the mortal world, which has more advantages than having it in the immortal world.

Although he has given Hou Yun the body refining technique, Yang Chen still felt that he needed to strengthen Hou Yun’s combat power in order to better protect Gongsun ling. After thinking about it, he simply took out a jade bottle containing Tenth Water True Essence and gave it to Hou Yun at the same time.

“What is this?” Hou Yun was not polite, took it directly and opened it, and instantly found out what was in the jade bottle. His eyes widened and he looked at Yang Chen more incredibly.

“I believe that with the help of this, the predecessor can practice to the realm of 300,000 jin strength faster.” Yang Chen explained, pointing to the body refining technique cultivation method.

300,000 jin strength just shows that the realm of refining was relative to the most basic conditions of cultivation. Practical cultivation means at least a tenfold increase in physical strength in this realm. It was believed that as long as Hou Yun could cultivate the first realm to success, his combat effectiveness would be at least doubled.

This was a real force, and the increase of twice the combat effectiveness was still a conservative estimate. However, Yang Chen still has some concerns about the sea of no return, fear that Gongsun Ling would be hurt.

This time exploring the sea of no return, Yang Chen did not intend to take Gongsun Ling and Hou Yun into the depths of the place, but wanted the two to trouble the mighty sea beasts outside.

As for Yang Chen himself, he must enter the sea of no return. Although the Dragon Tongue Orchid could be collected from the outside, the weak dragon qi was definitely escaping from the inside of the sea of no return.

He gave Hou Yun the Tenth Water True Essence, but Yang Chen didn't give him the Tenth Water True Essence secret art. The monsters race had their own means of absorbing Tenth Water True Essence and Yang Chen didn't need to add a method. Moreover, the process of absorbing the Tenth Water True Essence was also a process of refining, which could just promote the practice of the body refining technique.

The next step was to hurry on ahead, Hou Yun silently cultivated the body refining technique and Yang Chen was also controlling the profound spirit furnace to absorb the newly received fire seeds.

Gongsun Ling was still responsible for taking care of Yang Chen, and the regular wine dishes made Yang Chen eat with a smile. Hou Yun, who was immersed in spiritual cultivation, has no time at all and has no interest in enjoying this happiness between the two.

Yang Chen's estimation was correct. With the help of the Tenth Water True Essence, Hou Yun only completed the first level in half a year, which was faster than Yang Chen by several times.

However, the speed of Hou Yun's body refining technique cultivation has now come to an end. This time, the first level of the body refining technique was completed with the help of the Tenth Water True Essence.

After completing his cultivation, Hou Yun's body shape has skyrocketed again and he was even stronger than Yang Chen. The surging force emanating from raising one's hands to one's feet, as if just waving his arm, he caused an invisible wind pressure.

"Good cultivation method!" Hou Yun realized that he was familiar with his current strength and could not help but sigh with regret "I wish I met you thousands of years ago."

Only those who have practiced the Yellow Turban Body Refining Technique would know how powerful this body refining technique was. Unfortunately, Hou Yun was too late to cultivate it, otherwise like Yang Chen, the power of each realm upgrade would definitely be more than ten times and twenty times greater. The later the cultivation, the smaller the future achievements would be.

While Hou Yun sighed, the shuttle was approaching the edge of the sea of no return.
